

**Joel A. Manfredo**  
**Chief Technology Officer**  
**County of Orange**

**Current responsibilities:** As the Chief Technology Officer of the County of Orange, Joel Manfredo is responsible for managing all aspects of the services that CEO/IT delivers. These services include infrastructure (network & platform, telephony, data center operations, security and business continuity operations, including running a 66,000 square foot data center) and business information (database, applications, IT processes and quality assurance).

**Prior Experience:** Joel is a seasoned, well-rounded executive offering leadership and vision based upon over thirty years of experience working for major organizations in a broad spectrum of functions. He's spent the last 14 years in transformational Chief Information Officer roles and the prior 18 years in many functions in real estate including leasing, finance, development, operations, marketing, construction and utilities. Results include managing hyper growth while quadrupling output and achieving technical reliance on system-generated financial statements in the CIO role at The Irvine Company. At The Rouse Company, he orchestrated a \$9.1 million turnaround of a large commercial real estate business and executed energy saving initiatives that resulted in \$4.0 million in annual energy cost savings and \$3.0 million in utility company rebates. In addition, he created the first CRM system for the real estate industry targeted at retail (from the landlord side). In 2007, he was named one of the top 100 CIOs in the US acknowledging work in Green Technology and received a Digital Impact award "for consistently demonstrating leadership qualities related to the Real Estate IT industry, for willingness to test and implement leading-edge technologies and for persistence in the quest for international best practices". He currently serves on the Board of Directors for the Southern California's chapter of the Society of Information Management and on the CIO Advisory Board for UCLA's Wireless Internet for Mobile Enterprise (WINMEC); he is also a mentor for UCI's Executive MBA program. Previously, he was the founding Chairman of the CIO Roundtable sponsored by the University of California at Irvine's CRITO Consortium (Center for Research on Information Technology and Organizations) and The Paul Merage School of Business and was also was the Chairman of the Advisory Council of Realcomm. Joel is an active speaker in industry events on a broad range of topics including Green Technology, Web 2.0, IT Strategic Planning, Enterprise Architecture, IT Governance, Portfolio Management, IT Service Management (ITIL) and IT Controls.
