7:00-8:00 Welcome and Registration (breakfast and socialize)

8:00-8:30 Solange Brown, Ph.D. Johns Hopkins University
   “Functional organization of the neural circuits of the claustrum”

8:30-9:00 Adam Packer, Ph.D. University College London
   “Integration of multisensory inputs by single neurons in the claustrum”

9:00-9:30 Takuma Kitanishi, Ph.D. Osaka City University
   “Organization of the claustrum-to-entorhinal cortical connection in mice.”

9:30-9:45 Coffee Break

9:45-10:15 Rodrigo Suarez, Ph.D. University of Queensland
   “Interhemispheric claustrum circuits predate the evolution of the corpus callosum”

10:15-10:45 Mohamad Koubeissi, M.D. George Washington University
   “Electrical stimulation of the claustrum in the operant chamber: preliminary data”

10:45-11:00 Coffee Break

11:00-12:00 Panel Discussion on the Relationship between the Claustrum and Endopiriform Nucleus
   Kevin D Alloway, Ph.D. Pennsylvania State University
   Akiya Watakabe, Ph.D. National Institute for Basic Biology
   Rena Orman, Ph.D. SUNY Downstate
   David Reser, Ph.D. Monash University

12:00-1:30 Lunch & Poster session

1:30-2:00 Concluding Remarks, Society Business & Adjourn
