

# CITIZENS *for* COMMUNITY VALUES

*Protecting the family since 1983*

Dear Friend,

January 22 is Sanctity of Human Life Sunday and also marks the 39th anniversary of the Supreme Court's *Roe v. Wade* decision to legalize the murder of the unborn. Dr. Kenyn Cureton, Vice President for Church Ministries at Family Research Council, provides the following suggestions to churches that plan to observe this day:

- A church-friendly [Bulletin Insert](#). Simply download the [Bulletin Insert](#) PDF, print it out, copy it double-sided, cut down the middle, then distribute the half-sheet copies inside your Sunday bulletin or worship folder. For those who use the KJV, here is a [Bulletin Insert](#) for you.
- For a biblical message to use in your preparation for Sunday: "[In Him Was Life](#)" In this message, Rev. Dale Lee reminds Christians that Jesus is the Source and Sustainer of life and, therefore, life must be valued and protected. "[Choose Life](#)" In this message, Dr. Cureton uses Scripture to prove the humanity of life in the womb, refute the arguments of the pro-abortion crowd, give some specific pro-life action steps, and challenge hearers to "Choose Life."
- From Tony Perkins, President of Family Research Council: "[Restoring the Cradle of Liberty](#)" and "[Fighting Abortion: The Measure of a Just Society](#)."
- [Click here](#) for some seasoned and practical advice on how to use these messages in your church.
- For more free Sanctity of Human Life Sunday resources, see this [dedicated page on SermonCentral.com](#).
- FRC also has an excellent resource for combating the misinformation about abortion that is titled: *Top Ten Myths of Abortion*. You can obtain a free digital download [here](#).

Please put this material to good use and be an effective voice for the unborn!

Blessings,

Phil Burress  
President
