A payday loan made a positive impact in my life. My cable bill was outrageous recently and I had to take out a pay day loan in order to pay it. I am so glad that I was able to pull out a loan like this to help me with such an unexpected payment. This loan helped me when I needed it.

I needed to get my car fixed but did not have the money. Instead of waiting, I used a cash advance to get some extra money quickly and my car back on the road.

I find payday loans to be very cost-effective. If the need for extra money is only going to be for a short time then it really is an inexpensive solution. I value having the option available so that I can make that choice when it is right for the problem.

One time I owed more taxes than I expected. I had to rely on loans to get me through and make sure I did not get in trouble with the government. If I had not had access to a short term loan like this, I do not know what I would have done.

Pay day loans are so helpful when I do not know where else to turn. A few years ago, I needed to fix a bunch of things in my house and I took out a loan to help with some of them. Next time I have a big home repair bill, I will probably use a pay day loan again!

Often times banks can feel unwelcoming and cold. I have never had this feeling when I walk in a store to get a payday loan or cash advance. They always help me out whenever I need it and do it quickly.

Sometimes I do not have enough money to get me through the month. I have used payday loans in the past to get the money I need to make ends meet. I could not imagine my life without these loans.

I have to pay for both my rent payment and my insurance. There was a time that I could not afford everything at once. Without the loan, it would not have been possible to make everything work and pay it all on time.

This type of loan is a very easy product to use, especially thanks to the helpful staff. Anyone could use a payday loan. It is a quick and cheap alternative when you need money fast.

I am already having enough trouble in my day-to-day life saving money for major holidays. Even though we do a good job of budgeting throughout the year, this always seems to be a time when finances can be difficult to manage gracefully. Taking out a short-term loan really assists me and my family during this special time of year.

Why is it that every time I turn around I feel like the government is in my business? I am capable of making my own decisions and I do not need the government to tell me what to do in order to pay my bills. By limiting payday loans, you are taking away my options and are not allowing me to make my own choice.

They threaten immediate law suit and arrest if a credit card number is not provided on the call to satisfy past due debt to their "client". In my particular case, they claim past due funds on a title loan; however, I've never had a title loan in my life. It was an obvious scam and I called them out on it immediately. The first lady yelled back that I was rude by calling her a scammer and continued to threaten arrest -- I told her I'd wait right here for the police and she hung up. The calls have continued at the rate of 2-3 per day Monday through Friday for 3 weeks now. I filed a complaint with the FTC and also researched the "National Recovery Agency". I found that there is a legitimate business under that name and called and left a message; the call was returned the next day and I let the lady know their name was being used in a scam. She was aware of it and asked that I not only file a complaint with the FTC, but also referred me to this site. I was unable to find a complaint category specific to this issue, so decided to detail it here. I have received a total of 42 calls over 3 weeks to date. These calls come from either XXXX or XXXX and they identify themselves as "XXXX". In my case, they claim I owe a company called "JTC" over {$5000.00}, but they will settle on the spot for {$3000.00} (or I go to jail, blah, blah, blah...). I have answered about a dozen of the calls and they have refused to provide any information about "JTC" (including what the acronym stands for) and always hang up if I mention that I have filed a complaint with the FTC or ask if they can wait a second while I patch in an FBI agent, etc. I am fed up with this scam and a bit concerned that it seems to coincide with a recent mortgage application. If anything can be done, I am willing to press charges, participate in prosecution activities, etc to help shut down and incarcerate these criminals.

However, the representative told me that CapitalOne sent the check to a Fingerehut address in XXXX XXXX, XXXX, instead of the XXXX, XXXX, address. I contacted Fingerehut customer service again and provided the information that CapitalOne gave me. I also pointed out that my full name and customer account number were on the check, but that it was sent to XXXX XXXX, XXXX, and not XXXX, XXXX. I was told there was no record of a check that an investigation had to be done and someone would call me regarding the situation. On or about XXXX XXXX, as I had not received any communication from Fingerehut, I contacted customer service again, and yet again, was told there was no record of a check for the balance of my account. I asked to speak with a manager and was given the credit department phone number and told to call back on XXXX XXXX. I did not call on the XXXX. On XXXX XXXX, I received a bill from Fingerehut, dated XXXX XXXX, for ($700.00) saying that I owed a minimum of ($93.00) including a past due amount of ($46.00). I contacted CapitalOne regarding the matter. They verified that their check was indeed cashed on XXXX XXXX. That same day, the CapitalOne representative conferenced me in on a phone call to Fingerehut customer service. The representative identified herself as being with CapitalOne and that she had me on a recorded line with her. After an exhausting one hour plus we learned XXXX things: the XXXX person we spoke with confirmed that Fingerehut has a facility in XXXX XXXX, at the XXXX XXXX XXXX which the CapitalOne check was sent. Second, the last of the XXXX people we spoke with, XXXX in the billing department, said an investigation would be initiated and within 2-4 business days I would be contacted by Fingerehut. The CapitalOne representative and I also wanted confirmation that I would not be charged any additional interest on my Advantage account and that my account would be held in suspense until the completion of the investigation. This, because I was concerned about receiving derogatories on my credit report. My understanding from XXXX was, that pending the investigation outcome, fees would be dismissed. I have been a Fingerehut Advantage customer since 2011 with an excellent record of paying my bills on time and I can not tell you how frustrating this situation is for me.

I have sent Fingerehut documentation from CapitalOne VISA verifying my payment.

A payday loan made a positive impact in my life. Many living expenditures are unexpected, and even the ones that I know are coming can be hard to cover some months. Pay day loans have always given me the boost I need to get my bills paid, and I truly hope the government does nt take them away from the many hardworking Americans that use them responsibly.

I can not begin to tell you how great my experience was about my payday loan. Having internet at home makes it so that I can keep in touch with my family across the country. Unfortunately sometimes I ca nt afford the bill on top of all my other bills, and when that happens I get a pay day loan to help me out.

This type of loan is a very easy product to use, especially thanks to the helpful staff. Anyone could use a payday loan. It s a quick and cheap alternative when you need money fast.

I turned to a payday loan for assistance and I am glad that I did. When the bills come and I do not have the money to pay, I do not have many options to get the cash I need. Placing limits on payday loans takes away my choice and forces me to choose what the government thinks is best for myself.

When the calendar hits XXXX, I know that the holiday season is right around the corner. And that's traditionally a time of year when money has been particularly difficult to manage. Payday loans have helped me get through these tougher months, and I know they can help other families like mine as well.

I hope you learn from my story that payday loans and their stores really do positively contribute to many families across this country. My story is just one example. My cable bill is not just for enjoying good television, but it also allows me to work from home and communicate with my friends, family and work. My usage does go up from time to time and I have had to use cash from a loan to make a payment.

The appointments at my doctor's office can be pricey but with a payday loan I did not have to worry about what my insurance would cover. I never have to worry about paying the bill anymore and I can focus on getting better.

When unexpected things come up that cost money, it makes it harder for me to pay my utilities on time. Payday loans have helped a lot when that happens, because you should never neglect your utility bills. Paying them on time is very important to me.

By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It's plain un-American to take away this freedom from me.

Credit unions and other groups do not provide small and quick lending when you need it. That is why I turned to a payday loan and wanted to tell you my story. Taking out this loan did not add stress to my life but actually helped. It was super affordable and not complicated at all. I still can not believe how easy the whole process was.

The entire process was very easy and was best for me because it saved me money in the long term. I knew exactly what I was paying when I left and did not have any problems.

Groceries are a necessity, but can become very expensive especially when an unexpected medical expense pops up. I was falling behind on paying my bills and purchasing groceries. I took out a payday loan and was able to get my head back above water.
A payday loan has helped me on more than one occasion and I want to share my story with you. From XXXX to XXXX, every year I struggle to find the extra dollars to help make these days a little more special for my family. Pay day loans have helped me get a little extra cash so I can purchase food and gifts without going into too much debt.

Due to additional family expenses, recently I started living paycheck-to-paycheck. It’s been difficult, but in a pinch I can rely on a pay day loan to get me through tricky times. I can’t imagine how much harder this year would’ve been without the possibility of getting a pay day loan!

When I pulled out a payday loan, I had no idea what I was doing. After sitting down with someone at the store, they helped me every step of the way and made sure I felt comfortable with pulling out the loan. I’m so glad they were there to help.

Back to school shopping is always a stressful time of year for me. My children need new clothes and school supplies. My budget never seems to cover the cost. I have used a pay day loan for these expenses and it gives me peace of mind to know my kids are starting the school year off right.

I did the math and was sure that this was the best choice for me. It was much cheaper than any other option and I got my money quickly. There was never any hassle.

Anyone knows that a lot of times it’s better to just pay cash instead of using a credit card and getting into credit card debt. I like to use a cash advance on money I know I have coming next paycheck. For me, pay day loans are more straightforward, and it’s better than getting into a situation with a credit card company.

I used a payday loan recently to purchase groceries because changing food prices have made it more and more difficult to plan in our monthly budget. It was one of the best decisions I’ve made for my family. The process was easy to understand and I was able to pay the loan back quickly.

By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It’s plain un-American to take away this freedom from me.

My story is not unique but it is important to me and I wanted to share it. After doing my homework, it became clear that this was a cheaper and faster alternative to other loans in the market. I needed money quickly and was able to get it without any trouble or added expense.

I needed money and didn’t know where to turn. I thought about going to the pawn shop but I didn’t want to lose my valuables. Instead, I went to get a payday loan and got the money I needed without having to risk losing my things.

Too many people get into major debt and big trouble with credit cards. I don’t have confidence that a credit card company will try to help me when I need to borrow money -- an advance on my next paycheck is better for me.

I hate taking out loans because there is usually some kind of hidden expenses that show up when you least expect it. I went to get a payday loan instead and was happy with the results. I understood everything right from the start and it actually ended up being my best option.
I support payday lending because it has made a real difference in my life. When my utility bill came in the mail, I could not believe how expensive it was. In order to pay the balance, I went to get a payday loan. I am so glad this was available to me when I needed it. I could not imagine what would happen if I was not able to get a short-term loan.

Payday loans are so much easier to understand than credit cards. There is the amount I borrow, the fee I have to pay to borrow it, and the timeline to repay it. With credit cards, the fees seem to change all the time, and they do not actually make you pay it all back. Payday loans are just a better fit for me.

Taking out a payday loan meant my children did not have to share school supplies. This is a great help to my family, and all of my children's educations.

The people are so nice here. They got to know me and knew how to make me feel comfortable in taking out this loan. For such an important decision I was very glad to have such great customer service.

After taking my car to the shop, I was surprised when I got the bill. It was a lot higher than I was originally quoted and more than I budgeted. I had to use a short term loan to get some money pretty quick and could not have been happier. I was able to pay the repair costs without any hassle.

This loan is exactly what I needed. I got the loan in a reasonable amount of time and I knew I'd be able to afford it. The loan provided the money I needed without a huge hassle.

I hope you will read my story and understand how a pay day loan really helped me. Once in a while, my phone bill really startles me and is a lot higher than I expected. When I had some money trouble I used a payday loan and am happy I did. There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at unemployment or work conditions rather than focus on what is going on in my bank account.

How great for me that a pay day lending store was around the corner when I needed it. After getting my car towed, I had no idea how much it would end up costing me. I pulled out a payday loan to get the money I needed and get back on the road again.

The interest rate of credit card companies is always changing. With it being so unpredictable, you ca nt really know what your total to pay back will be. At times, I like to get a cash advance, pay my bill, and pay back the advance as soon as possible. It s a lot easier for me.
I am so happy that I turned to a payday loan when nothing else was available to me. I've had to take out a loan to cover my taxes before and I am so glad that this option was available to me. It was definitely better than being late and incurring a penalty.

Why is the government now also trying to limit the options available for lending? I believe that payday loans are a good thing to have around. This is a choice I can make for myself and I hope that we can all agree that these types of loans play an important role in our economy.

At first I had my doubts about taking out a loan, but, after my car broke down I had no other choice. The process was much easier than I expected and everyone was very helpful from the minute I walked in the door. Looking back, I am so glad I went through with that loan.

Often times banks can feel unwelcoming and cold. I have never had this feeling when I walk in a store to get a payday loan or cash advance. They always help me out whenever I need it and do it quickly.

I use my internet and cable service for everything I do at home, but when other issues come up I have needed to get a loan to pay for other items and then fell back on my bill.

It is so much easier to use an unsecured loan than going to a pawn shop and giving up something valuable to me. This loan is easy to use and there are no hidden fees or surprises. This is an easy and simple way to make ends meet.

Food prices are constantly rising, which makes it difficult to budget myself and my family for unexpected grocery bills. With a payday loan, I was able to offset these expenses when I needed it the most!
I took out a payday loan -- I had a few other options but decided that a payday was my best. I want to tell you my story. If you all decide to take away payday loans in this country you will hurt many families and small businesses. People will be forced to turn to companies that may be overseas or might not have the proper safety regulations in place. This is not the answer to deal with short term lending.

I came into the store and was not quite sure if a payday loan was right for me. After talking to the staff, I realized that this was my best option. I felt like I understood everything about the loan and was not hit with those hidden fees you find at the bank.

Competition is great for business. By taking away payday loans, that option disappears and hurts regular Americans like myself. You essentially give big banks a monopoly to give out loans and that is not right.

I always worry about locking my doors because I do not want anything stolen. Having the right insurance helps calm my nerves in case of an emergency. I wanted to share my story about the use of a payday loan. This loan was reasonable for my budget. It allowed me to get the money I needed without added stress and was so easy to use.

When I went to try to get some money from the bank, they handed me what felt like a long application explaining the conditions of a loan. It made me nervous since I just needed cash quickly. Cell phones are a safety measure for children as they grow and become more independent and spend more time away from home. But their bills are expensive, especially since they are using them to call their friends, too. Sometimes I have to take out a pay day loan to make sure that the whole family's bills are paid.

By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It's plain un-American to take away this freedom from me.

Sometimes even the most basic expenses are hard to cover. Take my household groceries for example. There are times when I need to balance that cost with a car repair or a doctor's office visit, or something my family. It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I'm able to pay them back, I do. It makes life easier on my family knowing we can have food on the table and keep the house running, and if a loan helps me do that I think I should be able to get one when I need it.

My family had a good experience at a tough time because of a payday loan. Last winter was a challenge, and my home maintenance bills were piling up fast. With a payday loan, I was able to cover some costs without burdening my family by asking them for a loan. Hopefully this winter will be a lot less challenging!

While payday loans might face a lot of criticism, I have found them to be nothing but helpful to me and my family. I love how simple they are. I do not have to answer too many questions and I leave with the money I greatly needed.

A huge concern I have with other types of borrowing is how much information you have to give them. I do not trust credit card companies or big banks to keep my personal information safe. If I do not have to give all my life story, I’m not going to. Thankfully I can use a payday loan as an advance on my paycheck and get in and out without filling out a huge stack of forms. It’s simple and I feel more comfortable.

Please learn from my experience that payday loans are a good thing and should be available to everyone who needs them. When I needed cash, I took out a payday loan. Usually I am nervous about this type of stuff but the staff helped calm my fears and explained everything to me so simply. I am so glad they were there to help me.

Power bills are awful. I’ve never met anyone who is excited to pay them, and I’m the same way. So it’s great that when I think I’m going to need help paying bills, I know I can rely on a loan to get me through a rough month.

Medical bills can definitely add up especially when you were not expecting them. So I turned to a payday loan to help cover some of the costs. I found that I worked with a company that walked me through the process and explained the fees. It was worth the investment and I was able to manage the situation.

Please know that I only share my story because I think it is very important to keep payday stores open. I have used these loans before and they have been good for me. From the moment I walked into the store, I was able to quickly see how the cash advance would work. It was easy for me to use and helped me meet my financial obligations. There are no hidden tricks all the fees were explained.

I have had a good experience with my loan from the payday loan company. It is easy for me to use a cash advance loan because it is an easier option to understand than others on the market. All the fees are explained and I know by my next pay check that I will have all I need to pay it back.

The government needs to stay out of my wallet! I can make my own decisions and I do not need people telling me what to do with my money. I do not limit who you can borrow from, so why should you be able to limit my choices?

I ended up using a cash advance loan to pay some bills to avoid all the late fees. This loan helped me out when I needed it and was cheaper for me.
I believe that payday loans are a necessity and are already regulated. So please do not do away with them and know that these loans have made a real positive impact on my situation. My cell phone is a great tool for work and for keeping in touch with family in different parts of the country. Sadly sometimes the bill is very high. Thanks to payday loans, I’ve never been late to pay the bill. The loan option is much better than paying late or bouncing a check.

The cost of a cash advance is very reasonable if you only need extra money for a short time. It is important to be able to choose that option when the circumstances are right. No single loan can meet all needs but cash advances sometimes are the right choice from a cost and timing standpoint.

Sometimes though, my children will go over their plans and I have to pay the difference. For those times that I do not have the money to do this, I use a payday loan.

I hate how much my utilities vary from month to month, and sometimes I feel like I can’t do anything to keep it from being high. Getting a payday loan keeps me from having to ask my family for some cash on those months that the bill is outrageous.

I wonder how many people in the federal government have taken out a payday loan. Why is it that government decides who is to borrow and for how much when they do not understand the process or product? I work hard and do what I can to provide for my family. This type of loan has helped me with several bills and a few emergencies. Do not limit my right to choose what option works best for me.

Please do not limit the use of payday loans because I really needed one. Without these types of financial options like the payday loans, many families across our nation would suffer. Our government needs to do more to improve the quality of work conditions and areas across this nation than focus on what is going on in the bank accounts of regular citizens.

She eventually got rude with me and told me that my husband (who she had spoke to earlier) seems to understand credit, but that he clearly did not know who he married. I told her that I was not saying I would not pay, but that I wanted something in writing before I agreed to pay anything because I did not remember this debt from 5 years ago. Payday and car title loans continue to burden Ohioans with unaffordable, triple-digit interest rate debt, draining XXXX of dollars a primarily from the state's low-income residents. These findings are the first look at the Ohio payday and car title lending market since Ohio voters went to the polls in 2008 to affirm capping the rate at 28 percent annually, a mandate that lenders have undermined through legal loopholes.

The flourishing payday lending practices in Ohio are the ultimate case-in-point for why rules governing predatory practices must be airtight. The Consumer Financial Protection Bureau should take note clearly, this is an industry that will find and exploit any possible angle to continue making predatory loans designed to trap Ohioans in an endless cycle of debt.

Though Ohio voters overwhelming supported a ballot initiative capping payday loan rates at 28 percent, legislative loopholes allow predatory lenders to charge interest rates averaging over 300 percent. In order to continue making triple-digit interest rate loans, payday lenders simply re-registered as mortgage lenders or “credit service organizations,” thereby exempting them from the rate cap.

In recent years, in Ohio and across the United States, payday and car title lenders have started offering a new kind of deceptive loan. These loans are structured with multiple payments, rather than a single balloon payment, and for terms longer than the typical 14- or 30-day loan. For some lenders, they offer these triple-digit loans secured by access to a borrower’s bank account or car for terms lasting up to two years. Despite being structured with multi-payments, the fundamental harm of making unaffordable loan payments remains.

The findings in today's report, showing that the majority of payday lenders now offer both payday and car title loans in Ohio, reveal how predatory lenders are doubling down on their efforts to offer harmful products. This diversification of predatory loans is problematic.

Today's report highlights the harm caused by predatory payday and car title practices, which can and should be addressed by state-level action to enforce the rate cap that Ohio voters have already approved. It also highlights the need for strong rules, without loopholes, by the Consumer Financial Protection Bureau that effectively address the debt trap of unaffordable loans.

Take time to review this report and give it the weight it deserves.

Thank you for the opportunity to bring this report to your attention.

Yours sincerely, XXXX XXXX XXXX : XXXX XXXX XXXX XXXX, Kansas XXXX : XXXX XXXX XXXX : XXXXXXXXXXX

I have benefitted from a pay day loan and wanted to share my experience with you. I have major issues with credit card companies and banks. Why do they need to know what I’m buying at the grocery store, or when and where I’m doing shopping and paying bills? With a cash advance, I can do my spending in cash and on my own terms. I just prefer these loans to traditional banks.
I hope you will listen to my story as to why a pay day loan helped me. Food prices are constantly rising, which makes it difficult to budget myself and my family for unexpected grocery bills. With a payday loan, I was able to offset these expenses when I needed it the most!

I live in a very old house, and have to fix stuff a lot. Sometimes it's more expensive than I ever could've imagined, so I take out a pay day loan. Moving is expensive so until I can afford that, I know I can count on pay day loans.

When my child was XXXX we had multiple XXXX visits and XXXX to get. The insurance coverage was lagging behind the actual cost and my pay day loan allowed us to get my child the attention needed to start the road to recovery.

My cable bill is not just for enjoying good television, but it also allows me to work from home and communicate with my friends, family and work. My usage does go up from time to time and I have had to use cash from a loan to make a payment.

I do not know why but my car has been having a lot of trouble lately. I took it to the mechanic and he charged me more than I expected. I ended up taking out a loan to help with the payments and I was happy with my experience.

The XXXX season is always a time of year that provides great financial stress to me and my family. Given my typical monthly costs, I did not know how I was going to get by last year. But then I got a short-term loan, and the holidays did not seem so daunting anymore. It was exactly what I needed.

Power and water bills are some of the toughest ones to pay. You can't be delinquent, or you lose your utilities. Instead of asking my family or friends for money, I've turned to pay day loans when the bills are higher than usual, and then paid the loan back with my next paycheck.

It's hard to plan for an XXXX you have little control over, and unexpected visits XXXX. When the bills catch us off-guard they are very hard to pay on time. When we need a loan, I have relied on pay day lending, and it's always worked out well.

I never had insurance before until a friend suggested I look into it. I do not have that much stuff but I still want to make sure that I am protected. Unfortunately, I was not able to afford the insurance at the beginning without the help of a payday loan. The loan was exactly what I needed to get me through the initial payment.

This was not a very difficult process. The staff did a great job of explaining everything to me and I was able to get the money I needed in a flash. I'm glad they never tried to take advantage of me.

My kids need important school supplies to keep track of their belongings and assignments. These add up to be pretty expensive so I'm glad I decided to take out a payday loan in order to afford them.

At first I had my doubts about taking out a loan, but, after my car broke down I had no other choice. The process was much easier than I expected and everyone was very helpful from the minute I walked in the door. Looking back, I am so glad I went through with that loan.

Banks can charge all kinds of fees when you try to borrow from them. The charges can be extremely high, more than I could pay back. I prefer payday loans, where I can borrow the bit of cash I need, get it quickly, and pay it back with my next paycheck.

A lot of people look forward to the holidays, but in the past, I have not been one of them. I have not been able to handle the bills that come with expenses around that time of year. I really was not sure I was going to be able to make a special XXXX happen for my family until I got a payday loan to help me with my bills.

Payday loans helped me out when I needed it. I was able to come in without an appointment and they walked me through their entire process. This was an easy and affordable option for me when I needed it most.

Groceries are a necessity, but can become very expensive especially when an unexpected medical expense pops up. I was falling behind on paying my bills and purchasing groceries. I took out a payday loan and was able to get my head back above water.

I'm sure that taking out a payday loan is the best decision for me because it was cheap and easy. These loans are perfect for me in the times that I need them.

I like that my family members have cell phones so I know I can reach them whenever I need to. Sometimes an emergency pops up and it's comforting as a parent to know that you can contact your children anywhere. Sometimes though, my children will go over their plans and I have to pay the difference. For those times that I do not have the money to do this, I use a payday loan.

I know what I'm getting into when I take out a payday loan. Sometimes when I am short on cash and need the money, I'm glad this is an option that is available to me. This loan is not complicated and so easy to understand.

At our house, power and water bills spike at different times of the year. When I have a hard time paying those bills, I use a payday loan to get the extra money to cover those expenses.

There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at things like the cost of living or unemployment rather than focusing on what is going on in my personal finances.
At a difficult time a payday loan helped me out. Emergency medical bills come unexpectedly, and can sometimes be extremely difficult to recover from. Luckily, I was able to contact a local short-term lender to give me some reassurance that I would be able to make it through my recent bills with very little issue.

I hate how much my utilities vary from month to month, and sometimes I feel like I can’t do anything to keep it from being high. Getting a pay day loan keeps me from having to ask my family for some cash on those months that the bill is outrageous.

I use my internet and cable service for everything I do at home, but when other issues come up I have needed to get a loan to pay for other items and then fell back on my bill.

The payday company I took my loan from has helped me tremendously. By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It is totally un-American to take away this freedom from me.

I am grateful for the payday loan I used. I could not believe it when I saw how high my cable bill had been. I did not even have enough money in my bank account to pay what I owed. Instead of missing a payment, I got a payday loan to help me. This was a great decision and I would do it again if I needed to.

My power bill skyrocketed for no reason that I could tell, so I ran and took out a payday loan to help me pay it that month. I hate how much it goes up sometimes, but thankfully I can take out a loan quickly.

It can be very stressful providing for your family. Sometimes things come up or work is slow, and I do not quite have enough money to pay for something important like groceries. When money has been particularly tight, I have used a short-term loan to get through these periods. It was so important for me to be able to put food on the table, and the loan allowed me to do that. I want to have that option available whenever I need it, because it usually comes up suddenly and is not something I have time to prepare for otherwise.
I support payday lending because it has made a real difference in my life. Rather than a traditional loan, I applied for a pay day loan and the process could not have been better. Everything was explained to me the minute I walked in the store and I had the cash I needed in no time at all. A bank or credit union does not work when you only need a small loan amount to make ends meet.

After looking up my options, I know that it was the best one for me. I got the loan when I needed it and it was the cheapest alternative. I'm glad that pay day lending was an option for me.

Sometimes it's tough to plan on food and grocery expenses with food prices rising the way that they are these days. It was a very good decision for me and my family, and I'm so glad it was readily available to me.

When I could not pay my bills, I did not want to turn to my family for help. I decided to get a payday loan and could not have been happier. Before long, I had the money I needed and I never had to make that call. Please do not limit my choices in loans.

With health insurance premiums changing, sometimes it's really tough to plan ahead when it comes to medical expenses. I found that using a local payday loan was the right decision for me as I tried to manage my medical bills and plan accordingly.

I recently had an incident in my home and I am so glad I had renter's insurance. The damage could have been a lot worse but thanks to my insurance, I was covered. This would not have been possible without the help I got from a payday loan when I got my insurance.

The ability to get a loan for a few hundred bucks is a great thing for those of us who need it. There are no other products out there that give you the freedom that a pay day loan can give you. I do not want to use a pawn shop or trade my car title. I want to use a simple and easy loan that gets me through.

As my children grow so do the prices of their school supplies. I would not have been able to afford the supplies they needed without the help of a payday loan.
I want to tell you why payday lending is important. When my water bill is high, I look to pay day loans as a safe, easy way to make sure my water does not get shut off. Sometimes I cannot afford my bills, but I definitely cannot afford to lose my water. So pay day loans are the best solution.

A couple of hundred dollars from a cash advance loan was easy and very simple to use. You walk in, fill out the application and walk out with the money needed to make a bad situation good again. The simplicity of the product is what makes it a great option for me and there is nothing else out there like it.

Food prices are constantly rising, which makes it difficult to budget myself and my family for unexpected grocery bills. With a payday loan, I was able to offset these expenses when I needed it the most!

I worry about government interfering in our lives by telling us what to do with our financial resources. I cannot always predict when a bill or family issue comes up and I need money to resolve the problem. These types of loan have been there for me several times and so I hope you will not take that ability or right away from me.

I support pay day loans because I had a good experience. My hours were cut at work as a result of XXXX, but my bills kept coming in the mail. I took out a payday loan to help my family during those difficult times and we were able to get back on our feet without missing a payment. I could not imagine where my family would be without this type of loan, so please do not take this choice away.

Water bills are awful. Nobody wants to pay them, and I am the exact same way. When I worry about getting them paid on time, I immediately get a pay day loan to make sure I can be punctual and not get my water shut off.

The payday loan process was easier than I ever could have imagined. The staff made sure to answer any questions that I had and even a few that I did not think of. They really helped me out and got me the money I needed quick.

Getting a pay day loan was the best option for me because it was inexpensive. In the end, I got the money I needed and did not have any surprise fees. I am so glad this option was available to me.

Please understand that a payday loan is very important to me. With grocery prices changing all the time, it is nearly impossible to properly plan and budget for monthly food costs. But when I got a short-term loan, I was able to have the help to give me a little extra cash and a lot of peace of mind.

My daycare does not allow sick children with fevers to come in. That policy was fine until my child got sick. I had to continue to pay the daycare and a sitter for a few weeks. My budget is tight so I took out a pay day loan to get through this emergency.

There are times when money gets tight and a loan helped me pay some important bills so I would not fall behind. I did not want to pay the high fees to use my credit card to withdraw money or bounce a check. This loan was an easy way to solve my problem and I was able to pay it back over time.

When unexpected things come up that cost money, it makes it harder for me to pay my utilities on time. Pay day loans have helped a lot when that happens, because you should never neglect your utility bills. Paying them on time is very important to me.
Please know that a payday loan helped me and I hope this credit option is still available in the future. I used a payday loan to pay for my insurance, which I knew I needed but was not able to afford in a big payment. I do not own a home, but I have a lot of stuff built up over several years of renting. With the payday loan, I was able to cover what I cared about.

Getting a quick cash advance helps keep me out of long-term debt that I might experience with a credit card. The payday loan cashiers are nice and explain everything very simply. With a credit card company, you have to fill out so much information and receive a long explanation of the very complicated rules about cash advances. Payday loans work better for me.

When you’re providing for a family, costs add up quickly. This is never truer than during the holidays. Taking out a short-term loan helped me make the holidays special for me and my loved ones, and got me through a period when money was being spread thin over a lot of needs.

There are such few options out there that are as easy to use as a payday loan. These loans are just a few hundred dollars and can make a big difference for someone needing to meet their financial obligations. It is a product that is not only easy to use but also very clear to understand.

Once, I racked up a huge phone bill. I relied on a payday loan that month so I would not fall behind on other bills and household expenses. Needless to say, I monitor my phone use much more closely now. I am very thankful to payday loans for getting us through that month and helping us not fall behind in our bills.

Sharing my story is important because others may need the same credit option of a payday loan like I did. It seems like the government is never satisfied. Why would you try to get rid of a program that helps XXXX of Americans like payday loans? Sometimes, people like me need some quick cash and rely on payday loans to help us out.

Cell phones are a safety measure for children as they grow and become more independent and spend more time away from home. But their bills are expensive, especially since they are using them to call their friends, too. Sometimes I have to take out a payday loan to make sure that the whole family’s bills are paid.

Once I got in an accident, I knew I would not have the money for repairs. Everyone at the store had a smile and the whole process was explained easily. They helped me get the money I needed to get back on the road.

Just like everyone else, I do not like late fees of any kind and payday loans are the best way to avoid them. The loans have helped me through all kinds of tough financial situations, from medical expenses to high utility bills.

I am happy that I had the choice of a payday loan to use. Why do I always feel like the government has their hand in my pocket? I am able to make my own decisions and I do not need anyone telling me what to do or how to do it. I know what is in the best interest of my pocketbook.

Please support pay day lending because it did help me. The payday loan process was easier than I ever could have imagined. The staff made sure to answer any questions that I had and even a few that I did not think of. They really helped me out and got me the money I needed quick.

Pay day loans are there for my family when we are having trouble getting our bills paid on time. Rather than be late and have our credit be affected, I would much rather get a cash advance. The consequences if we did not pay would much worse.

I am so glad to have had access to a pay day loan. It was a cheaper and much less stressful alternative for my family.

A pay day loan store really helped me and I want you to know why I used this product. Every now and again, unexpected medical bills happen to me or a member of my family. These can really put a hurt on our wallet but after getting a short-term loan, we did not have to worry as much about the payments and can focus on staying healthy.

Pay day loans are such a great solution when my phone bill is higher than I thought it would be. I did not want to fall behind on that bill, and getting the extra cash is really great. If I was not able to pay it on time, it would probably affect my credit score.

When I did not have enough money to pay my taxes, I relied on a loan to keep me on the up and up. This kind of product is important for people like me who do not have a lot of options for short term loans.

Have you ever had a power bill and wondered why it jumped so much? I have had that happen many times and was glad to have had a pay day loan cover my expenses when that happened. It is reassuring when you can take care of something as important as the heat in your home.
A payday loan has made a positive impact on my life and I wanted to share my story. I have recently been living paycheck to paycheck. It has been a difficult adjustment for me as I struggle to buy the most ordinary things. I had to turn to payday loans to help get groceries and provide some much-needed assistance for me as I get back on my feet.

I hate how much my utilities vary from month to month, and sometimes I feel like I can’t do anything to keep it from being high. Getting a payday loan keeps me from having to ask my family for some cash on those months that the bill is outrageous.

I went to get a payday loan recently and was amazed at the process. It seemed like the staff went out of their way to help me in my time of need. I am so happy with how easy it was and how I was treated.

The payday loan is smart and works well for everyone involved. The government should think twice before they try to take it away. I believe it’s a valuable service to many Americans and should be kept rather than over-regulated or eliminated.

Using a credit card to finance my bills is too complicated. There are so many rules that make it hard to figure out how to get cash and how you have to pay back. In fact, they do not ever want you to fully pay things off, so they can keep charging you more monthly fees for the money you originally borrowed on credit. A payday loan works for me.

A loan helped when I had to get a lot of work done on my car a few months ago. Without the loan, I would’ve had to borrow people’s cars to get to work, and that’s a lot to ask my family and friends. The payday loan helped me get my car back in tip-top shape, and I only had to borrow a car once.

I could not believe it when I saw how high my cable bill had been. I did not even have enough money in my bank account to pay what I owed. Instead of missing a payment, I got a payday loan to help me. This was a great decision and I would do it again if I needed to.

Insurance is one of those things I know is a good idea, but it was expensive! I wanted to get it right away, so I took out a payday loan. That gave me what I needed to get set up and then I paid it back when I had the money. It worked out great and is something I like knowing I can use in a pinch.

Please do not believe that all payday loans are bad, because I had a very good experience. It’s great having different options when I need a loan because I can always choose the one that is best for me. Sometimes, my best option is a payday loan. Getting rid of this type of loan only limits my options when I’m in need of some help.
A payday loan is not a bad thing and I hope to share my story with you. Cell phones are a safety measure for children as they grow and become more independent and spend more time away from home. Competition is great for business. By taking away payday loans, that option disappears and hurts regular Americans like myself. You essentially give big banks a monopoly to give out loans and that is not right.

Getting a cash advance is often the least expensive way for me to access money for a short-term need. Like any other financial tool, customers choose the one that is right for them for what they need. Cash advances are one of many options and sometimes this is the best one.

There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at unemployment or work conditions rather than focus on what is going on in my bank account.

A loan from a pay day store really helped me and I want to keep this option open to everyone. Every once in a while, I get a chance to earn some overtime. A payday loan let me pay the babysitter on time and care for my family.

When the bills come and I do not have the money to pay, I do not have many options to get the cash I need. Placing limits on payday loans takes away my choice and forces me to choose what the government thinks is best for myself.

There are such few options out there that are as easy to use as a pay day loan. These loans are just a few XXXX dollars and can make a big difference for someone needing to meet their financial obligations. It is a product that is not only easy to use but also very clear to understand.

Even though we do a good job of budgeting throughout the year, this always seems to be a time when finances can be difficult to manage gracefully. Thanks to the payday loan I was able to buy school supplies for my kids. Without this option I do not know how I would have gotten them the supplies they need to keep up in school.

When I did not have enough money to pay my taxes, I got a loan and it helped me get through. I think this is a responsible way to use the loan. If you want to take away that option from me, then stop taxing me so much so that I have to take out a loan to pay.

Our house seems to have issues all the time and the bills start to add up. I always dread calling someone to fix it because I know it is urgent to keep an open mind on payday because I have a good story to tell. I recently took out a payday loan to pay some bills and could not have been more pleased with my experience. The staff helped make everything so much easier for me and I was able to keep living my everyday life. Having had a family emergency and this payday loan helped me to find the way to meet it.

I do not always use a pay day loan but when I do, it has been worth it. I like being able to have different options and I hope the government does not rip this away from me. The government has more important issues to address than how individuals budget their households.
I believe that pay day loans are a necessity and are already regulated. So please do not do away with them and know that these loans have made a real positive impact on my situation. I sometimes wondered how I would be able to pay for my high power bill, especially in the hot summer and cold winters. I got the cash from a payday loan to be able to meet my obligation to the company and avoid getting shut off.

When my child was XXXX, we had multiple XXXX to get. The insurance coverage was lagging behind the actual cost and my pay day loan allowed us to get my child the attention needed to start the road to recovery.

After taking my car to the shop, I was surprised when I got the bill. It was a lot higher than I was originally quoted and more than I budgeted. I had to use a short term loan to get some money pretty quick and could not have been happier. I was able to pay the repair costs without any hassle.

The ability to get a loan for a few XXXX bucks is a great thing for those of us who need it. There are no other products out there that give you the freedom that a pay day loan can give you. I do not want to use a pawn shop or trade my car title. I want to use a simple and easy loan that gets me through.

For the most part I use the payday loan to help out my granddaughter now that she is in college so it's nice to be able to use this service to help her out.

Money issues happen and I was glad I went to a pay day lending store. You should not use a credit card if you do not have the money to pay it off by the due date. That's when you get in trouble with the big credit card companies who can come after you. With my payday loan, if I can't pay the full amount back, I can go work with them to figure out what will work. They help me understand everything and with payday loans I do not get in over my head.

By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It's plain un-American to take away this freedom from me.

From the moment I walked into the store, I was able to quickly see how the cash advance would work. It was easy for me to use and helped me meet my financial obligations. There are no hidden tricks all the fees were explained.

When the bills come and I do not have the money to pay, I do not have many options to get the cash I need. Placing limits on payday loans takes away my choice and forces me to choose what the government thinks is best for myself.

November 7, 2015

Thank you for taking time to read my story about the payday loan I got recently and what a terrific experience it was for me. I have recently been living paycheck to paycheck. It has been a difficult adjustment for me as I struggle to buy the most ordinary things. After having a lot of work done to my car, the bill came and I was not able to afford it. I had to get a payday loan and was nervous about it at first. That all changed once I entered the store and was greeted by a friendly staff that explained the whole process to me easily.

Why is the government now also trying to limit the options available for lending? I believe that pay day loans are a good thing to have around. This is a choice I can make for myself and I hope that we can all agree that these types of loans play an important role in our economy.

I am glad that I turned to a pay day loan when nothing else was available. I needed money and did not know where to turn. I thought about going to the pawn shop but I did not want to lose my valuables. Instead, I went to get a payday loan and got the money I needed without having to risk losing my things.

The pay day loan was a relief and it made a huge difference in my stressful life. It was very easy to use. I do not feel confused or concerned with my decision to use this type of loan.

I have a good story to tell about the payday loan I got. Sometimes my phone bill is just impossible to pay. I wish having a phone was not necessary, but in this day and age it is. When I am short on money, I take out a pay day loan to make sure I do not fall behind on those bills.

It was so easy for me to use a pay day loan because it is an easier loan to understand than all others. All the fees are explained and I know that by next pay day I will have what I need to pay it back and not lose any property.

By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It's plain un-American to take away this freedom from me.

The government needs to stay out of my wallet! I can make my own decisions and I do not need people telling me what to do with my money. I do not limit who you can borrow from, so why should you be able to limit my choices?

I wanted to tell you that short term lending is not bad because I had a good experience with mine. My cell phone is a great tool for work and for keeping in touch with family in different parts of the country. Sadly sometimes the bill is very high. Thanks to pay day loans, I've never been late to pay the bill. The loan option is much better than paying late or bouncing a check.

The government should not be limiting my choices. This country was founded on the free market and the government should keep from regulating business like this to death. The government should promote competition, not eliminate it. This ends up hurting the everyday people who work hard like I do.

This loan was reasonable for my budget. It allowed me to get the money I needed without added stress and was so easy to use.
I share my story because I want you to understand that a payday loan helped me when nothing else was available for me. Once I got in an XXXX, I knew I wouldn’t have the money for repairs. Everyone at the store had a smile and the whole process was explained easily. They helped me get the money I needed to get back on the road.

A payday loan is not only easy to use but it allows you the freedom to keep your belongings. I think that getting quick cash and being able to fix a problem easily is an option that needs to be available to all.

The times I’ve needed money, I’ve needed it immediately. I couldn’t wait around for a bank to process an application, and I didn’t know if they would even approve a loan after all that time for a few XXXX dollars. Payday loans got me the money I needed right away and allowed me to pay it back when I got paid. It’s a much simpler system and I think anyone should be able to use payday loans if they want to finance things that way.

Recently, I took out a short-term loan to help my family buy groceries. This cash advance helped me because I didn’t have a credit card I could use and needed to get the food and supplies I needed for the month. I would highly recommend a service like this to others in my situation.

Why is it that every time I turn around I feel like the government is in my business? By limiting payday loans, you are taking away my options and are not allowing me to make my own choice.

Having a family costs enough even before the holiday season rolls around in XXXX and XXXX. And even though we normally watch our expenses throughout the year, the bills definitely pile up when XXXX comes to town. That’s why I turned to a cash advance to lighten the load on my wallet. It was amazingly helpful to my family.

Please learn from my story that a payday loan can be a good thing and should be an option for everyone who may need one. I am working to pay bills on time but sometimes that has been difficult. I turned to a payday loan to help me pay for some important utility bills. I knew that I did not want to bounce a check or pay an overdraft fee so the best thing for me to do was to take out the loan and pay it back next pay period. This worked great for me and saved me more money in the end.

With the payday loan I was able to get the money I needed in the time that I needed it. It was an incredibly easy process, which was a nice change.

Without cash advance loans many people would not be able to make it work. You need to consider all the unintended consequences from eliminating this option would for families across my state.

I do not think it is right for someone to take away my options. When I’m in a bind and I need quick cash, I am able to get what I need through payday loans. If you take this away, I do not know where I would turn.

The payday loan process was easier than I ever could have imagined. The staff made sure to answer any questions that I had and even a few that I did not think of. They really helped me out and got me the money I needed quick.

Also helps when family members need me to help them financially.

It was easy for me to use and helped me meet my financial obligations. There are no hidden tricks all the fees were explained.

Why is it that every time I turn around I feel like the government is in my business? I am capable of making my own decisions and I do not need the government to tell me what to do in order to pay my bills. By limiting payday loans, you are taking away my options and are not allowing me to make my own choice.

A payday loan has been a good thing for me so I wanted to share my experience. A payday loan was a great way for me to pay for insurance. There are so many things that can go wrong when renting — fire, theft, flooding — and I wanted to know that if something did go wrong, I would be protected. Knowing I can replace valuables does bring me that peace of mind, and getting a payday loan was an easy and hassle-free way to get it.

Why does the government all of a sudden want to get rid of payday lending? I’ve used loans like this for years and have found them to be nothing but helpful. I could not imagine my life without these and the government should stay out of the way.

My budget is very tight, and sometimes I find myself struggling to even get groceries at the supermarket. In the past, I have even used a short-term loan to help me get food on the table, and I’ve found this service to be amazingly helpful as I plan out my monthly budgets.
I have had such a great experience with my payday loan company that I wanted to tell you about it. During a difficult time, I did not know where to go in order to get help. Payday loans helped me keep up with my bill payments and stay away from welfare. I am so thankful this type of loan exists and I do not have to rely on the government for help.

This caused my account to be over withdrawn by ($800.00). XXXX purchases I made the same day the check was cashed were subjected to ($35.00) overdraft fees. I asked one teller “If I had argued more would I have received the full reimbursement? She replied Yes. Wells Fargo needs to pay me ($17.00) X XXXX for the remaining fees.

There is never a lot of options for someone like me. I work paycheck to paycheck, and can never get enough hours or have enough money in my paycheck. Payday loans help me cover unexpected events that come up. I am an adult, responsible for my own needs, I do not think it is right for government to tell me what they think is best for me on my choices of obtaining extra money to help me when I need it. Payday loans are a god send when I need it the most, and I do not feel it’s right to tell me how or where to get that help.

The vendor promised he would only use my voided business account check that I had faxed to him to initiate an ACH transfer to his account for $2300.00. Instead, he went to a check cashing storefront. The check cashing facility created their own check based on the information on my voided check, which the vendor then cashed. Here is my question: Is it true that VOID written on the front of a check means that check cannot be cashed under any circumstances? Also, a check cannot be legally created using the information on my voided check?

I'm in the process of getting my budget back to normal but the cash advance has really been a big help to me.

Other the cash advance I tried to get help from my family but they are in the same position financially that I am so I’m grateful for the cash advance.

I support the use of payday loans because I had a positive experience. The staff is so wonderful. They’ve gotten to know me and always take care of me like family. They are always honest and upfront with me, unlike a lot of banks that charge fees all the time and can be difficult to work with at times.

You never know what life is going to throw at you, so I get insurance for all my belongings. The cost was higher than I could afford all at once, and a payday loan helped me meet the important expense.

A cash advance helped me take care of some medical bills that were piling up. I wanted to be sure that those bills were paid soon as to avoid late penalties. I was able to pay back my loan over time and even with the fees it was still the least expensive option than bouncing a check and then paying the overdraft fee.

Why do I always feel like the government has their hand in my pocket? I am able to make my own decisions and I do not need anyone telling me what to do or how to do it. I know what is in the best interest of my pocketbook.

Like any smart shopper, I always try to get the cheapest option available. This is especially true when it comes to loans. Payday loans helped me get the money I needed and it was cheaper than anything else.
You will get many stories about loans, but I wanted to share mine because a cash advance really helped me. There are a lot of unexpected expenses in life. When my car was having some problems, I needed to take out a payday loan to help me pay the mechanic. I am glad I was able to get the money I needed so that my car could get fixed.

From the moment I walked into the store, I was able to quickly see how the cash advance would work. It was easy for me to use and helped me meet my financial obligations. There are no hidden tricks all the fees were explained.

I do not have much confidence in banks. When I need money quickly, I would much rather trust my transaction from a payday loan store. I can easily get cash right down the street. They make me feel so much more comfortable than the banks and understand my needs.

There are times when money gets tight and a loan helped me pay some important bills so I would not fall behind. I did not want to pay the high fees to use my credit card to withdraw money or bounce a check. This loan was an easy way to solve my problem and I was able to pay it back over time.

Why do I always feel like the government has their hand in my pocket? I am able to make my own decisions and I do not need anyone telling me what to do or how to do it. I know what is in the best interest of my pocketbook.

Last month I had some unexpected bills piling up; I did not know how I was going to put food on the table for my family. The payday loan saved me and I was able to purchase groceries and get my finances back on track without taking on major debt.

Payday loans helped get me back on my feet. These loans were simply the cheapest and easiest of all my options and I am glad they were available to me.

Payday loans are there for my family when we are having trouble getting our bills paid on time. Rather than be late and have our credit be affected, I would much rather get a cash advance. The consequences if we did not pay would much worse.

I have had a good experience with my loan from the payday store. After looking around it became clear that this was a cheaper and faster alternative to other loans. I needed money quickly and was able to get it without too much trouble or added expenses.

It is great having different options when I need a loan because I can always choose the one that is best for me. Sometimes, my best option is a payday loan. Getting rid of this type of loan only limits my options when I am in need of some help.

I cannot believe how easy it was to get a payday loan. The staff answered all my questions and I walked away feeling confident. I do not know where else I would have gone to get such a short term loan.

Hospital bills are always more expensive than I can afford so when an emergency comes up, I know that I can turn to a payday loan to help me out. It really gives me peace of mind in a stressful situation.
I need cash advances to assist from time to time in paying bills when my paycheck and due bill dates do not always line up correctly. If there were no more cash advances I would have some angry creditors as well as risk having utilities turned off.

Whatever bill comes up that I may need help with the cash advance has always been there for me. It helped me with my utilities and my mortgage payments. I do not have any other family to borrow from so I do not know what I would do without it. It's such a big help to me and my family.

There have been times when I get short on money to pay a bill. The cash advance has been very helpful to me when I am short. It works so well for me because of how fast it is and is not expensive. I do not like to go into my savings so this really works perfectly for me.

Cash advance helps me to pay my electric bill. It seems to always fall in between my biweekly checks. My world would be dark and hot without it. I do not always have to use the cash XXXX but it sure is nice to have available in a pinch.

I use the cash advance when not able to pay my bills on time. The cash advance allows me to stay on time with my bills with no late fees. I do not know what I would do without Amscot cash advances. It's just been such a wonderful tool for me to help out with financial situations.

I don't use cash advance all that often, but it does come in handy when needed. My main use for cash advance is for needed bills, emergencies, and, like this last time, when my employer is late with payroll and I'm down to my last dollar. I live mostly paycheck to paycheck, and any interruption or unforeseen costs can be devastating. Taking cash advance away would not be a good thing. I would end up having to pay reconnect fees on my utilities more often, or something similar. I truly hope this does not go away.

Using the cash advance allows me to make sure all my bills are payed on time. It's so nice to be able to take care of myself and not have to go to my family for help. I can not tell you how much money it has actually saved me in overdraft fees ... but it's been a lot.

Sometimes I just don't have enough money for a bill or something like that and I use the cash advance to make things alright and not have to worry about paying any late fees. It helps me out with my temporary needs and is so quick and hassle free to get.

The cash advance for me provides just the right amount of cushion financially that I need to keep me in a good financial situation. I know I can pay it back quickly and not use it for a while if I choose. It's really a nice backup plan for me.

I use a cash advance often to help cover a shortage of funds in my paychecks to help cover bills and my new medical expense that was just raised due to Obama care. The minimum wage in this country is below standards to help the average American family survive on a paycheck to paycheck basis. If it were not for a cash advance service being available we would go without the necessities needed, like groceries and utilities. Also this service provides other services which come in handy, like bill pay and money orders.

The cash advance helps me with my cash flow when situations come up or an emergency comes up and I need a quick and easy way to get some extra cash. It's really like an insurance policy for when those things come up. It would be so hard on me if I did not have this around for me.
My daughter is in college and I'm only getting paid through XXXX so when she needs help I'll use the cash advance to get her some extra cash for her needs. It's cheaper for me to get a cash advance for a short term then going to my bank. It's been so helpful to me and makes me feel good as a father to be able to help her.

The cash advances help me get from paycheck to paycheck. I repay them every time, on time. If they were together stopped, I would not be able to buy groceries for myself and my son. It would create dire hardship for me.

Most of the time when I run short after my job has cut some of our hours sometimes I'll use the cash advance to pull me through until things get back to normal. It's so fast and easy to get and the fact that I can come in anytime of the day or night to do one is fantastic. It's saved me many times from having to pay late fees.

When ever I'm short on a bill payment I use the cash advance to help me out so I'm not late to get that bill paid. It's so easy and fast which is nice because I can get the cash right away and not have to wait. It's also nice because it does not require a lot of paperwork. Honestly I do not know what I would do if I did not have this to fall back on when I'm short.

Being in XXXX if we have a rainy day I do not get paid and I'll be out XXXX dollars and my bills still have to be paid. The convenience of this service is what is the most attractive thing that draws me to this. I do not like the pawn shops because they are really shady.

I use the cash advance for a lot of things. Mostly for when I'm short on getting a bill paid but also for food and laundry money when I'm just waiting a few days to get paid again. I like that it does not require a lot of paperwork and background checks. It's fast and easy and I can get just what I need to take care of my problems.

I hope you know that I have a great story about my loan from a payday lender. When money was tight, I was not sure if I was going to be able to get my car fixed. I went to get a loan and was approved easily. Now I do not have to stress out about any car troubles for the near future hopefully.

I have recently been living paycheck to paycheck. It has been a difficult adjustment for me as I struggle to buy the most ordinary things. I had to turn to payday loans to help get groceries and provide some much-needed assistance for me as I get back on my feet.

At a challenging time, a short term loan helped me fix a situation that was important to me. I had to get a lot of work done on my car recently and did not know where to turn. I found out about payday loans and got the money I needed to take care of my car. Without the loan, I would have been forced to borrow my friends and family's cars which would have gotten pretty annoying for them.

Most of the time I'll use the cash advance when things come up that are unexpected. I do not have any credit cards so this is what I use kind of like a credit card. Today it's helping me with some moving expenses so I can get into my new place. I do not want to ask anyone for money so this keeps me independent and able to handle my issues by myself.

I use the cash advance to have it for like a bridge loan for keeping my bills all up and current so that I do not get any sort of late fees. As a bill collector I see that this is a big help to me. It's a vital tool for people such as myself to keep bills current when things come up.
I only get just so much each month and recently I used the cash advance to help me out with a needed repair on my house. It’s so easy and I like that I feel like I’m treated with respect and not judged when I need a small loan. It’s so nice to have when something comes up that is outside of my budget.

I’m on a fixed income and sometimes I just run out of money before the end of the month and the cash advance helps me get by until my next check comes in. Mostly I’m short because I help out my grandson a lot because my son just won’t help him. It puts me in a tough spot but it’s nice for me to be able to help him out.

Being a single mother of XXXX girls the cash advance was a true blessing in my life. It helped me in emerge us like car repairs, daycare, food and bills. Cash advances has been a life saver because my credit was always the best and I never qualified for a bank loan. If cash advances went away tomorrow it would really put my family in a bind, with not having any other resources out there other than banks. Please do not get rid of cash advance places., people that do not have very good credit need these places for emergency services.

The cash advance helps me with paying my bills and even helps with unexpected bills. I would be out of luck without the cash advance because I have no family or friends that are able to help me with money. The cash advance program really helps me take care of myself and my XXXX kids.

With the way my bills fall and my husband being on a fixed income, the cash advance is our buffer to help us get by to make sure bills are paid on time. In fact, the fee to use the cash advance would be much less then the late fees if we paid any of those bills late. We do not have credit cards so for us this is not only our best option it’s really our only option.

I will normally use the cash advance for a school I have my XXXX year old in for XXXX learning. It’s been a big help to me and my wife because we want to be able to set her up for success. It’s so nice because it’s simple and short term which fits my budget just right. It also helped me out when I first moved here to help me get into my first apartment.

The cash advance helps supplement my income now that I’m on XXXX. Having to adjust to the lower income has been tough but if it were not for the cash advance I would have not been able to meet my responsibilities with the people I owe for my monthly bills. It’s actually helping me keep my credit in good shape.

A payday loan has made a positive impact in my life so read my story. Even though my insurance paid for my repairs, I still needed a short-term loan in order to get a rental car. Without the loan, I would not have been able to get to work on time every day and might have lost my job.

I have a lot of pride and when I could not pay my bills, I knew I could not turn to my family for help. I decided to get a payday loan and could not have been happier. Before long, I had the money I needed and I never had to make that dreaded phone call to my friend and family.
Payday loans have greatly helped me in the past when I was having a difficult time in my life. For example, my car was having problems and as everyone knows, car repairs have a tendency to be expensive. For those times that I cannot pay for the repairs myself, I use a payday loan. These loans have been great for me over the years and I could not imagine how I would pay my mechanic sometimes without them.

In this economy it is already hard enough to get good credit. A payday loan has helped me stay in the black several times and avoid costs from other fees from institutions that have powerful resources in XXXX. So I think we need to keep these options open and keep government from standing in our way.

The payday loan is so easy to understand and I got the money I needed quickly. It was a very efficient process and definitely the most reasonable option for me.

I hope you will not take payday loans away because I have a good story to tell. I bought an appliance that never seems to work, and I can never figure out how to fix it. Payday loans are a great option for me to hire someone to repair it for me. Now I don’t have to worry.

Some banking fees and penalties are awful to deal with and payday loans are the best way, in my opinion, to avoid them. The loans have helped me through all kinds of tough financial situations, from medical expenses to utility bills. I get them from time to time and am grateful that they are so user-friendly.

There are times now that my wife is not working and I’m the only one with a paycheck when I need some help with a bill every now and then. The cash advance has been so good to me so that I don’t fall behind. It’s really great, your in and out in a flash and get just the amount you need without any hassles.

I have an emergency situation where I have to go out of town right away and the cash advance is helping me pay for it. There wasn’t anything else available for me at this time where I could get the cash this quick.

I use the cash advance to pay bills that fall between pay periods. I would not be able to make payments on time if this were not an option for me. If my payments are late and with no other options my credit would suffer.

I do not use the cash advance very often but when I do it usually for a bill I may have forgotten about or if I just want some extra cash to go on vacation or something like that. The fact that I can get cash quick and is easy to pay back is probably what I like about this service the most.

I just XXXX school and the cash advance is helping get through things until I get a better paying job which should happen soon. It’s great to have for emergencies and for just when things come up from time to time and I need a little extra cash. My credit is not so good so for us this works great.

My husband and I are XXXX and we have to use cash advances to get caught up when we get behind. We get behind every summer when we are without paychecks and use Amscot cash advances in the fall and early winter to get caught up. If we were to not be able to get them anymore we would have trouble paying our mortgage and other necessary bills in the fall and winter. We have also used cash advances for home emergencies and would be in trouble if this service was not available to us. We always use and pay them back responsibly and you can see that we are hard workers as evidenced by the fact that we are XXXX in the state of Florida.
Most of the reasons I get a cash advance are for when a car repair comes up that I need help with or for some general household bills. Typically I’m the guy also that the family comes to for when they need some extra cash so it helps me then as well. It does not make sense for the government to want to take away something without offering another any other solutions.

The cash advance provides for me the peace of mind to not ever overdraft my checking account. There really is not anything I particular I will use it for other than that. It is really a convenience factor for me and I like it a lot. I’m in the process of rebadging myself so in the meantime this is just fantastic for me.

Most of the time I will use the cash advance only for the little things that come up and we might have a wedding to go to and need extra cash for a bill we may have forgotten about. I like the convenience and how quick and easy it has been and I can get one in a flash. If the government would concentrate on their own business instead of sticking their nose in our business.

I use the cash advance to basically float my commission check and expense check because I sell insurance and never quite know when I’m going to be paid. It’s much better for me doing a cash advance then trying to deal with my credit card company. It’s just so convenient for me and the service awesome.

Director XXXX, I am writing to tell you a story of some of my congregants who have gotten trapped in the debt cycle of payday lending. The couple was trying to go back to school and finish their educations, they both had jobs and they have XXXX children. They wanted to take care of their family and they thought taking out a loan would help them get through some difficult financial times. Unfortunately, as is typical with payday loans, they got caught in the debt trap and could not pay enough to cover the fees, the interest and the actual loan. They have carried the debt with them for many years trying to get things paid off. They eventually had to change banks so that they could determine how they spent their money rather than have the loan company automatically deduct money from their account every month. Once they were able to control what was paid and when they began to get a handle on some of the debt. Sadly, they were not able to help put their XXXX children through college because of the financial strain and their children are now young adults without college degrees trying to avoid the same pitfalls. Payday loans trap families into lingering debt that goes on to impact future generations. Please put forth comprehensive strict rules and regulations so that other families do not get caught in the debt trap and future generations will be free of the consequences of this predatory practice.

My wife and I ate struggling with taking care of a XXXX y.o. with a XXXX. He is severely XXXX and is taking an XXXX medication that keeps him fairly even with his XXXX. I would say that he act fairly normal about XXXX of the time but the other XXXX he is either way up and happy/angry or severely depressed. He gets a XXXX check every month and it is direct deposited into his checking account that requires XXXX signatures for withdrawals. He recently went out, depressed from a break up with his girl friend and took out a payday loan with Money Tree and Check City for $200.00 each he was also charged $35.00 service fee. He needed no credit check and only had to show a determination letter and his I.D. Why do we allow “payday loans” to people that receive XXXX checks? There should be a law against giving these loans to welfare recipients!

Credit loan service from payday loan companies had called me and I give them my personal information and I looked them up online they say it was a scam and I give them all my information.

I was called from a payday loan and I give them name and all my information and I looked up the loan companies and it was a scam and I give them my idea.
Sometimes I spend a little more than I should and what I'll do is get a quick cash advance to get me on track. It's not a necessity but I like to use it for extra cash or to get me back on track when I stray from my so-called budget. I'd like to think that the government would be able to see how much this helps people.

Most of the time I'll get a cash advance to help me out with my bills and emergencies when they come up. With the way my credit situation is I'm unable to get a regular loan so it's been a really good thing for me to have when I need some help.

The cash advance at times helped me balance out some of my bill payments when the bills are due before I get my next check. It really helps me to avoid those late fees too. I do not have any family in the area to borrow from so this works well for me. The late fees I know would pile up and end up being way more that what a quick cash advance would cost.

I will normally use the cash advance for an upcoming bill that I know I'm not going to be able to take care of because of when my paycheck falls. It's such an easy process and the fact that there is no kind of credit check or a lot of paperwork is wonderful. The stress that this service eliminates in my life is fantastic.

There are many things that the cash advance helps me with. First of all it makes sure that my checking account doesn't get any overdraft fees which is ($35.00) a pop. So for me it's a safeguard against the fees. My life would be so much more difficult if this were ever to be eliminated so I would hope that the government would take a close look at how such a move would effect the everyday person out here.

There have been times in the past when my check was not what I was planning on it to be and it put me behind on some bills. The good things is I was able to get a cash advance quickly to help me get those bills paid and not fall further behind. For me it works great and I'm so glad it's here because I just do not have any other way to get any other loans.

Sometimes I have things come due before I get my paycheck. Whenever that happens to me I will go and use the cash advance to get my by until my next paycheck comes in. Usually it's just used for bills but really it can be used for any emergency situations that pop up.

I use the cash advance program to pay my bills on time. It allows me to still have money for other obligations as well. If it stopped tomorrow, I wouldn't have another option. I would have to ask family members and they have their own bills to pay.

I've had times when I've needed help paying my water bill or my light bill and the cash advance is what I get to make sure no the are paid on not shut off when I do not have the money to get them paid. I absolutely do not know what I would do without it. It's fast and easy and a big help when there just is not enough money left over after I get paid and other things get paid.

I have XXX teenage children at home which is very expensive and there are just times when I need some help and the cash advance provides that for me. I have very bad credit and I only have this option for help so I want the government to stay out of our business and let this be here for me and others.

For the most part I will use the cash advance to help me out with my utility bills when they are more than expected. It also gives me a little cash left over before my next payday. It would be such a struggle in my life if I did not have something like this to fall back on for help when I needed it.
I will use the cash advance for my son's medications when I'm short and don't have enough to get them. There have been a lot of issues with me getting paid on time and it's nice for me because they always work with me if I just need an extra couple of days to pay it back.

I enjoy having cash advance, it's very helpful. I've been using it to get by. If the cash advance unexpectedly ended, well it's a good thing I caught up on my bills!

There are so many things that the cash advance helps me with. It could help me with paying my rent or emergencies or even for some food when I run out of money and I'm just a few days from getting paid again. What I really like about it is that it's quick and you get cash right away and don't have to wait for it like at a bank and a regular loan.

Amscot cash advance helps me keep my monthly finances paid in full and helps me in ways related to work such as gas expenses and buying house supplies. If it were to stop today I'd probably be in a bind and behind on my bills and won't have money from check to check.

Cash advance helps me a lot. I am a single mom XXXX and sometimes I'm short on cash. I use it to help pay my bills or to put food in my house after paying bills I'm broke. I get it almost twice a month so if it was to stop tomorrow I would be without either food or gas in my car and would not be able to get a cash advance anywhere else.

I will use the cash advance at times to help out my daughter who is in college. It's very affordable and hassle free and me being able to be able to help her out with contributing to help her get her education is a big deal to me. It would be a sad day if this were to go away. It has been a blessing for me to have when I need it.

I've been helping my daughter out recently because she has been going through some rough times. I'm so glad to have this as an option because without it I would not have been able to help her and as a father I always want to be able to help out when I can.

The cash advance program has helped me and my family out a lot. We have used it when something happened to the vehicles. It has helped us get through until payday. If the cash advance program disappeared I don't know I would do when things come up with our vehicle or family. I'm so thankful to have this program.

Things that I usually need help with paying at times is my rent and some credit card payments. I'll use the cash advance when ever I need help with those XXXX mainly. I like it too mostly because it does not require a long commitment and can be paid back quickly. I'm happy to have this service because in this day and age there are not many things available that can help me out when I'm in a jam.

There are times when I have a need for a short term loan and there are not many options out here for that kind of thing. Generally I will use the cash advance for that reason to help with a bill or for the rent. It's so nice to have this quick type of loan available to me because it helped me quickly and is not a long drawn out process. In fact, it keeps my stress level down because I always know I can count on it when I need it.

I just get so much money after retiring and I am taking care of my nephew full time and the cash advance has seen me through some very rough times. It really helped me in the times when we even did not have enough money to buy food. The fact that it does not require any type of credit was a blessing because I can't get a loan from a bank.
I try to hold out as long as I can not to have to use the cash advance but when I need it it sure is handy and a great way for me to stay on top of things when I runs short on money. Being a single mom I do nt get any other help so this is such a good thing for me to have helping me through things. I never need anything long term so this fits my lifestyle perfectly.

When I m ever in a jam I ll use the cash advance to help me out to pay for things that I may have forgotten about or if I run short on paying things like my credit card bill. I really like how quick and easy and hassle free it is. I also like it because when I m done with it I m done with it, nothing long term.

My work sometimes slows down and I do nt get all the hours I normally get so there have been a few times when I ve used the cash advance to help sublime not my paycheck until my next normal check comes in. With the position I m in right now this was the only option for me that fit my needs.

I use the cash advance for various things. It s been a great tool for me to have as my backup plan when things fall apart or emergencies happen. I ve check my other options and for me this is by far the most affordable product at my disposable. I find it very disappointing to hear that the government would want take away or limit our ability to short term loans. If they take it away then they better start offering something like this.
My father had an insurance policy with Prudential Insurance. After his death in XXXX XXXX the company paid out the correct amount to me and my XXXX sisters. My XXXX portion of the proceeds was left in a Prudential Alliance Account. It totaled around ($11000.00). Prudential Alliance sent me checks, and the last number on those checks was XXXX. I was able to write out a check anytime for any amount up to my balance.

During XX/XX/XXXX my wife and I bought a house and used some of the Alliance Account money as part of the down payment for the house. On XX/XX/XXXX, I wrote out a check for ($7500.00) from the Alliance Account and deposited it into our Wells Fargo checking account. I never wrote out another check on the Alliance Account.

XX/XX/XXXX we received a notice from Prudential that a check bounced from the Alliance Account. Knowing that I did not write out any other checks I called the Alliance account. I was told that previously a ($2500.00) check was cashed. After the first check was cashed another ($2500.00) check was attempted to be cashed, but because there was not enough money in the account the second check was returned for insufficient funds. This was tried a third time and again a check was bounced.

Apparently someone copied the one and only check I wrote out, gave the check a non-existent number (XXXX) and added the name of a payee that I did not recognize. The check was for ($2500.00). It was cashed through a bank in Michigan. Alliance told me that I had to file a police report, and I did with the XXXX XXXX County Sheriff s Department. I had to submit telephone records to the police, and finally the detective on the case concluded that I was not the person who cashed the ($2500.00) check. However, after more than a year of emails and phone calls Prudential wrote me a letter saying "We have found there is no Prudential error warranting reimbursement of the funds." I think Prudential certainly had some responsibility to protect my money from fraud. The check number on the fraudulent check was XXXX, and there was no such Alliance Account check number among the checks issued to me. Prudential was certainly negligent to pay on a check that purported to be an Alliance Account check that had a non-existent number. If Prudential chooses to cash checks it has issued to its account holders without confirming the number on the check that s its business, but I should not have to pay for that negligence and lack of responsibility.

The letter I received also said my case is considered a criminal case and the Prudential investigation is closed. Therefore they will not reimburse me for my ($2500.00). I believe that they have a fiduciary responsibility to me and to their other Alliance account holders to be more responsible in the way they pay out on our checks.

Thank You

I have used the cash advance service when the XXXX did not pay XXXX for a month. The cash advance has helped me to try to make ends meet until my payroll becomes current. Discontinuing the cash advance service will create additional burdens for families in need.

October 7, 2015
I tried to pull money off of my credit card so I could pay a bill I have that only takes cash and it did nt work so I came in today and got a cash advance which gives me cash on the spot and made it possible for me to get that bill paid before it was late. I would nt be able to borrow from a friend so I m sure glad this was an option for me.

October 7, 2015
Bills or any kind of medical need is what I mostly will use the cash advance for when I m in a pinch. The cash advance is reliable, fast and easy. I really like it. With where things are in my life right now I choose this as my way to get the help I need.

October 7, 2015
The cash advance helps me out tremendously by helping me take care of things like a bill that may pop up when I least expect it. It great because it s simple to get and fast which means my problem is taken care of fast. If this was gone my bill collectors would just have to wait which means I d be slapped with late fees.

October 7, 2015
I will mostly use the cash advance for when I run low on groceries at home and I m getting my check in a few days. It s so quick and easy, no red tape. It keeps me from having to ask for a handout or go to social services. I like that it keeps me independent.

October 7, 2015
Being on XXXX I m on a limited income and there are times when it just does nt last tho whole month .... usually just by a few days and the cash advance helps me out for those few days until I get paid again. My sister actually let me know about this and how it helps here out when she needs help. Honestly, I do nt know what I would do without it.

I use the cash advance to help me out with bills and to make sure that I do nt overdraft my checking account. This is the only thing I have ever known that is affordable and helps us out quickly. I would be in a lot of trouble and things might get cut off if not for the cash advance.

October 7, 2015
I only use the cash advance helps me out with my rent now because reLly it s more than I can afford. I m in the process of moving to remedy this situation but for now it s helped me pout tremendously. There was also a time when I used it for a care repair. This is way better than trying to pawning something. To be truthful I would have been homeless.

October 7, 2015
Sometimes I run short and when I need help I always choose the cash advance as my way to stay ahead and take care of my bills or things like that. I do nt like asking my parents for help because they are struggling too. I used to do title loans but they got out of hand and were way too expensivefor my budget. With the cash advance its easy for me to pay back.

October 7, 2015
The cash advance is a vital tool for me in my everyday life when I have something come up and I need a quick short term loan to get me through a situation. I have no idea what I would do without it except start crying because it s such a big help to me because I do nt have any other options in my life where I can get this type of help.

October 7, 2015
The cash advance is such a great thing to have a it s me when emergencies come up. I recently had a car repair that came up exactly when my bills were due so instead of being late on my bills and getting late fees tacked on I got a quick cash advance and it solved all my problems in a flash. My relatives could nt help me because of the amount I needed so I m sure glad it was here for me.
I like to be able to help out my son every now and then and the cash advance makes it possible for me to be able to do that for him. There have also been times that I’ve used it to help me get my car fixed when I just didn’t have the money at the time to get it fixed. I really can’t understand why in the world the government would want to take this away from us. They should really stay out of this because nobody made come in and use this service, we use it because it helps us out.

Normally I use the cash advance to help me when I do not quite have enough money to complete paying my rent. I still use it sometimes for other bills too but really it’s my rent payment that I usually need help with. It’s never fun to try to borrow from a friend or something like that so I’m so very grateful that the cash advance is available to me when I need it.

Cash advances help me out in so many ways like if I have a bill that comes due just before I get paid or if I have an emergency situation that comes up and I need to get some quick cash. I really like how quick it is and does not require a credit check. I truly do not know what I would do without it.

If ever I have a bill that comes up just before my check comes in I’ll run and get a quick cash advance to help with that. I’m not eligible for a loan from my bank so this is it for me. I think it’s very fair and reasonably priced. It keeps me going when I need some help which is more than I can say for the bank.

Since I recently retired and my only source of income is my social security having the cash advance allows me to get by sometimes when waiting on my check. I would be homeless if I did not have this. I would be lost and I just do not know who I would turn to if this was taken away. I do not abuse it. I need it.

Having the opportunity of a cash advance has helped me assist with my monthly bills and able to support myself and family. Not being able to have this service will most definitely put a huge burden on myself and family.

The reason I use cash advances is because I do not make enough for my family of XXXX. I am the only one who works and after all the bills I normally stay without. Since I been using the cash advances I am able to buy food and other personal things that my kids would normally go without. These cash advances help so much and even if you use them once a month it makes the difference when you open your fridge and there’s food for your kids to eat. If they stopped tomorrow doing cash advances my kids and myself would end up not being able to buy food or even the little things that people do not tend to think about like shampoo or even diapers and wipes. Cash advances are a big help for me and my family.

The cash advance helps me to be able to cover my bills when I’m short. In other words it keeps me going when I’m short until my next check comes in. I used to use the pawn shop but they became so expensive and the cash advances are very reasonable. I would really be out of lunch if I did not have this to rely on when needed. I can tell you a lot of people would suffer.

We recently went from a XXXX income family to a XXXX income family since my wife was XXXX and the cash advance has been helping us along while she recovers. It’s been great to have so we do not fall behind on any of our bills. My bank asked for too much from me when I went to them so I’m grateful this was available to us when we needed it.
For the most part I'll use the cash advance to help me with my bills and groceries when I'm running short on cash. People I know do not loan money to anyone anymore so the cash advance is my only hope when I need help. It's very selfish I think that the government want to do away with this service. They just do not realize what is going on out here and they need to stay out of our business and just leave us alone. and leave the cash advance alone.

With me being on partial XXXX and can only work just so much the cash advance is a big help to me while my life adjustments are taking place. It's such an easy way to handle my financial shortfalls. It really does not make sense for the government to want to take this away when it helps so many people who may not have many options. It's a service just like renting a car. you pay a fee to use the car. I hope the cash advance stays with us because we need it.

When things get tight and I need just a little bit of cash to get me by, the cash advance is what I use to get me over the hump until my next check comes in. Mostly it's just a fast and easy way for me to catch up on a bill or something like that. It has saved me many times from having to pay late fees so it's a great help to me.

Whenever I get into any type of financial jams I will quickly use the cash advance to help pull me out of those jams. I can't think of anything else that's this affordable and fast when I need a short term loan. There are no other options for me at this time and to think that the government would even think of taking this away is ludicrous.

Helps me between checks in case of emergencies. If it was no longer available I'd have to give up buying groceries or skip paying bills. It's helpful for people who need a little extra and can't get a second or third job.

I just had a baby and the cash advance is helping me out with all the expenses associated with it. I can't borrow from anyone so this has been such a big help for me and my little girl. The government should stay out of our way and not try to dictate how I handle my financial situation.

I'll generally use the cash advance for bill paying issues that come up when I'm in between paychecks. I do not qualify for any other type of loan out there so this is is for me. I would have to borrow from a family member if this were not available to me so I'm glad it's here because I do not want to have to go to my family for help if I do not have to.

I use the cash advance for my major issues that has been going on like my XXXX. Things are getting better and it's sure been a lifesaver for me to have during this rough period of time in my life. If the cash advance stopped tomorrow I would not eat this week and would not have a place to live. Keep the government out of our business!

Sometimes I just do not have enough money to pay all my bills. This is where the cash advance comes in handy and bails me out and keeps me going until my next check comes in. I've thought about it before but I just do not have any other options to help me out when I need it.
Director XXXX XXXXBureau of Consumer Financial Protection XXXX XXXX XXXX XXXX.

A new policy brief released yesterday provides a state-by-state snapshot showing predatory payday and car title lenders increasingly moving into installment loans. The lenders are continuing to offer unsafe loans with excessive interest rates, which are carefully designed to trap borrowers in a cycle of debt they cannot escape, and actively seeking to expand into new states. The report highlights that just because lenders are making an installment loan, it is no guarantee that it is a safe loan. The report makes recommendations to regulators and policymakers to protect against harmful debt trap lending.

Whether we are talking about a payday loan, a car title loan or a high-cost installment loan, the fundamental harm is making a loan that a borrower cannot afford to repay. While many states have acted to protect their people from predatory payday and car title loans, this report shows that abusive lenders see installment loans as a new front. Regulators and policymakers should beware.

According to CRL, payday and car title lenders were offering installment loans in XXXX states in 2013. Today, they offer installment loans in XXXX states. Installment loans are structured to have multiple payments stretched out over significantly longer periods of time than traditional single balloon payment payday or car title loans. Despite this difference, CRL documents that these loans have similar characteristics including: a lack of underwriting, access to a borrower’s bank account or car as security, and excessive fees that create a pattern of re-borrowing. While the borrower may be hounded by a debt collector or wage garnishment once they have defaulted on their loan, lenders often have collected more than they loaned in the first place after only a few payments.

The report also documents recent state-level legislative activity, showing that many states have rejected proposals to weaken their state laws by allowing the creation or expansion of dangerous installment loan products, including those structured as open-end lines of credit. States must continue to enact protections, such as a 36% or less interest rate cap, inclusive of all fees and finance charges.

The report comes as CFPB is considering new rules to curtail abusive payday, car title and high-cost installment lending. It is vital that the CFPB’s rules ensure lenders assess a borrower’s ability to repay the loan without delaying or defaulting on their other expenses or creating a cycle of repeat refinancing. The report makes recommendations for policymakers and regulators.

Take time to review this report and give it the weight it deserves.

Thank you for the opportunity to bring this report to your attention.

I have not used the cash advance in a long time but recently we had to get a new car because our old one died so the cash advance helped us out with paying our bills because we had to use our bill money for the down payment for our new car. We do not know what we would have done without it except I guess take the bus to work.

A lot of times I will get a cash advance to help me out with my bills. My power would be shut off for sure if this was gone. I think the government should concentrate on getting rid of those online traps for cash advances who basically steal from their customers.

In case I ever need some help with any of my bills especially the electric which seems to higher every year I use the cash advance to be sure that my bills stay current and keep things on. I cannot get any other types loans so it is important for me that it is always available.

I recently found myself to be homeless and the cash advance helped me get into a place by letting me to be able to come up with a down payment. For me this was the only type of short term loan that I could get and I am sure glad it was here or else I'd still be on the streets. It is just awful that the government would want to do away with this program when I know that it really helps so many people.

A lot of times the cash advance saves my life. I always use it when I'm short on my bills getting paid on time. It's been so nice because there have been times I needed a little more time to pay the cash advance back and they did not have a problem with it. I'd like to tell the government that when they want to take this service away it would sometimes be taking food out of my mouth literally.

If I get behind on my bills the cash advance is great for me. I have used it in the past too for car repairs. It's so much quicker and is immediate cash when I need it. I would have to go to the bank if it came down to the cash advance being taken away so I'm really hoping it does not get taken away because I do not like dealing with them.

I get paid every 2 weeks and sometimes I need help paying my half of the rent. It keeps me from having to pay any late fees on the rent and to cover the electric bill on the due. For me there are not any other options at this point in my life. I want the government to know that I really do not what I would do without the cash advance and they need to keep it available to people like me.

I'm trying to keep my head above water and there are some months where I run out of money because I do not get much in social security. So when I need some help I'll do a cash advance to see me through until my check comes in. It's been so helpful to me since my bank won't help me and to be honest if I was not able to use this service anymore I'd probably be living on the streets.
The very first thing that I need to say is that we never contacted anyone for a loan or made the attempt for either of the XXXX internet payday loans. We did not take or request loans. Actually XXXX listed loan is on XXXX, and we were on vacation in XXXX, Florida at the time. This was on a Sunday.

This has been going on for several weeks. This has to be identity theft! We have been hounded about XXXX loans that we (my wife, XXXX) was allegedly supposed to have taken out, payday loans on the internet. After refusing many of the robot calls from XXXX about the XXXX alleged loans, I called the contact number XXXX that was listed in the voice mail, to try and research the claim. She has not been answering calls that she did not have in her contacts. So I called, the number in the message. And that was supposed to link you with an agent to take care of you. We get XXXX or XXXX calls a day. My wife and my daughters cell phone are also getting calls.

I gave them the account number listed XXXX and was transferred to a XXXX XXXX. I spoke with him for a few minutes trying to get information. And after I did not confirm anything with him, he started giving me some info that he had, after talking and hearing my answers. He had XXXX email, social, work name and address, our bank of XXXX, our address, home phone number and cell phone number. I confirmed her email and social only after he gave it to me. I told him her email account is not used...

He said he had a meeting in XXXX minutes so he called back. When he called back, he told me the first loan, (turned over/sold to them?) from Triple Services LLC. First loan was for $970.00 acct # XXXX. Second loan, from Cardinal Management, is for $710.00 acct # XXXX. (I think I have the acct # and the dates and names linked.) He was trying to get me to offer to take care of this and get a lower price...

When he asked if I was going to take care of this now and I said not right now... All I was looking for was researching this issue. I did not tell him but I needed a way to be able to mail the company a DEBT VALIDATION LETTER. I asked for the name and address, and I mailed this certified mail with return receipt request, on XXXX.XXXX.XXXX What I understood him to say was C. R. M. XXXX XXXX XXXX, XXXX AZ XXXX XXXX We did have had payday loans in the past, but nothing in the wishy-washy time period he was trying to get me to say might be true... XXXX XXXX or XXXX XXXX.

Called today XXXX XXXX around XXXX XXXXI spoke with a lady at CRM and asked for information, and when I asked for XXXX XXXX and was put on hold for XXXX minutes.

I hung up and called CRM again. I spoke with a lady that told me that this is Compliance Risk Management, XXXX AZ XXXX. She gave me different information (dates for the loan) but confirmed CRM’s address for me. The first loan XXXX, Cardinal Management and the second loan, XXXX with Triple Services LLC.

My research is that the XXXX number is a clearing house phone number system. All calls are sent there and then forwarded thru to them.

Debt validation letter mailed at XXXX from XXXX Oh XXXX XXXX called on XXXX at around XXXX and asked if I was ready to take care of XXXX loan...

I told him that I am researching this and not until I got an answer to this issue...

I am researching at the FTC site for what I should do...

I think I need to call for any help that I can get.

My social security check sometimes does not make it to the end of the month and the cash advance will help me out with groceries. It is so convenient and nice to have as a backup situation and I can buy groceries just before I get my monthly check. Getting a cash advance is so simple and the cash is immediate. You do not have to jump through hoops to get one which is so nice.

I use the cash advance for added expenses like when I want to help out my family with either buying them something or if I just want to give them some extra cash to help them out. It is very convenient and the fee to get one of these is very affordable. It works good for me because it is short term and I can get exactly what I need and pay it back quickly.
The cash advance provides me with the extra cash I need for when I want to either buy something for my granddaughters or if they want to do something then I can pay for it for them. I do not get a lot from the government each month so this really helps me a lot. I can tell you that there have been times when I've also used it to buy food for myself when I've run a bit short a few days before I get my check.

I'm on XXXX and there are times when I may need a little bit of help the last week of the month before I get my next check. The cash advance helps me fill in the gap during that time and also helps me out when something unexpected comes up and just need a little bit of cash to help me get by. Banks do not make it easy and seems like they really do not want to help people so I'm greatful for this service.

I've been using the cash advance lately to actually get some of my stuff out of the pawn shop. This is so much cheaper than the pawn shop and when I'm done getting things paid off with them I'll strictly use this service in the future. The government would be taking away a lot of people's security if they stopped this which would lead to a lot of bad things happening.

Whenever I need help with any of my utility bills in a particular month when I might be short on cash I'll use the cash advance to be sure everything is paid and paid on time. My only other option would be to borrow from someone I know and for me I just do not like doing that.

The cash advance is really only used by me to help me out with my car payment and nothing else so far. I've found that the cash advance is much easier to get and with a lot less hassle then trying to get a loan from my bank where they want to know too much about me. I would be really hurting for money if I did not have this to help me out with my car payment. I know I would most likely lose my car.

The cash advance has been keeping me going when I have some bills that need some extra attention. I've gotten rid of my credit cards so I do not keep racking up more debt so really the cash advance is like my bank and credit card when I need helps with things. At XXXX it keeps my stress level down.

If I get behind on a bill or some kind of emergency comes up the cash advance is there for me when I'm in pinch. And now that the holidays are coming up I know I'll use it to help me out as well. This has just been such a wonderful program and I'm so glad that it's here and I'm really hoping the government thinks twice about getting rid of it.

My light bill just seems to be getting higher and higher and with me being on a very tight fixed income the cash advance has helped me mitigate that bill when it's higher than what I have budgeted for. I do not have anyone I can ask for help so I really do not know what I would do without it. I guess I just would not have electricity until I got paid again.

I use the cash advance for a specific reason. My bank is not all that close to me so instead of going all the way to my bank if I need money, I'll use Amscot and get a quick cash advance. For me it's worth the fee because it's so fast and convenient.

The loans help me when my girls in college have unexpected expenses. I can always get a payday loan to help them. I then can pay it back out of my next XXXX paychecks.

The loans have helped me make my trailer lot rent on time. It is always due between my paychecks.
The loans help make it possible to keep my bills paid on time.

More or less I'll use the cash advance to help with the things that come up from time to time like emergency car repairs. I have XXXX credit so for the most part this is my only option. It has helped me be able to continue to work and keep my bills. This make it so I can handle things myself and not rely on others.

The payday loans help when something goes wrong on the car or anything that matters.

The short term loans have helped me out tremendously with catching up on my bills.

I have XXXX jobs and am going to school and the cash advance helps me out a ton. There have been so many times that it's helped me avoid paying any late fees because it enables me to keep current and never late on any of my bills. I trust this type of service because they always work with me if I need a couple of extra days to pay back which I know a bank won't do.

The payday loan service is such a good help for me for keeping my bills paid on time. I'm also a grandfather and I like to spoil my grandkids a little so I'll use it for that as well. I like taking care of my financial business instead of going into my savings. It's worked really well for me and I'd like to think that it will always be here for me if the government would just stay out of the way.

I'm in the process of helping out my son who recently lost his job and the cash advance has been making it possible for me to be able to help out which is nice. The fact that it's easy and simple and isn't invasive on my personal information is what makes this so attractive to me.

I'll use the cash advance for so many things in my life it's helped me and my family so much throughout the years like if I have a bill I need help paying or just need to get some food for the house. This has been an easy way for me to be able to get the money I need quickly and without any hassles. If this was to stop then I guess I'd have to try to go back to work and at age XXXX it would be hard to do.

Cash advances help me make it to the next payday! If it was not for cash advances as a single mother would not make it till the next payday! Please do not take are cash advances away. I do not know what I would do if it was taken away!!!

The cash advance really fit in with my life perfectly. If I have a bill that pops up that I was not expecting or if I just want to use it for some extra money to go camping. This is so convenient and easy and it's just a wonderful option for me because I just do not like dealing with the banks. This is just another privilege that the government is trying to take away from the regular person out here.

I mainly need the cash advance to help me out with some of my bills when I'm short. If the government takes this away I will get some pretty heavy late fees or even worse have something shut off. I do not think it's fair that the government wants to do this. It's our choice if we want to use this service and they should just leave us alone.
The cash advance helps me get to the next pay day. When rent is due I am in a bind for the next two weeks I make a decent hourly wage but it still is not enough to pay rent, electricity, water, cable, buy groceries let alone children’s extra curricular activities. If the government was to stop pay day advances the average citizen would probably be homeless or without electricity...

I'm a retired veteran and the government does not really help me but I always know that the cash advance is there for me when I need help paying a bill or buying some food. I think the government has better things to do then try to take away something that truly helps people.

The cash advance comes in very handy for me to get by sometimes. I've had situations where we needed help with a bill or something like that and this service has been a godsend to me and my family. I can tell you that if the government decides to take this away then they better provide and alternative quickly.

Sometimes I need help with getting my rent paid or maybe my electric bill. It's nice for me to have the cash advance to fall back on in those times. It's really needed because I do not have anyone to lean on like I can with the cash advance.

I use the cash advance for my rent. I also use it for my light, water, daycare and cellphone. If cash advance stop tomorrow I will not be able to pay my bills on time and would not be able to support my family.

The payday loan helps me out with being able to stay on top of my financial obligations. It has also come in handy to use when I want to take a short vacation and just want a little extra cash on hand just in case. In the end, it cost more to bounce a check than it does to pay a minimal fee for a payday loan.

Every so often I get a little short on either being able to pay for something or to help with a bill and the cash advance allows me to be able to stay on course since I only get paid once a course. It makes my life so much easier to handle things when they come up.

I will use and get a cash advance for getting a bill paid that maybe I had forgotten about and makes my monthly check last a little longer than normal. The interest is not as bad as other things that I've checked into. If the government takes this away from me then I'll have to go and get a regular loan from the bank and I just do not want to do that.

I use the cash advance for temporary cash flow issues when unexpected expenses arise. Perhaps if traditional banks would be willing to assist their customers we would all be better served. Unfortunately that is not an option for most people.

The cash advance is like having a back up bank. Since my wife has passed away and things have been a little rough for me so I'm really so happy that this is here for me. This has been very convenient and handy for me and I only use it when I need it. I suppose if this were to be taken away from us I'd have to come out of retirement and go back to work which I'm hoping I do not have to do.

When times get rough and my check does not cover what needs to be paid the cash advance bails me out and helps me out in a flash. Banks do not loan just small amounts of money like the cash advance does. There are no other options for me as far as I'm concerned.
150930-000524  September 30, 2015  Sometimes I need help getting some bills paid because I get paid every 2 weeks and my bills do not always line up with when I get paid so the cash advance is a big help to me to make sure all bills are paid on time, no matter what the bill is. It’s really nice to have this because in the past I’ve overdrawn my checking account and got hit with a lot of fees so this is much more affordable than bouncing a check. For now this is the best option for me.

150930-000496  September 30, 2015  I’ve been a loyal customer of Amscot for the last 7 years, and. The only thing that. I have to say it’s only good things, this advances has help me so much when my husband passed away I neede it cash and. Quick and this. Was a life saver also it helps me with my bills when am a. Little behind. I. Love they are around and in all the places very convenient.

150930-000433  September 30, 2015  The cash advance for now is actually helping me pay off all my credit cards which kind of got out of hand so I’m getting myself close to being debt free by using this service. It’s helped me keep on my plan and make steady progress on my financial situation.

150930-000391  September 30, 2015  I use the cash advance for keeping me on track and my bills and for helping me with my rent payment. The fee is very fair and much better than using a credit card. It’s never fun to ask for money from the family member so for me it’s been a great help to me.

150930-000239  September 30, 2015  Specially I’ll use the cash advance to help me out with my mortgage payment or for car repairs when something has come up that leaves me short on being able to get them paid. If the government takes this away from us and me then there would have been times that I would have missed work because I did not have the money to get my car fixed.

150929-002063  September 29, 2015  Every first of the month all my big bills come due at the same time so the cash advance helps me supplement my income so that I can make ends meet. I’m a single mother with XXXX teenagers and they are always needing something. I really do not have any other options because I do not believe in credit cards. I just do not know what me and my family would do without it.

I'll use the cash at times when I have an emergency that comes up and needs to be taken care of quickly. I think it's very reasonable and easy to pay back. I do not want my borrow from my family so it's been so helpful to me because I just do not want anyone knowing my business.

Usually the cash advance helps me out with some bills or if something comes up and I need money now and I know I'll have it in a few days. I do not have any other way or any other options and really usually only need a little bit so this has worked out prefer for me. It's really nice to have this option.
Most of the time the cash advance is used by me to help out with bills but today I am actually using it to pay my property taxes. I do not have much other options because I really do not have anything to pawn so the cash advance is truly my only hope in life.

The cash advance is such a handy thing to have when I am waiting on my social security check to come in. It helped me out with my electric, cable and water bill in the past. My only other choice would to be late on my bills if this was taken away so I am hoping that the government thinks twice before they make such a rash decision like this.

Sometimes the cash advance will help me out with some bills and sometimes after my bills are all paid I just want to have some money in case something comes up. I use this instead of putting things on my credit card because I know that it has to be paid off quickly.

Recently I have filed for bankruptcy and am still trying to get back on my feet. I have means to borrow from my family who has a lot of money but for me I like using the cash advance as not to put my problems on them. Things are getting much better and the cash advance is like my bank for when I need some extra cash for bills.

I used to get a trust fund check every month but now that it stopped I am in the process of re-budgeting myself so in the mean time I am using the cash advance to get me through this. It is so much easier than trying to borrow from my friends because that can get old and it puts a strain on the relationship.

Honestly I typically will use the cash advance to help me out with my rent payment in the months where there are 5 weeks in the month because I only get paid XXXX. So for me it s been a godsend. I do not know of anyway or anything else that s out here that can help me like this. It s so much cheaper to do a cash advance than to risk any overdraft fees from my bank.

I can tell you that the cash advance is the simplest, fastest and most affordable way for me and my wife to get just a little cash needed when we fall short on getting a bill paid. Anything else out there really is not an option for us either because of our credit or too expensive.

The cash advance helps me pay my bills and helps me with things through out the month and if we re to be taken away then I would be able to get the things I need to get me through the month.it would hurt people who need it and do not have it at the moment so my opinion nips to keep it because it helps out a lot.

I use the cash advance for bills and it helps me be able to pay my bills on time when I need extra assistance. If the cash advance was to be taken away I would not be able to pay my bills on time and my credit would end up being affected as well by it.

The cash advance helps me catchup with my finances due to being off XXXX. If the cash advance option would be taken away it would be very difficult to make ends meet during my off time.

Cash advance helped me out today because my new payroll company made a mistake and the companies checks were not deposited on time. Now I am able to pay what I need until my check is deposited and I can pay the advance back. If it were not for the advance I d be unable to pay my bills for the next few days.
There are many different things that I use the cash advance for. It's just a nice thing to have in my back pocket for if I have a bill or car insurance that I'm short on. The fact that the process for the cash advance is so simple and you don't have to jump through hoops to get makes it so very convenient. For me this is not only the best option for me it's my only option.

Most of the time the cash advance helps me when I have bills that come due before I get my next check. This way nothing is late and I stay in good standing with the people I owe money to. Bank don't lend a small amount and from times come up every now and then when I run a little short on cash to get a bill paid and the cash advance is what I use to get the bill paid so I don't get any late charges or risk something being shut off. The cash advance I much better for me then to go to a bank because they want a bigger loan and much more paperwork. What I can see the cash advance is the only way to get a smaller amount which is really all I ever need.

I've been having some issues with my budget lately due to some problems with my paychecks at work. I can tell you that the cash advance has been helping me out with keeping my bills paid on time while I get myself back on track. I can't borrow from my family so for me this is a lifesaver. I would truly be in debt if I didn't have this to fall back on because the added late fees that would happen would just put me further behind.

I don't get much on my monthly social security check and sometimes I run short just a few days before my check comes in and usually I will get a quick cash advance to tide me over so I don't have to borrow from any of my family or friends. I would be sad if the cash advance would stop because it keeps it really helps me out and keeps me independent.

The cash advance/payday loan helps me make ends meet every now and the. When I don't have anyone else to rely on this is my go to way of getting some quick help. The good thing about this is that nobody knows your business and you can handle thing by yourself. I can tell you for a fact that this works better than a credit card.

It depends on what the cash advance helps me with. It could be for help paying a bill it could be for groceries or for gas. I never really know what I'll need it for. I don't use credit cards so really I use the cash advance like you would use a credit card. My choices are very limited to I truly like the cash advance helping me out when I need it.

With my husband being the only one working now that I m not working the cash advance has help me and my family survive until I get another job. It s helped with all my bills, food and gas. We would probably loose our home if not for this service. It is terrifying to me to thing that the government would ever even think of eliminating this vital service that is such a necessity to me.

So that my bills do nt get paid late I ll get a payday loan to help make sure that nothing gets cut off or get slapped with large late fees. It s very easy to get and hassle free. I do nt have options other than this so I m telling you for sure that I d be in a lot of trouble if I did nt have this for help.

Cash advance are such a great thing. It does nt require a credit check or all the embarrassing question that come up with a regular loan. It s been a wonderful thing for me to have access to to help me out with my bills while I m waiting on my paycheck to come in. If this were gone I guess I d have to try to get a part time job but I just do nt have the time for that plus they are hard to find.

If I run short on getting a bill paid like my electric bill or even my rent payment, I ll get a cash advance to help me out. I ve been to, XXXX by some of my friends how this type of service can help people out when they are short on cash and it sure does. It s quick and easy and fits my needs perfectly. This is way better than asking my dad for money.

I use the money from my cash advance to cover my medicine that my insurance does nt cover. This equals about $ XXXX month. I can survive without so I would be hard pressed without the convenience of the cash advance.

The cash advance is used by me strictly for emergency issues that come up. It helped me with things that come up that are nt normal in my budget. I do nt have anything I can pawn so if this were to stop or be taken away from me I would be in a world of hurt. I ve developed such a good relay with the people I get the cash advance from and there is a lot of security in that.

Payday loan are my way of catching up on some bills whenever I fall behind.mit does nt happen often but it s such a great and fast way to handle any of my issues that come up. I really like the simplicity of it and it does nt require a credit check. It s not that I can get more hours at work so this is the simplest way for me to be able to get some extra cash when needed.
Mostly the cash advance is my way of taking care of emergencies when they come up. It could be a higher light bill than expected or anything that comes up and I need some help quickly. This is really my only choice. It’s very important to me to be able to pay all my bills on time so this program is a XXXX to me.

The cash advance helps me pay my bills. I do not know what I would do if it was terminated. Please reconsider your decision on terminating this program. I have chosen to use the cash advance because it was available at the time of need. I did not have to wait a day or two to receive it.

I’m juggling my bills right now because I’ve started a new job which is paying less than what I used to so the cash advance had been helping me survive until thing level out for me and I get on a new budget. I do not know of any other alternatives since my credit stinks and I do not really have any collateral. I would be in some real hard times if I did not have this for help while I go through this.

Cash advance has helped me out with some sudden expenses after payday when no money was left after bills were paid. It has kept me out of some tough situations. Cash advance has helped to keep my lights on, car fixed and numerous other expenses. It has saved me on more than XXXX occasion.

There are so many reason I’ll get a cash advance. It could help me with an unpaid bill, a birthday gift or just any kind of emergency that comes up. The reason I like it is because it solves problem fast. No waiting for some sort of approval and really the fee is more than reasonable. I can tell you that I would be devastated if this was not here for me.

The cash advance is such a wonderful way for me to make sure all my bills are paid on time when one of them happen to come up in between when I get paid. This has been the cheapest and fastest way for me to get the help I need. This keeps me from going to a loan shark or something like that. I suppose I’d end up pawning my jewelry so I’m so happy we have this. Do not take it away.

I’ll get a cash advance whenever I’m short on getting a bill paid for some reason. I never have much luck at my bank and plus this is a much easier and convenient way to get help because the cash is given immediately. Some of my bills would be late and the fees for them being late would be more than what it costs to do the advance.

I’ll generally use the cash advance to help me out when I may be short on cash to pay my rent or phone bill. I hate trying to get help from my back because most of the time they don’t want to help. I’m really mad that the government wants to take this away ... it’s just ridiculous.

When I’m short on my rent or a bill or even if I have a car repair the cash advance is there for me quickly and efficiently. I tried borrowing from my family but they did not have any money to help me. It makes me feel awful hearing that the government is sticking their nose into my business and making it hard for everyday working people.

The cash advance really allows me some breathing room in between when I get paid. Sometimes I just need a little cash for groceries or gas for my car so this affords me the opportunity to get by on those weeks when I’m short. This is really my back up plan. It provides me with financial security.
I was sold a mortgage refinance "bridge loan" by a Wells Fargo mortgage specialist in XXXX. I was told that it would be beneficial for my tax situation in the short term since I was a XXXX employee at the time and I would have a large interest right off for the year and that I would be able to refinance into much better terms after about a year, assuming I had the same or better credit scores. The terms were 40 years at 8.75%. Obviously, I would have never done this unless it was temporary. A year went by and when I went to refinance I was told tough luck your stuck with the ridiculous terms. My only recourse was to file for a modification. I was denied XXXX separate modifications over the next three years. Each modification application was arduous and painful and very time consuming. I was denied for the first application because I made too much income. I was denied the second because I did not make enough income even though I reported the exact same income as the previous application. The third time I was denied because I did not meet private investor guidelines. I was then told by Wells Fargo customer service over a dozen separate times that the only way that I was going to get a modification was to default on the loan. Imagine the bank telling me to stop paying the bank. I had never made a late payment on any credit I had for many many years at this point. I believe this is when either Wells Fargo or the bank purchased mortgage insurance without notifying me. I believe mortgage insurance was purchased and then I was told to default. I was then told my only option was to short sale. I asked what I should list the property for and listed it for that amount. I had an offer on the property 6 months later in excess of the listing price that was suggested by Wells Fargo. They shot down the offer and then told me to list it for XXXX more. I was told that the Mortgage Insurance company would not accept the offer. At this point I had been in touch with my state senators office, my state attorney generals office, the comptroller of the currencies office, and the office of the president of Wells Fargo. I never had Mortgage Insurance so I was surprised to here a Mortgage Insurance company was involved. I then learned that either the bank holding the note or Wells Fargo had obtained Mortgage insurance without letting me know. Then they turned around and said they had approved a modification but that my terms were way worse and the monthly payment had increased by around XXXX a month. Obviously, I was not going to accept the new and awful terms that were offered in their approved Modification. Then they tried to foreclose on me. I went to an attorney and it was discovered it was a bad loan. It was bad paper and the bank no longer held the note. A federal judge put a stay on my foreclosure. I was then offered XXXX by Wells Fargo in a settlement to vacate the premises and forgive the debt in XXXX XXXX. I vacated the premises and cashed the check. Strange thing the condo is still in my name in XXXX and Wells Fargo keeps sending me bills. I have lost well over XXXX and almost ten years later it has not been resolved. I have filed complaints with no joy and spent hundreds of hours trying to resolve and jump through every hoop imaginable. My credit has been destroyed for almost a decade. Consumer protection? I am sorry but there is no consumer protection. I have done everything in my power to resolve this situation with no joy. The whole thing has been a sick joke. And not XXXX banker, mortgage specialist or any XXXX of the XXXX of bad players got in any trouble. The consumer is the only XXXX whom is completely unprotected. If there was consumer protection I would have at the very least been contacted by XXXX of the many agencies I had contacted and been at least asked some questions. The whole thing has made me sick.

Every now and then the cash advance helps me fill in the gaps like when a bill comes due in between when me and my wife get paid. It's easier and quicker than trying to use my bank. I try to stay away from tapping into my XXXX because of the penalty involved. So it's really a no hassle way to solve my problems.

If I am ever short on a light bill or for rent I'll use the cash advance to help me out real quick. I will also use it for helping me out with the high cost of daycare. So basically if my friends or family can't help me that's when I'll get the cash advance. The stress level that removing this service would be out the roof for me.

The cash advance bails me out of many situations. Like today my granddaughter has an issue she needs help with and if she does not get something paid right away she will have to go to jail so I'm getting a quick advance to help her out. If I had more time I would have gone to the bank but I could not wait so the cash advance really helped us out.
The cash advance makes sure I m not cash poor. I have a strict rule to not ask family or friends for help so this not only works well for me but also keeps me independent. So now using this product I can have my bills paid on time and have some money left over. The government has to take a good look in how this is helping people and not taking advantage of anyone.

When I am low on funds the cash advance helps me take care of things in a flash. The cash advance is super convenient and really there is nt anything else I can do plus I do nt have anyone I can borrow from. So this has to stay around because I would be living on the streets if it was gone.

I usually will use the cash advance for car repairs. The cash advance really has helped me keep my car running on the road. The fact that I can get immediate cash so when things come up I can handle them quickly and affordable. The options that are out here are nt as easy as the cash advance.

If I m low on funds and have an emporium a bill that needs to be taken care of ill use the the cash advance to help me out and not have Ny late fees. I ve also used it to buy groceries when I was out of money and there was nt any food in the house. There really are nt any other options out here for people like myself. If this were to stop I absolutely would nt have any other recourse.

The cash advance has been a wonderful thing to have because I ve had quite a few car and home repairs lately and the cash advance has been such a quick way for me to be able to tKe care of them quickly. It s very convenient and fast so it solves these problems that come up quickly. My life would drastically change if I did nt have this to fall back on now and then.

Being on XXXX and just having a part time job to boot, I ve had a big drop in pay because I was making good money before my accident so the cash advance has been very helpful during this time while I get my finances adjusted to the lower income. I ca nt go to the bank because my credit is nt what it needs to be in order to qualify. I would really be hurting without this so I hope the government sees that and does nt try to tKe this away.

When my wife and I need help with some of our bills then the cash advance helps us out when we get behind or just want to get ahead. Everywhere else we tried to get help from requires good credit which we do nt have so if this were not around we would be lost and probably have our lights turned off many a time.

Cash advances relives my stress. My husband is XXXX employed and when the weather is bad he does nt get paid so this has helped us keep our bills paid on time. If we did nt have this our late fees would be large and put us even further behind so it s really been a big help to me and my family.

The cash advance for me is such a good thing to have when I need help with a bill or if something comes up and I just need to get some quick and hassle free cash to handle a situation. I can tell you that I m not sure if I would be able to survive if it were to ever be taken away from us by the government.

My wife and I both are on social security and with the way we get paid there are months when it s actually a week later than normal and the cash advance is used as sort of a buffer during those long months when there are five weeks in it. This type of service does nt hurt people at all ... it helps them and us so the go enshrouded really think twice before they make a decision.
September 23, 2015  I recently just got put on XXXX and I m still getting things adjusted to only getting paid once a month and so far the cash advance has been helping me along with this. I ve almost got myself in the position to where I wo nt need it but it sure has been great to have during this transition. I typically do nt need much so getting a regular loan is nt needed.

September 23, 2015  Sometimes little emergencies pop up and when they do I m able to take care of them in a timely fashion I ll use the cash advance to pull me through those situation.the simplify and ease of access is what I like most. I would have to turn to relatives if this were not for this and to be honest with you, I never want to have to do that.

September 23, 2015  I only use the cash advance when I m desperate for some extra cash or when I do nt want to put anything else on my credit card. It s fast and easy and I know I ll pay it back quicker then when I use my card. I usually only need help for a short term fix. So for me and for now this fits perfectly in my life. I hope this stays around for me because it really relieves the stress in my life.

September 23, 2015  If ever I m in a tight spot and need some extra cash quick, I ll use the cash advance to help me out. I ve heard about this from some friends and they raved about it and it sure was easy and hassle free. I much would rather doing a cash advance instead of putting things on my credit card.

September 23, 2015  I will normally use the cash advance for emergency car repairs. They usually come up when I least expect it so the cash advance is really great for things like this when they come up because it s quick and easy. It s really important to me to keep my car running because I ca nt miss work or else other bills would nt get paid on time.

September 23, 2015  I was helping out my daughter with some of her expenses so I got a little behind on my bills so the cash advance was helping me stay on track while I got caught up. A friend had told me about this service and it really has helped me out a lot. My only other option would have been to borrow from a friend but I really do nt like doing tha.

September 23, 2015  With me living only on what I get from social security and I have a lot of medical expenses so the cash advance helps me out with all my bills when those medical issues are more than what I ve planned on. I choose to go this route rather than borrowing from my family. I just do nt have many option in my life right now so I m happy to have the cash advance to keep me going when I need help in a particular month when expenses are more than what I bring in.

September 23, 2015  It really depends on what bill I may need help with when I use the cash advance. It could be for my car insurance, my life insurance or light bill. This is the only thing out here that fits my needs because I usually do nt need to borrow a lot so this has been really good for me. Plus, my credit is nt so good so I m not sure of any other way to get any kind of help like this when I need it.

September 23, 2015  I ll mainly use the cash advance for my electric bill but every now and then I ll use it to put gas in my car and even for groceries. Being on a fixed income there are some months where there are 5weeks in the month which will tend to put me a bit behind. I do nt have the ability to get a loan from the bank due to my poor credit. It s just so disappointing to hear the the government is getting in the way with something that really helps so many people.

September 23, 2015  With me being on a fixed income there are times when a bill will come up and I may be waiting for my monthly check to come in and when those times come up its so nice to have the cash advance to fall back on. This has been the only option that I feel comfortable with. Plus, there really is nt anything out here that is this convenient and fast and very affordable.
Sometimes something will come up that's out of the ordinary for me and I need just a little bit of money quickly to get it taken care of, so the cash advance is my quick fix to be sure something doesn't get out of control. I do not have to use it often but it sure helps out when I'm in a pinch. I never have difficulty in paying it back and it's really very convenient.

I will use the cash advance for so many things like for my insurance, utility bills and really for anything that comes up and I'm short on cash to get it taken care of. I'm trying to get a part-time job so that maybe these emergencies will not happen as often but the cash advance sure is a great thing for me to have available to when I just do not have the cash now but will have it in a few days.

XXXX XXXX with Northwest Recovery and associated called my phone, my former work place, and my sister's husband's phone to say that I owe for a loan that I NEVER took out from Midland Financial back in XX/XX/XXXX. The information he provided to me that was on that "loan" was an address that I moved from in XX/XX/XXXX, bank company that I have not banked with since XX/XX/XXXX & a former work place that I resigned from in XXXX! XXXX XXXX advised me that they will continue to sue me and that I will have a warrant out for my arrest. I asked him to give me the phone number to Midland Financial, he claims he can not as he is protecting his client. And after I told him that I will not pay XXXX because I do not understand what all this is - he hung up on me.

The payday loan was obtained to pay my electric bill. They were very helpful and I was able to keep my electric on.

The loans have helped me in times of crisis like when the car breaks down or extra school supplies or books are needed. The loan is easier to pay off with the extended loan period.

Payday loans make it possible to keep up on my bills. I do not know what I would do without them being available.

The short term loans help me with monthly bills that are due before my paycheck arrives. I do not get stuck with late fees that are much higher than your fees.

Payday loans help me get by with bills and everyday expenses when my check is not enough. The nice people helped me understand the loan process and payments.

With me getting paid every two week there are times when things come up and I need to have some extra money to help me out for whatever I need this cash advance program to get by at times. I am so mad that the government want to eliminate this service for us out here. I can not believe they would do this! Has not he govery taken away enough from us all ready? This has to stop and stop now!!

The biggest thing I use the cash advance for is when I have a month when I'm short in getting my rent paid on time. The cash advance definitely has pulled me out of some jams and without it I really do not know what I would do. I just moved here and really do not have anybody I could borrow from quickly so it's been so nice to have this as my backup when I need it.

If ever I have a bill like rent or my electric bill that I need help complete the payment for my husband and I use the cash advance for help. If we did not have this we would struggle big time because there really is not anything out there that can help this quick. We appreciate this service because it make it so we do not have to ask our family for help which is a huge thing to us.
I've been using the cash advance for years now when my paycheck gets messed up which happens to me quite often. If I didn't have this to help balance things out for me when that happens I would probably be homeless. This has been and amazing help to me and has relieved so much burden for me.

The cash advance is used for me to purchase things when they go on sale and I might not have the money at the time, kind of like a credit card. I'll also use it to help out with bills every now and then. This service was recommended to me by some friends of mine who have used it in the past. It's been a great tool for me to have when I need some extra cash.

I received a phone call from XXXX XXXX XXXX XXXX. They stated they were with Debt Consultants and they were contracted by National Payday for a $300.00 loan I allegedly took out in XXXX 2012. I took no such loan out. They had my social, old address, old bank name, and DOB. They claim I need to pay them $1600.00 or I would be facing criminal charges for $3600.00. The phone number they gave me to contact them back was XXXX ext XXXX ( XXXX XXXX XXXX. The story does not add up. I believe this is a scam, phone fraud. I do not know what to do with this.

Sometimes I need a little extra cash to help me float my money until my next check comes in. I'll normally use it for my bills or everyday living expenses. It's cheap and easy to get and I like that I can pay it back quickly. At the moment this is my only option. I do not use it much but it's quite handy when I need it.

My power bill has been really high this month and the cash advance is helping me to get it paid today. Right now my wife is not working full time so when any bills come up that are over what we're ready for this is a good thing for me. I do not want to pay late fees or risk having my electric shut off.

When we've used most or all of our money getting our bills paid there sometimes is not enough left over for food and gas and things like that. We did not need anything large like you would have to get from a bank, just something small and short term. If this service was gone I suppose we would be forced to get something larger from a bank but it really should not come down to that.

I've got XXXX kids and with all the things they need and school supplies, field trips and everything else, the cash advance is there for me to make sure they get what they need and it does interrupt my budget. This works for me because my credit is not so good so the bank is out of the question. I would not be able to pay my bills at times without it.

When I have bills due before my next check comes in or if I need a little extra money for something that comes up, I'll use the cash advance because I do not have any family that has any money so this is my best and only option. I have a bank account but my credit is not good enough for them to help me out.

I use the cash advance for food. With how expensive everything is I have times that I need some extra help. This keeps me from having to ask for money from my daughter. I would have to probably sell my house and move in with my daughter.

I'm on XXXX and really live from paycheck to paycheck and the cash advance is truly our way for survival at times. It keeps our head above water and able to pay bills and eat. I can't get a credit card from my bank so in reality it my only option. Being that I can't work anymore I'm so very glad it's here for me.
This is my first payday loan and I’m using it to help me out because I just started a new job and only am getting paid 2 times a month instead of every week like I’m use to. So it’s just helping me out during this pay transition. I chose this because it’s just the easiest way to get help because I do not do pawn shops.

Sometimes we need a little cash to get us by until our next check. It could be used for a bill or just gas for the car while we wait on our next check. It’s just makes me so mad that the government is once again trying to hurt the little people out here by getting in the way and trying to take away a huge tool that hurts nobody.

Even though I have a good job and make good money, there are times when I run a bit short on being able to get my bills paid and the cash advance is my special helper in keeping those bills paid on time. I can’t borrow from anyone else so at this time it’s the only way I can get help when I’m in a bind.

The re have been times when my paycheck has been less than what it usually is and I will quickly go and get a cash advance to smooth things out for me and help me pay my bills. There really is not anything else like this out here to help the everyday person to get some quick help every now and then. Let me tell you that my life would be so much harder without this service.

I do XXXX and there have been a few times when I’ve needed some help financially because I didn’t get paid by someone or work was a little slower than I had expected. I never need anything big like you would have to get a bank so the small amount I can get with the advance works perfect for me.

My car is in the shop for some major repairs and the cash advance is helping me right now be able to pay for a rental car while it’s being fixed. I really only use the advance for when emergencies pop up. I do not know of anything else that can help me out so fast and easy.

In order to make sure that my bills are paid on time and avoid late fees I’ll sometimes use the cash advance to make sure all bills are paid on time. It’s also great to have in emergency situations come up. I would definitely have many problems in my financial situation if this would be taken away from me.

The cash advance has been very very helpful for me and my husband. We have been is quite a bind lately and it’s been such a blessing to have this to help out when we’ve needed it. I’m trying to budget things better but for now it’s just such a big help. It needs to be around for people like me because some of us do not have any other options.

I primarily will use the cash advance to pay a bill or something like that. I only get paid once a month and sometimes just the smallest thing can come up to throw my tight budget off. The fact that it’s so easy and does not have anything to do with credit is a big plus. It’s always been such a good back up for me and I really count on it.

The cash advance allows me to either have some cash I might need after all my bills are paid or even to help me out getting XXXX those bills paid. It really provides me with a quick, easy way that is confidential to take care of my financial needs when they come. Personally the cash advance has been a big help to me and helps keeping my stress level down.

Sometimes I get a little behind on my bills or I need to buy some extra food for the house or even diapers for my kid so the cash advance helps me out in all those situations when they come up. It’s so fast and really helps me out quickly which I like. If this were ever taken away I’m quite sure that my life would change for the worse.
Cash advances helps us with absolutely everything from to electric or even car repairs. It’s so convenient, no hassle, no credit check and it’s fast and gets us the money we need when we need. Having this has made it possible for us to stay here in the states. If this was gone we would probably move back to XXXX XXXX.

The cash advance is really like having a loan from my bank without all the paperwork and credit restrictions. I use it to help me pay my bills when I do not have enough money to get them all paid. I would be in a big hole and taking away the cash advance would really affect me in a negative way.

Sometimes we just need a little cash to get by. We are about due to get a settlement and when it comes in we won’t need this service unless something comes up. It’s been huge to our family to have this as our back up during this past year. I’m hoping this will always be available for us and other people both now and in the future.

The cash advance is helping us get by until we figure things out. This has been great for us because we kind of got over our head with buying things so we are in the process of selling some things and getting our budget back on track. So far now, the cash advance is helping us stay afloat.

There are numerous times that I’ve used the cash advance from car repairs, food, bills or anything that comes up. I can’t use my bank because they only want to loan me a large amount and I never need that large of an amount. There are no other option out here that can take care of things this quick and easily.

I’ve used the cash advance in the past to take care of a ticket I got but mostly it’s used to help me out with my bills when I do not have enough money to pay them at the time. It was so quick and easy and it really helps me out. I’ve thought about it before and really this is the only option that fits for me.

We only use the cash advance for when something comes due before my next payday. For today, I’m using it to put a quick down payment on our new place to live which is due now but we do not get paid until next week. We didn’t need or want anything long term from a bank because that just wasn’t necessary.

You name it, that’s what I use the cash advance for. It’s been a big help for me and my family because my wife lost her job and so for now my income is all we have to work with. I know for a fact that my eclectic would have been shut off if we did not have this to bail us out. If the government takes this away, what is the government going to do to help me out?

The cash advance helps me with all my utilities when I need help getting them paid because I home school my kids so we need to be sure to have everything working and turned on. It’s so easy and hassle free. My choice to handle things this way is because it’s short term and it’s reasonable for me to be able to pay back quickly.

Sometimes I use the cash advance to help me with my utility bills and sometimes use it to send extra money to my family in XXXX. I’m a private person so instead of going to somebody this way I can keep things to myself. It’s hassle free and take care of my needs quickly.

Sometimes I use the cash advance to help out my daughter when she needs help. If she does not get help from me then she and her kids would be out in the street. The cash advance is perfect to handle my quick need to be able to help her out. The bank takes too long and the cash advance is immediate.
I used to get paid every week and just recently they changed it to every other week so I'm trying to get adjusted to my new way of getting paid. I heard about the cash advance through a friend of mine and I'm sure glad he did because it's been a big help to me. In hearing about the government wanting to take this away really makes me sad because not everyone has good credit so the cash advance helps me and a lot of people I know.

I'm a widow and do not get much money from the government and my funds to have available each month is very limited. I have XXXX and have many medical bills that come up and the cash advance has allowed me to be able to get my medications. I would have to not get some of my medications and really would not survive without it. Please do not take it away!

Cash advances have helped me out from time to time for about a year now. It's helped me when I'm short to pay my rent and car payment. I know that this is more convenient than going to a bank for a loan and really less expensive for me because it's short term. It's so unfair that the government want to eliminate this because it really is a lifesaver to me.

I only get XXXX check a month and still have kids at home being on XXXX my funds are very limited. I just had some unexpected medical expenses that have come up that I have not budgeted for and the cash advance has been a big help to me and my family. Life is tough enough as it is and it's just horrible to know that the government would want to stop something that is so important to me. I need this ... do not take it away!

My experience with Castle Payday has been a very bad one. What I thought was a quick and easy loan from this predatory lender turned out to be a trap when I called to pay off my loan. I was shocked to learn that the company charges interest at prohibitive rates. I had taken a ($600.00), and agreed to pay, what I considered then, was a one-off ($150.00) in fees. To my horror, the lender insisted that I pay ($300.00) plus the ($600.00) that I borrowed if I want to pay off the loan. Having listened to President Obama speak publicly against what he described as loan sharks, I knew I was in trouble. I desperately searched for information with a view to seek help as quickly as possible before I become saddled in a spiral and perpetual debt.

I found useful information from the Consumer Financial Protection Bureau website and wasted no time in filing a complaint for their intervention. Their timely and prompt intervention saved me from the jaws of this predatory loan company. The company has frozen all charges and fees and spread the payment of the balance ($450.00) (the lender had earlier withdrew ($150.00) from my account) over two months. I accepted the company's 4 payment schedules of ($110.00) bi-weekly.

I've been very lucky to escape the pangs of this predator, but there are thousands out there who are not so lucky, and who may be suffering in silence. I call on them to seek help.

My advice to others? Please do not take a loan from a predatory lender. You will live to regret it. As for me, I'll never take a loan from these loan sharks; not even if I face financial hardship, and I'm desperate.

When I need help with bills XXXX for daycare, I'll get a cash advance to help me with those so I don't have any late fees. It's been great to have as a back up plan for when things are tight and I just need a little bit to get me by until my next check.

The cash advance has helped me out recently because I just put a big down payment on a car and it needed up leaving me a little short to get my bills paid. In general it really help me out when life's little unexpected things come up. I've found that this is the most convenient and easiest option out here.
Mostly the cash advance helps me pay my car note and credit card bills. It’s never fun to go to family for money and ask for help. This allows me to take care of things myself and be independent without bothering anyone.

Usually if there is some type of emergency that comes up and I need to get some cash into my checking account right away, the cash advance is what I’ll use to do that because its immediate and can help me solve the problem quickly. Credit card advances are too expensive and loans take too long so this is really the perfect match for me.

I’m in the middle of building my own car and the cash advance is what I’ve been using when a part comes available and I don’t quite have the money yet to get it. It’s great because it’s really quick which I need because parts are only available for a short period of time.

I’m going through banks right now and the cash advance has been helping me pay for that because I’m trying to get myself back on track. Being that my credit situation is a mess I’ve been so happy to be able to have the cash advance to truly get me back to where I should be.

I needed to make a car payment and my family could not help me out. They suggested I get a payday loan. It worked out to be an easy process and sure helped me. I was able to pay back using my next XXXX paychecks. I will keep in mind if in a tight spot again.

When money is short between pays the short term loans help. I used XXXX recently for a new car battery.

Unfortunately I got a traffic ticket. This was not in my very strict budget so I had to get a short term loan to cover it. I will be able to pay out of my next XXXX paychecks.

Basically I use the cash advance to help me have some extra cash for when we take some trips every now and then. The thing I like about it is that it’s quick and does not require a credit check and all kinds of paperwork and approvals. It’s been so convenient for me and my wife and quite frankly I’m really glad it’s a round and available to me and my wife.

For me a lot of my bills are due in the first of the month and sometimes I’m short but know that I’ll have the cash just a week or two later so this has been really convenient. I looked into a pawn shop but they were way too expensive and quite the hassle.

When I need help with my car payment or large bills when I run short on cash I’ll get the cash advance to help me while I wait on my next check. My only other thing would to borrow from my parents but really, that is not an option for me. Cash advances not only help me but a lot of people I know. It really makes no sense to me that the government wants to shut the cash advance down. Why would they want to do that? They just need to leave well enough alone and let us be out here in the real world.

Being a XXXX, the cash advance has helped me out during the summer when I don’t get full checks because my pay, even though I’m not working in the summer, is spread out. Plus being recently divorced and with my ex messing up our financial situation things have been tight. But I always knew I can count on the cash advance to bail me out.

It really depends on what bill is lagging when I use the cash advance. It could be for my cable bill or even my rent. I really never know what it will be until it happens. It’s so fast for me to get and takes care of my needs in a flash. It’s my choice where and when I get help for myself and the government should stay out of it.
Cash advances help me level my bill paying out because my bill never seem to line up with when I get paid. It eliminates me from having to borrow from family who wants it paid back right away. It would cause a snowball affect if this were taken away by the government because I would accumulate a lot of late fees which would take longer to be paid back if at all.

Whenever I need help to catch up on some bills both me and my girlfriend will use the cash advance to help us get all caught up and quick. We really like it because it does nt intrude into our personal life. All you need is a steady job, checkbook and I d. How more simple can it be. If not for this we would have probably ended up at the pawn shop.

I ve been having some air conditioning problems and my electric bill has XXXX so the cash advance has been helping me keep up with it until I get it fixed. It was the quickest fix for me and helped me keep it from being shut off while I ve been dealing with this issue. It s really helped me keep from having to borrow from a family member or friends.

I had some speeding ticket issues and thank got for the cash advance. I would have probably lost my license and missed work and then been fired if not for the advance. My bank would have taken too long to help me and this service is really fast. I m starting to get back on my feet so it s really been a big help to me.

The cash advance helps me out so much when those times that come up and I m short on cash and nobody has anything for me to borrow and money. I ll use it for absolutely everyone my life. My life would be so very hard if I did nt have this type of help and actually it s been help me save money in the long run by not paying any of those late fees.

Mostly I use the cash advance to help me pay my rent when I run just a bit short on getting it paid. I ll also use it to buy food for the house when after all the bills are paid there is nt enough left to buy it. I m a XXXX vet and do nt get a lot of help and sometimes it just does nt go far enough so it s really been a wonderful thing to have at a moments notice to get the help we need.

When I need help with bills like my car payment or my cell phone bill, I turn to the cash advance for help. My friends had told me about this and it s been a help ever since the first time. I already owe my relatives some money so I ca nt go to them so this really works well for me.

The cash advance has been really a good thing for me to have around when I find a good deal on something and I just do nt have the cash at that time. I also use it for extra cash when I go on a vacation. I could go into my savings but I do nt want to touch it because I never know if I might not put it back in. I used to use the pawn shop but now I use this because it s more affordable.

This year I ve lost XXXX family members and I would have been lost without the cash advance to help me be able to go to all the funerals. I had a friend of mine that to, d me about this and how well it help him out. I would have probably lost my car and been kicked out of my place if I did nt have the cash advance to fall back on when I m in such desperate situations.

There are time when I run myself a bit thin on my money and the cash advance has helped me immensely to keep my bills paid on time. I recently just started a new job that was supposed to give me XXXX and they have nt done so yet so I ve been struggling a bit. I do nt want to pawn anything because that is really expensive. I do nt ever want to go to my family for help because I wNt to take care of my problems myself.
Lately I’ve had a lot of hospital bills that have come up because of my health situation and I’ve been using the cash advance to be able to stay on top of them. It’s made it possible for me to not have to ask any of my friends or family for help. It truly makes me mad to hear that the government would get in the way of having access to a short term loan.

I’ve been using the cash advance lately to help out my son because he has had quite a number of vehicle repairs lately. I actually tend to use this service more for the convenience than anything else. It’s so fast and can be gotten after the banks are already closed which is a big deal for me.

We are on a very fixed income and sometimes we just do not have much left over for food and incidentals so the cash advance, at times, is what we use to get through the month. The reason we choose this is because we new we would be able to get the money and help we needed fast. We would have probably starved of not for it.

Recently the cash advance helped me be able to go to my sister’s funeral. Nobody in the family was in a position to be able to help out when this happens so I’m extremely grateful it was here for me. It worked out great for me because it was so fast and they made it so convenient. My only other option would be to take money out of my XXXX but I would have been penalized big time if I did.

I get paid XXXX and there are times that I may forget that I forget about a bill and I’ll use the cash advance to help me out. I do not really have anyone I can borrow from when I need some extra cash quickly. I would be in such a bad situation if the cash advance was taken away. I do not have to use it often and usually it’s not a lot so I just love this service.

When things come up in between paychecks like an unexpected bill or a house repair, the cash advance gets me through until my next check comes in. I’ve made the decision that I do not want to ever use credit cards again because it really got me in trouble in the past. If the cash advance were taken away I could probably make it but it sure is handy to have to make life easier.

The cash advance allows me to stay flush with cash so as not to have no money at all after all my bills are paid. This is way more convenient than using a bank to get a loan or one of their high interest credit card. If this were taken away I guess I’d just have to find another way to get by but for now this really works well for me.

Since my pay is so erratic I use the cash advance to help me keep my financial situation like with my bills paid on time and hope avoid any type of late fees. It’s always a quick and easy process and does not involve any credit checks which I like. If this were gone it would be a huge stress in my life because it’s just such a great thing to have as a back up when I need help.

Normally we use a cash advance to level our paycheck situation out because our bills never seem to line up with when we get paid. We made the decision to go this route instead of getting a larger loan for a much longer period of time because we do not always need help and when we do it’s usually just a short term need.

Sometimes I use the cash advance for when my pay is short or if I want to go away for the weekend. I do not know of anything else out here that is fast, convenient and can help me the way the cash advance does. I was very shocked the government would even consider taking this away when it just helps so many people … including me.

The cash advance help me get a head start on getting my bills paid every now and the. I do not want to go to a pawn shop and risk loosing any of my things. This is extremely convenient and is short term and helps me out when I need it.
My sons hours got cut and for now I m using the cash advance to help out my son so this has been the only thing we can do to get by each month until his job situation gets corrected. We would be homey without it. It s just awful that the government wants to I trude into our live and try to dictate to me an other what we can and can do to help ourselves. 

I ll use the cash advance to help me pay bills such as my mortgage and utility bills. Only use it in an emergency situation because it s fast and solves my problem right away. I ve gone to me bank before for help but they would help me at all because I do nt make enough money and they say my credit is nt good enough. So the cash advance is really like my own bank. 

The way I use the cash advance is to help me get a little more help in my monthly check for things that may come up when I m short like groceries or medical bills. It really relieves my pressure when I have things coming down on me financially. So when I need help XXXX and the cash advance is huge for me to have available. This is my choice to handle my fanancial situations and I think the government should stay out of it. 

My XXXX check for the month pays all my bills and then there s nothing left for 2 weeks so i supplement my income some times with the cash advance. Everything is so expensive now and with kids always needing something there sometimes is nt enough for groceries. It s such a quick and convenient way to handle everyday small emergencies that come up. 

Sometimes I get slammed with a bunch of bills that happen all at once so the cash advance has helped me avoid late fees by keeping my bills paid on time. With the rainy season XXXX it s been a tough few months with all the rain. I could go to my parents for money but man I just done want to do that. It s much better for me to be able to help myself instead of asking other for help. 

My social security falls in the middle of the month and some of my bills are due in the first part of the month so the cash advance has helped me at times when I need some help getting things taken care of and to XXXX lifestyle. I m trying to look for part time work XXXX and so this for now is my only recourse for help. With the cost of medical now a days I need this to stay around for me because I do nt have anyone else I can rely on. 

I ve use the cash advance in the past to help me out when I m in a pinch. Some weeks are good for me with my pay and some weeks are nt so it s fantastic to know that I have the cash advance to fall back on if I should ever need. Finding out that the government wants to take this away or even slow it down I think it s horrible. 

Sometimes what I get in my monthly social security check does nt cover my expenses so when I need help I turn to the cash advance. Mostly I use it for my electric bill this time of year but have also used it for food and my car insurance. I tried to get a loan from my bank but they could help me so it s been such a good thing for me to have the cash advance for help when I need it. 

I usually use the cash advance for medical reasons. I have XXXX and this helps me out with all my co pays. I get a small pension and sometimes my medical bills are more than what I can afford at the time. It s much easier cheaper I think then trying to use a credit card. This program keeps me from having to get a credit card.
With me being on a fixed income, the cash advance allows me the flexibility to have a cash reserve when I need some extra money to help out with things. I think the fee to use this service is extremely reasonable and it's easy to pay back. It's great help to me and my family and helps us out when short term cash is needed. It's always there for me when I need it.

Basically cash advance has helped me and my family get out of a rut we were in because we had a number of unexpected expenses that came up. So the cash advance helped us keep our bills paid on time until we got back on our feet. It also helped me get my daughter ready for school with supplies and clothes.

Cash advances help me out when I have some end of the month bills that still need to be taken care. My daughter is actually the one who recommended it to me. She was right when she said how easy and quick it was. I know if the government ever took this away I would be in big trouble because for a woman my age I just do not have any alternatives.

Dear CFPB, I am writing this to ask you to reconsider your proposed regulation limiting payday loans to XXXX per year. I understand that you do not want people to be trapped in a cycle of debt. However, I think your proposal fails to take into consideration those of us who have been burned by banks and needed to turn to a payday lender. I was a depositor with a major bank, which wound up charging me $120.00 in overdraft fees after I had made a few minor purchases on my card, to the tune of about $15.00. This began a downward cycle for me, as I was in deep trouble at the time during the recession, and eventually lost my privileges at the bank. I turned to a payday lender, who have helped me out numerous times and treated me much more fairly than any bank I've ever used.

I understand why you think such companies are predatory, but what many people who make a lot of money fail to realize is those of us who do not want people to be trapped in a cycle of debt. Thank you.

The cash advance helps me out usually when all my bills are paid I run short on having some money for the everyday things like food, oil changes etc ... financial institutions are way too slow for my needs. The cash advance is quick and easy. It's helped me out so much and it would just be a shame to see it go away.

The cash advance helps me out when after I get all my bills paid for the month and there is not much left over for food. I used to get food stamps but now I get too much they say from social security so that was taken away from me. It's really great, come in, get the cash you need, and go!

Typically the cash advance has helped me with paying for my golf membership. I'm on a fixed income and enjoying my life now and this has allowed me to be able to follow my passion in the later years of my life. This really just gives me the cushion I need now that I'm retired.

The cash advance has been helping me dig my way out of a hole I put myself in. I forgot to pay my car note a couple of months ago and thought that I do so I'm trying to play catch up trigger now. It's been a lifesaver and get us back up and running. I really enjoy this service because it's always there for me.
Mainly the cash advance helps when things pop up in life and I just need a little extra money. Mainly it’s bills but really it could be for anything. It’s so quick to get and takes care of my needs right away. I do not have to use it often but it sure is handy when I need some help.

If I have a payday that is messed up or I’m short on a check the cash advance is such a great help for me and my wife. It’s has saved us from so many late fees having to pay so really in the end it has actually saved us money. I know a lot of people who use this when they need it. It’s fast, easy and I think it’s been a privilege to be able to get this type of help when we need it.

There were times that I was not as financially stable as I am today and if it was not for the cash advance I would not have eaten. I did not have the credit to take out credit cards and if I did I would not have had the money to pay them. The government would be hurting more Americans then they already are so I hope they stop treating people like numbers and leave this benefit open to us … many depend on it.

The cash advance helps with all sorts of things such as car insurance or any bill that had maybe slipped by. Usually when all my bills are paid, I do not have much left over for everyday things so it helps with that as well. I mischief rather do this that put things on my credit card because the interest rate is much higher.

I recently had XXXX and the cash advance has been helping me keep my bills up to date while I recover. I get a small pension but with the extra XXXX bills that have popped up this service has been a blessing to me. I would basically be out of luck and even kicked out of my place I live without it.

I’m only working part time right now and I have some XXXX work that needs to be done so for now the cash advance is helping me out and stay a float while until things level out for me. It’s so sad to know that the government would try to basically hurt people who need help. This program I know for a fact helps a lot of people in need, not just myself.

I generally use the cash advance for purchasing the book I need for college. It’s much easier to do this than to go to a bank. I’m trying to stay debt free with school so this enables me to more or less pay as I go. This has helped me not be broke and still be able to pay for school.

With the way my bills come the cash advance helps me level things out. My electric bill has been so high this year and this has been such a huge help to me especially since my credit really is not good enough to get a loan from the bank. The government would just slam the door on my life if they took this away from me. It’s a necessary tool for me just to be able to get by.

I’m a XXXX and only am able to work part time and my income does not always pay all my bills. The payday loan program has been just a wonderful thing to have to help me keep pace with my bills when I fall behind. I just do not know what I would do without it and it really make me sad to hear that something like this that helps us XXXX out would be taken away.
Generally speaking, the cash advance is a wonderful and needed help for me for all my bills when I fall behind. This is the only help that I can get at this time because nobody else will loan me just a little amount like this. It's really been a blessing to me.

The only thing I use the cash advance for is to help me pay my rent. My rent is due just before my rent is due so sometimes I need help finishing getting it paid. My family is really in the same boat as me so for me this is the only help I can get.

The cash advance program has helped me out when my wife over spends or if my sister or mom needs some help. People with low credit like myself do not have many options so this has been such a big help for me and my family. We would really be in such a pickle if we were not able to do this. It's ridiculous and makes me very upset to hear that the government is sticking their noses in our business.

Cash advance help me out when I'm short to pay off some bills or just for living expenses. It great because it takes of my immediate needs and beats bouncing a check and getting that big overdraft. It's way more affordable than using a credit card.

Whenever I'm in a tight spot and I have bills that are due and I just do not have the cash, the cash advance is my go to plan to take care of it quickly at a good rate. It's hassle free and since I do not have good credit it works perfectly for me. It's too hard to get a regular loan and even if you do they want you to get a larger amount than I need. I do not know where I would be without it.

My XXXX check is very small and there are many times it does not cover all my bills so the cash advance is my only way to be sure everything is paid for just to be able to survive. It's truly been a lifetime me and my husband. There is not anyone else that can help me out when I need it so I'm extremely greatful that I have this to fall back on.

The cash advance helps supplement my income. I really use it for everything. This month I'm using it to help me pay my rent. I like it because it makes it to where I can take care of things myself and not rely on other for help. It really would be catastrophic to me if it went away. I would then have to go to my family and I just do not want to do that.

Whenever I run into a rough patch I'll use the cash advance to get me by to get me to my next check. It is comfortable to know that I have this to help us out so why would the government want to take away something that helps so many people out. We all are not rich like the people in Washington are. Can't they just let us everyday people alone so we can live the lives we want to live?

I initially used the cash advance to help out my son because he was XXXX at work and was out for a while. Now I use it to help me out with rent because I'm on a fixed income and things are really tight right now. I've checked around and there really is not any other options for me at this time. My life would be extremely hard without this so I'm praying it's here for me always.

I'm on retirement and only get just so much each month and when I have a bill or other expense that puts me over my budget I'll use and get a cash advance to help me out and keep everything paid on time. You know, I have also used it to buy food as well. I would be in very bad shape and would not be able to survive if this were gone. Please make sure that does not happen!
I only get paid once a month and sometimes things come up and I need a little extra cash to pull me back on track, I'll get a cash advance to make sure everything is paid on time. With the late fees being as high as they are it would be awful if the cash advance was ever taken away. The late fees would absolutely kill me.

Usually the cash advance helps me out with getting my rent paid on time. My credit is really bad and this service has saved my life. I know that if it was not here for me I would have to move in with someone or just be homeless. I'm a single mom with XXXX boys and the cash advance for me is my only help I seem to be able to get when I need some extra cash.

Right now I'm supporting my son that has moved in with me because he has XXXX so the cash advance has helped me with my rent because I had to get a bigger place now that he is here. I do not know of anything else that can help me out quickly when I need extra cash. At XXXX old if this was not available I would have to go back to work somehow which is really hard a me.

The cash advance helps me keep my finances on and even keel. Its generally will be used for taking care of some bills or even my rent. It's actually helped me save my credit score by making sure that my bills are paid on time. It's also helped with avoiding those large and expensive late fees that get tacked on if you're late.

I do not get enough money from social security so there are times when I need some extra money to get by on until I get my next monthly check. The cash advance is my back up plan and safety net for me so I can continue to live and even eat sometimes. I would be absolutely lost without it. My options are limited or really do not even exist so I'm so happy to have the cash advance on my side.

The cash advance helps me with my cash flow while I'm waiting on my next check to come in. My bills tend to be all clumped together and it makes things go much smoother in the long run. It's great because I only use it when I need it. The late fees would end up being more than what it cost to do a cash advance.

I use the cash advance to help me pay my credit card bills because its actually healer for me to do things this way than to pay their high interest rate. I've also used it for utility bills and even to buy food. It would be catastrophic if this were ever to stop. Me and my husband just do not have any other options so I really do not know what we would do without it. If the government ever wanted to help us out they would leave this well enough alone and mind their own business.

My bills and when I get my monthly check does not line up so when that happens I'll use the cash advance to help me make sure that everything is paid on time and to avoid late fees or have something shut off. I've tried to work with the people I owe money to but they won't move the dates around because they just do not care. It makes me feel like the government want to control and push us around which is just not right.

I get paid commission every XXXX and the cash advance has saved me many times to make sure my rent is paid on time. My landlord will charge ($5.00) a day for being late so it's been a lifesaver for me. My only other option would be to borrow from family but as you know that can be stressful and uncomfortable.

Generally I use the cash advance for help with my rental payment. I just do not understand why in the world the government would want get involved with limiting us on how many times we can use this type of service. I know for a fact that it has saved me so much money in late fees so I'm praying that they do not get involved in this issue.
When extra things come up I'll use the cash advance to help me out. Like today I need it for my daughter who is XXXX and needs $100.00 at the first meeting tonight. If not for this service I'd probably have to borrow from my mom which I rarely like to try to do because it puts her in a bind.

Sometimes at the end of the month and I run short on money and there are just a few days left before I get my next monthly check, I'll get a quick cash advance to tide me over a bit. I have friends that have used this type of service in the past and it helped them out which is how I initially heard about it. I've been trying to budget myself better but there are just times when I need a little bit of help and the cash advance provides that for me.

I'm on XXXX and hearing that the government is trying to eliminate the cash advance. It's been helping me out for years and if this were ever taken away or limited in any way I know that I'd be living under a bridge somewhere. I've worked hard all my life and now the government wants to try to make my life miserable by getting in the way ... I do not think so. Keep this available for us ... because we need it!

Preferably I'll use the cash advance for the everyday things that come up. The advance has actually helped me build up my credit again because when those things that come up I'm not late on my payments because an emergency that has come up. This is so much better that bothering my family and this way I take care of my own business myself.

Whenever I have an emergency that comes up like a care repair or if someone gets sick in our family I'll use the cash advance to get the help I need fast. I would be horrified if this were ever taken away from us. It would set us back a lot and make our lives miserable if the government stepped in and stopped this. I know at times we would not have been able to eat at home. I know it's here when I need it so please keep it here for me.

I use the payday loan to just be able to get by at times. It's always there for me when I have emergencies that come up that need to be taken care of quickly. It works much better than my bank. It's much more convenient and fast which I really like. It would be absolutely devastating to me if this were taken away from me. It's also helped me with unforeseen medical expenses too.

The cash advance has been helping me out by catching up on my bills since my car broke down. It is such a good thing to have for someone like me with spotty credit. It definitely helps me avoid late fees and it's so handy to have when times are tough. It's mainly used by me as sort of a stop gap measure to handle life's little emergencies.

I really against anything that puts the government more control of our personal rights, so I truly think the cash advance is a wonderful thing to have for people like me to have at my disposal when I need a short term loan. It's helped me out so many times when I'm in a pinch. Keep the government out of our affairs and we'll all be fine.

Whenever I'm short and need to get a bill paid quickly, the cash advance is my of getting it paid quickly and on time. I've been denied many other options in the past so the cash advance is really my only option. It's too uncomfortable to try to borrow from family so it's very safe to say I am glad the cash advance is there for me.

Payday loans help me out with my bills and if I need the extra money so thanks for helping me out.
I am in awe. I’ve had title company, attorney, complaint forms, multiple requests for reconveyence get nowhere. XXXX call to a real person at CFPB who was literate and knowledgeable, XXXX online statement with back-up documents, and within XXXX week, Beneficial Mortgage answered and issued a release of lien. That’s impressive!

I took out a payday loan online with Cash Advance in 2007 for ($300.00) to pay back ($360.00) in XXXX payments which would be withdrawn from my checking account. Needing the loan to complete my rent, I was desperate and accepted the terms thinking XXXX payments and that’s it. I made XXXX payments and the XXXX payment was only a partial amount which I never saw withdrawn due to a change of bank accounts. I called the company to make them aware of the change and supply the new account information. Forward XXXX years later I get a call from a pretrial arbitration department (as they called themselves) wanting to know if I wanted to resolve the debt today with a ($300.00) settlement or pay ($1800.00) in ($100.00) installments. I informed them that I had paid the loan to which they informed me that there was XXXX payment remaining and because this was a high interest loan, the interest had escalated over the years. When I inquired why they had not contacted me before XXXX years I was informed that they had made attempts. I have had the same address and phone number that I originally provided them and if they reached me now, why were they not able to reach me then (a question they could not answer).

Of course I could not pay the ($300.00) settlement and am stuck with paying ($1800.00). I’m told part of the ($1800.00) is the cost to keep the loan open along with collection efforts. I have now made arrangements to pay off the loan. I am so over the fact that companies can do this legally. I’ve learned that this payday lender is funded by Bank of America.

We live 2 hours away in a small town with one small town local bank. The service here is worth the drive and the fees are reasonable. This keeps my XXXX afloat. Thanks.

I came in today to ($200.00) because I was starting a new job. XXXX took care of me and told me the advantages and I am excited to utilize them. He was competent and fast and I am confident about my loan. This was easy and I can stop being scared about bills bouncing and losing things I need to survive.

I needed this today to afford my meds and medical bills while taking care of normal bills.

My husband is out of work so getting this loan helps me get my bills paid until he is back on his feet.

Loans fill the gap when you are racing a situation where you are going to be charged an overdraft fee at the bank. I can borrow around ($200.00) for the same fees I would face over drafting my bank account.

The cash advance is something I use from time to time for food and gas. Usually when I do it because I just paid my child support and I’m a little short for the basic things until my next check comes. It’s really easy to use and pay back and that’s why I like. The government regulates too many things as it is so I know I would appreciate it if they just stayed away from this and let it be.

The cash advance helps me to have some extra money while I’m waiting on my check to come in. I really could do without it but sometimes I overspend and this is my way of taking control of things so they do not get out of hand. I think the government should stay out of our business and take a good look at themselves before they try to hurt people that need this service.
With the way the economist now a days there are times when I need a little help to get by and the cash advance provides the short term loan I need to do that. It s very convenient to get. I would have to get a part time job if I did nt have this to fall back on.

I will get and use a cash advance sometimes to help my daughter out or to pay a bill I may have forgotten of. I would be so lost without it because I do nt have any credit so this is like my little bank. The fees are good and they always work with me if I fall behind.

There are three main things that I ll use the cash advance for and that is food, rent and bus fare. As far as I m concerned this is the only thing I trust when I need a small loan. The only other alternative for would mean another job and I work an awful lot already. This is such a wonders recourse for people like me to get back on my feet.

I m in the process of going through a divorce and the cash advance has been helping me stay afloat until its final and I m caught up on my bills. It s always quick and easy and I do nt want anything long term from the bank. It s frustrating to think that the government is getting involved more and more with how people take care of their financial issues.

Cash advances help me when there is a need for me to be able to catch up on some bills. Let s just say that for sure it helps me avoid the overdraft fees so in the end it actually saves me money. This my only option because I do nt know of anyone else that I could borrow from at a moments notice.

The payday loans help me pay bills on time. Bounced check fees cost more than the loan fees.

The cash advance is such a big help to me for bill payments, groceries and just about anything that comes up. The federal government needs to stay out of our way. Nobody made me come to get an advance. This my choice and should be left up to me how I handle my life.

My payday loan helped me with car expenses. I could nt wait till next payday because I need my car to work daily.

I had XXXX and missed five weeks of work. If not for the payday loans I would nt have made it financially.

My payday loan helps me pay my bills on time. It keeps me from stressing about late fees.

When I need help with everyday things when I m short on cash like gas for my car or groceries, I ll get a cash advance to help with those things until I get paid again. I absolutely have no other option other than pawning some of my valuables which is way more expensive than the cash advance. I ca nt go to my parents because they get really mad at me when I ask for money.

I recently experienced a sudden death in family. I had to use my bill money to travel to the funeral and other expenses. The short term loan sure helped me out.

I strictly use the cash advance to help out my girlfriend. She is going through a rough time financially and this makes it so I can help her and still be able to pay my bills. I m hoping the government does nt stop this because it make me feel so good to help her out.
Most of the time I’ll use the cash advance for day to day expenses that come up. I actually thing that crime would go up if the
government took away this program. The cash advance is my last resort but it helps out when my back is up against the wall. They need to understand that for people like me we sometimes do not have any other options.

I ran out of scholarship money right now so I’m using the cash advance to help me out until my next one comes in. It really helps me out so I do not have to borrow any money from my mom and dad. This is very convenient for me so I sure hope it’s always around for me. I do not really understand why the government wants this service gone. It’s fair and affordable and does not require credit which I do not have.

I work XXXX and with all the rain we have been having I’ve needed the cash advance to help me out because I’ve not been working as much as I normally would have been. It’s been keeping my bills paid without delay. I really do not have any other alternatives so I’m happy it’s here for me and hope the government understand that people need this service.

Recently my job messed up my check and took too long to get it fixed so the cash advance helped me out while this was all taken care of. I really do not like asking anybody like my family or friends for that type of help. The government is always trying to take away things that helps people and I really hate that.

Sometimes I do not get the overtime at work that I’m used to or I have an emergency that comes up and I need a little bit of help. I do not take a cash advance often, but when I do it really helps me out a lot. My bank does not loan just a XXXX dollars so the advance is such a good tools to make sure I do not overdraft my account.

When I have emergencies that come up and I then am short on my bills is when I’ll do a quick cash advance to get me back on track. It gives me immediate flexibility to make sure everything is taken care of. The cash advance actually keeps my credit in good standing. I’m so very disappointed that the government is so uncaring to even think about taking this away from us.

I’m XXXX and only get a check once a month and I will use the cash advance to help supplement my income just before if I run short on cash. The banks will not loan a small amount and I do not want to get all caught up in a large loan. At this time in my life this really is the only option for a man in my position. I do not know what the government is thinking. It’s really is not any of there business how I handle my financial affairs.

I’ve used the cash advance to help me out when I was in between jobs and need some help getting my bills paid. It was a great buffer for me to keep everything going during that rough time. My family is not able to help me out because they are going through rough times as well.

The cash advance is my back up plan for when emergencies come up. Its definitely a quick fix to have as an option when things come up and I need help fast. I have chosen to handle things this way because I do not want a larger loan from my bank. It’s makes me mad that the government trying to strangle hold the people who put them in office.

In general, I use the cash advance for anything that is not planned for like car repair or needing to have some extra cash to attend a family funeral. With the credit issues I have this fits perfectly in my life right now. If the cash advance was gone I’d probably have to go to a pawn shop.
Most of the time the cash advance is there for me to help out with the rent, electricity and cable bill when I'm just a little bit short getting them paid on time. I would probably have been kicked out of my apartment if this wasn't there for me and my wife. My was out of work for 6 months and now that she is back to work we won't need to do it anymore unless we have another emergency or something else comes up. It was a great safety net for us financially.

I've only used the cash advance only a few times and it's helped me out with when I got divot and didn't have a place to stay and this time it's because my roommate didn't have their part of the rent so the cash advance is bailing me out so I don't lose my apartment. I don't like using my credit card for advances because the interest rate is way higher than doing something short term like this.

Cash advance helped me out with all my bills. Sometimes it's for my rent and other times it's for other bills like my utilities. I don't have nowhere else to go for this or anyone to borrow from. It sure makes me feel bad inside knowing that the government would want to make this go away. I would be lost without it.

I do not make a lot of money right now and the cash advance helps me out with gas, groceries or whatever bills I need to catch up on at the time. I didn't know what to do in the past when those things happened but now I know about the cash advance and it's been a big help to me. I'm very proudful person and would rather not borrow from a family member.

The cash advance works just fine for me. It keeps me flexible and able to stay on top of my bills. I think the fee is very fare and affordable. This type of short term loan was recommended to me by a very close friend. I can tell you that I would be in a lot of financial trouble if not for the cash advance. The government should be trying to make sure it's here for us ... not take it away.

He cash advance is such a big help for me and my family. It's helped with our bills at times and to also buy food when we are short on cash. I don't want to go through the whole process of getting a loan from a bank because usually I only need a little bit and not something long term. Plus it's so convenient because if something comes up I can get help quick and the banks are usually closed.

So many things come up and with XXXX kids I always use the cash advance to pull me out of a jam quickly. I'm out of the phase of asking family members for money and am taking care of things myself which is the way I want it. Things would be very tight if it were gone but it's so nice to have as my family's back up plan when we need it.

Since I'm starting school again the cash advance helps me out because my bills sometimes are due the same time I have to pay for a class. I've found that this is the lowest interest for a small loan out here. I would probably have to get another job if this were gone and with school I just done have that kind of time.

I have a few bills that sometimes come up when my rent is due so I use the cash advance to pay my bills and then pay it right back so I stay on track. What sense does it make that the government would want to take this away from us? How does this benefit them at all? Without this I would guess just have to be late and risk having something shut off.

There are times when I may need just a little bit of help because my electric bill or something like that is too high and I didn't have all the money. Recently I have used it to buy all the school supplies that my XXXX kids need for school. This seems just like another thing that the government wants to stick your nose in and that's horrible.
I'm helping out so many people in my family right now. I have a YYYY son and my mother lives with her and right now they are struggling so I use the cash advance to actually buy them groceries until things get better for them. If the government ever took this away they would be taking my ability to be able to help them so I would hope that this does not ever get taken away from us.

When I get backed up on my bills sometimes, I'll then use the cash advance to help me get back on track. The cash advance was and is the only option to me that is that fast. Sometimes I just can't wait so I'm really glad it's here. To be honest, it's really my only option.

The only reason I use the cash advance is when I'm short on getting a bill paid like right now my electric bill is way higher than what I thought it was going to be. I do not have anyone I know that can borrow this kind of money from. It really hurts my feelings finding out that the government is interfering in my business. Do not they have bigger problems than this to deal with? I'm pretty sure I would have had something turned off if I did not have the cash advance to fall back on.

With only getting my paycheck YYYY and the cash advance has helped me stretch that out at times when I run a little short. I'm a YYYY and I rely on this type of service as opposed to using a bank because they want too much information and actually charge me more.

I'm using the cash advance for getting my kids some supplies and get them ready for school. I do not like going to someone else for help and would rather take care of things myself. This is a great way to take care of any of my finance shortfalls quickly and without any hassles like you would get from a bank.

The cash advance has helped me out number times with my bills and keep things paid on time and not to have late fees added to my already high bill. It's been so helpful to me and my family when times are tough. I'd really be stuck without it. It really makes me mad at the go for trying to take this away from me because I do not have any other options so what would I do?

The cash advance has been a great tool when an emergency comes up and I need some money to help us out. I think the government is just crazy to even thing about getting involved and trying to get in my business and try to tell me what I can and can not do with my money. It's my go to product to help me when I'm in a jam. The cash advance in a nutshell keeps me sane.

The cash advance is my lifeline to helping me out with bills, emergencies and even to buy food sometimes. It thinks it's terrible that the government want to make it so people like me do not have access to a small loan. They sure do not help me out so they should really just leave it alone. I'm older and retired and I suppose if it were gone I'd have to try to get a part time job, but that's really hard to do at my age.

I'm retired and my income has gone down quite a bit and I'm still trying to budget better and get use to the lower income. So for now it's helping me adjust to things. I would be in such a jam without it. I'm so disappointing to here that the government wants to take this away from us. They must not realize how important it is to have something like this available for people like me. I'm glad I have the chance to voice my opinion on this.
The cash advance program has helped me in the past to catch up on some of my bills when I fall behind. This works way better for me than borrowing from my family. This has been so helpful to me and I really hope that the government stays out of our business and let us handle our financial issues the way we see fit.

Being on a fixed income like I am, the cash advance helps me out when my utilities are more than what I have planned for. I can’t believe that the government would want to interfere in something that helps us people out here so much. We need this type of service just to survive sometimes. Without this I know things would not get paid on time and most likely be shut off.

The cash advance helps me get through to my next social security check. When I heard that the government want to limit or get rid of the cash advance it really made me think that it does not make any sense because it is not hurting anyone. Let’s face it, nobody made me come here and it is a legal business and helps a lot of people. It keeps me going when I need some extra cash.

When I need help with my kids daycare or my child support the cash advance helps me take care of those types of emergencies when they come up. Sometimes people need help and the fact that the government would even think about taking this away is just horrible. I personally do not think they have the right to tell me where and when I can use this type of service. It is not like I am playing with the money. It is getting me out of a jam.

I over hear that the government might be trying to take away the cash advance and I think it is ridiculous. What are people like me supposed to do when we need help with bills. It was been a lifesaver to me. I have not had to do one in a while but I want to make sure that its lawyers for me if I need it so I just wanted you to know.

Sometimes my bills are more than my income and rather than going to a pawn shop I will use the cash advance because it is less expensive and faster to get. It is just horrible to find out that the government is taking the lead and trying to eliminate my choice to get this type of short term loan. They should fix their own problems and stay out of our business.

Proposing for Payday and Other Small Loans/Additional policy recommendations

Dear Director XXXX,

A new proposal for regulating payday and auto title loans is a first step toward precedent-setting federal rules to address the most harmful aspects of high-cost, small-dollar loans. Here are additional policy recommendations to make it stronger:

- The Pew Charitable Trusts recommends the following modifications in order to ensure a safer small-dollar loan market while maintaining access to credit for consumers:
  - Make dangerous loans safer
  - Limit loan duration or limit how long lenders may hold a preferred repayment position. Protect against unreasonable loan durations; constrain lenders unique and potentially harmful power to collect payment before other bills are paid by accessing borrowers bank accounts or repossessing their vehicles.
  - Eliminate the short-term alternative loan, or, if it is kept, significantly increase requirements for offering it. Protect against deceptive or unaffordable loan structures.
  - Require all fees to be pro rata refundable for loans that are refinanced or repaid early. Mitigate the risk of loan flipping and the resulting harm.
  - Make safe loans easier to provide
  - Remove the two-loan limit on the longer-term alternative loans. Encourage customers to borrow only what they need and to prepay when possible.
  - Make data reporting and verification for longer-term alternative loans easier.
  - Encourage responsible lenders to offer safer, lower-cost products.

Take time to review these recommendations and give them the weight they deserve.

Thank you for the opportunity to bring these recommendations to your attention.

Yours sincerely,

XXXXXXXXX XXXX

Sometimes I fall short at the end of the month and being on dislike only get paid once a month so the cash advance really helps me out with my utilities and gas for the car just for a little bit when I get paid again. It so convenient to me plus it’s fast so when I need fast cash I can get it.

The cash advance is my problem solver. When yo get in a bind or have an emergency come up and I need fast cash ... there it is ... just waiting for me. It’s a few simple steps to get and its very affordable. I truly do not know what I would do without it. Probably cry a lot.

Cash advance are my back up plan for when I need help because I m short on cash. Mainly I ll use it for my car insurance, utilities or anything else I m short on paying. I do nt like giving out too much Information and that s what the banks want so I m happy with the cash advance. It s helped me to make sure my light stay on too. My life would be so much harder if it was gone.
I only get a check from the government once a month and there are times when a few days before I get paid so the cash advance kind of fills in that gap when that happens. It’s so easy and convenient and does not require an invasion of my privacy like the bank that wants to know everything about me.

Cash advances helps me out with the day to day expenses of living. It’s always there for me and my wife when we need it. Our credit is not good so this is our only way to get a short term loan. It’s been a huge help for us and we would be lost and in a lot of trouble without it.

I use the cash advance for everything! I’ll use it for helping me for a long time when I need help with things like my car insurance and mortgage payment. I find this to be the easiest way and fastest way for me to get the help I need. It has saved me a lot of money in late fees so I’m greatful for this being here for me.

I am XXXX years old. My granddaughter repaid me for a little shirt I purchased for her. She wrote me a check on her account with Regions Bank in XXXX, Alabama for ($28.00). In my time, it was always best to cash a check on the drawn bank, WRONG NOW. The bank is right next to my XXXX so I pulled through the drive-up and endorsed and presented the ($28.00) check to be cashed. I was informed that if I did not have an account with them I would have to go inside, present my ID, give my thumb print and pay ($2.00) to have the check cashed! Do people who bank know this rule for who they write a check to? The kicker is that her husband works for XXXX and is on the account.

I received the above message regarding my complaint but never received any money. I did receive a letter from Telecheck asking for copies of checks that I paid XXXX to the urgent care center. I have a copy of the returned check but have to go to the bank and pay ($5.00) for the other check. No word on the ($30.00) blackmail Telecheck charged me if I ever wanted to cash another check.

I started receiving calls from XXXX and XXXX. The company name is UPG. I looked them up and saw that they have been calling people all over the US with this same story about payday loans. A young lady stated that I had a payday loan from 2011 and when trying to receive payment from my bank, it was rejected. They even told me that I was making payment, but the payments stopped. The amount was ($400.00), but they were willing to settle for ($200.00), it was XXXX ($290.00), then ($210.00). I did in fact have a payday loan in 2011, but it was paid off and I have statements to prove it. They did have some information, address, employer at the time and last XXXX of social and email address. When I advised them that I did not do this, and to email me proof along with the name of the company. The young lady put me on hold and put a gentleman on the phone. The gentleman (named XXXX) said that they did not have any information just a default date of XXXX XXXX, 2011 and the name Manhatten Processing. He said they normally deal with student loans (which I do not have), but handle payday loans over the summer. I told them that I would check my records. He said “well obviously someone did this” I found nothing, but the XXXX payday loan, from Loanpointe USA which was paid off on XXXX XXXX, 2011. Since then, they began to call my friends and asking for me. I have also checked my credit report and found NOTHING regarding XXXX processing. These people need to be stopped, as it looks like they are preying on people, who have had payday loans in the past.

When I was down and out XXXX, I fell behind in a lot of bills. It was very overwhelming. It was great to get the small loan to help keep my head above water.

My loan helped me pay bills on time and keep from having late fees. It also helped me get school supplies for my children.
I had unexpected medical expenses which ate into my everyday expense money. I got a payday loan to get me to my next payday.

Payday loans have been a life saver. When unexpected bills came up, I had to use my car payment money. I did the loan to make my car payment.

Payday loans have helped me in paying bills on time and make car repairs. Late fees on bills are higher than the loan fees.

I tried to open a checking account in (SunTrust Bank) in XXXX Florida with out having my SSN included. This account is only for me to be able to pay Bills (i.e. Electric, car payment, water/sewer) the things needed to be able to continue life in general. the Bank refused to entertain my request. I need a place to cash a check for the services/work that I do and not pay 30% of it to a check cashing company. I am not sure where the system in America went to socialism, but when I was XXXX I opened an account and don't remember ever using my SSN to do so.

In a nut shell money mart is taking advantage if people like me to balance their losses from big law suits that theve been involved in because their not fair they want more than their supposed to earn just like anyone, but their tactics are wrong and not nice but they do it with a smile if the program fight back was still on t.v. money mart would be XXXX another thing they did to me was i called them on the day my cash advance was do, i explained i was sick and there was a storm that night they said not to worry and it would be safer to wait for the storm to pass, go ahead and bring it on the next business day that the wouldn't attack my bank, the next bussness day as early as they opened they attacked my bank, before i even had a chance to wake up and start the day.
My story is on going, as we seek more and more to monetize resources and services that no-one desires to fully be responsible for or respectful of. The story in a nut shell can be summed with the below excerpt from the BBB. In this complaint, the BBB erred in releasing the consumer’s name. It is evident the consumer did not give consent or permission as many redacts appear of her name but first mention of the consumer within he company response, does not. See below excerpt from the BBB.

I got a payday loan online for ($300.00) a couple years ago. I have payed these people ($1700.00) dollars, and they say that was not enough and kept taking money out of my account. I then went to the bank and closed that account and opened a new one. I also changed my phone number. Things were quiet for a couple of months and I thought that was it. Well, I opened my bank statement this morning, and there are XXXX unauthorized checks written on my account. I received no call nor did I receive any letter from the collection agency they use. I then went online to check my status with the loan company and discover that they changed the amount I borrowed from ($300.00) to ($700.00). The only reason they did this is so they could collect more money. I have bank records from the direct deposit they made and it is ($300.00). The web loan company told me that since they are making loans from an XXXX XXXX in Oklahoma, they didn't have to follow "our" laws. I am currently unemployed and absolutely need every penny to feed my child. This can not be legal. I am retaining an attorney.

Sometimes after all my bills are paid up I might not have enough money left over for everyday thing like gas, food and other things so the cash advance lets me live and take care of those things until my next check comes in. The fees are decent and it's really convenient. I'd be broke without it that's for sure.

I'm in the process of getting used to my new pay schedule and since my husband passed away I am the only one bringing anything home so the cash advance has been helping me and my daughter keep our head above water. I think it's a lifesaver for us and hope it never goes away.

I live way beyond my means sometimes and sometimes I do not leave enough only for my bills to be paid. I'm trying to budget myself a little better but until then I'm going to use this service to keep me on track. I was denied credit at my bank so I'm sure glad that the cash advance is available.

With my husband being laid off and the medical situations that have been coming up for us the cash advance has been an incredible help to us to keep bills current. Nothing else would help me because we have such bad credit. We have no options other than this so for now we need it to stay.

I like to keep ahead of my bills so the cash advance is more of a convenient thing for me to use to stay ahead on them. I do not have the require to get a loan from a bank so the cash advance service is like my bank. It also kept me from making any partial payment if I ever fell behind. If that was to happen the late fees would have been more than the cash advance.

I have XXXX children and times are so tough right now because I just do not get the support from anybody and being on a fixed income it absolutely kept me and my kids going. I do not want to get in debt with credit cards and doing this keeps things short term and manageable.

I work part time a lot and sometimes I run short to get my rent paid or to buy myself some groceries. It fills in the gaps and keeps me from borrowing from my friends. It's worked so well for me and I'd be devastated if it were taken away. This is such a great service for the community and should be left alone.

The cash advance is my way to stay current with all my bills. My pay tends to go up and down at times so this service levels things out for me. My credit is pretty bad and I use to go to pawn shops but they are so expensive. If this is taken away from us it would hurt so many people ... not just me.
Some of my bills are due before I get paid and I'll use the cash advance to help me out and make sure they are paid on time without delay. It strains the relationship when you try to borrow from family so I choose not to do that. So in conclusion if this wasn't here for me I'd have things shut off or pay lots of late fees.

This payday loan service is a wonder. It helps me when I have emergencies that come up. When I went to my bank for a small loan they said they don't do small loans like what I was needing so this has been very convenient to me.

The cash advance helps out me and my family so much. It really keeps us from struggling when we run short. When you have kids there always are things that come up that they need and that's why I'm so glad to have the cash advance to fall back on when needed. I could ask my family but I don't like doing it.

Sometimes I need help with my bigger bills like car insurance, light bill or even my rent. I get cash advances when I need help with any or all of those things. I've tried to borrow elsewhere but nobody would help me out so the cash advance is my last and only option for someone in my position.

Whenever me and my wife run a little short we will use the cash advance to help us out. It's usually to buy some extra groceries or pay a bill we may have forgotten about. We do not use it often but it sure is a lifesaver when something comes up. It's so convenient and solved the problem at the moment and keeps us going until our next check comes in.

I have only used the cash advance a few times and when I have I can tell you why I did. It was because it was short term and needed to be paid back quickly. This way for me there was not anything hanging over my head and I was done with it. It def served the purpose for my needs.

Basically I had some issue a few years back and got behind and was accumulating a lot of late fees and I used the cash advance to get me back on track. I do not want to ask for help from my family or even friends so this has worked very well for me and should be left alone by the government.

The biggest and most things I'll use the cash advance for helping with my bills and daycare. Especially this time of year with getting all the back to school items for my kids. Now that my health insurance is out the roof there are times that a single mom like me needs some help and the cash advance provides that for me.

If for some reason I have to pay something that fell out of order of when I get paid then I'll use the cash advance to get me back on track. This seems like such a good program and has always worked out well for me. I only use it in cases of emergencies. And as I think about it I really don't have any other options when these things happen.

My company shorted me on my check so I instantly went and got a cash advance to supplement my income until it all for straightened out. It was so quick and convenient and I knew it was something I could manage on a short term basis. It really saved me from a lot of late fees plus it kept my credit in good standing.

Usually the cash advance will pull me out of my financial emergencies. It can help from paying my cable bill to a car repair. It's so fast to get and solves my problems quickly. I've tried in the past to get this type of help from my bank but because my credit is not any good they denied me. I know I would be in so much trouble if this was ever taken away from us by the government.
The cash advance is such a good way to help me out with the everyday incidentals that come up in everyday life. I’ve used it for car issues, gas, groceries and even to help out a friend when he needed a few bucks to get him by. I do not have too many friends that have extra cash and the ones that do I really do not want to bother them for help so the cash advance is my way of being discreet when I have a financial issue that comes up.

I drive an older vehicle and the cash advance has helped me out when things break on it and it keeps my car on the road so I do not lose any time at work. My options are to put things on my credit card and I do not want to do that because they charge way more in interest than the cash advance.

My rent is due twice a month now and I use the cash advance to help me out with this adjustment. I would be out on the street and homeless without it. I am not quite sure what I would do without it. I am not able to borrow any money from my back or family so this is such an awesome help for me.

I can tell you that the only thing I will ever get a cash advance for is to help me pay my rent when I just do not have enough to pay it. This is the only service that I know I can do without requiring excellent credit. It has literally saved me hundreds of dollars in late fees by being a to me when I need it.

I do get into a bind with a car repair or an emergency or anything that happens in life where I need some extra cash to get by, the cash advance is such a wonderful option for me. I definitely do not want to get a large loan at the bank because this is hassle free.

Cash advances are such a big help to me. There have been a number of times that my utilities would have been shut off. For a woman my age and the limited amount of income I have coming in it’s been my only help I can get when I do not have enough money to pay a bill. It’s literally saved my life.

There are times when I just need a little help and I do not get paid for a few days so the cash advance has been that help I need. It’s really is nice to have for everyday things such as gas for my car, groceries and it even helped me get into my new apartment. I like the fact that they do not require good credit to get a little cash.

The cash advance helps me out so so much because I have some medical bills that I have to pay for out of pocket because it’s not covered in my medical plan. I’ve looked around and I’ve found this to be the cheapest and fastest way for helping me out. I truly do not have any other options.

The cash advance is so perfect for me to help me either to catch up on my bills or to stay ahead of them. I went to my bank and they would only loan a larger amount than what I needed. Also the fees and interest were much less too. I just do not know what I would do if it were gone to I am praying its stays here for me.

Most of the time I use the cash advance for the XXX. It’s has been a quick fix for me because I can not wait for the bank to approve me for anything. It’s really been a life saver for me and I appreciate this service so much.

I am a little behind on my bills because I just came off of an unpaid vacations so I am using the cash advance to catch up on those bills that came due during this time. I’ve also in the past used it for car repairs so I do not miss any work. It sure would be a struggle without it.
I am a XXXX and during the XXXX I do not get much pay and the cash advance during this time is my lifeline until XXXX. I only need something short term so this is exactly the type of short term loan I need. Really the only other thing that would happen if this were not around would be for me just to be late on bills and pay their late fees.

I am a traveling nurse and sometimes my pay goes up and down and sometimes the cash advance helps supplement my income during those down times. I do not have any credit so in reality this was my only choice. It also has helped me keep my car on the road and because of the work I do, if my car breaks and I cannot fix it then I do not work.

Cash advance help me out by balancing out my income so that all my bills are paid on time and even early. My bills come first to me and everything else is second because I just want to make sure that I never pay a late fee because that is just a waste of money. I am a single XXXX lady and I do not have anyone else that could help me out when I need it like the cash advance does.

Cash advances help me out when everyday bumps in life come up like an unexpected bill or a car repair. It gives me the cash I need quickly. The strain that can be put on a friendship or family relationship when you borrow from them is something I try to stay away from doing that. I like to be able to take care of things myself.

I have used the cash advance in the past whenever I am short on cash and do not have enough money for gas or food. It is so much cheaper and quicker than getting any other type of loan that I am aware of. My choices are very limited so I am sure glad that this option is available to me.

The cash advance prolongs my income only getting paid XXXX times a month and it allows me to rely on it for emergencies situations. The cash advance was much easier than trying to get something from my bank because they would not loan a small amount like this. If this were to be taken away then I would just let my bills be late and have to deal with the late fees which I do much rather not do.

I will use and get a cash advance primarily to help me pay some bills when I am short on cash to get them paid. The biggest one for me that it helps with is for daycare. I use to go to a pawn shop but I have found that it was much more expensive to do that than getting a small cash advance. Also, I ended up loosening a couple of my items because they would not work with me paying it back and XXXX always works with me.

There are times when I will get a check and my bank will hold the funds for a time and I do not have access to it so when those types of situations come up, I will use the cash advance so that I can continue to pay my bills, put gas in the car and things like that.

When I was going through my divorce the cash advance was such a huge help for me. Even my own bank would not help me so without the cash advance I know for a fact that my kids and I would have been homeless. It really helped me keep my lights on and food on the table. My life and my kids life would be worse off if this were not available to me.

I just got laid off and am only working part time and since my income has gone down drastically the cash advance has been helping me keep my head above water until my job situation stabilizes. It would be such a struggle without it and I am so very happy that it is here for me. I do not have good credit so if it were taken away I do not know what I would do.
When I'm in a pinch like right now I need a new transmission for my car and I did not have the money to get it fixed so the cash advance is helping me out. My credit is not so good and I struggle from time to time to meet my obligations. The cash advance for me, being a war veteran, has been a big help.

Mostly I use the cash advance to get me through when I'm running short on cash and I need to pay a light bill or my rent payment. I've tried to get a loan from the bank but they won't help me so I'm sure glad we have the cash advance and hope it does not go away because if it did I might be homeless.

The cash advance is my go to thing to do when I have something come up like. Care repair or something needs to be fixed at the house and I need some extra cash and I'm waiting on my next check. My friends can't help because they live paycheck to paycheck just like me. This is a great program and needs to be here for us whenever we need it.

So that I can make sure that my bills get paid on time when they come in before I get paid I'll use the cash advance to help me out. I also use it for school supplies for my kids and really I choose to do things this way instead of tapping into my XXXX. It's fast and easy and I just do not want to take care of these type of small things any other way.

Every now and then I will run short because an emergency comes up or I just need some help with some medical bills and the cash advance is a big help to me. Today I'm using it because I need to go on a trip and I need some extra money for gas. I like doing things this way because it's fast and easy to pay back.

I generally will use the cash advance around this time of year for back to school items and supplies. I live paycheck to paycheck so this is a big help for me to get them ready for school. Actually my bank recommend this service to me and it's really been helpful.

I'm on a fixed income and only get paid XXXX a month and sometimes my bills show up before I get my check. So the most convenient thing for me to do is get a cash advance to help me get that particular bill paid while I'm waiting on my check to come in. I do not believe in credit cards so this has been so helpful to me.

There are many things I use the cash advance for such as getting a bill paid on time to grocery shopping. We find it much easier that going to our bank. I definitely would accumulate some late fees that would pile up if this were ever taken away from us.

I stick to use the cash advance to help me pay my bills when I fall behind or something happens and need to replace this bill money. This was the easiest fix for me at the time. When credit is an issue there are not any other options so I'm glad this is here for me.

The cash advance is helping me put new tires on my care which had to be done right away. I do not get paid until tomorrow so this is just perfect for my situation. I would have had some late bills and gotten a ton of late fees if not for this.

Cash advances help fill in my financial gaps. I'm a XXXX and my pay fluctuates all over the place so this is the way I choose to keep things going for me when I need some help and need some cash quick. I do not qualify for any other loans so my options are none at this point. For me and at my age this is my only way to stay afloat.
Given the circumstances that I’m in with the break up with my boyfriend and he left me with all sorts of bills and the cash advance is helping me catch up. I do not have any credit cards so this was the most convenient way for me to get some money quick when I need it. I’m on my own now and my mom is not going to let me borrow from here so this has helped a lot.

The cash advance to me is just like a bridge loan because when I get paid and when my bills are due do not always line up. This is my only option because I just moved here and do not know anyone. My dad could have wired me some money but I’d much rather take care of things myself and the cash advance makes that possible.

If I have a car repair, late bill or any type of emergency that may come up, I’ll use a quick cash advance. Much better than going to a pawn shop or trying to get a car title loan. I think the price is very reasonable and the fact that I can get a regular loan it’s like having my own personal bank.

The cash advance is a wonderful for me when I need to buy gas or diapers for the kids or really anything and I’m short on cash. The bank takes too long and my credit is not all that great so the cash advance is just perfect for me. If this were gone then I would have to resort to pawning some of my things which I just do not want to do because they charge so much interest.

With the way my bills line up they do not line up with when I get paid so the cash advance helps me out to get those bills paid on time without delay. I’m unable to get a loan from the bank and really the cash advance has helped me keep my focus on my bills better which ends up helping me out in the long run.

Normally I’ll use the cash advance to help out with bills. As a XXXX veteran I sometimes need help and this is much less hassle than my bank. The paperwork was not invasive and did not have anything to do with credit so it’s been a wonderful thing for me to have when I just need a small amount to get me by.

There are many things I use the cash advance. I’ll use it for things such as car repairs and to help out my kids when they need help. It’s such a great thing to have when I need to get some quick cash for what the situation is. I also think the fees are more than reasonable and trying to go to a bank for a small quick loan it’s virtually impossible to get.

When I need help with my rent or other bills, the cash advance has helped me get through until my next check comes in. It’s way easier than trying to get a line of credit. I do not have a credit card so this has been working just fine for me. I would definitely rather handle things this way than to go to my family for help.

We are trying to double up and pay off all our bills so what we’re doing is using the cash advance to buy groceries and have cash for other things while we use our checks to go towards all our bills to pay them off early. I know it sounds weird but it’s working for us.

I will usually and mainly use the cash advance to help me pay my utility bills. I like how quick and easy it is and the fees associated with it are more than reasonable. It’s been a big help to me so that my utility stay on and avoid any late fees.

Every now and then I’ll need the cash advance to help me out with everyday life and bills that happen. I just recently changed jobs to a lower wage so this is helping me keep things going until I establish myself and get a raise in pay. It would be a big struggle without it for sure so I’m hoping that the government does not take it away. It would be a shame if they did.
There are times when I have an unexpected bill that pops up and I like to use the cash advance to make sure that that bill is taken care of quickly. I chose to do the cash advance instead of putting things on my credit card. Credit cards ten not to be paid for and just sit there so this works well for me.

When I need help and I m short on cash to pay my bills I ll use and get a quick cash advance to help me out and make sure it s paid on time. I do nt want to have to go to the pawn shop and would rather do things this way because then I do nt have to put up any of my things as collateral.

Whe I fall behind the loans make it easy for me to come and get the money to pay our bills. When our bank is closed, it is easy to come and can my paycheck.

Things have gotten better for me with the help of the loans by allowing me to catch up on things like paying certain bills and other financial concerns and I am thankful they were available at my time of need.

I only get paid once a month and it varies on how much I get because I m on commission and the cash advance is my way of keeping my financial situation leveled out. The cash advance helps me and makes me more disciplined paying things back where with a credit card it can just keep building up.

I had a little problem a XXXX weeks ago and the loan helped me get ($200.00). This is a good business environment and will forever have my business

I ll a lost always use the cash advance to help us pay current and past due bills and debts. Both my husband have talked about this before and without having any type of good credit this type of service is the only help for a small loan that we can get. What are we supposed to do? The go need to eith find another way to help us or just leave the cash advance alone.

Cash advances for me are used for medical bills, appliance repairs, and any bill that s left behind. This has been such a huge help for me and I m very thankful that it s there when I need it. My life would be much more complicated and difficult if this were taken away from us.

I have a son that just finished medical school and he is still trying to make his way and I use the cash advance to send money to him so I can help him out until he gets back on his feet. It s nice because it does nt effect me paying my bills so I m glad this is here for me and him.

The cash advance is my way to get my bills paid when I just do nt have enough at the time to get them paid. I do nt want to risk going to the pawn shop and risk loosing my stuff. I want to say that I think it s nobody s business on where I borrow from so I hope that the government stays out of our business and leaves us alone on this issue.

I m XXXX and my expenses sometimes get to be a little higher than my monthly check. I just do nt want to borrow from a family member but I suppose I could. Doing this has helped me keep my independence and not bother other people with my problems. And the fee involved is more than fair I think.

The cash advance is just a way for me to have a little extra cash on me before my next check comes in. I do nt like walking around with no cash on me in case something comes up so I really like this short term way for me to get a short term loan.

I send my son money all the time and so that I do not fall behind on my bills I will use the cash advance to allow me to help him out. I do not want to put anything on my credit card and I like that it is fast, easy and I take of things my own way. As a mom, this is really important for me to be able to do this for him.

Cash advances help me catch up mostly on my house bill or mortgage payment. In the past I just be late when I was short on cash and get hit with enormous late fees. So now when I am short I avoid those extra fees by using the cash advance. This provides me with quick relief to my financial needs.

August 7, 2015
I've used the cash advance from helping me pay for my daughter's graduation to my electric bill. It's generally just to get me by until my next check comes in. I like the fact that it has to be paid back on my next check and is not all drawn out for a long period of time. I only want to use this as my option for a short term loan.

August 7, 2015
I'll usually use the cash advance for helping me keep up with my bills or to buy food and diapers for my kid. Honesty here is no other option for a person in my position. I only use it when I need it so I would think the government would just leave this alone. I'm one of the many people that does not have any credit so for people like me what do they think we should do?

August 7, 2015
The cash advance is my way to help me supplement my income when my check is not what I was expecting. I'm in the service industry and my pay goes up and down and I can tell you that the cash advance is such a big help to me. I'd probably not be able to meet all my obligations some months without it.

August 7, 2015
Right now I'm helping out my parents because my dad lost his job so while he is looking for work the cash advance is helping me to be able to help them out. I've chosen the cash advance because this all happened so quick and I needed to get some extra money quick and this was a very fast process. Without this I would not have been able to help them with their rent and they would have been evicted.

August 7, 2015
The cash advance helps me out a lot. If I have a situation at home or if I need help paying for my child's school the cash advance has badly enough out so many times. My husband and I are working on having an emergency fund but for now, the cash advance is our emergency fund.

August 7, 2015
There have been many times when I've had to use the cash advance because with the way my bills are scheduled they do not always align with when I get paid. It's been a big help to me to ensure no bill is left unpaid. This type of product allows me to fend for myself. If this was not available then I know for a fact my situation would be in very bad shape and the late fees would be out of control. I have no problem with the fees involved. I really like having the option to use this when I need it.

August 7, 2015
When we run low on cash the cash advance sure was a big help for me and my wife. It really served the right purpose us to get caught up on our bills. It's really good because they have worked with us when we fell behind paying it back. It's been a lifesaver for us when I had some medical bills that piled up.

August 7, 2015
The cash advance has helped make up the difference on my paycheck when I recently moved to the area. It's helped me keep all my bills paid on time during this period. My credit is not high enough for a traditional type of loan so I'm really glad I had the cash advance as my option. This really was my only option.
I'm still getting used to getting paid every other week with my new job where as I used to get paid every week. The cash advance is helping me out during this transition. Banks are pretty strict with their requirements for a loan and this program has been easy and I get just what I need. I just do nt want to burden my family with my financial issues so I m so great full for the cash advance.

When I run short on paying some bills the cash advance is my go to way to get them taken care of and avoid those late fees. I do nt want anything long term and the interest rate on the cash advance is much more affouthan any other options that I have at this time. It really makes me mad to thing the government wants to do away with this and I hope they do nt.

Cash advances have been helping me out with paying off a lot of my medical bills that I racked up when I was sick. I like it because I only use it when I need it and it s very fast and easy to get. I did nt want to go to a pawn shop and pawn my stuff because that was really expensive to do.

If I ever need help with buying some groceries, gas or bills when I m short, I ll use the cash advance for help to get me by. I find this to much cheaper than the ones on line. If this were ever taken away I would probably have to go back to the online cash advances.

There are times when I have a gap in income from my pension, social security and my job. So when those gaps accure then I ll use the cash advance as my insurance to fill those gaps and keep things good with the people I owe. This has always been the fastest way for me to get the help I need when I need it.

Mostly all the times I use the cash advance is to help me and my wife out with our rent and if there is anything left over I ll use it to buy some groceries. This is always the fastest option for me because usually if I need extra money it has to be quick. If this were nt around I would probably have to go to some charitable organization.

I like to use the cash advance whenever I need help finishing getting my rent paid or if my electric bill is more than I had planned on. I wish the go would understand how much a service like this helps us people out and really if it was nt here for me I just do nt know what I would do. It s not like there are a whole lot of options out here.

I have a loan payment that I sometimes need help with and the cash advance has been helping me get that loan paid off. It s also has helped me pay my property taxes. Even sometimes when all my bills are paid I just do nt have enough to put gas in the car or grocery on the table so really the cash advance has been helping me out to manage my finances and keep me going. There is no other option out there for me so this needs to stay with us.

There are times when I just do nt have enough for getting my bills paid or something like that. I ve used the cash advance to keep all my bills paid on time without getting any of those late fees added on. I ve tried to borrow from my family before it is was a huge hassle so I ll always use this as my backup plan when I need help.

A payday loan has helped me get back on my feet. It helps me stay on track with my bills and not struggle on getting behind. Late fees and bounced check fees are greater than the loan cost.

Payday loans have helped me a lot. Paying bills on time and unexpected expenses is why I use the loan service. They are quick and easy. They sure help relieve the stress of my finances.
Payday loans has been very helpful in the past due to the economy.

Payday loans have been a very big help when I get unexpected bills. They also helped at XXXX.

I am helping out my mother right now with her bills because she does not have any help from other family members. The cash advance makes it possible for me to be able to help her out and keep up with my bills at the same time. I also from time to time help out my son with some of his expenses so as you can see it would be absolutely horrible if this was not available for me. It would affect all of us.

The payday loans help me when I got in a financial jam. I had to pay rent on time to prevent being evicted. The loan helped me until I got my next paycheck.

Bills and more bills is what I use the cash advance for. I've tried to get loans from the bank but they charge too much interest and there requirements with credit make it impossible for me to use them. The cash advance is easy, affordable and can be done quickly when there is an emergency.

Cash advance helps me out with all my bills and would be totally lost without it. It helps me out with every aspect of my life from work to home. If this were ever gone and not available I would be in big trouble because my option are very limited so I'm really hoping it's always there for me when I need it.

The cash advance keeps me going. It's used for mainly everyday expenses including groceries. With XXXX kids and the way everything is so expensive I need this sometimes to get by. Borrowing from family and friends is really not an option for me because I don't want anyone knowing my busy.

Whatever bill I have and I need to catch up on like electric or my rent, the cash advance is my way of getting help and a small loan to get me by until my next check comes in. I'm still working on my credit and the way that it still is this really is the only loan I can get. I think the fee is just fine for the help I get. I'm getting close to being back on my feet and not have to borrow from anyone anymore.

I've had quite a few house repairs lately that have needed to be taken care of quickly and that's where the cash advance comes in so handy for me because it's quick and affordable for me. I would go crazy if the government ever took this away because I do not have anyone else I can borrow from. This is a necessary service for all the people I know.

The cash advance helped me stay out of debt. I do not get a lot of money from the government and without the cash advance my life would drastically change and go down a lot. When my budget gets all messed up the cash advance fixes everything for me and my wife. We really would be hurting without it.

The cash advance saves me all the time. XXXX I have bills that are due in the begin of the month or in the middle I can always count on this for help when I need it. My life would be such a struggle without this because with my credit the way it is this is my only option for help when I need it.

The cash advance is not always used for me but it's nice to have in an emergency to get a bill paid. It's so much better than going to people in my life or even use a pawn shop which I've used in the past and it's just way too expensive for me.
Cash advances are such a wonderful thing to me. I'm getting older and only get paid once a month and the cash advance has helped stabilize my financial situation when things get a bit out of control. Generally I'll use it for my car payment but really I've used it for some many things when I get into a little trouble.

Both me and my family use the cash advance whenever we are in a bind and need help quick. Recently I needed to do one to help me move into my new apartment. This service makes and keeps me independent financially so I don't have to ask family for help. I have no credit so this is the only way to get a short term loan for me.

My husband is the only one that has income and it's just once a month and it's fixed so anything that comes up financially can be a problem. The cash advance solves those problems when they come up quickly without any hassles. We would really be lost without it.

There are so many reasons I use the cash advance. From car repairs to helping me out with a bill that may have come up that I wasn't ready for. I really need this service because my hours at my job go up and down so when I don't get what I'm supposed to get the cash advance levels everything out for me.

There have been times when I've needed help getting some of my bills paid like my car payment and electric bill. Sometimes when all my bills are paid I don't have anything left to live on so it's helped me survive at times. The late fees would be astronomical if I didn't have this to rely on.

I will strictly use the cash advance to help me pay my mortgage when I'm running short. My son is very sick and he is now living with me and being on a fixed income and now adding another mouth to feed and everything else, the cash advance has saved me many times. It's such a great way for me to be able to take care of things myself.

Last year, I was in a bind after my car broke down and I had to take my dog to the vet. So I took out an installment loan ... without fully realizing how high of interest they were charging. My ($800.00) loan was going to cost me almost 3 times what they loaned me! Once I had paid the ($800.00), plus a more than reasonable amount of interest, I filed a complaint with CFPB requesting that the Lender close my account as paid in full. Less than 2 weeks later, I received an email from the Lender fulfilling my request! I appreciate the work that CFPB put forth in assisting me.
I went to college around XXXX years old. I signed for a few loans (not sure of what I was getting into.) Thankfully, they are federal student loans so I was able to get them under control and consolidate. I wanted to return back to school, so my Mother co-signed a loan for me. She co-signed a private student loan. I had no idea I would be in this much financial hardship because of XXXX XXXX loan. Now, my debt is in collections and rather than call me to talk to me about my debt, they contact my co-signer. I rarely get calls and almost never get mail from them. They are telling me that the minimum I have to pay now is XXXX a month. This is not possible. I work full time at a bank, I have bills, rent, a car, etc. I only make about XXXX a month, so XXXX is clearly not possible for me. I have tried to get them to lower it but all they ask is "Can you borrow XXXX from someone?" Unfortunately, that is not possible at the moment. I have basically ruined my mothers credit, my credit is also ruined. At this point, my dreams are crushed of being able to buy a home, ever buying a new car and sadly, we have decided not to have kids because, financially, we can not afford it. I have basically ruined my mothers credit, my credit is also ruined. At this point, my dreams are crushed of being able to buy a home, ever buying a new car and sadly, we have decided not to have kids because, financially, we can not afford it. I am thinking of speaking to a lawyer about bankruptcy, but the thing is, the only debt that is crippling me is this loan.

We had car trouble over the weekend that depleted our checking account and the loan helped us get our truck running.

The loan helps me getting my bills up to date.

The loan helped me pay my bill.

With the loans I have been able to catch up on past due bills and have helped my family when we’ve gotten behind.

Cashing checks for cash is convenient one stop shop

The process was made very easy and I am now able to purchase my son’s XXXX medication.

I like the low fees.

The loans help with paying bills and I cash my husband’s pay checks.

The loans are very easy and convenient for me.

I like the fact of having the cash right there instead of waiting for it to clear the bank.

The loan service has been great and has always taken care of my problems. The new loan gives me more time to pay back.

Loans help by providing quick financial help for everyday necessary bills and emergencies.

Makes my job a lot easier, on paydays to cash my checks. No hassle.

Loan helped with an emergency situation.

Your service allows me to make ends meet until my next payday.

August 3, 2015
To whom it may concern, you have helped me in many different ways. Sincerely, your service has helped me pay bills and mortgage payments.

We have been able to pay bills and have money for groceries. The loans have been a lifesaver! We use the money mostly on bills! Thank-you!

I have had several medical issues in the past year, and the loan services have helped me to maintain my household expenses and pay on the medical bills.

The state of California is collecting usurious fees amount to 30% of employment taxes from consumers if they pay late. I employ two individuals in XXXX home and quarterly need to file tax returns with the CA Employment Development Department XXXX EDD XXXX. The EDD does not send me any statements, forms to file or reminders that taxes are due. I failed to remember to file the return due XXXX XXXX until the XX/XX/XXXX. After I fully paid all amounts due for six months on XXXX XXXX, the EDD sent me a bill for an underpayment penalty of 15% and late report penalty of 15% for the same amount that combine to 30% for a 60 day late payment. And you think you have problems with pay day lenders!!! 30% for 60 days is 180% annual rate. How many other consumers are they subjecting to these rates.

My granddaughter and her husband needed some money, approximately ($1200.00). They got a loan from an auto title loan company. I found out about it, asked her if I could see her contract, she showed it to me, and they would have been paying more than 300 percent interest per year. I paid off the loan immediately, and for two days the payoff was the amount they paid plus ($70.00). I can not imagine that this is legal. These people are preying on young people who are in need and are desperate enough to think they can pay the loan back. They would never have finished it. Is there something we can do to regulate the amount this type loan company charges for fees and interest? Or, even better, is there some way to close them down and prosecute the owners for loan sharking?

My hours have been cut in half because of all the rain we have been getting and the cash advance has been helping me supply enemy income in the mean time. I think this is the easiest way to handle my situation right now. This works for me way better than trying to pawn some of my things.

July 31, 2015
The cash advance is usually my way to fill in the gaps because all my bills tend to be due all at once. It s great the the cash advance does nt have anything to do with credit because for now it s actually helping me bring it up. If I had to and the cash advance were gone, then I would have to go back to putting things on my credit card and I really do nt want to do that.

July 31, 2015
I ve recently had numerous medical issues and have exhausted all my regular co pays so the cash advance has been helping me out with my bills to avoid any late charges while I pay for my medical issues. I do nt have any family I can borrow from and I surly do nt want to ask my friends for help. I absolutely do not want the government to stop this program because it s not hurting anyone.

I m on a fixed income and only have XXXX income coming in and the cash advance has been such a blessing to me. I do nt have many other options at my age so I m just so greatful for this. I m pretty sure I d have to live without certain things if this were gone. It s really a good deal because it does nt cost much and it gives me just what I need to get by.
I just moved here and I'm getting adjusted with moving and getting my bills paid on time and stay a float. The payday loan has been my lifeline to keeping myself going until I get situated again. The payday loan from what I hear is the safest way to get a loan and I trust it a lot. This is so necessary for me when I need it.

I had an emergency dentist appointment and they would only take cash or check- no credit cards. I did nt have the extra cash available immediately and the pain was unbelievable. I got the payday loan and was so fortunate to get out of the extreme pain the same day. The loan company really saved me.

Sometimes I get behind on some of my bills or sometimes I need some extra cash to go out or buy something. The payday loan is the easiest and fastest way for me to get cash when I need it. I like the fact that I can pay it off quickly. It would be a real hardship on me if this were ever to go away.

I only get paid XXXX a month. If unexpected expenses come at XXXX for Medicine or repairs I do nt have the money I do the loans at a payday place and then pay off when I get paid again.

A payday loan has helped me in many ways to keep a bill current and avoid late fees.

When life through me curves or I just need some help paying for some bills or gas then I use the cash advance to help me out. I m a XXXX and do nt get paid in the XXXX so this really helps a lot. I m not sure what I would do if this were gone. I guess I d just have to get another job.

Mostly the payday loan helps me keep my bills paid. My hours at work sometimes get cut and I need this type of service to help me out during those times. I m making time right now to get a XXXX job to make it so this is nt needed but for now it sure helps me.

Payday loans is very helpful for me to keep my bills paid on time. I would be paying huge bank fees if it were not for the loans.

I have had emergencies in which I could not come up with the cash that I needed at the time. The payday loan company has helped me out many times.

I experienced major carat problems and did nt get paid until the XXXX. I got a payday loan to help me fix the car and will pay back on my payday.

I have so many bills that are do all at once and this payday loan service helps me stay on top of them. It s been great to help me not to get those large late fees. Sometimes I even use this to pay some bills early so it actually helped me improve my credit. This is so much better that going to a pawn shop.

When funds are low or I have an emergency that needs to be taken care of quickly I ll use the cash advance to get the help I need. I do nt have much family in the area and since this typ of loan can be paid back quickly, I reall like it a lot. I would be stuck between a rock and a hard place if not for.

Sometimes I use the cash advance for bills and sometimes I use it to help out my grown kids when they need some extra money. It s very easy and quick and such an asset to me when I need help. I m not a very good saver but I m working on it.
The payday loan helps me make ends meet every now and then. It's such a big help when I need help with a bill or really anytime I need a little cash to get me by. The fee that is involved is no big deal and I like that I'm able to get XXXX and pay it back right away and not have something long term. I'm working on doing better with my budget but it's nice to have this as an option.

I only use the payday loan to have some spending change to have in my pocket. Occasionally I'll use it for a bill but mostly it's for recreational use. It's so nice because it's easy and quick to get. If the cash advance was eliminated I'd be ok but I don't think it should be taken away from most people because I know they really count on it.

In the past, I use the cash advance when I was in the transition from working to retirement and now I'll use it when I want to go on a trip and have some extra cash to have so we have a better enjoyment on our trips. We don't like applying for loans because it's so drawn out and complicated and usually the payback is such a longer time.

I will mostly use the cash advance to pay back my siblings when I've borrowed money from them. I know I would probably be behind on my bills if this were gone and also would not be able to payback my siblings in a timely manner. I find it disappointing that the government is getting in our way and trying to take our rights to use this product.

I just retired and right now I'm still adjusting to the new lower level of income coming in and the cash advance is helping me out during this transition. This is such an easy process and is such a big help to me. My only other option would to pull money out of my savings and retirement but I want to leave that alone so I'm very happy to have this cash advance program for help keeping it there.

I'm a college student and this cash advance program helps me every now and then to help pay for my education like for books and stuff. This was the most logical solution for me because the cash is immediate and convenient. I could go to my parents but I'm trying to be independent and take care of things myself.

The payday loan has gotten me out of some really tough spots when I've had some bills that needed to be paid and I was short on cash. I could have gone to my aunt for help but I've been really trying to be able to get through these times and so far it's working.

The payday loan is my go to way to help me out and catch up on bills when I fall a bit behind. I have CDs that I could go into I suppose if it was an emergency but I just do not want to touch them because they are my real backup plan. This is a more convenient way for me to handle my financial shortfalls.

I only use the cash advance for help with my rent. Sometimes my husband does not always have full weeks where he works so this will help us out. We would absolutely be lost without this. I have XXXX kids and we have a lot of expenses and this really is a huge help to us and without it our life would be miserable.

Sometimes I get in a situation where a bill or an emergency needs to be taken care and the payday loan will help me take care of those. I also will use it around XXXX time to help me out during the holiday. More than anything else I use this service because of the convenience and how fast it is.

I have money in the bank in a special bank account so the reason that I use the cash advance is so that I do not have to touch that because I know that once I do I will pay it back to myself. It's easy and fast and takes care of any emergency that might come up. I'd like to think that this will always be around for me.
This is my first cash advance because I was just a little short in getting a few of my bills taken care of. Those bills I need to get taken care of and I know something would have been shut off it this was nt available for me. It was so fast and easy and I m just so glad it was here for me.

With my husband just loosing his job and my income is the only thing coming in right now, the cash advance is helping us pay bills and with XXXX kids even groceries. We like that it s fast and easy and always there for. I m not really sure what we would do without it.

I will use the cash advance when the unexpected things in life happen like car repairs, vet bills. Really helps out because you budget for your bills and not the big things that you do nt plan for. Without any family support in the area, the cash advance is really our only backup to when things happen.

With the way I get paid which is bi weekly and I need help with some of my bills, then I use and get a quick cash advance to tide me over until I get paid again. Since my credit is nt so good so this type of loan is what I have to use in the time being until I get my credit back in shape.

I m the family member that everyone goes to when they need help so in reality the only reason I use the cash advance is to be able to help them out. If I was nt able to do this for them then they would be homeless or even worse have to come live with me.

The cash advance is a supplement for getting my rent paid every now and the. If this was nt here then I know that I would have been paying lots of late fees or even loose my apartment.

The cash advance helps us out when we are in a bind and it helps us with getting our bills paid. I ca nt go into my bank and get a small amount of cash for a loan so this is truly our only option. It s even helped us pay for some groceries at times.

If I get behind on my bills the cash advance helps me out tremendously. It does nt happen a lot but when it does it s a huge help to me. If it was nt for the cash advance my late payment would really add up and at the end of the day would be much more that what it costs to do a cash advance. I also really like how fast and easy it is to do.

The cash advance has helps me specifically to avoid late fees and portending my credit. I ve done the math and the cash advance is much cheaper than paying late fees. Without any other options I suppose if this were ever gone I would just have to pay the late fees and let my credit go down.

Like most people I love paycheck to paycheck and by the end of the month I sometimes run short and I ll use the cash advance to see me through instead of asking my friends for money. It keeps all my bills paid on time without and type of hassles. You ca nt go to a bank for this type of fast and small hep so I m so thanks for this service. I think the interest is more than reasonable.

Sometimes my social security just is nt enough when something comes up that is totally unexpected, then the cash advance helps me pick up the pieces and take care of that problem. The only other person I have as a backup would be my dad but I just do nt want to go to him with my problems.
This company really helped me out when I needed money to pay my rent, by borrowing the money it prevented late rent fees.

I need extra money to take care of a personal issue. The staff helped me by making me feel comfortable and explaining my payment options. I really had no other options.

I only get paid once a month and the cash advance is a nice buffer for me and sometimes I have to juggle things around to keep things paid on time or stay ahead on certain bills. It's such and easy and hassle free program and only use it when I need it. It's nice to have in my back pocket when I'm in a pinch.

Me and my wife have poor credit but we make good money and sometimes we need help or we have an emergency. So the cash advance has been helping us pay off our creditors that have been offering us settlement offers so this is building up our credit again. The cash advance has made this all possible for us.

When I have times when I'm short on cash and need to pay a bill like my electric or car insurance or even to just have some money so I can put gas in my car, I'll get a cash advance to help me out until I get paid again. I don't know what I would do without it. It's been a blessing to me.

My son has a XXXX illness and his medical bills are very expensive and I can tell you that the cash advance has been there for us to help us keep our bills paid. The cash advance really helps relieve the pressure on keeping my bills paid to I'm extremely greatful for it. I just don't have any idea what I would do without it.

I'm a XXXX and only work part time so the cash advance helps me right now push through and keep things paid on time. I've chosen the cash advance for help because I don't want to use credit cards because I might not be able to pay them back if it gets drawn out for a long period of time.

I'm a XXXX and during the summer I don't get paid and from time to time I'll use the cash advance to keep things going until the XXXX starts. This is easier and you get cash right away which makes it very convenient. It's safe to say that it's much better than trying to borrow from my mother.

The gap between what things cost and what wages are is getting bigger and bigger and the cash advance is a great way to fill in the gaps when needed. It's helps for people like me that struggles from time to time. This works for me because it does not cost much and it's fast and takes care of the issue fast.

I can't always make it with my bills as I live paycheck to paycheck and the cash advance saves me a lot. This is the only thing I can afford to do because the banks want you to take a large loan and pawn shops charge too much. I also had an instance when my grandmother passed away, I would not have been able to go to her fine roof not for the cash advance.

Cash advances are a big help to me. I use them to help finish my wills when I'm short on cash. Mostly it's for rent and electric but really could be anything that I'm short on getting paid. I've found that it's much easier to get a cash advance than it is to get a loan from a bank and that's a big reason why I use it.
The cash advance has helped us so many times to avoid paying late fees. If we ever fall behind and we need a little bit of money this really helps us out in a pinch. Usually it helps us with keeping our rent and car insurance paid and up to date. I do nt want to have a long term debt and that why I do nt go to my bank. This is extremely convenient for us.

I use the cash advance for the things that need to be paid and I m short on cash. I do nt make a lot of money so sometimes I need help. This is a handy program and it s fast and easy. Without this would be a big burden on me and at my age I just ca nt handle the stress.

There are XXXX things I generally will use the cash advance for which is to help me with my rent and electric bill. The fees are low and I knew I would be accepted which probably would nt happen at a bank. We literally would be homeless if this were ever taken away. I think it s just cruel that the government wants to eliminate this.

I ve been trying to play catchup as some of my bills were more than expected and so I m using the cash advance to help me get caught up and it s working. It s been an invaluable tool for me to get caught up is ver reasonable and is just a huge help for me right now. I do nt know what I would have done without it.

I will only use the cash advance when I have an emergency and I m out of cash so I think this is a great thing. It s so nice to have this at my disposal and I think the government should just leave it alone. I do nt have anyone else I can borrow from. I need this as a safety net for when things go wrong.

I ve had some issues with my car and have had to have a lot of repairs done and the use of the cash advance has been helping me keep it on the road and running so I do nt miss any work. My situation would be so much worse without it. Please make sure to keep this for us because things happen and we need help every now and then.

There are times when I run a little short in getting my rent paid on time and the cash advance provides me with that little push to get me over the edge and get it paid on time. This is the only type of loan I qualify for because of my credit so as you can see I m greatful that it s available. This is just a great and affordable thing for me so I hope it stays with us.

With the way all our bills fall into place and we find ourselves in a bit of a bind and we only use it as a backup plan when times are tough and all our bills are paid we sometimes need a little bit for everyday things until we get our next check. We have no credit to speak of so at this point in our lives this is the only thing that can help us get by.

Getting paid every XXXX weeks and sometimes my bills just do nt line up correctly so the cash advance provides me with the time I need to get them paid on time and avoid late fees. I do nt have many family members for help and they probably could nt anyway. This for now is my only other option and it really gives me peace of mind and keeps me independent.

The cash advance helps me out a lot. Like I m using XXXX right now because I have to go out of town real quick and need some extra money for gas to get there. With the way my credit is I ca nt get a credit card so this provides me with the money I need sometimes. It s always worked out well and is easy to pay back.

The cash advance helps me level things out and helps me keep my financial situation balanced. I think it was a very easy and fast process. It would be extremely difficult without the cash advance. I m disappointed to hear that the government is trying to eliminate this service when I know it not only helps me but others I know. Hopefully this statement and others like it will help convince them that this service should not be their focus and helping others.
This was the first time I’ve ever used the cash advance. I have a dear friend that is XXXX old and she needed some help financially and I wanted to be able to help her out. I do not have good credit so I saw the ad on TV and also have a friend that uses this service so I thought I’d give it a try. I’m so glad it was here from me and my friend because without it I just don’t know what we would have done.

When I get backed up on bills or I want to take advantage of a deal on something that is too good to pass up I’ll use the cash advance in those type of instances to help me out. I’d much rather go about things this way instead of involving a bank because that process is much more complicated and more expensive.

I am borrowing ($300.00) today to carry me over to my payday in 8 days. Also it is convenient to stop here on my way to work.

I came in today to get a loan for a down payment on a house. I am renting with some friends. The process was quick and easy and really helped me out. The people were friendly and the process of repayment was easy also.

If I ever run short before payday rolls around then the cash advance is my way and help for things such as bills gas and even groceries. I usually only need something small to get me by and with my credit not being so good then I’d have to say this works perfect for me. I really don’t have much other options so I’m sure glad it’s around for me.

The cash advance is a big help to me when ever I’m short on my bills. The cash advance is also the only option that I have. It really does help me avoid late fees and overdraft fees, it’s worked very well for me and I’m really hoping it does go anywhere because I need it.

The cash advance helps us out on our off weeks of getting paid so it fills in the gaps especially when something unexpected comes up. I don’t know of anything else that can give us this type of help so quick. Not really sure what we would do without it at this point.

When unexpected things break around the house or an unexpected bill comes up that’s when I use the cash advance to help me out and get through. I don’t ever need a big loan and just need something small to get me by until my next check comes in. I don’t want to ask my job to loan me money so I’d have to say this works well for me.

Payday stores is a convenient way to get. Money when you’re in need, even when you have problems paying back they work with you to get where I need to be.

The cash advance has helped me get out of so many jams and it’s mostly used for my car issues. If it were not for this I would have missed so much work if it was not there for me. I know for a fact that things would have spiral out of control. It’s quick and easy and with poor credit it’s really my best option.

Whenever I have things come up like when my air conditioner went down or when my insurance payment came due before I was expecting it the cash advance is always there for me to handle these life emergencies. The cash advance is temporary and I like that I can get XXXX, pay it back quickly and be done with it.
The cash advance helps me out in my whole life. From helping me with groceries, bills, gas … just about anything when I run short on cash. Before I used the cash advance XXXX time I over drew my checking account and got hit with over {$250.00} in overdraft fees. So when I get in a bind or I think that s going to happen, that s when I get a quick cash advance to help avoid that.

Cash advances help me out when I m in a bind financially and I need help right away. It s helped me with Bills, food and for medications. I like taking care of things this way. I do nt have to pawn anything and it s extremely convenient. It really helps me take care of any emergency that pops up.

I recently had to take a week off from work due to a family issue and the cash advance has helped my family get through until my next full check comes in. It basically helped with gas and putting food on the table. I do nt know what we would have done without it really so I m extremely greatful to was here for us and hope it s around for a long time in case of any emergencies that come up.

I ve had some roommates that have nt always worked out and there are times when they do nt pay part of their rent and things and the cash advance has helped me to make up the difference until I was back on my feet. It has really given me peace of mind and helped me through the rough times. With my family being out of state this is the quickest way to get the help I need.

I normally use the cash advance to help me pay my bills when I do nt have the money right now but will have in a couple of days. It s helped me buy groceries even put gas in my car. I m so thankful to have this as a backup plan. You ca nt get a small loan like this at a bank so this option really works for me.

The cash advance has been helping me some of my XXXX treatments. My XXXX does nt pay for everything so this cash advance has really saved my life. If this was ever taken away I m not sure I would be here today if this were gone. I just ca nt believe that the government has the XXXX to get involved in something that have no idea how it helps us.

I enrolled in a payday loan debt consolidation firm inXXXX XXXX for a 6 month program. They withdrew {$400.00} each month and in XX/XX/XXXX I completed the program and received a letter datedXXXX XXXX ( received XX/XX/XXXX ) stated that fact. Meanwhile XXXX of the lenders sent me a letter stating that not only did I owe {$300.00} but it was sent to collections and was on my credit report bringing my score down. I called the lender to explain that the debt consolidation company had paid it, and they said they had contacted company but received no response. I contacted the company to get proof that the amount had been paid and received no response. I feel THIS IS CRIMINAL!

CFPB contacted the company and have not received a response either. They are continuing to reach the consolidation company however, I would like to see some stronger action. I dont know if CFPB can do any more and maybe I need to contact another agency. I thought CFPB would do more to help me.

I use payroll advances when I am running a little short and have bills due.

I use the payday industry to help pay bills.

When I run short on cash and need a few extra bucks to get me by ill get the cash advance to fill that void. I ve used from everything from bills to using it to go on a quick trip. I use this because it s reasonable fees and it s short term. I never want to ask any friends for help so I m very happy with this service.
Whenever I m short on being able to get a bill paid because my hours have been cut at work then the cash advance is there for me to get real quick to make sure I m not late on that bill and have something shut off or have a late fee. It makes my life much less stressful. With my family being in the same position as I am it so nice to have this kind of help when nobody else can help.

The cash advance is a tremendous help to me when I need some extra cash. Especially when my hours at work go up and down so in those situations this has been a fantastic help to me. Recently I used it to help me pay for my family reunion which was able to go on because of the cash advance.

Sometimes my direct deposit from my work runs late And when that happens I ll get a cash advance to get me by for a couple of days for gas or something like that until my deposit comes in. I suppose I could ask my mom but I d rather not. This is a mutual relationship that I ve grown to appreciate.

My husband is a XXXX vet and sometimes it s just not enough and thank god for the cash advance because we just moved down here from New York and it has been financially a big help to us. I am working now so things are getting better but I do nt know what we would have done without the cash advance to help us out.

The cash advance is the easiest way to get a little extra cash when needed. I like doing things this way instead of asking my family for help. It s extremely convenient and fast and takes care of my issue without hassles and can be paid back quickly. If this were ever taken away I guess my bills would just have to wait.

I think it s safe to say that I do nt like asking friends and family for money when I need it so the cash advance has made it to where I am independent and take care if my shortfalls in money by myself. I ll basically use it to help me out with bills or something like that. It s a great program that I can always count on because it s so reliable.

The cash advance has been my way of staying a head on my bills. I ve tried to borrow from friends but that always puts a strain on our relationship, plus with the cash advance I m taking car of things myself which makes me feel good.

I like the cash advance a lot because it helps me with my bills and even to buy some groceries. It s been a big help for me. I would be stuck without it because I do nt have anyone else I can borrow from. This is ver dependable for me and I appreciate it.

I will only use the cash advance when I have a bill that comes up due and I m still waiting on my next paycheck. It s usually just a short term need for me so I do nt want some sort of long drawn out loan from the bank. So since this I how I choose to take care of things, if this were gone then I would probably be late on my bills and pay the late fees.

Basically I use the cash advance when life throws you a curve. It s helped me with car repairs and everyday emergencies that come about when you re not expecting it. It s way better and cheaper than going to a pawn shop. It s a extremely valuable thing to have when you need money quick.

I do nt make a lot of money and the government does nt really help us out at all and the cash advance is my lifeline when I need help. I do nt think it s fair that they would want to take this away from us. I do nt ask for help from anyone and handle things myself so I d appreciate it if this stays available for me because it really helps me out with my bills and just to be able to live day to day.
My other option are very limited and the cash advance helped me out to get my rent paid on time. It's great to have in my back pocket when emergencies come up so I hope the government does not take this away. If they do then what are we supposed to do? Maybe the government could give us other options but I'm sure they won't.

Late charges are so high now if I'm ever late on my bills and the cash advance is there for me to make sure that doesn't happen. I'd much rather pay a small fee for a cash advance than all the late fees that would happen to me if I didn't pay my bills on time. It's so convenient and fast so if I have a need it's taken care of quickly with a cash advance.

Sometimes some medical things come up or when something comes up for my house and I'm in between my paychecks, the cash advance is a big help to me. It's the only way I can get some cash quick and not wait for a long process from the bank. My family can't help because they are living paycheck to paycheck. It's really a great back up plan for me when things happen.

I mainly use the cash advance to get me through until I get my next paycheck. It's normally will use it when I have some bills that come up and I'm short on cash. It's nice that it's easy and they don't ask a lot of questions and there's no drama when you get a cash advance. I don't want to borrow from any of my family or friends so I have to say that this is my best option.

Usually I'll use the cash advance to help me out with paying my child care. I like the fact that it's quick and easy. I don't really have other options so I don't want it to go away because it helps me out so much. It's very disappointing to hear that the government would want to take this away. It would be extremely difficult on me if we're gone so I hope it doesn't go anywhere and is always available.

The cash advance is a big help to me when I'm running short on cash while I'm waiting on my next check to come in. I would probably have to pawn some stuff if this were ever taken away. It's sad to thing that the government would want to take away such a valuable thing for people especially when it just helps so much.

The cash advance is something that helps me out with my bills. I don't want to get a loan from a bank because they want good credit. This has helped me avoid late fees or even have something shut off. This makes me extremely ad that the government is trying to do this to us.

In the summer time my husband doesn't get a paycheck because he works for XXXX so the cash advance really levels out our income during that time so we are very greatful for this service. It keeps us stress free and we're able to stay on top of our bills until he starts working full time again when XXXX starts.

The cash advance has helped me out with the big unexpected expenses come up. Recently I've had many car repairs and most recently my roof caved in on my house and I needed to put a deposit down for a new roof. I can tell you it's really been a lifesaver and I don't know what I would have done without it. The fact that this is quick and immediate has made things go much smoother.

I rely on my car for my job of delivery of products. When the car broke down, I panicked. My friend suggested a payday loan to help me out. It worked out great and I was able to pay it off with my next paycheck.

The payday loan company has helped me pay bills on time.
The payday loans helped me pay bills on time while I was briefly on unemployment.

The payday loans help me provide for my family in between paydays. The loans also help me keep caught up on bills.

When my car broke down I turned to a payday loan for help. The loan enabled to continue working without missing a day.

I needed a deposit for my new apartment and the payday loan place was very helpful. The loan helped my family from becoming homeless.

Payday loans have helped me with unexpected expenses. The fees are cheaper than the bank charges for bounced checks. They also have helped me with extra cash for vacation.

I received several calls from XXXX XXXX of Capital Risk Services stating I owed a payday loan from 2008, and threatening me about court. I have participated in pay day loans prior, but I could not recall this one, since they had my information including the last XXXX digits of my SSN I assumed they were a real company until later I discovered on the internet complaints from several people regarding receiving similar calls and referring to Capital Risk Services as a scam. Capital Risk Services contacted me from telephone numbers XXXX which is now no longer in service; and XXXX.

I count on the cash advance to help me out financially. I only get XXXX monthly check and there are times when I need some help at the end of the month while I wait for my check. When my money is gone it's gone and I do not have any other avenue to get a small loan so I'm glad it's here and I hope it's here for a very long time.

The cash advance is a good supplement to my income with working XXXX jobs. XXXX I get paid weekly and the other monthly so the cash advance is my helping hand when I have something that comes up. When I'm short on cash, it's helped me out and it's not as expensive as a long term loan from the bank. It's also much cheaper than paying the night late fees.

The cash advance is really helping me and my wife out right now because she has some medical expenses that are a little overwhelming and this has been helping us stay afloat. With the way I get paid, it's not always the same and the cash advance keeps things on an even place for us to keep things paid on time. This has also help me from falling into the credit card trap.

I generally will use the cash advance to get me through when I'm waiting on my next check and I have a bill that's due. I would probably have to get a XXXX job if this were ever to go away and I really do not have the time or energy for that anyway, so this is helping me out a lot.

The cash advance is a great help to me. It helps me out with my bills when I need help. It's convenient and fast and very reasonable. I have no idea what I would do if it was gone. I'd probably not have electric from time to time. It's extremely important to me to have this as an option for tough times when they come about.
I am the only one working right now and I'm taking care of my aunt too so money is really tight so I'm so glad to be able to have the cash advance to help me out with my bills and any emergency things that come up. Without any kind of credit this works perfect for me and it's extremely affordable and I never have a problem paying it back.

The cash advance has helped me out in so many ways. It's always something like the kids need money, nail in the tires or just about anything that needs to be taken care of quickly. I can tell you that my life would be a lot tougher than it is now. I'm not sure why this would be a problem for the government to let us keep doing this because some of us just do not have any other options.

I'm on a fixed income and I've tried to go to my banks and other and they say that my credit score is not sufficient to get a loan with them so the cash advance has been my only way to get help when I need money for my bills. It's just crazy and sometimes I just don't know what I would do without it. I have no family that can help me so without this I'm guessing I would be homeless without it.

With all the expenses that I have right now the cash advance has been and continues to be a big help to make sure bills are paid on time. If they were late the late fees would add up to be way more than what it costs to do a cash advance. It would be pretty tough without it. I would manage but it would be very hard so this really makes my life easier.

My bills sometimes do not really line up with when I get paid and the cash advance makes it possible for me to avoid late fees on any bills that may slip through the cracks. I'm a XXXX and XXXX is a XXXX to me and the cash advance makes my life so much stress free. I do not ever have to worry about not being able to pay a bill because I'm short on cash. This is such a wonderful program.

My cash advance helps me out because it helps with unexpected bills or money issues that may arise between pay checks. I am the only one that works in my house of XXXX. My husband is XXXX and cannot work and we are raising our XXXX kids on what I make every month. I have to take him to the doctor and medications are very costly. Amscot has helped me over the last XXXX years be able to survive in this world that is not very kind to the lower to XXXX citizens. Without XXXX and this cash advance service I would not be able to survive and pay my bills and take my son and husband to the doctors and to pay for these very expensive medications.

I was a few dollars short of making rent. I got great service and received the funds I needed for a cheaper rate than the late fee my landlord would have charged. It has been a few years since I have been here and needed this help. It is nice to have it available when needed please do not take it away from us.

I have XXXX boys and they are always needing something. And also I've had some appliance issues at home. The cash advance provides me with a backup plan when something comes up and I need fast cash. Being a single mother makes things very difficult and I can only rely on the cash advance as other are either unable or unwilling to help me. Thank god for the cash advance!

The cash advance saves my life to tell you the truth. My finances are a mess right now and this really helping me get things back in order. I'll absolutely use it for every aspect of my life. There are always things coming up, especially with all my car repair issues. I know for a fact that without this I would be homeless so I'm so very happy that this is around for me. It's a vital part of my life right now and I would be devastated without it.

All my bills are due in between when I get paid so this type of service is such a great way to make sure that my bills are paid on time. I’m borrowing from my own paycheck so what’s the big deal to the government. It’s none of their business on what I do with my money or how I want to do things so I’m glad that we have people sticking up for us out here because they clearly are not.

The cash advance has been a great help to me from helping me with car repairs and any other unexpected expenses that may come up. I do not want to ask my parents for money anymore so this is the best way I’ve found to be able to take care of my issues myself. I suppose I would survive without it but I can tell you it sure does make my life easier and I’m grateful for that.

When it’s not payday and I have a bill pop up and need to pay it quickly I’ll use the quick cash advance to get that bill taken care. I really like how fast and easy it is, there’s no wait or huge amount of paperwork, and it does not take good credit to get. I much prefer to handle thing myself instead of going to a family member for help.

The cash advance is such a great tool to have when I need a short term loan. My bank won’t do it because they want me to take out something much larger than what I need. I do not think it’s right that the government is wanting to get rid of this especially when I know how much it helps people like me.

There are times that my bills fall in between when I get my monthly check and the cash advance is there for me to stretch out my money coming in. Right now I’m raising my XXXX grandkids and they are always in need of something so I’m very grateful for this kind of service. I much prefer to use the cash advance because I know I have to pay it back quickly and nothing is down out long term.

If I do use mother cash advance it’s usually because I’ve run a little short and need some quick help to get by until my XXXX check comes in. I’ve found that this is a lot easy and faster and I do not feel like I’m being judged. I suppose that I would probably have to suffer through those times if this were ever taken away from us so I’m really hoping that they do not.

Anytime I have an unexpected bill or emergency that comes up and I need some quick cash to get me through, that when I use the cash advance to get me by. My credit is not so good so this for now is the only help I can get. It really makes me mad when I here that the government want to take away from the people something that helps us so much.

I’m in the process of helping my kids out financially and the cash advance is making it possible for me to be able to help them. It would be just a horrible thing if I want able to help them. I think this is a valuable option for people who may not have any other option.

I had gotten separated XXXX/XXXX and divorced XXXX/XXXX. During that time of separation my now ex, had taken payday advances out in my name and social security number. I did not know this had been done until I started receiving phone calls from all these companies. Which had been put on my credit reports.. I have tried to explain that it was not me it was my ex that hand taken these loans out without me knowing about. So, I have been trying and had to pay back those advances in the last XXXX years plus interest to supposedly get them off me credit reports.. (they lied). Now my credit reports show that I did not pay back these companies. I have tried to get to the bottom of this by writing letter to all companies and the reporting credit agencies explaining what the issue is and was. Now, I can not even get a loan or get credit to buy a car or even a home. I have written letters upon letters to all reporting agencies and still get nothing in return ... What Can I do about this?
When times come up and I need some financial help like with a quick short term loan, the cash advance is it for me because it's fast and cheaper than the bank. I'll use it for bills and car repairs normally. It's really my back up plan when things come up and it's such a good service for someone like me.

All my bills are spread out so much throughout the month and sometimes my checks just don't align with when they are do. When these situations come up I'll get a cash advance to help me out. With kids and other things coming up from time to time the cash advance helps keep my stress level nice and low. It's a great service.

There are some times during the month I'll have a bill that comes due and I won't get paid for a few days so the cash advance is my option to do so the bill gets taken care of. I'm trying to budget myself a little better but in the mean this is a huge help to me.

I'm in the process of trying to get on XXXX and while doing this I'm only allowed to work just so much and for the mean time this is helping me out with my bills until this goes through. I can't get any help from anywhere else. For now it's helped me keep a roof over my head and be able to stay on top of my bills. I'm very grateful for this service and wish the government would just keep their noses out of our business.

I've recently got myself in a bind. I'm a realtor and sometimes things are tough and I need help so that's when I turn to the cash advance to help pull me through. It's just horrible to think that the government is trying to do this. It's just another thing the government is trying to do to get into our business. I don't like that at all.

We got a little behind on our bills so the cash advance is helping us right now get caught up. We also will use it for any type of emergencies come up and we need some cash quick. This is our choice because it's so quick and we don't have to wait. If it were not for this I do not know what we would do because we do not have any other options at this point.

I get paid once a month and sometimes I just need a little extra cash to carry me through until my check comes in. This is convenient and fast and I hope it's around to help. I think it's way better then putting things on my credit card because with that it draws out the payback to a longer period of time which ends up being more expensive.

We usually will use the cash advance when emergencies come up and helps us not to destroy our credit by avoiding late payments. It also helps us avoid any type of late fees. There's really not much other things out there that can help us out this affordable and quick. Can't really borrow from anybody like family or friends so I hope this stays around for us because it's great.

I've tried to get help from my bank but they always say no, so this is my only help that I can get other than borrowing from family. So basically I count on this to help me and my family for short term loans.
Right now I'm using the cash advance to help me avoid my overdraft fees at the bank. I over extended myself a bit and this is really helping me avoid so many charges against me. If the cash advance wasn't around I would be ate up with fees. This is such a valuable asset to have at my disposal when needed. I am very disappointed to hear that the government is trying to take this away. It just doesn't make sense to me.

The cash advance helps me catch up in my bills when I fall behind. With the way the economy is its sometimes rough to stay ahead and the cash advance is a great help to me. I also use it to help out my parents when maybe they need some extra cash for something. So many times this has helped me avoid late fees which can really add up.

When I'm tight on cash and sometimes I need a little bit of help to either pay a bill or handle an emergency, then I'll get a quick cash advance to tide me over until my next paycheck comes in. This is such an easy process and I never feel like I'm being judged. I would most definitely struggle if this were ever taken away from us. It would be nice to see the government stay out of things that actually help the everyday person out here.

Sometimes my check is not what I'm expecting and at that time I'll use the payday loan to help level out my income for a brief time to ensure my bills continue to be paid on time. It's so quick and easy and does not require a lot of paperwork. For this type of help it really is my only option so I'm hoping that the government sees how much this helps and leaves it alone.

The cash advance is such a great way for me to get some quick cash when I need it. I do not need it often but it's very nice to have in a pinch. I do not like to use the bank or credit cards because for one the banks do not loan a small amount and want you to get a larger loan than what I need. I love how easy and fast it is too.

I will generally use the cash advance for emergency situations when ever they come up. For example, I'm using one today to help me register my child for school as we are moving to a new area and I do not get paid until Friday and today is the last day to get him registered. I do not believe in credit cards because it's too expensive and it's too easy to run up my bill. This way I can get what I need and pay it back quickly.

I work for XXXX XXXX and during the time when school is out I do not get paid so the cash advance helps me out for that couple of month span to keep my bills paid and nothing gets shut off. I only use this a couple of time a year but it's a lifesaver when I need it. I appreciate this service because it's fast and I can always count on it.

I just learned that my ex-husband received XXXX checks from Fund 1 Independent Foreclosure. XXXX for $1000.00 and XXXX for $300.00. The checks were written to BOTH my ex-husband and me. He forged my signature and cashed the checks. What can I do to obtain my half of the checks AND to prosecute him for this illegal action?

I deposited $5000.00 on my Chase Visa before I left for vacation, but did not spend the whole amount. Now, Chase sends me a check for $3100.00 which is the balance on the card. I do not want this amount to show on my bank and I do not have a checking account with Chase. Chase refuses to cash the check. My bank, XXXX XXXX will only deposit the amount in my account. My Chase mileage plus manager refuses to help me cash the check.

What should I do?
Thanks, XXXX
My name is XXXX XXXX and I heard about Check Smart from a friend. I got behind on some bills, such as my cell phone bill, and needed help. I came here today and got the money needed at a fair cost. Plus the people were nice and helpful. Thank you for being here and asking this easy and affordable.

I am sometimes embarrassed to have to borrow money at times. But when unexpected things happen like car breaks down, sudden school expenses and medicine comes up I have no choice but to turn to a payday loan store. They are kind and explain every step of the process to me.

Hi, To be clear, I did not even apply for a loan with " XXXX. " A distant relative ( not certain we're related ) whom I have no contact with used what I think/hope was a mistaken email address which was mine to apply for a payday loan with XXXX. Consequently, I've received numerous emails about the account and in turn I've called and emailed this company repeatedly requesting they correct their records.

Cash central responded by email with less concern about records and more concern about setting me up with an account. The few times I've called has not yielded much more than a verbal compliance but emails still come.

My biggest concern is that XXXX will take it upon themselves to use my name/identity to open an account regardless of my complaints.

Thank you, I've provided Cash Central's contact information below.

I had an issue with a pay loan company, after trying to resolve the issue myself, numerous of times without success, I decided to file a complaint. The company contacted me within less than XXXX hours and a resolution was made. Thanks for your assistance CFPB! : )
