

Toowoomba Workshop February 2012 with Geoff Bassett

an opportunity to grow...

New ways of interacting with your garden and nature

This is a hands on, practical day. Learn new ways of working with your garden in a friendly, creative environment.

Using the “East Bridge” suburban garden you will -

Learn the keys that create natural abundance,
Explore the interacting systems in your garden,
Access your deepest powers of observation,
Perceive Nature in a dynamic way.

Topics covered -

Minerals, what do you need for a healthy, balanced system?
Weeds and what they tell us.
Understanding Soil Biology,
Water, Improving the quality and raising its energy.
Working with the Greening Spirit

About the speaker

Geoff is an inspiring speaker. He was originally a leading, profitable, broadacre farmer and grazer. He has successfully converted to biological farming. He uses biodynamics and radionics on his 1500 Ha property. He has had a lifetime of learning and implementing new methods, overcoming many obstacles along the way to becoming an Earth Whisperer. He also has a thriving farm consultancy business in New England helping farmers create abundance on their land, by understanding natural systems and using natural inputs. Creating real results for real people. He is aware of the organizing intelligence of nature and is developing methods to help people interact with her.

This is a unique opportunity to spend a day engaged with nature and being guided on a journey into the amazing richness of our gardens.

Saturday February 18th – 9.00am for 9:30am to 4:30 pm.

Per person cost: \$125 including morning and afternoon tea (BYO lunch).
Early Bird price: \$110 if paid by 16 January. “East Bridge” is in East Toowoomba.

To register for the workshop and find out how to pay, please go to
