

A Voice for Long Beach Children

..to build a powerful citizen voice to ensure all children have the opportunity to grow up healthy, educated and safe.

HISTORY PROJECT

You are invited to help A Voice for Long Beach Children create the publication, **LONG BEACH HISTORY OF EARLY CHILDHOOD PROGRAMS** by collecting information about early childhood programs in the greater Long Beach area. Our goal is to prepare a summary including the names of teachers, directors and community leaders who have had a part in the history of nursery schools, child care centers, child development programs and parent education programs for the past century.

The History Project is a collaborative effort between A Voice for Long Beach Children and Long Beach Day Nursery which will celebrate its 100th anniversary in 2012. Our publication will be presented at a reception in January, 2012 at the Long Beach Historical Society as part of an extensive display by Long Beach Day Nursery.

Your name _____ e mail _____

Address _____ Zip code _____ Phone _____
