

Rebuild

YWAM Saint Petersburg

Dear Friends,

Last December, when we lost our ministry building due to a fire, we took time to wait on God to see what the future holds. One thing that became obvious fairly quickly is that God is not done with this place yet and that we needed to continue working in the area whether or not we had a building. We have an amazing group from Calvary Chapel that has continued working alongside us regardless of the harsh winter conditions there. Ministry is continuing in the village, but as time goes on, we are experiencing greater difficulties and more than ever are feeling the need for a new house to be built. Through this tragedy many of you have stepped in with financial help, prayers, beautifully encouraging letters, and readiness to come and even provide physical labor. We have been blessed with donations of around \$20,000 for the project.

From the bottom of our hearts we thank all of you who have given.

At this moment we are working on drafting a blue print for the new building so we can get an estimate from the contractor. The \$20,000 is enough to get started, but unfortunately not near enough to be able to build completely and replace everything we had in it. So we are in need of and praying for more finances to come in. There are a couple ways that you can support this building project. One way is by going to www.rebuildywamspb.org and donating directly. Another way is to cut out the card at the bottom to keep with you as a reminder to pray for us.

This is a long and difficult process and we are so thankful for your continued prayers, encouragement and support.
