Dr. Cortney Warren, now a Board Certified Clinical Psychologist!

Dr. Warren awarded the ABPP specialty board certification in Clinical Psychology!

The American Board of Professional Psychology congratulates Dr. Cortney S. Warren upon achieving the award of ABPP specialty board certification in Clinical Psychology. This board certification attests to her excellence in meeting the advanced education, training, and professional standing established by the specialty, as well as examination by peers in the specialty attesting to the demonstration of practice in the specialty. Congratulations Dr. Cortney! Now, Cortney S. Warren, PhD, ABPP.

INFORMATION ON BOARD CERTIFICATION

In order to qualify as a specialty affiliated with the ABPP, a specialty must be represented by an examining board which is stable, national in scope, and reflects the current development of the specialty. A specialty board is accepted for affiliation following an intensive self-study and a favorable review by the ABPP affirming that the standards for affiliation have been met. These standards include a thorough description of the area of practice and the pattern of competencies required therein as well as requirements for education, training, experience, research bases of the specialty, practice guidelines, and a demonstrated capacity to examine candidates for the specialty on a national level.

The American Board of Professional Psychology serves the public by promoting provision of quality psychological services through the examination and certification of professional psychologists engaged in specialty practice. The organization purposefully works to build sustainable relationships among people and institutions with diverse membership.

The ABPP was incorporated in 1947 with the support of the American Psychological Association. It is a unitary governing body of separately incorporated specialty examining boards which assures the establishment, implementation, and maintenance of specialty standards and examinations by its member boards. Through its Central Office, a wide range of administrative support services are provided to ABPP Boards, Board Certified Specialists, and the public. A Specialty is a defined area in the practice of psychology that connotes special competency acquired through an organized sequence of formal education, training, and experience.
