

Classically Reliable!

Eppendorf Mastercycler® Family

Eppendorf Mastercycler®

The Mastercycler family is Eppendorf's core product line for routine applications in PCR. The Mastercycler gradient and Mastercycler offer ultimate reliability combined with easy to use software. The universal blocks can work with all common PCR consumables.

Mastercycler®

- Ultimate flexibility in programming
- Compatible with both 0.2 mL and 0.5 mL tubes
- Optional *in situ* adapter
- Class leading block uniformity and ramp rates

Purchase a Mastercycler or Mastercycler gradient and claim \$ 500.00 worth in Eppendorf goods.*

A Hot Addition to Any PCR

Evaporation of samples can cost laboratories thousands of dollars each year. The best solution to minimize evaporation in plate formats and for the safe keeping of samples for storage is heat sealing. The compact Heat Sealer will seal both 96-well and 384-well plates of all heights and formats quickly and efficiently.

Purchase a Heat Sealer and receive a packet of Heat Sealing Films and Heat Sealing Foils free of charge.*
