We, the undersigned, wish to express our opposition to Cardiff County Councils's planning proposal to retain the temporary visitor structures in front of Cardiff Castle (09/01744/C). Cardiff Castle is one of the most important historic buildings in the country of outstanding architectural and historic merit (in fact recently chosen on the BBC as one of Britain's Best Buildings by Dan Cruickshank). These temporary structures damage the setting and aspect of this great building and are contrary to Welsh Assembly Planning Policy. They conflict with the intentions of the HLF restoration and improvements and do nothing to enhance the reputation of Cardiff Council as supposed guardians of Cardiff's heritage or the international reputation of Cardiff as a capital city.
