

Titirangi Baptist Church will seek to access funding for ministries or facilities from a range of sources provided that:

- The source is not illegal
- The source is not explicitly prohibited by scripture (either by clear command or direct principle)
- The source does not place restrictions or is not likely to mute the public expression of our moral convictions
- The source is one we are willing to recognise and acknowledge, but does not require us to promote a product/industry that TBC does not want to support.
