Day 1

8.30-9.00   Coffee
9.00 -9.15  Welcome
9.15-10.00  Dr Kristian Schønning (University Hospital of Copenhagen, Hvidovre):
            Viral hepatitis in general – how to diagnose viral hepatitis?

**Hepatitis B virus infection - clinical and diagnostic challenges**
10.00-10.45 Cryptic HBV infections (occult HBV)
10.45-11.15 Dr Nina Weis (University Hospital of Copenhagen, Hvidovre):
            Prognosis of children born to HBsAg positive mothers
11.15-11.45 Quantitative HBsAg versus HBV DNA for monitoring treatment
**11.45-12.30 Lunch**
12.30-13.15 Dr Henrik Krarup (Aalborg University Hospital):
            Use of Genotyping of HBV and testing for deltavirus in clinical practice

**Treatment of HBV infection**
13.15-14.00 Prof Jan Gerstoft (University Hospital of Copenhagen, Rigshospitalet):
            Treatment for HBV infection
**14.00-14.30 Coffee break**

**Hepatitis E virus**
14.30-15.15 Prof Hans L. Zaaijer (Sanquin Research, Amsterdam):
            Epidemiology, who to test? With which test?
15.15-16.00 Prof Jacques Izopet (Toulouse, France):
            Treatment for HEV infections
17.15       Bus transportation to Copenhagen
18.00-19.00 Canal tours Copenhagen
19.30-22.00 Dinner at restaurant Almanak
22.00       Bus back to hotel Scandic
Day 2

Hepatitis C virus
9.00-9.45 Prof Will Irving (University of Nottingham, UK):
The new treatment for HCV infection – Cure for the patient? Need for a resistance testing?

9.45-10.30 Martin Schou Pedersen (University Hospital, Copenhagen, Hvidovre):
Full length HCV genomes sequenced on illumina – is it of value for clinical practice?

10.30-11.00 Coffee break

Hepatitis A virus
11.00-11.45 Dr Sophie Midgley (SSI, Denmark)
Hepatitis A in Europe

11.45-12.30 Prof A Bosch (University of Barcelona, Spain)
Hepatitis A virus outbreaks – the value of genotyping?

12.30-13.15 Lunch

13.15-15.00 Participants cases (10 cases)

15.00-15.30 Final discussion and farewell
