I used a payday loan and it got me out of a jam. When I pulled out a payday loan, I had no idea what I was doing. After sitting down with someone at the store, they helped me every step of the way and made sure I felt comfortable with pulling out the loan. I'm so glad they were there to help. Rather than a traditional loan, I applied for a pay day loan and the process could not have been better. Everything was explained to me the minute I walked in the store and I had the cash I needed in no time at all. A bank or credit union does not work when you only need a small loan amount to make ends meet. I already live paycheck to paycheck and have little leftover after my monthly bills are paid. When the holiday season comes around, I can't afford to give my kid gifts. The pay day loan helped me so my child could open a present on XXXX. In the end this payday loan helped me out of a tough situation.

I have had a good experience with my loan from the payday loan company. A lot of people look forward to the holidays, but in the past, I have not been XXXX of them. I have not been able to handle the bills that come with expenses around that time of year. I really was not sure I was going to be able to make a special XXXX happen for my family until I got a payday loan to help me with my bills. Without these types of short term loans many folks would not be able to make it work. I hope you will consider all the consequences from elimination of this option would have for families across our country. A payday loan was just what I needed to make a recent insurance payment. After basic bills like my electric and groceries, I did not have enough for insurance. Even though it was secondary to utilities, I knew insurance was still important. So I got a payday loan, made the payment to keep my insurance, and paid it back in just a couple weeks. I'm glad I have that option when my paycheck can't quite cover everything I have to pay for. Very easy product to use, especially thanks to the helpful staff. Anyone could use this type of loan. It's a quick and cheap alternative when you need money fast. Pay day loans should be used responsibly; they should be used to help people when they need the money. I did not have enough money to pay my taxes and needed to pull out a loan to help me out. I'm glad it was there when I needed it. As you can see, this loan helped me when nothing else did and I'm so happy.

A payday loan has made a positive impact on my life and I wanted to share my story. When the calendar hits XXXX, I know that the holiday season is right around the corner. And that's traditionally a time of year when money has been particularly difficult to manage. Payday loans have helped me get through these tougher months, and I know they can help other families like mine as well. When I needed a small loan I did not have many options and I do not trust many with my information. I feel much more comfortable walking into a store and taking out a payday loan. This made me feel much safer as I could get my money right there, so do not limit this option. I went to get a payday loan recently and was amazed at the process. It seemed like the staff went out of their way to help me in my time of need. I am so happy with how easy it was and how I was treated. I used a loan to help pay for my insurance. I am so glad that I am able to have the peace of mind and all thanks to the loan. Without it, I would not have had the money to afford paying for the insurance. I've used pay day loans several times, and never have a bad experience. After getting hit with an outrageous medical bill, I had to turn to a payday loan for help. The loan was fast, easy, and took care of my financial worries. I know that a payday loan has made a real difference in my life.

Banks do not loan small amounts of money, which is why I used a pay day loan. It was so important to me that I tell you my story so you can keep this option available to everyone who needs it. This loan was reasonable for my budget. It allowed me to get the money I needed without added stress and was so easy to use. I needed money and did not know where to turn. I thought about going to the pawn shop but I did not want to lose my valuables. Instead, I went to get a payday loan and got the money I needed without having to risk losing my things. Using my credit cards when I do not have enough money can sometimes be too complicated. Instead, I like to get a cash advance to pay my bills so I do not have to worry about my interest rate constantly changing. These loans are much easier for me to understand. I hope you will see just how important this type of loan is for many people including myself.
I really enjoyed working with my local pay day lending store and I think my story is important. Being able to get a loan for a few hundred dollars was not only easy but it was a necessity. There are no other avenues out there that can lend money like that which are not tied to losing a valuable piece of property or giving up your car entirely. This was a great way to make it work for me. Over the holidays, budgets can be stretched fairly thin. I was not even sure I could provide even the most modest presents for the members of my immediate family. Then I got a quick and easy payday loan, and it truly made a difference to the people closest to me. It was enormously helpful and easy to navigate. I did not have the money to fix my car after getting in an accident. Although at first hesitant, I found the entire staff to be extremely helpful and polite. In the end, I am glad I went through with the loan as it was quick and hassle-free. I found that using my payday loan to cover some medical costs I had recently was a great way to not fall behind on my other bills. Medical bills can be very difficult to get under control and are very confusing. This loan was a great solution for me. I thank you for understanding my situation. 

Please know that a payday loan was important to me. I went to get a payday loan recently and was amazed at the process. It seemed like the staff went out of their way to help me in my time of need. I am so happy with how easy it was and how I was treated. Every XXXX, the holiday season is in full swing, and it is not always the easiest time of year to balance a checkbook and plan ahead. That is why my family and I were so very grateful for the opportunity to receive a short-term loan to help us offset the expenses that inevitably come with the gifts, travel and other extra financial burdens that time of year tend to bring. Have you tried to get a few hundred dollars from the bank? They hand you a long application explaining the terms and conditions of the loan. I hesitated because I did not have confidence that they would loan me what I needed. When I need a loan, I prefer to get money from a payday lender. After having a lot of work done to my car, the bill came and I was not able to afford it. I had to get a payday loan and was nervous about it at first. That all changed once I entered the store and was greeted by a friendly staff that explained the whole process to me easily. I like having different options to choose from when I need money. Sometimes I am able to go to the bank but other times I just need cash and cannot wait. That is when payday loans are helpful and I am glad they are available. My experience was great and so I hope you will keep payday loans open.

I wanted to tell you why payday lending is so important for me and my family. Thanks to the payday loan I was able to buy school supplies for my kids. Without this option I do not know how I would have gotten them the supplies they need to keep up in school. The ability to get a loan for a few hundred bucks is a great thing for those of us who need it. There are no other products out there that give you the freedom that a payday loan can give you. I do not want to use a pawn shop or trade my car title. I want to use a simple and easy loan that gets me through. The difference this loan made in my life is important.

I share my story about payday loans because it is important to keep this financial option available to everyone. Without cash advance loans many people would not be able to make it work. You need to consider all the unintended consequences from eliminating this option would for families across my state.

Money has been tight for over a year and after bills and daily expenses, I hardly have enough money to purchase holiday gifts. These loans have helped me put presents under the tree for my entire family. This type of loan made it possible for me and I hope is available to others in the future.
I urge you to keep payday lending available to all Americans. Cell phones for my children help me keep track of them and make sure they are safe. One month, the phone bill ran high and I was not able to pay the entire bill. I took out a payday loan to pay what I could not afford and was able to pay my bill. This type of loan is a very easy product to use, especially thanks to the helpful staff. Anyone could use a payday loan because it’s a quick and cheap alternative when you need money fast. There have been times when I could not quite make it to payday and needed a little help. In order to cover groceries and basic bills -- things that I needed right away -- I had to get a loan. Then, when I had the money, I was able to pay it back. It’s an important way for me to get an advance of money when I need it, and I do not think rules should be put in place that will take away that option. I took out a payday loan to help my family during a difficult time and we were able to get back on our feet without missing a payment on any of our bills. I could not imagine where my family and I would be if this option was taken away from us. The positive impact this loan has had is important.

A payday loan worked and made my life easier.

A payday loan is not only easy to use but it allows you the freedom to keep your property. I think that getting quick cash and being able to fix a problem easily is an option that needs to be available to everyone. I know best what to do with my money and I wish that the government would focus on the real issues that are causing problems, like affordable housing and rising health care costs for all Americans. Don’t waste your time on payday loans especially when good people need them to get by.

The payday loan is so easy to understand and I got the money I needed quickly. It was a very efficient process and definitely the most reasonable option for me.

A payday loan worked and made my life easier.

I am happy that I got a payday loan and wanted to tell you why it helped me out. Sometimes medical expenses come up without much warning, and these situations can be very tough to overcome. Payday loans are such a great solution when my phone bill is higher than I thought it would be. I do not want to fall behind on that bill, and getting the extra cash is really great. If I was not able to pay it on time, it would probably affect my credit score.

A payday loan helped me buy insurance, which was helpful. If I had not gotten the payday loan, I could not have afforded the insurance. Have you ever had a power bill and wondered why it jumped so much? I have had that happen many times and was glad to have had a payday loan cover my expenses when that happened. It is reassuring when you can take care of something as important as the heat in your home.

I needed to take my car to the shop but was worried about how much it was going to cost me. My local payday loan store allowed me to relax as I was able to walk right in and get the money I needed to repair the damages. In no time, I was back on the road and able to carry on with the rest of my life.

The risk of taking out loans can be difficult because applications can be long and there are so many hidden fees and other costs that you do not know about until later. But a cash advance loan is easy to use and there are no hidden fees. You know all the information up front and it was easier than going to a pawn shop.

No doubt about it, a payday loan can be a good experience like it was for me.
Please do not believe that all short term lending is bad, because I had a very good experience. I've got a lot of mouths to feed in my household. And when groceries become unmanageable, I've gotten payday loans in the past to get through the month without too big a burden on my pocketbook. These services are easy to use and vital whenever unexpected bills come up.

Theft is a concern no matter where you live. Insurance is the best way for a renter like me to make sure a bad situation doesn't happen. I was not able to pay for the insurance at first and had to use a loan. It worked perfect in a pinch, and now I have the peace of mind of having insurance all year long.

When I want to borrow money, I do not feel like it's always easy to understand what a bank is going to charge me. And then suddenly there are a ton of unexpected fees tacked onto a loan. On the other hand, when I use a payday loan, the cashier is very clear about what I am borrowing and any fee on top of that. It works far better for me than borrowing from a big bank.

I share my payday lending story with you because it is important to keep this option available. The complicated rules and always-changing interest rates of credit cards and banks are not good for many consumers. They make it difficult to understand what exactly you owe, and give you too much opportunity to spend money you do not actually have. I know I can handle repaying my cash advance better than working with some credit cards or banks.

Sometimes it is tough to plan on food and grocery expenses with food prices rising the way that they are these days. And even though it is not something I do very regularly, I got a cash advance to help offset some major grocery expenses I incurred recently. By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It is totally un-American to take away this freedom from me. Please keep in mind that many people in my state and across the U.S. have been helped by these type of loans.

I was not even sure I could provide even the most modest presents for the members of my immediate family. Then I got a quick and easy payday loan, and it truly made a difference to the people closest to me. It was enormously helpful and easy to navigate.

There are times where I have wondered how I would be able to pay for my high cable and internet bill, especially since I sometimes work from home. I went to apply for a payday loan in order to get the cash I needed to keep my house connected.

Without cash advance loans many people would not be able to make it work. You need to consider all the unintended consequences from eliminating this option would for families across my state.

I recently had an incident in my home and I am so glad I had renter's insurance. The damage could have been a lot worse but thanks to my insurance, I was covered. This would not have been possible without the help I got from a payday loan when I got my insurance.

After talking with the staff here it was obvious that this was the cheapest option for me. I was in need of some quick cash and was able to get it without any problems or added expenses. At the end of it all I had a great experience with this type of loan.

It was a fantastic experience I had with a payday loan so I wanted to share it with you. There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at things like the cost of living or unemployment rather than focusing on what is going on in my personal finances. Every single day someone like me is helped by a payday loan. Please keep this loan available to everyone.
I have a good story to tell you about the payday loan I was able to obtain. When I was having a lot of trouble buying groceries for my family, I turned to a payday loan to help offset some of the rising costs of food at the supermarket. This was a wonderful lifeline for me and my family because it gave us a little extra cash to get the food we needed without any extra headaches.

There are so many more important problems in our country than limiting payday loans. I wish the government would focus on rising healthcare costs and taxes rather than what I chose to do with my money. I know what I'm doing and find that these loans are a reasonable option for me.

A payday loan came in handy when I needed some additional childcare for my children while I was at work. I am glad these loans were available so I could know my children were in good hands while I was away during the day.

Going to the doctor is important but with my new insurance it can be expensive. I was able to use money from a recent loan to pay for part of my deductible and get the healthcare services my family needed.

My cable bill is not just for enjoying good television, but it also allows me to work from home and communicate with my friends, family and work. My usage does go up from time to time and I have had to use cash from a loan to make a payment.

At first I had my doubts about taking out a loan, but, after my car broke down I had no other choice. The process was much easier than I expected and everyone was very helpful from the minute I walked in the door. Looking back, I am so glad I went through with that loan.

I wish power bills did not exist, but unfortunately they do, and if you do not pay them, you lose your power. To prevent that sometimes I take out a payday loan to pay the essential bills. Thanks to payday loans, I've never had my power shut off.

It's so easy everyone should use this product when necessary. Seriously, I walked in and in less than an hour I was approved. This is a great option for Americans like me that need credit sometimes and have fewer options available to them.

As my children grow so do the prices of their school supplies. I would not have been able to afford the supplies they needed without the help of a payday loan.

I know that my story is important and keep that in mind when you are making decisions that will affect many people.

Please understand that a payday loan is very important to me. I do not think it is right for someone to take away my options. When I'm in a bind and I need quick cash, I am able to get what I need through payday loans. If you take this way, I do not know where I would turn. I hope you know how important this loan product was to me.

Not all payday stories are bad, so please take time to read my positive experience. The government should not be limiting my choices. This country was founded on the free market and the government should keep from regulating business like this to death. The government should promote competition, not eliminate it. This ends up hurting the everyday people who work hard like I do. I was happy to have been helped by a payday loan and it made a real difference for me.
A pay day loan saved me and I wanted to let you know why it is important to keep this option available to everyone. There are many choices in this country. Why should getting a loan be any different? This type of loan worked for me and I hope it remains an option for me in the future.

I share my story because it is important for everyone to have access to a pay day loan. I have used them in the past and it has made a real difference for me. Why is it that every time I turn around I feel like the government is in my business? I am capable of making my own decisions and I do not need the government to tell me what to do in order to pay my bills. By limiting payday loans, you are taking away my options and are not allowing me to make my own choice.

The pay day loan is smart and works well for everyone involved. The government should think twice before they try to take it away. I believe it is a valuable service to many Americans and should be kept rather than over-regulated or eliminated.

When I had some financial issues I used a payday loan and am grateful the choice was there. I took out a pay day loan to help my family during a difficult time and we were able to get back on our feet without missing a payment on any of our bills. I have recommended payday loans to people and used them myself, and everyone I have talked to has had a good experience and is grateful for the small loans they get. I am not sure what many of us would do if we could not take out these loans any more. The government should leave them alone since they help so many families.

I want you to know why I needed this loan and why it was so important.

I wanted to tell you that a payday loan is not bad because I had a good experience with mine. By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It is plain un-American to take away this freedom from me.

This type of loan worked for me and I hope it remains an option for me in the future.

A payday loan made a positive impact in my life. Every now and again, unexpected medical bills happen to me or a member of my family. These can really put a hurt on our wallet but after getting a short-term loan, we do not have to worry as much about the payments and can focus on staying healthy.

To avoid bouncing a check, I turned to a loan to help pay some bills. I found that it was a great choice for me and I was able to pay my power bill on time and without penalty.

That decision led to a positive situation and so I urge you to keep this option open.

All I need is a few hundred dollars to get by from time to time and this type of loan option really works for me. My loan had a good outcome and I am glad to share it with you.
I hope you will take time to read my positive story about my payday loan. When bills pile up, sometimes even those most necessary purchases become more difficult. We as a country try to regulate and re-regulate everything. It is time that we leave some things alone. Payday loans fill a void that is getting bigger and bigger every day because other lending institutions do not always want to help. So let’s try to keep government out of this and do what is right for all families who use this product.

Using a credit card to finance my bills is too complicated. There are so many rules that make it hard to figure out how to get cash and how you have to pay back. In fact, they do not ever want you to fully pay things off, so they can keep charging you more monthly fees for the money you originally borrowed on credit. A payday loan works for me.

After researching all my options, I know that getting a payday loan was my best choice. I got the loan when I needed it and it was cheaper than anything else. I am glad I found out that payday loans were available.

A payday loan was just what I needed to make a recent insurance payment. After basic bills like my electric and groceries, I did not have enough for insurance. Even though it was secondary to utilities, I knew insurance was still important. So I got a payday loan, made the payment to keep my insurance, and paid it back in just a couple weeks. I am glad I have that option when my paycheck cannot quite cover everything I have to pay for.

I love being able to choose the type of loan I want. Sometimes I go to the bank but there are other times that I just need a short-term loan. Where would I go if you take away payday lending?

Thank you for understanding my situation.

I have had a good experience with my loan from the payday store. The government needs to stay out of my wallet! I can make my own decisions and I do not need people telling me what to do with my money. I do not limit who you can borrow from, so why should you be able to limit my choices?

A payday loan worked and made my life easier.

I want you to know why I needed this loan and why it was so important.

I believe that payday loans are a necessity and are already regulated. So please do not do away with them and know that these loans have made a real positive impact on my situation. I do not always use a pay day loan but when I do, it’s been worth it. I like being able to have different options and I hope the government does not rip this away from me.

I had to get my car fixed and of course the mechanic found tons of problems. After paying for everything, I was pretty short on my finances. I decided to get a payday loan to help me stay on top of my expenses and I was proud to not have asked anyone for help.

Sharing my story with you is critical because I do not want you all to decide that payday lending should be taken away. I used one and it was very helpful to me. After looking up my options, I know that it was the best one for me. I got the loan when I needed it and it was the cheapest alternative. I’m glad that payday lending was an option for me.

Times were tough last XXXX, and I did not know if I was going to be able to make XXXX happen for my family. Payday loans helped me stay on my feet after I had a lot of costs come in at once, and our kids got presents from XXXX. The loans made this hard time a little bit easier while being simple to get and pay back.

Due to additional family expenses, recently I started living paycheck-to-paycheck. It’s been difficult, but in a pinch I can rely on a pay day loan to get me through tricky times. I cannot imagine how much harder this year would’ve been without the possibility of getting a payday loan!

When I realized I would not be able to afford all of the supplies my child needed for their first day of school I feared they would fall behind in class. This is why I decided to take out a payday loan and with it I was able to buy everything my child needed.

Taking out a payday loan was very positive and I think it is important to share my story with you. I recently needed a small amount of money to pay my bills but the banks in my area all had outrageous minimum requirements. Where else can I pull out a XXXX dollars? Sharing my story is important because others may need the same credit option of a payday loan like I did. I love being able to choose the type of loan I want. Sometimes I go to the bank but there are other times that I just need a short-term loan. Where would I go if you take away payday lending?
I wanted to tell you that short term lending is not bad because I had a good experience with mine. This product is really easy to use. I walked in and in less than an hour I was approved. This is a great option and choice for Americans like me that need a helping hand every now and then.

It's great having different options when I need a loan because I can always choose the one that is best for me. Sometimes, my best option is a payday loan. Getting rid of this type of loan only limits my options when I'm in need of some help.

Please do not limit the use of payday loans because I really needed XXXX. Without these types of short term loans many folks would not be able to make it work. I hope you will consider all the consequences from elimination of this option would have for families across our country.

You will get many stories about loans, but I wanted to share mine because a cash advance really helped me. I don't always use a payday loan but when I do, it's been worth it. I like being able to have different options and I hope the government doesn't rip this away from me.

I turned to a payday loan for assistance and I am glad that I did. Honestly, I do not know what I'd do if I could not take out a payday loan every so often. They are so easy to deal with and are much better than the alternatives. Please think about how many people you're hurting by taking away this lending route.

I can not say enough about the importance of my payday loan. I'm so glad I got a payday loan. I was met by a friendly staff that was willing to work with me rather than against me. They made everything so easy and I'm sure I will use this type of loan again.
I had some tree trimming work done at my house during the past XXXX-XXXX, XXXX. Upon completion of the job, the lady foreman insisted on cash payment. Being out of cash I paid her with a personal check anyway leaving the XXXX space blank as she requested. The next day the lady called to let me know her purse was stolen from her car while shopping at the local XXXX store. She asked that I put a stop payment on the check and that I issue a new XXXX. I agreed to put a stop payment on the XXXX check but refused to give her a new XXXX until we found out where the XXXX XXXX ended up at. When I called the bank, the check coincidentally arrived at the same time. The bookkeeping lady told me the check was cashed at the nearby check cash store on the same day it was issued XXXX and not the XXXX day when it was allegedly stolen. ( 1ST INCONSISTENCY ) Besides advising me that a police report be filed, thats all the bank lady could tell me.

After I informed the tree company foreman of those facts, she claimed she did not know that check cash store or ever put a foot inside. Later I called the check cash store, the supervisor reported the check was in fact paid on XXXX XXXX hour after I issued it. It was paid to the tree service company I hired. I was given the time, the cashier who cashed and the name of the person who signed off and received the money. The supervisor also explained the tree company was registered at their stores and that she had dealt with the owner and her husband many times ( 2ND INCONSISTENCY ) She emphasized that if the tree company had not been registered or in their data base they would not have paid for the check.

Since the tree company had been calling me every 30 minutes demanding a second check, I explained that I would like to see a copy of the police report first, otherwise I would have not leverage when the check cash store would come for me to demand payment on their check. She hung up on me.

Today is the 3rd day of the incident. The bank lady called to see what I decided either pay the check or put a stop to the payment. She gave me some brotherly advice and ask me to insist on a police report. Thus, I called the tree lady to ask for the police report. She claimed to be busy at this time to go to the police. ( 3rd INCONSISTENCY ) She did not seem to be worried for a person having lost her purse with all her credit cards and driver license etc. To end the story, I called the bank lady and ask her not to stop payment on the check. I rather deal with the tree lady than with the lawyers of the check cash store and subsequent collection agencies nagging calls, threats and nasty tactics.

My concerns? Risking that lien be put in my house for not paying for services provided. What do you think?
Telling my story is important because a payday loan really helped me when I needed it. There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at unemployment or work conditions rather than focus on what is going on in my bank account.

Sometimes even the most basic expenses are hard to cover. Take my household groceries for example. There are times when I need to balance that cost with a car repair or a doctor’s office visit, or something my family. It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I’m able to pay them back, I do. It makes life easier on my family knowing we can have food on the table and keep the house running, and if a loan helps me do that I think I should be able to get XXXX when I need it.

I needed to take out a loan recently but did not want to pay more than I could afford. Payday loans were the best option for me because they were cheaper than any other option. I am so glad I got this loan.

Cell phones are a safety measure for children as they grow and become more independent and spend more time away from home. But their bills are expensive, especially since they are using them to call their friends, too. Sometimes I have to take out a pay day loan to make sure that the whole family’s bills are paid.

There are a lot of unexpected expenses in life. When my car was having some problems, I needed to take out a payday loan to help me pay the mechanic. I am glad I was able to get the money I needed so that my car could get fixed.

Whenever someone asks for help with utility bills, I tell them to look into getting a short term loan. Those bills are important and need to be paid on time. I’ve always had a good experience with getting the loan and paying it back by the next paycheck.

Sometimes minor things turn into big repairs. Pay day loans are great in those situations, whether I’m buying parts or hiring someone to make a repair that I can’t manage. These loans have been an huge help.

My concerns? Risking that lien be put in my house for not paying for services provided. What do you think?
Telling my story is important because a payday loan really helped me when I needed it. Emergency medical bills come unexpectedly, and can sometimes be extremely difficult to recover from. Luckily, I was able to contact a local short-term lender to give me some reassurance that I would be able to make it through my recent bills with very little issue.

While many people like the convenience of a payday loan, there is no question that it can also be a good choice for cost reasons. If you need money for a short period of time it is a very inexpensive option, but it’s important for people to make the right choice at a particular time. These loans can be a good value.

Holidays and special occasions always seem to take a toll on my wallet -- whether it’s XXXX, family birthdays or a wedding anniversary. In the past, I’ve had difficulty getting even the most modestly-priced gifts for my family. That is, until I got a payday loan, which gave me the peace of mind I needed to get through some of the tougher months.

Payday loans helped me out when I needed it. I was able to come in without an appointment and they walked me through their entire process. This was an easy and affordable option for me when I needed it most.

Most times when something needs fixing in my house I look toward payday loans. I never know when I’m going to need the extra cash for repairs, so it’s hard to save up for those things.

Using a credit card to finance my bills is too complicated. There are so many rules that make it hard to figure out how to get cash and how you have to pay back. My name is XXXX XXXX, I loaned some money to a guy name XXXX XXXX in XXXX XXXX, SC, with collateral of his condo. He issued a check from WeRe Bank in XXXX to pay off the debt, but I can not cash the check. I then did some research, find more about the WeRe Bank. Here is what I find out : WeRe Bank is a XXXX-based venture which purports to be a peoples or community bank, and appears to have created its own currency, the XXXX.

Members of the XXXX-Movement are required to issue a Promissory Note (a legal instrument in which one party agrees in writing to pay a sum of money to the other party) to WeRe Bank to the sum of XXXX, which is payable within a ten-year anniversary from the time of joining (however, WeRe Bank states that it will not need to call in the Promissory Note). Members are then able to buy RE check books with XXXX joining fee and 10 monthly due.

WeRe Bank states that its checks can be used to pay all your public liabilities (such as council tax demands, utility payments, tax) and private payments between consenting parties (including mortgages). Its website claims that, under sections XXXX and XXXX of the Bills of Exchange Act XXXX, if your payment is refused the Payee is acting in dishonor and your liability for the payment ceases. Although WeRe Bank refers to itself as a bank, based on the information currently available, it does not appear to be carrying on any activities that would require it to be authorized by the FCA. Regulated activities carried out by authorized firms include accepting deposits or providing advice on regulated investments.

At first glance the WeRe Check appears to be a conventional check drawn from a bank for a customer. However, there are irregularities. WeRe Bank subtitles itself as Universal Energy Transfer. Comparison of the XXXX XXXX WeRe Check with other WeRe Check disclosures they all have an identical Branch Sort Code and Account Number: XXXX : XXXX XXXX XXXX. Perhaps unsurprisingly, a list of XXXX banks compiled by the XXXX (XXXX XXXX, Exhibit F) does not include WeRe Bank or any financial institution with a similar name.

Another irregularity documented in the XXXX XXXX XXXX Affidavit is that the WeRe Bank does not participate in the Society for Worldwide Interbank Financial Telecommunication [SWIFT] system for inter-bank transfer of electronic funds. Instead, WeRe Bank has its own highly secure format protocols: XXXX [Secure Waygate - Allow] and XXXX: [Secure Protocol Information Transaction]. XXXX of XXXX instructs that banks are to send a scanned copy of the WeRe Cheque to his email account and then Funds can be sent electronically Via XXXX. The WeRe Bank warns: The Bank MUST present the check for clearing - no question, no debate, no wiggle room! Its the LAW.

A printout of WeRe Bank website: XXXX, XXXX XXXX XXXX XXXX Affidavit, Exhibit XXXX) could be a satire of modern conspiratorial motifs, but it instead seems to be marketed as the truth. The WeRe Bank introduces itself in this manner: WeRe Bank The Free Fair and XXXX XXXX Bank XXXX XXXX under XXXX XXXX and Regulated Under Common Law Court of Record XXXX Providing "Legal Money with Finality of Settlement DIRECTIVE " To Free Mankind From The Paralyzing, Restricting, Fear-based Monopoly and Control Agenda of money scarcity Which The Global Ruling Elite Have Imposed With ruthless and vicious Determination Upon All Peoples Of Earth. WeRe Public Banking System is based locally and delivers Free, Fair and Final (XXXX) payment for TIME ACTIVITY with LEGAL MONEY.

LEGAL MONEY IS FINALITY OF SETTLEMENT ON THE SPOT OF TIME FINALITY OF SETTLEMENT IS ECONOMIC AND SOCIAL FREEDOM. Arent you fed up with the constant hassle of never having enough of anything left at the end of every month? XXXX you tired of being tired due to too much work, not enough time, constant threats, coercion, duress, bullying, intimidation and the use of force to extract money from you by the greedy corporations, police authorities, speed camera agencies, taxation authorities, local councils, bailiffs, debt collection agencies and XXXX XXXX Officers and HMRC or the IRS?

It’s been difficult, but in a pinch I can rely on a payday loan to get me through tricky times. I can’t imagine how much harder this year would’ve been without the possibility of getting a payday loan!

When I went to get a payday loan I experienced nothing but great customer service with a simple and affordable product. This type of loan was understandable, cheap, and a really great alternative for me.

It can be very stressful providing for your family. Sometimes things come up or work is slow, and I don’t quite have enough money to pay for something important like groceries. When money has been particularly tight, I have used a short-term loan to get through these periods. It was so important for me to be able to put food on the table, and the loan allowed me to do that. I want to have that option available whenever I need it, because it usually comes up suddenly and isn’t something I have time to prepare for otherwise.

There are some months that I’m short on cash. Whenever I need an advance on my paycheck, I turn to a payday loan. It is so much easier than trying to get a loan from the bank or a credit union and having to fill out the crazy amounts of paperwork. This was a great system to get what I needed without jumping through too many hoops.

I like having different options to choose from when I need money. Sometimes I am able to go to the bank but other times I just need cash and can’t wait. That’s when payday loans are helpful and I’m glad they’re available.

Payday loans have lifted the burden of repair bills in the last couple of months. Without them, I would not have been able to complete as many projects around my house.

I always try to pay my bills online so when my taxes come, things are no different. Sometimes though, my taxes are a little higher than I expected and I have to turn to payday loans to help me out. This was great and made sure I didn’t have to pay any of those dreaded late fees.

Grateful to have had the choice available to me on a payday loan. Why do I always feel like the government has their hand in my pocket? I am able to make my own decisions and I don’t need anyone telling me what to do or how to do it. I know what is in the best interest of my pocketbook.
I wish you would keep pay day lending available because one of the companies has really helped me out. Placing more limitations on credit is hurting many people. I used a pay day loan responsibly and believe that this option is the best for me. It is important to keep this choice available.

Every year, the holidays take a toll on my monthly budget. There are always unexpected travel expenses or gifts that seem to pile up. Taking out a short-term loan helped me make it through the holidays.

When bills start to pile up and you’re on a tight budget, sometimes you have to make decisions. Rather than not pay my taxes, I decided to take out a payday loan to cover what I owed to the government and boy am I glad I did. It was so easy.

Traditional banks do not seem to care about short term loans, especially when I need one for a few hundred dollars. I was able to get a quick payday loan instead and got the cash I needed.

After my car broke down, I needed to get to work but a rental car was more than I bargained. After walking in the store, I got a loan very quickly and was able to rent a car. I’m so glad I didn’t have to miss any work days because of my car.

I am so glad I was able to get a payday loan. I recently needed cash and had few credit options. The store employees clearly explained the process and fees. I appreciate how simple they made it to get my money.

After researching all my options, I know that getting a payday loan was my best choice. I got the loan when I needed it and it was cheaper than anything else. I’m glad I found out that payday loans were available.

I am one of the many people that have enjoyed my experience with a payday loan. After I pay my monthly bills, I struggle at times to find the cash I need to purchase food and supplies. Pay day loans gave me the extra cash I needed to buy groceries and I would recommend these loans to anyone who needs a little help to make ends meet.

Pay day loans are such a great solution when my phone bill is higher than I thought it would be. I do not want to fall behind on that bill, and getting the extra cash is really great. If I was not able to pay it on time, it would probably affect my credit score.

I have come to know the manager and staff here and so I know that I can trust them. They help me whenever I am confused and talk me through my options to determine which will be the cheapest and most efficient.

Banks can be complicated and confusing places for loaning people money. I do not feel confident that the bank will explain everything to me. When I use payday loans to cover various bills that pop up, everything is laid out really clearly. These loans are for a few hundred dollars and banks do not just lend that amount.

Taking out this loan did not add stress to my life but actually helped. It was super affordable and not complicated at all. I still cannot believe how easy the whole process was.

I needed money and did not know where to turn. I thought about going to the pawn shop but I did not like the possibility of losing my property. Instead, I went to get a payday loan and got the money I needed without having to risk losing my stuff. This choice needs to stay available.
I urge you to keep payday lending available to all Americans. Sometimes even the most basic expenses are hard to cover. Take my household groceries for example. There are times when I need to balance that cost with a car repair or a doctor's office visit, or something my family. It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I'm able to pay them back, I do. It makes life easier on my family knowing we can have food on the table and keep the house running, and if a loan helps me do that I think I should be able to get one when I need it.

As a renter, I knew my possessions would not be covered by my landlord if we had a theft or fire, which made me nervous. Renters insurance is expensive, but worth it. I used a payday loan to pay for the insurance upfront and then was able to pay that off slowly. It worked out great, and now I know I'm covered if something bad does happen at home.

Money can be tight during the holiday season. Every time the holiday shopping season rolls around, it is constantly a struggle for me to get my family gifts and things to make the season extra-festive. Short-term lenders give me a real way out of this financial struggle.

I need my cell phone to communicate with my family and friends, but that bill can sometimes get higher than usual. So I have used a payday loan to pay for my bill and avoid late fee or termination of service.

My family would not be able to manage all our home repairs without payday loans once in a while. I've taken them out for all sorts of things these last few years, and they've always been a good solution when money is tight.

When the tax bill comes, sometimes you do not have enough money left over from your normal expenses. In that case, the best thing is to find a way to pay your taxes, and if that way is a payday loan, then so be it. That's what these loans are for -- people with no other option and payments they have to make.

I went to get a payday loan recently and was amazed at the process. It seemed like the staff went out of their way to help me in my time of need. I am so happy with how easy it was and how I was treated.

At first I had my doubts about taking out a loan, but, after my car broke down I had no other choice. The process was much easier than I expected and everyone was very helpful from the minute I walked in the door. Looking back, I am so glad I went through with that loan.
At a difficult time a pay day loan helped me solve a problem. Just like everyone else, I do not like late fees of any kind and pay day loans are the best way to avoid them. The loans have helped me through all kinds of tough financial situations, from medical expenses to high utility bills.

I work hard for the money I earn so when I spend it, I want to make sure that my things are safe. There were a few months that I needed to get a pay day loan in order to afford insurance and I am so glad I did because it put me at ease knowing I was protected.

Getting around town was almost impossible when I could not drive my car. With the loan, I was able to repair my car and get back on the road without relying on my friends.

By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It is plain un-American to take away this freedom from me.

It feels like the same government that tries to tax us is also trying to take away our ability to pay those taxes when we do not have the cash. It is almost like I can never win. Payday loans help me make the payments I need and not have to worry. It would be impossible to pay some large expenses like taxes sometimes.

After I pay my typical monthly bills and expenses, sometimes there is not much left over -- even for basic necessities like groceries. It is so important to me to be able to put food on the table for my family, which is exactly why I got a payday loan.

Banks can charge all kinds of fees when you try to borrow from them. The charges can be extremely high, more than I could pay back. I prefer payday loans, where I can borrow the bit of cash I need, get it quickly, and pay it back with my next paycheck.

Our house seems to have issues all the time and the bills start to add up. I always dread calling someone to fix it because I know it is usually expensive. Thankfully payday loans make the experience a little better knowing I will be able to afford it.

The entire process was very easy and was best for me because it saved me money in the long term. I knew exactly what I was paying when I left and did not have any issues.

My cell phone is a great tool for work and for keeping in touch with family in different parts of the country. Sadly sometimes the bill is very high. Thanks to pay day loans, I have never been late to pay the bill. The loan option is much better than paying late or bouncing a check.

I came into the store and was not quite sure if a payday loan was right for me. After talking to the staff, I realized that this was my best option. I felt like I understood everything about the loan and was not hit with those hidden fees you find at the bank.
A pay day loan helped me and I hope you read my experience. Have you ever had a power bill and wondered why it jumped so much? I have had that happen many times and was glad to have had a pay day loan cover my expenses when that happened. It is reassuring when you can take care of something as important as the heat in your home.

Once I got in an accident, I knew I would not have the money for repairs. Everyone at the store had a smile and the whole process was explained easily. They helped me get the money I needed to get back on the road.

I hate paying my phone bill, but it has to get done. Thanks to pay day loans, I can always pay it on time. That is not something I would ever want to fall behind on.

I can not begin to tell you how great my experience was about my payday loan. I knew I had a lot of car problems but when the mechanic gave me an estimate, I could not believe the cost. I ended up getting a quick payday loan in order to pay for the repairs. Everything was so easy and I am so thankful to have used this option.

My hours were cut at work as a result of Obamacare, but my bills kept coming in the mail. I took out a payday loan to help my family during those difficult times and we were able to get back on our feet without missing a payment. I could not imagine where my family would be without this type of loan, so please do not take this choice away.

This product is really easy to use. I walked in and in less than an hour I was approved. This is a great option and choice for Americans like me that need a helping hand every now and then.

Every now and again, unexpected medical bills happen to me or a member of my family. These can really put a hurt on our wallet but after getting a short-term loan, we do not have to worry as much about the payments and can focus on staying healthy.

I have a good story to tell you about the payday loan I was able to obtain. I hate paying my phone bill, but it has to get done. Thanks to pay day loans, I can always pay it on time. That is not something I would ever want to fall behind on.

To avoid a utility from being shut-off, I went ahead and got a pay day loan so I do not have to pay additional costs. It was an absolute life saver.
I wanted to tell you that a payday loan is not bad because I had a good experience with mine. Why is the government interfering with something that has helped Americans so much? Without pay day loans, many families would struggle more than they already do. Many bills are impossible to pay without a little help, and asking family and friends for support gets embarrassing.

Have you ever had a power bill and wondered why it jumped so much? I have had that happen many times and was glad to have had a pay day loan cover my expenses when that happened. It is reassuring when you can take care of something as important as the heat in your home.

This was not a complicated process. I really understood what I was doing and how the loan worked. These loans are very simple to understand.

There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at unemployment or work conditions rather than focus on what is going on in my bank account.

I have had a good experience with my loan from the payday store. My car needed some repairs when money was tight. I decided to get a payday loan so I could avoid the late penalties. I am also glad I avoided over drafting my bank account to pay for the repairs. I could not imagine what I would have done without this loan.

I used a payday loan to pay for some of our priority family expenses -- groceries. We were running low and were not quite going to make it to the next paycheck, so I took out a loan that I got paid back right away. It really did help me and my family.

Utility bills are an unfortunate part of life. They cannot be avoided. We had my power shut off and I never want to go through that again. Now, rather than risk it by paying bills late, I get a payday loan if I need to, to make sure I do not fall behind and get my power shut off again.

The government should not be limiting my choices. This country was founded on the free market and the government should keep from regulating business like this to death. The government should promote competition, not eliminate it. This ends up hurting the everyday people who work hard like I do.

At a difficult time a payday loan helped me solve a problem. It's great having different options when I need a loan because I can always choose the one that is best for me. Sometimes, my best option is a payday loan. Getting rid of this type of loan only limits my options when I'm in need of some help.

The payday company I took my loan from has helped me tremendously. With the payday loan I was able to get the money I needed in the time that I needed it. It was an incredibly easy process, which was a nice change.

I do not know why but my car has been having a lot of trouble lately. I took it to the mechanic and he charged me more than I expected. I ended up taking out a loan to help with the payments and I was happy with my experience.

I know best what to do with my money and I wish that the government would focus on the real issues that are causing problems, like affordable housing and rising health care costs for all Americans. Do not waste your time on payday loans especially when good people need them to get by.

I feel like the government is always looking to control something. I rely on payday loans to help me when times are tough and do not know what I would do without them. This is something that government needs to stay out of.

Please understand that a payday loan is very important to me. When I went to get a cash advance, I had a lot of questions and was pretty nervous. From the second I walked in, I was helped by someone who had answers for all my questions. I left feeling so much better than before knowing that I understood the entire process completely.

When I fell behind financially, taking out a payday loan helped me make sure that my child was properly taken care of. Nothing is more important than taking care of your children, and being able to do that with the help of a loan was a life-saver.

I have to buy books and school supplies which all add up. I decided to take out a payday loan in order to afford everything because without it I would not have been able to afford all the supplies needed for school.

I had to get a lot of work done on my car recently and didn't know where to turn. I found out about payday loans and got the money I needed to take care of my car. Without the loan, I would have been forced to borrow from my family and friends which would have gotten pretty annoying for them.

Every year, celebrating the holidays takes a hit on my finances. Between travel and buying gifts, there are simply a lot of family expenses. This spike in expenses can be difficult to manage, but we were able to use a payday loan to make it all work. I can't tell you how grateful I am for that, and even if they didn't realize it at the time, I know my family is, too.

When bills start to pile up and you're on a tight budget, sometimes you have to make decisions. Rather than not pay my taxes, I decided to take out a payday loan to cover what I owed to the government and boy am I glad I did. It was so easy.
I took out a title loan with a company called Cashstand XXXX Inc. back in late XXXX or early XXXX (I cannot remember the exact date but I know it was before I started college). I paid on the loan for a good 9 or 10 months via bank draft (automated at a certain time each month) and suddenly started having problems with my Automatic drafts processing properly to the company. I tried to have the issue fixed through my bank and even after doing my part, the drafts still would not draw from my account & send to the company. After trying everything I could, I was told via email that I would have to mail a payment. When I emailed back & requested an account number to put on my mailed payment I was advised that they could not offer me an account number. This gave me a red flag, and I decided I would not mail a payment to the company without some type of account number or reference number as added proof that my payment was made to my account with them. I advised them via email that I would not mail a payment until they offered me some type of account number. Communication with Cashstand simply fell apart after that. They did not try to stay in contact with me. For over a year no payments were made and no calls from the company were received. Then, all of a sudden, around XXXX of XXXX, we noticed what my husband described as "scouts" driving by our house all the time. Soon after, a tow truck would drive by. There was XXXX attempt by a tow truck from California, to try to hook up to our vehicle, but my husband was able to drive off before the men could attach to our vehicle. After realizing the situation, I immediately started trying to locate company info to try to find out what I could do to pay the loan off and gain our title to our vehicle back. After finding very little about the company online (when there was a wealth of info about them when I made the loan) and after getting no response from the company after leaving several messages, I contacted the Tx XXX who directed me to the XXXX. I spoke with a gentleman on the phone and was able to confirm that the company was not licensed to conduct loans in the state of Texas and their registration as a business in Texas had been revoked for failing to file and pay franchise fees. I was encouraged to make a complaint, however, I was unable to do so because a lot of my documentation I had written down was misplaced or possibly thrown away during a move to a new home. My husband has been scared every day that we would lose our truck (our only vehicle at the time) and has stressed extensively over it. Today, XXXX/XXXX/XXXX I did some research regarding the company online through the state XXXX and discovered that there is administrative & civil action against the representatives of this company by the State XXXX and also found Desist and refrain orders pursuant to XXXX XXXX XXXX XXXX XXXX on file. The documentation lists multiple violations of deceptive natures & can be found at these links: XXXX It is important to note that the reason I took this loan was because the company appeared to have franchise locations ALL OVER the state of Texas including a local branch in XXXX, Texas XXXX XXXX from where I lived. In order to gain the loan, I even had to take our vehicle to the company’s "branch location" which wound up being a XXXX XXXX business, to have pictures made & turn over the title to the vehicle. So that means this company fraudulently operated Cash loans (they advertised payday & title loans in the advertisement that lead me to them). It is also important to point out that this company tried to take our vehicle AFTER they had been ordered to desist & refrain in the state that they claimed their Headquarters were located. I believe they were ordering on criminal activity when they did these things and am glad they were unable to take our vehicle. However, I do not know what happened to our title, since we turned it over to a XXXX business claiming to be affiliated with the XXXX company. I do know that the title does show Cashstand, Inc. as the lienholder (the last time I checked with the TX XXXX and I would like to know how to go about getting our title cleared from this fraudulent activity. I do not know if the state XXXX is aware of these people’s fraudulent activity in Texas and I feel like the state XXXX and Texas both failed in protecting consumers. I also have reason to believe that the XXXX tow company tried to confiscate several people's vehicle in my area (and possibly succeeded) because my husband saw them trying to tie up to another person's vehicle XXXX day when he was driving through town. He watched the owner of that vehicle ram the tow truck trying to get away from them, which resulted in damage to the tow truck and it subsequently being loaded onto a semi. My husband only found this information out by accident as he recognized the tow truck. He was able to get a few poor pictures on his flip phone of the truck on the semi with an illegible name of the tow company on the side, as proof to me that Cashstand was trying to collect as many vehicles as they could from our area. I now believe that the company may have deliberately made it hard for people to pay them their
Please know that a payday loan helped me and I hope this credit option is still available in the future. Once, I racked up a huge phone bill. I relied on a pay day loan that month so I would not fall behind on other bills and household expenses. Needless to say, I monitor my phone use much more closely now. I am very thankful to pay day loans for getting us through that month and helping us not fall behind in our bills.

A pay day loan is not only easy to use but it allows you the freedom to keep your stuff. I think that getting quick cash and being able to fix a problem easily is an option that needs to be available to everyone.

The worst part about water and power bills is that if you don’t pay them, they get cut off, and you need both those things. When I really can’t pay those bills on time, I turn to pay day loans to help me.

The government obviously does not understand how hard I work. When I can’t make ends meet, I end up getting a pay day loan. This is great because it gives me the money I need and I do not have to make a big commitment. I do not know why the government wants to take this option away from me.

When I had to get a payday loan recently, the people who helped me were so nice. They broke down the loan and showed me exactly what I needed to do and what it would cost. I am so grateful for their help in understanding this loan.

Once in a while, I need a small loan and I do not want to bother my family. A lot of the time banks and credit unions will not even lend small amounts to people like me, plus pay day loans are easy to deal with. I hope the government does not remove a lending option that has always worked well for me.

A cash advance helped me take care of some medical bills that were piling up. I wanted to be sure that those bills were paid soon as to avoid late penalties. I was able to pay back my loan over time and even with the fees it was still the least expensive option than bouncing a check and then paying the overdraft fee.

Payday loans are great for me and my family. Without them, I would not be able to take care of my kid’s medical expenses every so often. Whenever I need some help financially, I know I can rely on payday loans to help get me through.

XXXX is the time we should be thinking about what we can do for others. And in my case, that means making my monthly budgets a little easier to manage through a short-term lender to help me cover my travel, lodging and gifts for my close friends and family. I want to tell you why a payday loan is so important to me. Once in a while, I need a small loan and I do not want to bother my family. I hope the government does not remove a lending option that always worked well for me.

Why do I always feel like the government has their hand in my pocket? I am able to make my own decisions and I do not need anyone telling me what to do or how to do it. I know what is in the best interest of my pocketbook.

Received a call on XXXX/XXXX/XXXX that went to voicemail. The call was from XXXX. An automated system left a message indicating a claim with their company, but the claim number spot was blank in the message. I returned the call, as I currently have a car insurance claim being processed. On callback, they knew who I was calling and indicated I owed XXXX ($500.00) for a payday loan repayment from XXXX. They had my SSN and name, and indicated it was originally for ($400.00) and offered to allow me to set up payment arrangements or go to court. I asked for a DVA and they requested my email address. I asked for it in paper, and they said it was an online loan and all documents were online. At no point did they read the FDCPA acknowledgement to me. I told them I’d see them in court and disconnected the call. I’ve never had a payday loan for more than ($100.00), and the few times I had done that many years ago, they were always paid back immediately, and I’ve never defaulted on any. Based on XXXX, this is a scam, but I’m concerned that they were able to identify me by phone number and had my SSN. Any advise would be appreciated. I still have the voicemail saved.
A pay day loan saved me and I wanted to let you know why it is important to keep this option available to everyone. By taking away payday loans, I feel that the government is taking away my right to choose. I should be able to decide who I get a loan from. It’s plain un-American to take away this freedom from me.

Payday loans are so much easier to understand than credit cards. There is the amount I borrow, the fee I have to pay to borrow it, and the timeline to repay it. With credit cards, the fees seem to change all the time, and they don't actually make you pay it all back. Payday loans are just a better fit for me.

As a parent with a full-time job my children go to daycare. When they get sick I have to provide for alternative child care until they are well enough to return to day care. My payday loan has helped me get through these times and provide quality care while my children are sick.
My story is not unique but it is important to me and I wanted to share it. Why is the government now also trying to limit the options available for lending? I believe that pay day loans are a good thing to have around. This is a choice I can make for myself and I hope that we can all agree that these types of loans play an important role in our economy.

XXX time I owed more taxes than I expected. I had to rely on loans to get me through and make sure I did not get in trouble with the government. If I had not had access to a short term loan like this, I do not know what I would have done.

This type of loan is a very easy product to use, especially thanks to the helpful staff. Anyone could use a payday loan. It is a quick and cheap alternative when you need money fast.

I already live paycheck to paycheck and have little leftover after my monthly bills are paid. When the holiday season comes around, I cannot afford to give my kid gifts. The pay day loan helped me so my child could open a present on XXX.

I started having car trouble while my finances were tight and I needed a loan to cover some of the repairs. I was able to walk out in less than an hour with my cash in hand and fix my car without any problems.

I am so happy that I turned to a payday loan when nothing else was available to me. I have had to take out a loan to cover my taxes before and I am so glad that this option was available to me. It was definitely better than being late and incurring a penalty.

When I need cash, I need it right away. I cannot always wait around for my bank to process a ton of paperwork, and I did not know if they would even approve a loan after all that effort. A cash advance got me the money I needed right away and let me pay it back once I got paid. It really is so much simpler and I think anyone should be able to use these types of loans if they want.

There is no loan that is perfect for every need. Payday loans are a great and inexpensive choice for a short time, but another type of loan may be better if the need is longer. However, being able to choose the right loan for the purpose gives consumers the freedom to make the best choice for their situation.

I share my story about payday lending because it is important to keep this credit option open. When I had to get a few repairs done to my house, I used a payday loan to help with my finances. It was so easy to go to my local store and they helped me along every step of the way. This was the best option for me.

At a difficult time a payday loan helped me solve a problem. I like having different options to choose from when I need money. Sometimes I am able to go to the bank but other times I just need cash and cannot wait. That is when payday loans are helpful and I am glad they are available.

Money has been tight for over a year and after bills and daily expenses, I hardly have enough money to purchase holiday gifts. These loans have helped me put presents under the tree for my entire family.

Updated - Your Payment Plan Schedule for LoanAssistanceGroup.com

Dear XXXX,

Before we get to the actual plan schedule, we want to emphasize that the most important element in your debt settlement program is your savings. To avoid confusion between the money we will collect for our fees and the money you will save during your plan, it may be helpful to consider the following points. Please note that these are general "rules of the road." Don't hesitate to call us with any questions about your own plan.

1) We are not debiting the savings amount from your bank account. LoanAssistanceGroup.com only debits our own fees. You are responsible for saving the money necessary to fund your settlements. The budgeted amount listed in your plan covers both our fees and the amount you need to save to build up the funds we estimate you will need to resolve your loan accounts.

2) If you do not save, your program will not work. This program is about settling your payday loan debts amicably when possible. To settle loan accounts at a significant discount you must be in a position to make an immediate payment. This is why savings money according to the plan is so important.

3) We verify your savings monthly by sending you an automated email to which we ask you to respond with the updated amount of your savings. If you fail to save the necessary money to fund settlements, we need to discontinue the program. Otherwise, you would be paying us for nothing and we are not interested in taking your money unless we reasonably believe we can deliver results.

4) In addition to putting aside your budgeted amount, communication between us is a key element to a successful program. You can contact us at any time to discuss your program. We will be happy to review what has been done so far and what we plan to do next and to learn of any difficulties you might be experiencing. However, we must emphasize that if you do not do your part in putting aside the entire budgeted amount, we can not negotiate settlements because you will not have the funds set aside to pay them.

5) A savings account is the best place to save this money. Ideally, your savings should not be mixed with your daily expenses money. It should be in a separate savings account. It is much easier to identify what money is earmarked for settling your loans when it is separate from the money you need to pay your bills.

While you can utilize either a checking or savings account to place your budgeted amount in, savings accounts are safer than checking accounts when dealing with payday lenders. While most lenders consider themselves to be true financial institutions; regardless of what others might think of the product, there are some rogue lenders out there. If these rogue lenders learn the details of your new account; because of a bounced check, for example, they may try to debit it. XXXX This can easily be reversed, but we don't want you in the position of chasing your own money. Savings account information is much more difficult for them to obtain. In addition, there are lenders that will submit paper drafts against your checking account (assuming you have not closed it) because these are not electronic and you can not revoke authorization prior to them doing so. (You can stop payment afterwards, usually for a fee charged by your bank.)

6) If your program is discontinued due to failure to save, we will cease debiting fees and you will owe us nothing further. However, your creditors may resume their collection activities. Discontinuing a program is always a last resort. We understand that you are already experiencing financial difficulties and things do come up from time-to-time. And we will work with you to make reasonable revisions when necessary. But when you simply refuse to save, we have no choice but to discontinue the program and advise that your lenders that we no longer represent you. We do not want this to happen. Please remember that saving money is every bit as important to us as paying...
I want to tell you my story as to why a payday loan was important to me. Once in a while, my phone bill really startles me and is a lot higher than I expected. I hate when that happens -- a couple of times I've had trouble paying it. When that happens my first trip is to go get a payday loan to help.

My hours were cut at work as a result of XXXX, but my bills kept coming in the mail. I took out a payday loan to help my family during those difficult times and we were able to get back on our feet without missing a payment. I could not imagine where my family would be without this type of loan, so please do not take this choice away.

From the moment I walked into the store, I was able to quickly see how the cash advance would work. It was easy for me to use and helped me meet my financial obligations. There are no hidden tricks all the fees were explained.

Providing food on the table for my entire family can be pretty stressful. But cash advances can help ease the burden, particularly when prices at the supermarket continue to be on the rise with higher energy costs.

Money issues happen and I was glad I went to a payday lending store. It is great to see a place that puts their customers first. Before I could take out a loan, they made sure to explain everything to me to make sure I understood the terms. I am glad there were no tricks and everyone was so upfront with me.

During the summer months my daycare bills double with my children's activities. My payday loan gives me peace of mind for my children's summer plans and allows us to go back to school shopping too.

Sometimes I feel like I'm just part of my bank's bottom line. When my bank can't help me out, I turn to payday loans. I have never been disappointed with the service I've gotten at these stores and I've been able to meet my financial obligations.

Cell phones are almost a necessary today. Sometimes, I go over on my bill and need a little help to pay the difference. Payday loans are great for those few months that I lose track of how much I use my phone.

XXXX payday loan helped change a terrible situation into a good XXXX. There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at unemployment or work conditions rather than focus on what is going on in my bank account.

I am working to pay bills on time but sometimes that has been difficult. I turned to a payday loan to help me pay for some important utility bills. I knew that I did not want to bounce a check or pay an overdraft fee so the best thing for me to do was to take out the loan and pay it back next pay period. This worked great for me and saved me more money in the end.

I took out a payday loan so that my kids would have the tools to keep up with everyone else.

Taking out this loan did not add stress to my life but actually helped. It was super affordable and not complicated at all. I still can not believe how easy the whole process was.

After I got the quote for insurance, I did not know if I would be able to afford it. However, I was able to use a payday loan to successfully pay for the cost and protect myself and my belongings from whatever life might throw my way.

We had that exact thing happen, and turned to a payday loan to help cover our basic necessities like groceries and gas. It got us to the next pay check when we could pay it back. Telling my story is important because a payday loan really helped me when I needed it. I work hard for my money so when I spend it on something I want to make sure that it is protected. Not my brightest moment, but following the hospitalization of my partner and needing "quick cash", I took out a loan with Red Rock Tribal Lending, LLC d/b/a CastlePayday.com. It was a ($350.00) loan, and I was told on the phone that I would be charged a finance charge of ($120.00), steep yes, but it was a one time thing, and I could take the hit. It was not until after I agreed to the loan and received the funds, that I learned the interest rate on this loan was going to be 849.0116 % and that the total repayment for the ($350.00) loan was going to total a mind blowing ($1800.00).

Knowing this had to be illegal, I initially went to the FTC website which directed me to your website and I filed a complaint with the CFPB on XXXX XXXX, citing the illegal practices and predatory procedures this company used. On XXXX XXXX I received the response from the company stating that I had agreed to the 849.0116 % interest rate, and that they had done nothing wrong. HOWEVER, they also responded that "While not obligated to do so, and in an effort to resolve this in a manner that is most favorable to you, the Company has Charged Off your account and updated its status to Paid in Full, thereby concluding your business with the Company. They know what they are doing is at best unethical, and most likely illegal.

I had already paid slightly more than what I had agreed to on the phone with their Representative, but since I was stupid enough not to make sure what I was getting into, this response was totally acceptable for my situation.

I am very grateful for the assistance your organization provided in resolving this situation. The resolution was much faster and far more positive than what I had expected.

I do wish however that there was a way to ensure that this company was investigated and that they could be stopped from doing this to others. They have undoubtedly taken advantage of thousands upon thousands of people who are already in dire financial trouble and compounded their problems through their illegal business practices. It is one thing to make a legitimate loan as a financial institution, this is not legitimate. Loan sharks do not even try charging a 849.0116 % interest rate, and I am pretty sure that is illegal, and with the courts ruling that the FTC has jurisdiction in these "Tribal lender cases, it would be nice to see them take action that would force these companies to act as responsible lenders, and not criminals. Too many people are suffering because of these types of scams.

I was fortunate enough to know how to file a complaint, and I will definitely be sure to post a link to your site on every complaint board I can find in the hopes other victims of these unscrupulous predators may get some relief, and hopefully, if enough people learn to utilize this resource, it may show a pattern significant enough to warrant further action by an agency that has the jurisdiction to put a stop to practices like this.

Thank you again, your organization was able to stop this predatory lender from continuing to carry out their illegal practices in my case, I fully believe that without your assistance I would have ended up paying the outrageous charges that I was not made aware of until after this loan agreement was in force.
