I have tried to submit a formal complaint in person at my bank branch ( XXXX XXXX XXXX XXXX, XXXX XXXX XXXX XXXX XXXX, OH ) in regards to poor treatment of a customer for since XXXX XXXX. I spoke to the same branch manager XXXX twice. My complaint is in regards to being forced to deposit a Chase Bank issued cashier's check in its entirety into my Chase Bank account accompanied with a hold. I was told to do so without explanation at another bank branch XXXX XXXX XXXX XXXX XXXX, XXXX, OH XXXX, by the branch manager of the name of XXXX. I could not understand how the implementation of such a policy on a Chase Bank issued bank check was fair to a customer who did not have an account let alone one who did. Customers without an account can walk in the bank and request the check to be honored and cashed in full. I asked the teller to speak to the person who was telling her to do it. The teller could offer no explanation. I asked the gentleman whose name I did not know at the time or title. If Chase Bank was experiencing problems with the printing of their own bank checks? He stated... hold on I will give you the money. I was requesting twenty percent of the amount in cash. He offered no explanation of the criteria he never gave me his name or a criteria he used to subject me to such a procedure and walked away. I then asked the teller what would happen to the balance. She stated to her knowledge the balance would continue to have a hold placed on it. The apparent subjectivity of the bank policy and the way it was handled led me to feel I was being profiled, held to some standard that I could only attribute to being an XXXX XXXX female, with her hair all over her head. I happened to be ill that morning and just ran out to pick the check up from daughters. I stopped at that particular branch location because it was on my route home. I had never been there before. The blatant subjective treatment upset me to the point, I asked the teller to return my check to me. I told her I would take the cashier's check to the branch where I normally transacted my business. As I left, I asked her the name of the man who spoke to me. I was so rattled, I drove off with the banks drive through canister. And when I arrived at my local branch, I got out of my car and locked it with the ignition running. I went to customer service and spoke to XXXX. He was extremely consoling and apologetic, to the point of trying to call over to the branch and speak to XXXX, because he could not explain why it happened either. He was told XXXXX was unavailable. I expressed as clearly as I could, .... as a customer .... I should not have to worry about what branch I walked into to be treated fairly. He in turn allowed me to speak to the branch manager XXXX. She would convey she was personal friends with the person she would reach out to contact me in regards to my concern. I waited four hours no one contacted me. I went back to the bank and closed out my account. But, the closing of my account proved very inconvenient and I returned and reopened the account two weeks later. I would see the branch manager again XXXX XXXX XXXX, a week later and state to her again, I still wanted to make the formal complaint. She stated I had closed my account which prevented the follow through prior. But, the person I needed to speak with was on vacation and she would see if she could reach out to someone else. I waited until today. I mentioned to XXXX, I was still waiting to put in my complaint. He stated the true bank manager was back from vacation and he felt she could really help me. I conveyed to her the whole story. I told her things happen but, I really felt it should be addressed so others would not be treated in the manner I was ( without explanation ). I was taken aback when she stated how XXXX was a really nice guy. He had hired her, he was titled even higher than a bank manager, but, stepped down to be with his kids and that she was certain he must have been having a bad day. I said okay, if he will call me and explain to me why he did it. I will not put in a formal complaint. He did not call. I have done everything I can do to try to understand how I could be treated poorly by an employee by Chase Bank. I have endured the platitudes of friendship and appreciation of the injuring employee, while no one has given a care about me, the customer. It is apparent Chase Bank is fostering a climate of indifference which is generating complacency and affording their employees protection accompanied with the ability to wield subjective policies towards individuals XXXX. My complaint is Chase Bank will not allow a customer to submit a formal complaint when subjected to unfair practices that subject him/her to treatment without explanation. Treatment that boils down to a person can be subjectively treated in a manner because of their race. The expressions and actions of Chase Bank branch managers, have left me no other alternative but, to believe my assessment is true.
I do not make a lot of money and I have bad credit, so I will occasionally use one of those high-interest-rate loan companies to catch up on my bills, etc. I always change the payment schedule so that I can make a few monthly payments instead of paying it all back at once. This means I end up paying back more, but for me in my situation it is necessary. Recently I used CashNetUSA for one of these loans. As usual, after the loan was approved I logged in to change the payment schedule, but this time I found out it would be different from other companies I used. I could put off paying the loan back in full by making monthly payments, but the monthly payments DID NOT decrease the total amount due. In other words, I was just paying to put off the due date, not making payments toward the balance! I ended up paying nearly $800.00 for a loan of only $450.00. Please do not ever use CashNetUSA! And make sure you’re well informed before you use any of these payday loan crooks. What they do should be illegal.

I was in between pays and needed some extra funds and Checksmart was there to help me. My experience was very pleasant and I felt as if they genuinely cared about my struggle. Without Checksmart I would have fallen into financial ruin as I did not know how I was going to feed my family and put gas in my car.

As a responsible XXXX, I was able to use a payday loan for the first time to pay my rent on time. I was going to be late since I needed some additional supplies for an important school project. I would have never thought to use one but I was able to pay it back after my next pay check. Even a XXXX can use this responsibly and I was glad to have had a good experience.

My name and contact info has been used at payday loan companies for references purposes. I have never been called as a reference before the loan is made. I have been called several times when loan is not paid and loaner is trying to contact loan customer. These payday loan companies should be made to check references before loaning money! Thanks for allowing me to express my thought!!!

I wanted to thank you for reading my story. I wanted to let you know that a payday loan really made a difference for me when my car broke down a few months ago. It allowed me the flexibility to not fall behind on my bills and still get my car repaired. I ended up just missing XXXX afternoon at work. I had a very good customer service experience at the store I went to and it was an alternative that I would use again. I certainly hope you all will not do away with this option because it really worked for me.

When my basement backed up after some heavy rain in XXXX last month, and my homeowners insurance would not cover the damage, I turned to a payday loan for assistance. I was able to pay for the clean-up and water damage quickly. This source of credit was relief and it made life at home easier. This type of emergency assistance for my family was extremely helpful and taking this credit choice away or even limiting it further will hurt many families.
To whom it may concern: I used a pay day loan to help pay for some school items for my kids. We had some unexpected home repairs and when my kids asked for very specific materials for a school project we turned to a payday loan. I had a very good experience and the store clerk that helped me explained all the fees. Thankfully I paid it back quickly, and my boys were able to finish their project. It is not something I expect to use again, but in a pinch it really did help me out.

Received a letter in the mail. I went to the website and found this.

AMOUNT YOU WANT TO BORROW: $XXXX
ANNUAL PERCENTAGE RATE: 786.51%
BORROWING: ($600.00) + XXXX
FINANCE CHARGE:
TOTAL TO PREPAY LOAN IN FULL ON OR BEFORE YOUR XXXX DUE DATE: $ XXXXXXXX
https://www.castlepayday.com/loan-rates

I think that being the CFPB that you should investigate these outrageous interest rates. XXXX seems really out there. I do nt care if it is TRIBAL or not.

A pay day loan helped me recently and I wanted to share my story. I had someone hit my car, and several others, on the street last year in my neighborhood. My insurance covered the repairs, but I needed the loan to cover the deductible. If I had not been able to do so, I would have had a hard time getting to work and pay for the rental car I drove for almost a month. I understand that the federal government may be looking to remove this credit option and I certainly hope you do not. It was important to me to do this on my own and it really made a difference. Thank you.

Good Morning : My name is XXXX XXXX, email address : XXXXXXXXXXXX. I have been getting complaints on my cell phone and email address from a company which I do not recognize nor owe money. They have been calling me XXXX or XXXX times per day and sending various emails threatening to sue me in court. It is not addressed to me nor do they provide any information regarding me or my address. This has been going on for at least three months. I have been in touch with my attorney and have been advised to ignore it because he believes it is a scam. I would like other consumers to be aware of this company and its practices. They identify themselves in my email as ACS Incorp ( XXXXXXXXXXXX ). I would be happy to forward the emails to you or the many telephone calls. Please let me know if you are interested in receiving them.

On XXXX/XXXX/2015 I ordered an item from Sears using their credit card. I received a bill which was due on XXXX XXXX and I sent it in XXXX days prior to the day it was due because it was on a Saturday and I did nt want it to be late. I paid the amount in full. On XXXX, I received another bill from Sears with a fee charge of {$25.00} and interest charge of {$14.00} for a balance which was not even the amount I had paid off, I m not even sure where that came from I have no balance prior to the above mentioned, totaling {$39.00}, because they did nt cash my check until Monday. I have noticed while reading comments that many people have had this problem and because Sears was nt resolving it so customers were getting more fees tacked on while disputing. I sent a letter to them on XXXX but I would like to make sure it gets resolved so I do nt get additional fees. According to the new law when a payment falls on a weekend, holiday or when the business is closed I should not be subject to late fees.According to their rules you can call them but they are not required to investigate without a letter, so I did nt bother to call. As of XXXX fees have been waived and case closed!! CFPB is amazing! They were quick to respond and help resolve the situation. Thanks to all the people involved with my case. If it was nt for your help I would still be waiting for a response, I would probably be receiving more charges on my next bill and I would be arguing with someone on the other end of a phone who could nt care about anything I had to say.

Actually I need to find out who or how I contact someone about a payday loan collection scam I m getting calls from someone saying I got online a payday loan which I never got or even applied for they are treating to have me arrested for something I never even got they had personal information about me and would like to get this taken care of asap
Within a half hour today a man named XXXX XXXX called my mother, XXXX of my daughters and my sister. He told daughter number XXXX I had XXXX hour to contact him I had XXXX charges against me and was going to be arrested. He told daughter XXXX I needed to be in court and the police would be at my house within an hour. Told my mother XXXX police were on their way to my house to arrest me, and finally told my sister the same thing. He called daughter number who is in the hospital with her son who has been hospitalized since Saturday XXXX times while trying to talk to doctors. And this guy was dumb enough to leave her a message about me being arrested. I called the number and asked what is the name of the company the lady told me. I asked where they were located she told me XXXX NY and then I explained the above. She says man that is illegal and the man that called you is a sub contractor. She then asked if this man provided a case number I said yes and gave it to her. She then explained this was a collection call about a payday loan from cashnet.com from XXXX XXXX 2013 and gave a bank name with the last XXXX numbers of the account. I explained I have no payday loan. I then explained myself and family are not to be contacted again period that I was going to file a police report. A half hour later XXXX XXXX calls my phone and I tell him never ever contact me or my family and I was reporting him and filing a police report. He then say I did nt say any of that, I explained to him how dumb he was because he left it on a answering machine XXXX different times. The number he called from was unavailable. He then proceed to tell me a name of a street he was on and would be at my house shortly to deliver a supeona for court concerning this so called loan. I hung up and called the XXXX number and explained this is my second call I want me name removed from you list, a different woman told me suck it up your going to court and you will pay and hung up on me. Theses people scared my daughters and mother. I have daughter numbers XXXX kids because she s in the hospital with her son I also had just picked up daughter number XXXX son from preschool they did nt know what was going on. We found out less than two weeks ago my husband has XXXX so the stress level is very high I shook for an hour. This is wrong illegal and this company needs to be stopped.

Caller : Legal services
Call Type : Debt Collector

Keep getting repeated calls from Priority One Solutions on a claim. They tell me they sent me paper that I would have to sign for and that I received them. I told them no I have not please resend they refuse. I supposedly owe XXXX different payday loan places for loans taken out but not paid. They refuse to verify the debt only saying I submitted my initials online. They repeated ask if it is my intention to do fraud on this company. They further state that they are pressing charges for bank fraud. I repeatedly tell them it is not me I am identity theft victim but they refuse to accept any documents on that. They never say that this is an attempt to collect a debt. Major scammers.

If I did nt have access to a payday loan I would nt have been able to relocate to get closer to my daughter. The loan helped ease the load until I got my XXXX pay check.

If a payday advance were taken away I XXXX XXXX would nt be able to provide for family and pay bills.

The reason I use Check Into Cash is because when I have unforseen XXXX bills or car breakdown they are always there for me. Their fees are reasonable and I am always happy for their services.
4 years ago, my husband and I moved to Alabama for a fresh start. The bad economy had taken a toll on our businesses (XXXX and he had a XXXX). I was also a XXXX so I had started working full time XXXX again and had moved up XXXX. I m supposed to know how to manage money and budgeting. My husband worked for XXXX preservation company after another, each time being taken advantage of and losing more than we gained. He finally settled XXXX. He had a few steady jobs with XXXX company, and it looked like things were getting better. We were expecting our XXXX son. I had taken out a title loan back before XXXX, and we were steady with the payments, making a little headway. He decided to take out another title loan to buy some equipment he needed XXXX. Within 2 months, his boss stopped calling. The jobs dried up. At XXXX point he was home for almost 2 months straight ; XXXX I started taking out payday loans online just to make ends meet. There s almost no limit to how many they will let you get, so I ended up with XXXX, with interest payments around ($280.00) every 2 weeks. Just when it looked like we would lose everything, my husband got a call about a XXXX position. He s been working his tail off XXXX. Thank goodness for my job, or we d have never made it through, but everything took a toll. Now we re 3 months behind in rent. I found a company that, after letting my payments get several months behind, was able to negotiate a settlement on the online payday loans. We ve made the title loan payments, but it gets harder to walk in that store every time. We re paying ($800.00) every month, with very little going to interest. It s been 26 months now since that XXXX title loan and 20 months under our current title loans. We borrowed ($8300.00), but we ve paid back over ($13000.00) now just in title loans, and only ($600.00) went to the principle. That does nt count the ($87.00) every 2 weeks just to keep the local payday loan going. I do nt know which is worse, knowing that I m giving them free money every time I go in that store or their horrible attitudes. I mean, I know I ve made some bad financial choices or I would nt be there, but you could at least be kind. I ve even been pressured by these employees to sign petitions NOT to legislate against payday and title loan stores AND been pressured to refer other customers. I would give someone my own money before I would EVER recommend this trap that I m stuck in. I m searching daily for a way out.
You people are a total joke and a waste of time. I would be better off putting my story out on Facebook or Twitter. I contacted you to report the illegal activity by multiple companies in cahoots with each other. Those companies being Western Sky Financial (now defunct because multiple states attorney generals and the federal government sued them, won and put them out of business as well as the fact that the XXXX XXXX Iowa tribal council even stated publicly that this company fraudulently claims they obey the laws of the tribal council but in 100% fact they suborn them and obey no legal or governmental entities and only do what benefits and suits their needs only XXXX, Cash Call (also maybe known as CashCall XXXX XXXX word name) and Delbert Financial Services; the latter XXXX which are the collection agencies that Western Sky immediately sells the new loans to right after the loan is established. Western Sky was put out of business for illegal loan sharking and mortgage scams. Your service does 100% NOTHING to assist the consumer in ending the never ending and harmful treatment that the collection companies continue after benefitting the establishment of the illegal loans by Western Sky. All your people do is take down the anecdotes that is it nothing else. You do not review the historical data of other complaints citing the same companies involved with the same illegal methods, you do not sic attorneys on the companies to aid the consumer and put a stop to the illegal activities and the life destroying horrors the consumers endure and continue to endure. You do not order the companies to "cease and desist" the illegal horrors they do, nor do you force them when they continue the same illegal practices over and over again to close down the accounts and issue legally binding documentation to the consumer that the account is 100% closed. You do nothing except document and tell the consumer to move on. You and your service is useless and fraudulent in that you claim to be an agency designed to help consumers and you do not do anything to help anyone at all. If you want to change this then issue attorney investigators to each complaint to represent the consumer that files the complaint because the majority of the people reaching out to you (including me XXXX are too poor and desperate to be capable of affording to hire their own attorney. There is enough viable data in your files to get you to close down and financially penalize the companies that commit these illegal activities repeatedly. These companies need to be forced to pay huge punitive and compensatory to the consumers they harm and when I say huge I mean million dollar payouts to each consumer that they harm with their repetitive illegal conduct. That ought to force them to get ethics extremely quickly. Now get off your bureaucratic do nothing XXXX and start hiring attorneys whose job is solely to represent the consumer. And for the record my issue started with Western Sky Financial agreeing to grant me a payday loan (then they changed the legal term/description of the loan to an "installment loan" to get around the laws a fact that no consumer whom hasnt attended a law school would ever know the finite difference about). The loan was established with me being a NJ resident/citizen and those types of loans via the internet are illegal in NJ but they never told me that and ignored the laws (claiming to obey the tribal council which again according to them is a lie because the do not obey the tribal council ever XXXX and established the loan charging an illegal interest rate of 129% which is considered loan sharking. Western Sky then immediately sold (not even a week passed, not even 48 hours passed before the transfer of my debt XXXX my loan to Cash Call (also maybe the XXXX word name "CashCall") which collected close to double the principle before selling the debt because state attorney generals were after them as well as the fed for their practices. When my loan was sold again I consulted an attorney about the whole illegal loan situation and the illegal interest and they told me to change my bank account and cut them off which I did. Delbert eventually sold my loan (yet again my loan was sold) back to Cash Call/CashCall and they are STILL contacting me! Every so often they email me. That is all they do, they just email me which I send to my spam folder and do not reply. They DO NOT call me, they DO NOT snail mail me they only email me. These people need to be stopped and put out of business and ordered by court order to CLOSE ALL LOANS as a penalty so they can not sell the fraudulent accounts to anyone else to continue the horrific, life destroying process.

Payday loans are very convenient when it comes to paying bills before they go late. I hate late payments, so I do a loan.

Wanted a payday loan to stay afloat on bills. Very grateful this.

For me a payday loan is a necessity. There are times I have to borrow in order to get back and forth to work. When my check is short or I have unexpected bills come up.
My payday loan makes life easier. I can borrow when needed, pay it back, then borrow again the next time I have a need.

Came to payday center to borrow and catch up on my bills. It would upset my finances to not borrow.

I use a payday loan to help pay bills from time to time. Without the payday store things could be hard.

My son's car needed fixed. He needed my help to avoid a really bad hardship. The payday loan helped me out.

It would be horrible if I could not get a payday loan when needed. Sometimes I have bills that just need to get paid.

Was getting behind on bills. The payday loan was to catch up and keep my head above water.

I use payday loans for the convenience of having access to cash. Without an occasional loan there would be tough times ahead.

Due to some financial hardships had to borrow money. Without the payday loan industry life would be a lot harder.

I was behind and had to catch up. The payday loan helped me. It would be a huge inconvenience if unable.

Payday loans are helpful for emergencies.

I believe in payday advances because it helps out in times of need. It is a short term solution for things that come up in life.

Check Into Cash helps me because sometimes I need money. They have good service and warm welcome.

If I did not have access to a payday loan I would not be able to put extra money in my pocket.

If I did not have access to a payday loan I would not be able to get my car fixed.

If I did not have access to a payday loan I would not be able to get emergency cash when I need it.

If I did not have access to a payday loan, I would not be able to get my car fixed.

If I did not have access to payday loan, I would not be able to get my car repairs done.

If I did not have access to a payday loan, I would not be able to deal with extra expenses.

If I did not have access to a payday loan, I would not be able to buy my medicine.

If I did not have access to payday loan I would not be able to pay my bills.

Payday advances help a single mother make it until the next paycheck. It helps to pay bills or have gas money until payday arrives.
Payday advances are great when a person is working paycheck to paycheck.

I believe in payday advances because it helps out in time of need. You can get an advance and have XXXX weeks time to pay it back.

Payday advances are very useful to me because unforeseen expenses like car repairs come up and it is not always in my budget. It is great to have a service available for such emergencies.

Payday Advances are useful to me to help me catch up on bills, holiday help and if your spouse loses a job.

If there has not been a payday loan I would not have help between paychecks. When you need money for the doctor or medicine or need your phone turned back on. Everyone is sweet and friendly.

Helping my daughter come visit family from the navy.

Car broke down need extra cash until payday.

Received a phone call from XXXX stating a payday loan in the amount of ($300.00) by Titan. I did not take out a payday loan - have someone who is using my ID. I explained this to this person and was told at XXXX ($690.00) would be due today or they would go through the court system. Then they dropped it to ($480.00). When I keyed in the number they gave me I found how to reach out to this place. They are scam artist and they need to be stopped. Nothing legal has been followed on their end.

The payday system helps me greatly as a single individual who comes out even in the income taxes and received no stimulus package.

Payday loans have helped my family multiple times over the past 20 years. Without them there have been times that my electric bill would not have been paid, I would not have had groceries, or gas for the work week or my son would not have been able to get XXXX from a XXXX.

Please do not do away with short term payday loans.

I was short on money for the XXXX bill and a payday loan helped me keep my lights on.

If i didnt have access to a payday loan, I wouldnt be able to get my childrens medicines.

If I didnt have access to payday loan, I wouldnt be able to pay for unexpected bills.

If I did nt have access to a payday loan, I would not be able to make it from week to week. This has helped me to pay rent, car insurance, etc. I would not know what to do without them.

It helps me pay my rent when my ours are low at work.

I rely on the services of my local payday loan store. It assists me with extras and unexpected expenses in my time of need. The government should not have the controller to the that from anyone.

Dear sir (to whom it may concern)

1. Check Into Cash and their competition give a choice to the customer.
2. Competition in the money lending businesses are essential to good economics and banking in general.
3. Customers deserve a choice.
4. While interest rates are an issue being denied for a loan from a bank is also an issue when a customer needs funds.
5. Give this industry its fair chance.

The above items are of my opinion as I reflect the feelings of others.

This is in regards to Harbor Front Acquisitions, LLC, a debt collection agency, collecting on a past due payday loan in the amount of $140.00. I received a phone call from my local criminal courthouse, stating that they were trying to serve me with a lawsuit by the above mentioned company and gave me a phone number to contact the "mediation" dept. I did call and made arrangements to pay, but the reality is that when I called the number back to make sure that I was not going to be served, not one person in that office could find any evidence of the phone call or the "lawsuit". They are using a scare tactic that I would believe to be illegal. Please pass this on. Our court system is so backed up that filing a complaint with them would be useless. I was told that collection agencies use a phone software that allows them to make phone calls from any number.

If I did not have access to a payday loan, I would not be able to buy my husband's medicine.

Originally came in to get a payday loan to pay some bills. If unable to do a payday loan would have to find another way to get the money.
If I did not have access to a payday advance I would not be able to pay my bills. If I could not pay my bills eventually I would have been homeless and careless and without a car I would not have a way to work. Payday loans are a life saver they should not be taken from the American people who live pay check to paycheck.

If I did not have access to a payday advance I would not be able to make my car payment on time and would have had an over draft fee on my bank account. Payday loans and title loans benefit people in need. Leave them alone.

Helped me by allowing me to pay some bills until I got paid again.

Needed some extra cash. Guess I could go another route if I had to.

Came in so I could borrow money to catch up on his bills. There would be tough times ahead without a payday loan.

Needed a loan for money for bills. If I could not do a payday loan things would be very bad.

I needed money when my husband lost his job and a payday loan helped me through.

Helped me when I needed fast cash and no other options.

Helps in between paydays when banks will not.

It helped me when I needed fast cash and no credit.

I needed extra money for my pockets after my payday. I love the customer service here. I would probably be okay if I could not get my money back but I know it probably affect others. This place is a good place to come to if I need help. Some people do not have no where to come to when they need help financially.

I initially came here to get extra cash because I needed my air conditioner fixed. Check into cash is a really big help to me so I would be sad if I could not get my money back.

I came here because I needed extra cash. If I could not reborrow the money it would not affect me at all.

I needed extra cash so I can pay bills. If I could not reborrow the money I do not know if it would hinder me or not. I will have to see what the situation is at the time for me to tell. I guess I will cross that bridge when I get to it.

I needed money for bills that’s why I came here. If I could not get my money back then a bill will not get paid and somebody will not be getting voted into office for the next election. And this is coming from an educated college graduated who needs funds.

I came here because I needed extra cash to pay my bills. If I could not get the money back the whole juggling act of paying bills will crumble in my face.

I needed to borrow money from check into cash because I had to catch up on paying bills. If I could not borrow money with check into cash then I would not have no where else to go to borrow money.
I came to check into cash because I was moving into my new apartment and needed extra cash. If I could not re-borrow the money again it would not affect me. I would just go some place else to get a loan if I needed to.

I XXXX XXXX have used payday loans in those times when I need for both ends to meet I feel that I need it when I need it not when someone thinks I need it. Thank you

Dear Team, Thank you for giving me the opportunity to express my disappointments in the developments I now find myself. Firstly, I think I am a victim of the 2008 homeowners scam that rocked the US. The mortgage I entered into was a scam. I called BOA after 5 years and the receiver of my call told me that with all the information I gave her, another name is on her file. Not my name. As it is, I dread signing in for anything else any longer online. I wonder where I will keep my family if I ever XXXX into the United States without adequate housing arrangements.

The inconclusive transactions in discussion affected everything I engaged myself in there. The mortgage, student loan, vehicle loan, payday loan, Banking services, Credit card, Credit report etc. The list is endless. Rather, approved credit card may have plunged me into possible debt because of ill information.

Please note that information are hidden from me especially in areas where I could help myself.

I hope these few points will give you an idea of what I am facing.

I have being on this venture without help from anybody either financially or otherwise since 2002. I have managed myself as much as I can. If no help is forthcoming, I will leave it there.

Thank you.

In between paydays it is sometimes hard to get cash money and these cash advances help the periods in between those paydays.

The cash advance for me is really used as a backup plan. Sometimes I'll use it for XXX, bills and just about anything when I'm just a little short on cash at that moment. It's much easier to get a cash advance instead of a loan. I ring the fact that the government is trying to stop this is really upsetting and they are not taking into consideration our financial situation.

I do nt think the government has any idea how people struggle out here and to take this away would be just awful.

I use the cash advance to help me out right now to sort of bridge the gap between pay checks now that I m getting paid a little differently. It s helped me keep up with my bills and avoid those large late fees that would happen if not paid on time. I would be in so much trouble if the government ever tried to take this way. I do nt use credit cards and it s short term. This should always be there as a choice for me and other.

It helps so I do nt pay late fees

It helps me pay my bills on time
Normally I'll use the cash advance for either helping me out with a bill, or sometime my bills are all paid and there is nothing left for groceries, gas and everyday expenses. Without any credit this was the only thing I could turn to for this type of help. My bill collectors won't help me out and I really need this to get by at times. It does not make sense to me that the government would try to take away something that is needed for people like me.

I take out a lot of payday loans. At XXXX I was not well off financially but due to being able to take out these loans I was able to pay off my past debts, yes they charge interest on the loans but if people don't use them irresponsibly they are not problems. I hear all these horror stories about these loan companies but that has never been my experience. I am thankful for them and if people are earnest about paying them back the interest charged is not all that much. I think what you people are doing in regards to this industry is disgusting, people are free to make their own choices, and if they take out too many at once or choose to not repay their bills that is on them, not the company that helped them out. I for XXXX am thankful for having a short term loan option if I need it.

Came to XXXX because I was short on cash to pay bills. I like the customer service and recommend to my friends. It would be upsetting if I could not get money back today.

I needed extra cash because I needed new tires and a paint job done on my car. I really enjoy check into cash customer service so I would rather not go anywhere else.

I needed help paying my car note. I was low on funds and needed help with help extra cash. I would highly recommend anybody to come see yall because yall are good people.

The cash advance helps me out every now and then for when I'm short on money and I need help with help another bill. It's never easy to borrow from a family member plus I just do not want to do that. Having the government try to tell me what to do makes me feel like they are trying to take as you me.

I came to check into cash because I needed help paying off a bill. I asked around and nobody could help me at the time. I have enjoyed my experience with yall so far. I do not have any complaints.

I needed extra cash because my daughter was murdered. I had to use all my life savings to pay for her funeral. She left me with XXXX grandkids to take care of. I was low on cash and needed extra money. Check into cash was very helpful and came through when I was in need to most in my life. Thank you so much.

The cash advance helps me out whenever there is an unexpected bill that may come up and I need help getting it paid. I'm on salary so I do not get paid for any overtime so this is really my best option when I run short. If it was not for this I would run into more financial troubles that could have been taken care of with the cash advance.

I'm a single mom and the payday loan is the only thing helping me with everything. This XXXX that the government is doing by giving XXXX and insurance to people that don't really need it. The president now is doing nothing good for this country. He has this obama care is I think is stupid, I am tired of not being able to afford anything for my family. What we need is people that will help us with being able to provide for our family's. The middle class and the rest of us under dogs are working our XXXX off the provide for our families. So what I think all in all that XXXX needs a new president and a better system to help us under dogs!!!!!!!
The XXXX time we needed a payday loan was because we needed help to pay an electric bill that was due before we received a paycheck. It came in handy. We have been using this service for about 8 yrs and it helps when bills come due before you receive paychecks. Need to get Obama out of office before it ruins everything and everyone goes broke. Please leave this service alone us poor people who lives paycheck to paycheck need this.

The cash advance is a wonderful way to handle everyday emergencies that come up. I'll use it for car repairs, my wife's computer, really anything that comes up and we need a bit of cash to get by until the next check comes. I can tell you I'm extremely disappointed that the government wants to eliminate our choice in how we handle outer financial issues. It's not fair.

Sometimes I use the cash advance for when I'm short on my check or a May have overspent for that week. I really don't like going to my family because I like to take of my emergencies myself. This has helped me avoid late fees and has helped me with gas and food. It makes me sad to thing that the government want to regulate something that the people need.

If ever I have an emergency that comes up and I don't have money left over because I've already used what I have for bills. I do not use it often but when I need it I know it's always there for me. It makes me angry that the government has the nerve to try to tell me what I can and can not do when I need help.

I came to check into cash because I needed a part on my car fixed. I will refer somebody else to y'all in a heart beat because y'all have nothing but good to me.

I needed my check cash that's why I came here. I enjoy the customer service.

I was messed over by my bank and I decided so that's why I started coming here to cash my checks. I would rather cash my checks here then give my money to the banks. I have referred some of my coworkers to get their checks cashed here too.

The reason why I came here because I get paid XXXX a month and I was short on cash by the middle of the month. It feels good to know that I was able to come and borrow money because I had nobody else to go to. I will refer anybody I know that needs help with the financial problems

I needed money for my bills. I like coming here because I know y'all will help me with a smile. I feel like family whenever I come here because y'all are always so nice to me.

I needed help with paying my bills so somebody told me about check into cash. I been a customer here for years so I enjoy all y'all personalities. I feel welcome whenever I come and I know y'all are here to help. I feel comfortable coming here than any where else because I know y'all have no problem helping me when I need money.

I first came to check into cash because somebody referred me here because they new I needed some money. I think the customer service is exceptionally well that's I enjoy coming back. I have no problems with referring somebody else to come see y'all.
I came here because I needed to get caught up on my student loan payments. I have been coming off and on here because I enjoy the customer service. I will recommend anybody because whenever somebody calls me asking to borrowing money, I will send them right to check into cash.

I originally came to check into cash to get caught up on my bills. Check into cash was a lifesaver because some of my bills were about to get cut off. I would highly recommend anyone to come if they are in need of extra cash.

I'm so happy to see that the CFPB is cracking down on payday loan ripoffs in Texas. It has been a long time coming. Every street corner in this town I live in has a ripoff payday loan outlet. And hopefully due to the new regulations you are coming out with will shut them down. I'm so excited to see them go away for ever. The politicians in this county do not have a back bone to stand up to these rip off companies.

I originally came to check into cash to get caught up on bills. I have been coming off and on whenever I need extra cash. I never have problems with check into cash. Y'all are always here when I need y'all and that's a good feeling to have.

The XXXX time I came to Check into Cash I needed work done on my car. It was an emergency to get my car fix. I have been coming off and on now for 4 years and every time I come everybody is extremely helpful.

I have XXXX kids in college and I am helping them while they are in XXXX. I have referred customers in the past and will refer someone else in the future because Check into cash has always been so helpful to me.

I started a new job and needed extra cash because my first check was not a full check. On a scale of XXXX, I will give the customer service a XXXX. They all have great personalities and I will definitely refer a new customer.

I came in because I needed cash for personal issues. My husband was already a customer and he referred me to come. Check into cash was very helpful because I was in need. I would refer somebody else if I know of anyone who need help because y'all have been so good to me.

I initially came into Check Into Cash because my funds was low. I needed to catch up on bills. I have enjoyed my experience so far with the customer service and I will highly refer someone else to do business here.

It's been very handy to help out when issues arise.

I live on only what I get from social security and when I run short at the end of the month for food or gas, I'll use a cash advance to get me by until my check comes in on the XXXX. I have no family at all to back me up so really this is my only type of support I can get and I'm so very greatful it's here for me.

I'm a single mother of XXXX wonderful boys I work with no assistance from county or their father. Being able to do advance helps so much just to put food on the table. I would hate to see payday advances be no more.

I'll always use the cash advance for help with my bills so I do not rack up any type of late fees or to bounce any checks. This works so well for me because it's more convo than trying to get a loan from my bank which by the time it would be approved I'd be late on those bills.
This has been helpful with having extra money when I'm running short. Sometimes I receive calls for work in farther places and this is how I get my money for gas to get to work.

I am using the cash advance right now because I had a few bounced checks and those fees added up so I'm paying those with the cash advance to get me back on track. It's faster for me to do this than to try to borrow from family who can't get it to me quick enough.

This service has been helpful with paying my bills, because I'm on a commission based salary.

The payday loan is such a great thing for me because it's always there for me. I can't tell you how many times it has helped me out of a jam and even to buy food for the table. I am a truck driver and it's also helped me keep current with my insurance.

Bills will pile up from time to time and when that happens I'll use the cash advance to make sure they get paid while I'm waiting on my next check to come. We just moved here from out of state and instead of asking for help from someone else we decided to do the cash advance. This works very well for us.

This is the XXXX time I have ever needed to do a cash advance. I needed to pay a bill that I forgot about and this helped me get it paid quickly avoid and avoid a late fee. I could have gone to my dad for help but I chose to take care of it myself this way.

We should have the right to control our own life.

I'm on XXXX now and the payday loan has been helping me adjust to the lowering of what I use to getting paid. This helps a lot because it's so quick and ready when I need it. Really, if it was not for the payday loan I would have been late on so many bills in the past.

I'll almost always use the cash advance to get me through times when I fall behind on my bills. I also use it to help me with the doctors co-pay with all the medical issues I've been having lately.

I generally use the cash advance to help out other family members when they need help. I've also used it to help out with my special need child that requires medication. Since I really do not need all that much this is great as a quick fix to our financial shortfalls.

I just moved here and am a single mom with XXXX kids and there are times when I need some help and need a quick short term loan and the cash advance provides that help to me and my kids. Right now now I have no more time for another job so this has been a very big help for me.

My wife and I use the cash advance to help us out with our bills. We do not get much each month and if something comes up and we need a quick loan to get us back on track, this works well for us because it's so quick. If this was not around we would have to get a larger loan from the bank, but that does not really fit for us at this point in our lives.

Actually my bank (chase) recommended this service to me because I was looking for a quick short term loan that they could not provide. This is really just pulling me out of a jam for a few days until I get paid. If this was not available I'm not sure what I would have done because I really needed it today.
Payday advances help when there are emergencies when there's something that need to be paid for.

I use the cash advance for so many unexpected things that come up during the month like graduation gifts, baby shower and just about anything that comes up. It's not so much a need but a convention or me to do a cash advance. It's easy and quick and I'm able to get just what I need.

Things come up and I would much rather pay things on time and not be late and get the extra charges so I use the cash advance primarily for that reason. I think it's quicker to pay back than like a cash advance from my credit card where it may sit for a while.

Help pay bills on time.

It really depends on what may come up when I use the cash advance. It could be anything from an unexpected bill to a car repair. It's really great because it's just a short term fix to a short term problem. The banks want to loan a larger amount and I just don't need that much.

The payday loan helps me out with things around the house that I need and also helps me with doctor bills when they come up and I'm waiting on getting paid. For now both me and my husband just don't have any other way to get a small loan like this without any credit check.

I have a child with XXXX and the cash advance helps me out at time with the medications and with buying the gas to go back and forth to the hospital. I would be in a really tough bind if I did not have this in those times when I need it because we just don't have any other options.

I'm a XXXX and in the XXXX when money is tight, I'll use the cash advance to help me get by until school starts again. I would much rather use this type of service than going to a bank and getting a loan. It's just a temporary situation so I do not need anything long term. I do not know what in the world I would do if this were ever to go away.

I have not used the cash advance in a few years, but when I did it help me so much with helping me out when after I paid my child support there was not anything left over. I do not like to borrow money from my family because my final issue are mine, not theirs.

Usually if I have a bill come in or my kids need something for school and I run short I'll use the cash advance to get me through. I tried a pawn shop before but it was extremely expensive and I think the cash advance is more than affordable. I really do not have anywhere or have anyone else to lean on other than this.

my number is on the do not call log I continue to get calls from the same recording with different numbers telling me I'm approved for a payday loan (that I never applied for). Here are some of the numbers if you can please do something to stop this I would greatly appreciate it. XXXX XXXX, XXXX, XXXX these are just a few from today. They call XXXX times a day with different numbers!!

The payday loan is kind of a bridge for me as I'm trying to pay down some of my medical bills that have piled up. My son has been sick for a very long time and the bills really added up. This has allowed me to stay on top of them and start paying them off. If it was not for this I would definitely overdraft my bank account and just have to eat those late fees.
The cash advance helps me out with all sorts of things. This time I’m using it to help me pay my electric bill. Other I use it for emergencies like car repairs and just everyday expenses that come up. It helps me balance my budget.

I travel back and forth from XXXX and the cash advance has been helping me with my travel expenses while I wait on my check. I choose the cash advance instead of pulling money out of my bank account. This makes sure I keep money in the bank in case of emergencies.

Director XXXX XXXX of Consumer Financial Protection XXXX XXXX XXXX XXXX XXXX.

Thank you for the opportunity to bring this report to your attention.

The payday loan helps me whenever something unexpected happens like car repairs, bill, medical sit-up that come up. I like that I do not have to go through a lot of red tape like I would have to do with a loan from the bank. This is quick and easy and very affordable.

With the way my pension and XXXX check comes in it usually won’t line up with my bills or I need some extra money for other things that come up so I do not run short on cash while I’m waiting for my checks to come in. Since I really won’t need that much money, the cash advance works well for me because the bank wants me to take out more than I need and actually it ends up costing more in the end.

I usually use the payday loan to help me out with getting my rent paid on time. My income is for now the only steady income so whenever thing come we’ll get a cash advance to get us by until my next pay period. It’s really helped to keep my account out of the negative and get overdraft fees.

The payday loan helps me out with so many types of bills when I am running short on cash. It’s helped me out with my rent and electric bill for example. I really like how convenient it is and I know for sure it’s helped me avoid late fees.

Sometimes I’ll use the cash advance to help me buy gas, pay for some medications or even for some doctors visits. I have not used it in a while but it was a huge help to me when I did need it. At the time I did not have any other options because with my husband deceased my income is the only thing I have so when emergencies come up it’s my savior.

I’ll use the cash advance especially to help me out getting my rent paid on time when I’m short. The cash advance is the only option at at I have right now. Without this I would have to juggle things around and I know something would not get paid.
My rent is split up to XXXX a month and the payday loan has been a big help to me and my family to make ends meet. The pay here in Florida is much lower than what I'm used to so this is helping us out with the transition. We do not want to go to pay parents because it's really a pride thing and we want to be able to take care of things our self.

I own my own business and it helps me if I ever need some emergency equipment or if I have clients that can't pay me right away. It keeps my cash flow in the positive and keeps me going. I usually am able to pay it back early but it's sure nice to have as a buffer. I hate banks and just do not want to deal with their hassles.

I started using the cash advance after my husband was killed in a car crash and I was stuck with all the bills. It helped me keep up with my bills and with XXXX boys to feed and it was a really rough time. My family is not in the area so this was truly a lifesaver to me and my family and I know I would not have made it without it.

If I do not have enough money and it's at the end of the month to pay a bill or have some cash for some food I will use the cash advance. It has also helped me with some car repairs and to even help me out when I'm going on a trip and need a little extra cash.

The cash advance has helped me out many times with getting my bills paid like my light bill or rent. I know that for now this is the only way I can get help because I'm new to the area and my option are so very limited. It's quick and easy and helps me avoid late fees.

When I borrow money from a payday lender I am able to make payments for my bills on time that I would otherwise be unable to make. This saves me money and keeps all my bills and credit in good standing.

I visited a payday loan company to borrow money when I had a smaller than normal paycheck from my employer due to being short on hours. What a great experience! I was able to borrow what I needed until my next payday. That's it! Easy process and got what I needed when I needed it!

Using payday loans has helped me get my bills paid when I need to. If I was not able to borrow money from a payday loan I do not think I would make it when I'm short on funds. I'm thankful for this service and appreciate the right I have to borrow money when needed. Please keep this option open for us.

I've been using short term loans and have found them to be very convenient and a lifesaver many times. Sometimes money is not there when I need it and my payday does not get here soon enough so I borrow a short term loan to make it until I get my paycheck.

Payday loans have helped me when my paychecks are low and I need to pay child support and rent. I have used these services for the past 5 years. I have always been treated fairly and will continue to use these services that benefit me in times of need.

After I pay my rent and water bill for example I'm only left with very and the cash advance gives me that little bit of a cushion to buy gas and groceries until the next check comes in. My bank won't help me and my family really can't help and I would not ask them anyway because I want to be able to handle things myself.

If I ever run out of cash before my next payday like for gas or groceries, I’ll pop in and get a quick cash advance to tide me over until my check comes in. There have also been times when I’ve used it for card repairs. It is much easier than going to my bank, plus they would not give me anything anyway because of my credit.

June 5, 2015
Any bills that I may need some help getting paid I’ll turn to the cash advance to help me out with them. I do not like to borrow from other people and I do not like credit cards so this is my choice and my choice only to get this type of short term loan. This is my only option because I choose it to be my only option.

When I use the cash advance it’s usually to help me get over the top at the end of the month when I’m usually just a few days short of getting my monthly check. I’ve tried other things and this is by far the most affordable short term loan situation I’ve seen. This just makes things a lot more comfortable each month I need it.

I’ve been trying to find someone to rent out a room at my house to help with the bills but no luck so far and so the cash advance will be helping me out with my bills until that happens. I never want to get anytime of a long term loan so this is perfect for me. I would probably loose my mobile home with out this.

June 5, 2015
Unfortunately I’m just finishing up with a divorce situation and I was left with all the bills at half the income. The cash advance has been helping me stay afloat while I go through this transition. I filed bankruptcy so by credit is not so good so this has been the only thing I could get to help me out.

I use payday loans to help me between pay checks. I have bills to pay on time and do not want to pay late fees.

June 5, 2015
We get cash advances because we are on a fixed income and it helps us out keeping our bills paid on time. It’s a XXXX reliever really. It’s been the quickest way for us to keep up with things and is much less expensive than the pawn shop.

June 5, 2015
I’ll use the cash advance to help me out with some excessive bills that come up every now and then. It’s has seen me through some rough time lately. I have no idea what I would do without it. It has worked out so well for me because I’m able to get different amounts depending on my needs which is nice.

Basically we use the cash advance to help us out with our bills. They never seem to line up from when we get paid. It’s helped us so much with our medications and just everyday living expenses. We find this to be very easy to get and since we do not have very good credit this really is our only option at this time.
My income has not changed and my rent just went up so I am trying to adjust my budget, but in the time being the cash advance is helping to bridge the gap I have until I get this all sorted out. I have been unable to get anybody else to help me out so I am very thankful this is available to me.

There are times when I just don’t seem to have enough money left over at the end of the month and the cash advance has help me so much to either pay my electric, cable, phone bill or anything I might be short getting paid at the moment. I don’t know what to do if this were ever gone because I always pay my bills on time and my credit is very good and I want to keep it that way.

The cash advance has been a great help for me to pay my insurance and to help me out with my medications. For a women my age and without family this has always been a great help to me, sometimes even to buy groceries.

I always use the cash advance for everyday living expenses and bill. It helps us to avoid those large late fees and keeps my credit in good standing. I really don’t know what we would do without it because it always helps us when we run short and need fast cash.

There are times when I use the payday loan to get me through the month when maybe I am short of gas or groceries a few days before my monthly check comes in. I’ve also use it from time to time for car repairs and I just didn’t have the money to get it fixed.

I use the cash advance for so many different things like vacation, car repairs and even to buy gifts for XXXX. It’s always been easy and convenient way for me to get some extra cash when I need it. This is really my only option because I don’t want to pay for a high interest loan at the bank.

If ever my payday is just a little later than when a bill is due I just get a quick cash advance to take care of that bill and ensure I don’t get any late charges. I have chosen this way instead of doing a cash advance on my credit card. This way it’s short term and I am sure to pay it back and not drag it out like would probably happen on my credit card.

The payday loan helps me keep my bills organized and paid on time when I just bit short. It’s always a very convenient process without working about any type of credit qualifications. At this point in time this is really the only thing I can do because I don’t have any other options.

My bills are usually due in between when I get paid so I will use the cash advance to get them paid until my check comes in. I don’t use credit cards and this is quick and easy and I don’t have to potentially max out my cards. I like how convenient handling thing this way is.

I will use the payday loan mostly to pay my bills like my utilities. It’s really nice to have for people like me who don’t have very good credit. It would most definitely be a struggle without it I am sure.

I am XXXX and the cash advance to help me out with my family expenses when they pile up. My friends turned me down when I tried to borrow from them so this really bailed me out of some big jams. Something would definitely get shut off if I was not able to do one of these every now and then.

I appreciate the use of the payday loan because without it I would most likely be out on the street because I would not be able to pay my bills. I don’t want to get into anything long term so this really works out perfect for me.
When I get behind on some payments and I need help before my next monthly check comes in, the payday loan is my way of getting it taken care of while I'm waiting on my next check. It's the easiest way to go when your credit isn't all that good. I would probably have to sell something if I didn't have this as an option.

Sometimes when I run short of money to get a bill paid I like to use the cash advance, pay that bill so it's not late and risk late fees or something shut off. I really don't have any idea what I would do without it. It's not like there are a lot of other options for me to choose from so I can say without a doubt that I'm very happy to pay a small fee to get the money I need quick.

The payday loan is a wonderful, quick and easy way for me to get a short term loan whenever I'm in a pinch. I have no idea what I would do or how I would make it without it. It would be nice if the government thought about people like me and let us just handle things our way instead of sticking their nose in my business.

When my bills are more than what I'm bringing in I'll use the cash advance to help me out and keep me on track 100%. I don't have anything or anyone I can borrow such a small amount for a short time so it's a blessing to have this as an option for me.

I had surgery a few weeks ago and the cash advance has been helping me keep things to XXXX my bills paid on time while I'm recovering. I don't have family to go too for help and my credit isn't good enough for a regular loan so I guess this is my only option. I think is very affordable and quick and I like that.

The payday loan is my lifeline to keeping all my bills paid on time. I just XXXX a child and it has helped me get him some clothes, bed and extra food. It's been such a big help for me to keep my family happy and taken care of.

The cash advance is a great tool to make sure I don't have any type of late fees for being late on any bills. I wouldn't have any other option to get help if this was not available for me. It's been a huge help for me in my times of need.

The cash advance is helping me out while I'm looking for a part-time job to supplement my XXXX income. I don't like to use my credit card because it lengthens the time I pay it back. At this point I don't know what I would do without it. I'm on my own here with now family so I'm greatful for this service.

I use the cash advance mainly for my kids. I'm a single parent on my own with just my income and there are just times that I need help real bad and real quick and the cash advance is there for me. This is really the only thing I can get because my bank won't let me get anything since I had my identity stolen.

When emergencies or some sort of need that comes up before my next check comes in. With only getting paid once a month, sometimes I just need a little extra cash to tide me over until the next check. It has been so convenient and hassle free and I'm able to take care of my situation myself instead of asking other for help.

I stay with my mom and I like to be able to help her out sometimes when she needs help with the bills and the cash advance makes it possible for me to do that. I'll also use it at times to help me pay for some of my classes for college. This is the only thing I've found that works well for me.
The cash advance helps me out with paying my bills. It like a doorway from keeping things from being shut off. I was nt able to get a loan from a bank and I do nt have any credit cards so this is reLly the only way I can think of to get the money I need when I need it.

If I ever need more money than I have to either purchase something or to help me out with my car payment I ll just get a quick cash advance to to hold me over until I get paid again. I ll use it as well when I have a friend that need some help. Sometimes I just ca nt wit for my check to this is a great service for me.

Sometimes I run out of money by the end of the month and I m waiting on my XXXX check and the payday loan is my only way to get a short term loan to help me out with my bills. I ve been doing some odd jobs to help supplement my income but when there is no work this helps be get by.

Usually I ll use the cash advance whenever I need help with paying some of my bills. I m quite sure that something important would nt get paid if this was nt there for me. I know a lot of people that use this service and I know for a fact that they would all be in big trouble like me if it were ever taken away.

The cash advance is a huge help to me and my family and if we need some extra money sometimes because our money does nt always last till our next check. We do nt want to take out a larger loan at the bank because of the amount we would have to borrow and their high interest rates.

If I have a car repair or need some help with my bills then I ll use the cash advance to see me through until my next check comes in. My credit is bad so in reality, the cash advance is my only other option other than borrowing from family of friends. Without any other options I m glad this is available.

There are times when I ll have a bill come due just before I get my social security check and when I do I ll get a cash advance, get that bill paid quick and still stay on my budget. I ve also use it to get some extra groceries. For now this is my best option rather than not paying my bill on time.

Boy I ll tell you, XXXX does nt pay that much for me to live on and the payday loan help me get through. Recently I had my washing machine break and the payday loan made it so I could get it fixed quick. I like this because it s fast and does nt require credit. I just do nt know what I would do if I could nt do this when I need help.

I ll mostly use the cash advance to help me out with my phone bill. It s much easier to take care of this by doing this instead of bothering any of my friends. I m working more now so this is really only used when I run short.

Whe I have an emergency that comes up or I have a bill that has come up I choose to get a payday loan because it s easy, fast and is short term. This was recommended to me by a friend of mine that told me about how much it help him out when he was in a jam. Now let me tell you, if this was nt available to me, the late fees that would add up would put me in a bigger hole than I m already in.

I use the cash advance to help me with those bills that pop up just before I get paid. We have cut back as much as we can so without this we would probably be out on the street. We do nt have anyone in the area that can help us so we thank god this is available for us.
Car insurance, car payments are very expensive and have to be paid on time and for sure the cash advance helps me make sure they are paid on time without any delay if I’m short on cash. The late fees on bills will add up to the point of bankruptcy if I didn’t have this to fall back on.

Sometimes my grandchild needs some help or I need some cash to take a trip to visit a sick relative so whenever I need this type of help, the payday loan is always there for me. I have no other place or person to borrow from so I hope the government stays out of our way and let us be.

I have had times when I need to get my car fixed really quick or needed some help with my bills so that usually when I turn to the cash advance for help. It way easier than trying to go to the bank. Being honest I really don’t know what I would do without it.

The cash advance has helped me manage my bills. I have large medical bills and I have to make sure the doctors are paid one I’m able to get my medication on time. I’ve looked and for me this is really the only solution to my financial situation.

I’m a XXXX vet and don’t get a whole lot to live on and the payday loan is my way to get by from time to time to help me avoid getting shut off or slapped with some large late fees. My credit isn’t all that good so if I got a loan at the bank it would be way more expensive than a payday loan. I can always depend on this for help me out.

Being on a fixed income the payday loan helps me get through those months when something comes up and leaves me short getting my bills paid. This is way lower of a fee than going to a pawn shop or something like that. It’s has made sure that I do not have to pay any late fees which would happen if I were late on a bill.

When I run short on cash for either my bills, medicine or groceries the payday loan is a big help for me to fill in the gaps. It’s also has helped me purchase a airline ticket when I need to fly out of state for some reason. It’s has been the only thing that is available for my at such a reasonable price.

I use the cash advance every month just to exist. I honestly do not have any idea what I would do without it. It’s helped me so much with my bills and to buy food or for my bus fair. The fact that I can pay it off early is nice too.

The payday loan is a lifesaver for me usually by the end of the month when I need just some extra money to get by with either a bill or food. I guess I like this because it does not require credit and keeps me independent and not have to bother anyone. It has also helped me with getting my washer fixed at home. So for me this works out very well for me.

The government has no right to dictate to me what how or when I may need some short term cash. I use it when I need help with my bills or want to send money to my mother to help her out. I’m sure there would be a lot of times when I would be late on a payment if I did not have this option.

I only will use the payday loan when I have a need to help me out with my bills. This is much quicker and more convenient than anything I’ve ever tried before. It has really help me not to have to pay any late fees or have something shut off. It is also nice because I can pay it off early if I want.

I will use the payday loan to help me pay my bills like electric and cable. My social security does not always get me through the month so sometimes I need help. If the cash advance was gone I would have to try to go back to work or something like that but with my health I can not do that anymore.
Whenever I need help with getting my bills paid on time and avoid those costly late fees I ll use the payday loan to help me out quickly. I do nt have any other way to get this kind of help when I m in a pinch. I do nt have family I can count on for this help and most of my friends are in the same boat as I am.

The payday loan helps me out when I need help getting my rent paid, gas for my car and sometimes just everyday expenses that come up. I m on XXXX and do nt get much to live on so I m extremely greatful to have this as a short term fix to any financial shortyi may have and I do nt think the government shoul try to tell me what I can and can not do.

I ll use the cash advance now and then because it helps me out when I just need a short term loan to get me through. I have used it for bills, food and other necessities that come up. I really depend on this as a back up when I need help and would be lost without it because I do nt have any other options.

The payday loan keeps me off the corner begging for money. I mostly use it for food and gas when I run out at the end of a month. It would be a huge struggle if I did nt have access to this short term loan. It is really a neccesity in my life right now just to survive.

The governments proposed regulations could make it hard for me to qualify for a payday loan. I use a Payday loan because they are convienent and easy. The payday loan helps me out with all of my bills. I d do nt get much money each month I and I like being able to have access to this in case of an emergency. I live alone and this is my only option for a short term loan.

I m responsible for XXXX bills every month and there are times when I run short and when I am the payday loan is my savior. Being on XXXX and only getting paid XXXX a month and there are just times when I need help. XXXX should nt take my access to short-term credit away because without it it would be tough to survive at times.

I have read that payday loan stores would not exist in my community if the governments regulations went into effect. I rely on these important services for my Light bill, phone bill and cable bill. I do nt qualify for XXXX so it also helps me buy some groceries when I run out of money. My mom used to do the payday loan and she is the one that told me how fast and convenient it was. I absolutely do nt know what I would do without it and would probably starve.

If I did nt have access to a payday loan I would not be able to pay my electric bill or mortgage payments on the months when I m running short on cash. If it were nt for the payday loan I would have to rely more on my son for help and I really do nt want to do that.

seems like this was nothing more than an information gathering process.nothing of any significance was actually done. would be better if the information were forwarded to the attorney general.

XXXX years ago I got a title loan to help my daughter and grandchildren get out of a bad relationship. Sad to say I have not lowered the principle balance very much, since I barely am able to make the XXXX dollar a month interest payments on XXXX borrowed. They do nt report to credit bureaus, so I get no credit for being on time each month...so that my credit might go up high enough to actually get a regular loan to pay them off. So as long as I want to keep my car, I can not get late or miss payments. And as long as I am making payments there is no hope in saving enough money to pay them off. It is sad that low income people who do, do their best to keep up with payments and such have them as an only option in case of an emergency. I just wish that some day soon I will find a regular loan to pay them off, but each time I try my credit score goes down because of hard inquiries. It truly does feel hopeless at times. but I am keeping my faith up that soon something will give in my favor.

The cash advance has helped me out several times such as when my roommate stole all my money, when I had to go out of state to visit a sick relatives. It s help me so much to avoid any late fees if I were to be late on a bill.

I have used the cash advance every now and then and this time it is used to help me the expenses associated with me moving. I do nt use this often but it has help me out when I needed it. I should nt have to use it unless another emergency comes up.

The cash advance is a much better way of doing things than to be late and get all those late charges added to my. I would much rather do this again instead of asking for money from my family or friends.

I usually will use the cash advance for paying my co-pay and for my bills when I need some help making sure they are all paid on time. I consider this to be very convenient way for fast cash when I need. If it were nt for this I m sure I would have had to let some bill slide and be late.

The cash advance helped me out so much when I was sick and lost some days at work. It kept my bills paid on time and allowed me the chance to catch up on everything. I ca nt get another job at my age so I think the cash advance is a good thing for people in my position

Sometimes I like to pay things in advance and when I do I ll use the cash advance to do so. I also use it to help my daughter out every now and then. It s really not a necessity for me I just like to pay for things in advance.

When I have an emergency that comes up and I need quick cash and I ca nt get a hold of anyone, I m ble to get a quick cash advance to take care of the emergency. It very easy to get an if my bank is closed what am I supposed to do? I really do nt have any other source to get XXXX small amount of cash like this.

When I m short with getting my bills paid I ll use the cash advance to be sure they are paid and I do nt have an eviction notice or have something shut off. This has worked for me because it does nt have anything to do with credit, just my job situation. I ca nt go to my family becaue they have their own bills to pay.

I use the cash advance from time to time for traveling to visit family I have XXXX. I do nt like to use my high interest rate credit cards to its very convenient for me to do things this way. I probably would nt travel as much if it were nt for this.

Right now I m going through a bankruptcy and I m using the cash advance to help me current with those payments. I do nt have any other recourses to help me stay o track with those payments so this is helping me keep my obligation for the bankruptcy.
Most of the time when I use the cash advance it's because I'll have a bill come due before I get paid. Banks won't loan a smaller amount because they want to borrow more which ends up taking more time to pay off in the end. If not the cash advance I'd probably end up in bankruptcy court.

Primarily I'll use the cash advance to help me out with getting my rent paid when I'm just a bit short on getting it paid. It's very convenient and without having a credit card it nice to have when I need it. I suppose I would just have no budget better which I'm trying to do but for now this is a safe and fast way for me.

I really could not do without the cash advance. With the health of my husband going downward and with all the medical expenses that we have been getting this has been a huge help for us to be able to get by. Our life would be very very hard without it.

I use the cash advance for any of my bill emergencies and it really helps a lot to make sure that nothing gets turned off. It's also helped me multiple times when my car breaks down. I've never missed work because I was able to keep my car on the road.

The cash advance helps me out a lot and when I need some extra cash for the weekend or I'm just a little short and I want to pay a bill I may have forgotten about. It would be tough and would have to ask my family which I don't want to do that and would rather keep it private and take care of it myself.

I had some circumstances that has recently happen and the cash advance helped me out with my day to day need during this rough time. I do not really want to get a loan from a bank because my situation is short term and then things will be back to normal. Things would be much harder on me without the cash advance.

My husband gets paid only XXXX a month and sometimes it's hard to budget when things come up so the cash advance has been a big help for us to keep things going on those months when we need some help. We try not to use credit cards so we find that this is the easiest way for us to handle your situations.

If I'm ever short on some bills like my rent or something like that I'll get a cash advance to get some quick help. I do not qualify for government assistance so this is my backup plan when I need some help.

Sometimes my bills come due just a little bit before I get paid and the cash advance has helped me out quite a bit. It's actually help at times to keep a roof over my head. There's not really much other than this that I can do so it's really helping me out in those certain times when I need help.

I use the cash advance to pay my rent, groceries, electricity or really anything that I need help with. I use to be able to borrow every now and then from my mom but she is now unemployed so that's not an option anymore. I'm in the process of going to school so this has helped me out so much.

Sometimes I have a few bills that did not get paid when all the other ones are paid, so whenever this happens I'll get a cash advance for a short term to pay everything off and stay current with every thing. I've tried asking for help from my family but they can't help me so I'm greatful for this being available to me.

The cash advance was such a blessing to me. I recent lost my son and it helped me pay for his funeral expenses. I didn't have any other way to get the cash for this so I can tell you that I'm extremely thankful for it.
There are multiple things I use the cash advance for such as my mortgage payment, other monthly bills and groceries. Pawning something is way more expensive than this program and just seems a bit shady to me so that's XXXX of the reasons I choose it.

I'm just a little behind on some bills but am starting to catch up thanks to the cash advance. It's helping me get back on my feet again. I do not have anything of value to pawn so for now this is my only way of getting some extra cash to get me back on track.

The cash advance is like a family member to me because it allows me to borrow from myself and I can get it to help me out with my bills every now and then. Since I do not really have any family to help me like I said ... this is the best for me and my family.

There are times when things pop up or we fall behind on our bills and we'll use the cash advance to take care of those issues when they happen. Without any credit for either XXXX of this is really our only hope when we need help.

I do cash advances to help out my Aunt who borrows money from me so I really sort of do this for her. Other than this I would have to dip into my savings so this really works out best for both of us.

Sometimes I do not have enough money to pay my bills, the cash advance is what I use to help me out in this times when I'm short. I really like it because it does not require a credit check or something like that. I do not have any family I can count on so the cash advance is my savior.

In between paychecks I every now and then get a bill that comes due and when that happens I'll get a cash advance, pay it real quick and be back on track when I get paid again. Without any family in the area for help this is the only thing I can turn to for help. Without good credit this works best for me.

I contacted CFPB after receiving phone calls from someone claiming to be with GLOBAL (GPS) collection agency. I could tell it was a scam but wanted to be sure. CFPB investigated with ACE and found that they had no affiliation with any company GLOBAL (GPS) collection agency. I hope this company is prosecuted and sent to prison!!!!!!

When I'm short on money and I need money right away to pay a bill I know I can always count on the cash advance to help me out. If the cash advance was ever taken away I know there would be times when a bill would not get paid on time and I'd probably get a late fee tacked on.

The cash advance helps me with general expenses and it's nice to have in my back pocket when an emergency comes up. It's extremely easy and convenient. Pretty much this is my only option for extra cash to be had without jumping through hoops with a bank.

The cash advance I find is such a simple way for me to make ends meet when I do not have enough money to finish paying for my bills. At my age I do not have any other way of getting this type of help. It's like a security blanket for my finances.

I'll use the cash advance whenever my bills fall before my payday. I do not have any family at all in the area that I could borrow from real fast so the cash advance is absolutely my only option to help me when any type of financial situation comes up and I need cash quick.
The cash advance is so helpful to me when I m short getting either my rent or my electric bill paid on time. My daughter is the one who recommended it to me. This makes it possible for me to be able to take care of myself without troubling a friend for a loan.

The only thing I use the cash advance is to help me get my rent paid on time. I d be in a whole lot of trouble without it because of my health I m unable to work more than I already am so this is a saving product for me to keep a roof over my head.

Mostly the cash advance is used by us for everyday emergencies, bills and groceries. I m so glad for this because it makes it possible for me to handle my situations by myself without going to family members for help.

Usually the cash advance is there for us to help out every now and then and then but recently we have been using it to take my son to the doctor for his XXXX in XXXX and going back and forth takes a lot of gas and leaves us short getting our bills paid.

When I went out on XXXX the cash advance helped me so much to keep my bills paid. I use to go to a pawn shop but they were so expensive compared to the cash advance. It s such a good way to tide me over when life happens and I need help.

If I have a bill that comes due on a week when I do nt get paid, I ll get a cash advance to pay that bill and then I quickly pay the cash advance back. It s great to be able to get cash quick and not worry so much about an approval process with my credit.

I only get paid XXXX month and I ve needed to use the cash advance service from time to time to help me with either a bill or some sort of repair that comes up. I would probably have lost my trailer sometimes if I did nt have this to fall back on.

There are times when I need help to stay a float with day to day things and I ve use the cash advance many times to keep all my bills paid on time. This is the only help I ve been able to find and better yet I think it s very affordable and an easy process.

I m on a fixed income now and on those months when an unexpected thing comes up I ll use the cash advance as my backup plan. It gives me security and peace of mind in a time in my life when that s really important to me.

Usually by the end of the month I need a little bit of money to get me by for a few days until my XXXX check comes in so its helped me with just about everything and everyday items. I m by myself and do nt have anyone to lean on so this is my only way to borrow small amounts of money when I need it.

With a family of XXXX and with car repairs, job layoffs, and the price of things always going up, the cash advance is a lifesaver for us whenever something comes up and we just need a little cash to put us over the edge. It helps because it s not a long drawn out process and can get the cash when needed.

If I did nt have the cash advance at times when my bills are more than I had planned for I would be In a world of trouble. Today it s actually helping me get a new pair of glasses. Being on a fixed income there are nt too many choices for me to I can tell you I just love this program.
When there is an emergency situation comes up like a higher than normal electric bill or when an insurance premium is more than budgeted for, we’ll get a quick cash advance to keep things normal until our next checks come in.

Today I’m using the cash advance because I was in the hospital for a few days and my electric tripped off and all my food in my refrigerator went bad and I had just filled it up for the month. So I’m using this cash advance to stock my refrigerator back up which is very expensive.

I use the cash advance to help me out with my larger bills that come due and I’m still waiting on my next XXXX check. I’ve also used it to help my son out from time to time when he runs a little short on cash and has to go out of town on work.

I’ll use the cash advance at those times when I need some help getting my bills paid. It has been the easiest way to help my situation out. I would probably have to get a temporary job if not for this service.

When times come up with my employer cutting back on my hours and I need help with making my bill payments the cash advance has bailed me out. I’ve tried to get loans and nobody would loan me money so I’m so appreciative of the cash advance because I really don’t know what I would have done without it.

I just recently went through a foreclosure and had to move and the cash advance has helped me with my moving expenses. I can’t get a loan from anywhere because my credit is so bad so I can’t tell you how greatful I am for this service.

My bills do not normally land on when I get paid so at times I’ll need the cash advance to help supplement my income while I’m waiting on my next paycheck. I refuse to get into the whole title loan thing because it was so expensive to pay back. If the cash advance was not available to me probably have to try to find a different job that was closer to me because the cash advance actually helps me out with gas money too.

I do not use the cash advance often but it sure has come in handy when I need to get some quick cash when I’m in a pinch. I would probably have to beg my grandmother for money if this was not available. So this keeps me independent. Being a single mom with XXXX kids and this is a big help to me at times.

With being on XXXX and I’ll use the cash advance a sort of a buffer for my bills and just to make sure I have cash available for me to have if I ever need it. It’s a no fuss type of product and it’s so very quick. As long as people use it the right way and not abuse I think it’s awesome.

If I have an emergency bill or if I have something I had to buy real quick, I’ll just use the cash advance to keep me in the positive in my bank account. I would not know what I would do without it and would be very lost because I’m a single parent and do not have many options.

The cash advance has helped me so much with my regular bills, but mainly for my medical bills that have been popping up a lot lately. I really like it because I can pay it back nice and quick instead of having something long term. I just do not know what I would do without it.

I’ll use the cash advance for immediate cash issues before I get my next check. I’ll usually use it when I want to buy something for my garden or if I had a bill that slipped through the cracks. I started using this because I’ve had so many issues with my bank.
The cash advance is a blessing to me. If ever I have an emergency this is where I turn to for help. It’s gotten me out of so many jams and I think it’s fantastic because if I need quick cash … there it is. My life would so much more stressful if I did not have this to fall back on.

The cash advance makes sure that I stay current with all my bills. If I’m ever running short, it’s always been there sort of like a safety net so nothing gets shut off or so I do not get any late fees. It’s the option I choose instead of asking any of my friends for help.

Whenever I have a bill that falls due before I get paid, I’ll just get a quick cash advance and pay it while I’m waiting on my next check. I do not like other people knowing my financial situation so I choose to take care of this myself and not bother others.

The cash advance has helped me out in many ways, such as paying some bills and to have some extra cash so I could travel up north to help my mom out. This was the quickest and most convenient way for me to get some cash quick when I need it. This for now is my only option.

The cash advance is usually used by us to help us catch up on bills when we fall just a little bit behind. We do not want to take out a long term loan so this works perfect for us. If this were ever taken away I suppose we just would have to be late on something.

Normally I use the cash advance to help me with some left over bills I just do not have money for at the time. I’ve also used it for car repairs. I really can not think of anything else I could do to help myself out when this happens other than asking from my family but I really do not want to have to do that.

The cash advance helped me catch up on my association dues that after today I will be caught up. I choose the cash advance because it was my only option and I knew that I would be able to pay it within the allocated time provided. I think that there was no cash advances would hinder a lot of people that happens to need it to take care of their family/loved ones. I personally would have to go another state. Or find another means to obtain the cash.

For me, the cash advance helped me in the past to keep up with my bills. At that time it was really a big help to me while I was getting back on my feet. I also did not have any other option at that time.

When I have tight moments where a bill may be do and I need some help with it, I use and get a cash advance to help me out. I do not like credit cards and the cash advance is good for me because I know I have to pay it back right away.

No that I’m retired and my only income is XXXX there are times when I have a bill that may come due while I’m still waiting on my check. It has helped me keep bills paid on time and avoid late fees or risk anything being shut off.

Depending on when I get paid I may have a bill or something unexpected that comes up I’ll get a cash advance to make sure I do not bounce a check and get a ($35.00) fee. It’s a short term fix to any kind of financial shortfalls. It helps me get by so nothing goes unpaid.

When I run shy I may need a little extra cash to just get me by I’ll get a quick cash advance to help out a little until my next monthly check comes in. I like taking care of my issue this way because it’s simple and quick and I can get just what I need.
When I got laid off it put me behind a bit and this where the cash advance really helped me keep things going by keeping my bills paid. I choose this way for help because it does nt require a credit check. Since I m newly divorced and if it were nt for the cash advance I would nt have been able to have any type of XXXX for my child.

I m on a fixed income and my bills sometimes fall in between when my check comes in and the cash advance helps me fill in the gaps when I m short. I ll even use it for food at the end of the month if there is nt anything left.

My paycheck is always off from when my bills are due so when that happens I ll use the cash advance as a sort of buffer until I get paid again. It was and is a quick way to get money when I nned it. I do nt do it very often but it s great to pull me out a quick jam.

I live on a fixed income and when I have unexpected medical expenses I ll use the cash advance to help me get through until the next month. Going to the bank is not an option that I like because it s not very convenient and also they want to loan much more than I need and that s why I choose the cash advance because I can get only what I need.

So many times when I need help paying my bills or rent I ll go to the cash advance to make sure everything is paid and paid on time when I m running short on cash. I would go crazy if this was nt around for me because the way everything is getting so expensive I probably would be able to make ends meet.

I ve gone from management to a fulltime type of job and I ve been using the cash advance to help me out until my job situation gets better. I was refered by a friend about this service and I was amazed at how easy and convenient it was. It has saved me so many times and saved me a lot of money on overdraft fees.

I recently had a job change where I now make a lot less than I used to and the cash advance has helped me get back on my feet. I also used it to travel back and forth out of state when my father was sick so this made it possible for me to be with him.

I use the cash advance to help out my daughter to help her pay her childcare for her daughter. I ll also use it to help me when I run a little short and need to put gas in my car. I would be in big trouble and also I would nt be able to help out my daughter which would be a big disappointment to me if this were not around for me to get when I need it.

I received a phone call from at XXXX it was a “courier telling me that they needed to give me papers for a lawsuit against me. They then proceeded to give me the case number and the phone number to contact. The number was XXXX. When I called I was received by a young lady who said this company was “Document Delivery Services”. She asked for the case number and then transferred me to a man named XXXX XXXX. He said that under federal privacy law that I indeed had to be who I was. After which he proceeded to tell me that I had a debt from 2009 with a payday loan service and I told him I do nt know what that was. He said that I would be served with papers to go court because of it. He said that they would serve me tomorrow at work. His company was Goodwin, Gephart, and Associates, located in XXXX, California and they are debt collectors. It is well past the statue of limitations and they should not be contacting with a threat to sue. In fact, this is illegal.
Rhode Island is reportedly the only XXXX XXXX State that continues to allow XXXX lenders to charge XXXX digit rates of interest. The House Speaker is inclined to NOT change that situation despite a loud cry from the voters that this is unfair and unproductive.

Can CFPB tell me how the other XXXX XXXX states changed their laws to be more fair to borrowers so I can refer XXXX XXXX, our Speaker, to them. He seems to be unable to think it through for himself.

Thanks,
The cash advance has actually been helping me keep up with my bills when I fall short. This is way more convenient than going to a bank and trying to borrow from a bank. I suppose if I weren't available to me anymore I would just have to do without and be a little late on some bills.

Mostly I will use the cash advance to help me out with some bills or if I need some extra cash to get me through the week. I didn't want to get strapped in with a bigger or longer time period type of loan. Its really been hassle free and an easy way to keep me on track.

Sometimes my run a little out of wack or I may have an unexpected expense that comes up so the cash advance helps me avoid late fees. It is great because its to have when I need help quickly. I could get it from my mom but its not the route I want to go with because I like handling things myself.

There are times that just before I get paid I will run out of money for XXXX reason or the other and Ill use the cash advance to get me by for a few days until I get paid again. I much would rather do a cash advance instead of putting any more extra on my credit card which has a high interest rate.

With the way our bills are set up it doesn't really line up with when we get paid so the cash advance gives us a little extra time to get things paid. We have also used it when we have to go out of town real quick and need quick cash. With the way things are right now its really our only option.

My husband is paid on commission so his pay goes up and down so the cash advance really helps stabilize our income on those checks that are lower than normal. We find the fee reasonable and its very convenient. Our only other option would be to borrow from my mom but we try to avoid that.

On the weeks where my pay the way it is being on commission I sometimes need a little help getting by and making sure my bills are paid on time so Ill use the cash advance as a sort of buffer for my finances. I like to things on my own and it would be embarrassing to have to go to family or friends for something like this.

Mainly Ill use the cash advance for bills since my girlfriend has recently lost her job so now we are just living on my income. The fact that its a short term fix is great because then I don't have to borrow more than I need.

Im a single mom and when Im short for groceries or any kind of bills like my electric bill the cash advance has helped me out of some pretty big jams. It has helped me out with any unexpected things that pop up when you have kids at home.

When you have XXXX kids and are a single father there are times when I just need some help with things that come up. Its helped me with home repairs and car repairs and now with only XXXX income this is a huge help for me.

Whenever I have a large expense or a need for quick cash Ill get a cash advance to tide me over and get caught up real quick. It is safe to say I would much rather do this than to grovel and ask for help from a family member.

I get bill due in the middle of the month when I don't get paid so I use the cash advance. Lot to get me by until my check comes in. It has saved me so many times from late fees or even having my electric turned off.

My financial situation has changed drastically because of my husbands health and out income has gone down by half. The cash advance has helped out with many things from Bill payments to vet bills. This really has helped me to keep myself from getting late fees or overdraft fees. Its been wonderful for us.

My checks are usually use the cash advance for so many reasons such as my mothers medication, rent, and all sorts of financial short fall. I dont like owing friends or family any money so the cash advance works very well for me.

The dates on my bills seem to change all the time and the cash advance helps me out when I find myself a little short when Im only a XXXX XXXX from getting paid. This has helped me because my credit isn't what I want it to be. It would be devastating without it.

I use the cash advance to sort of fund my business. I subsidize my income with the advance while Im waiting for getting paid from my clients. Its fast, convenient and serves my purpose for what I need when I need it.

Mostly Ill use the cash advance when I fall short on my bills. This is so much easier than trying to do something with my bank. My other options really never seem to work out so I'm very grateful for this service.

I will use the cash advance when I need help with any XXXX my bills. I only get paid XXXX a month and at times it can be hard to budget. It was less hassle, quicker, and more than what I could get from anywhere else. A lot of people would probably go to doing wrong things if this were ever taken away.
When my paycheck comes up short the cash advance is a quick and easy way for me to get cash in a hurry. I like to do this instead of bothering any of my family plus I can take care of my issues myself.

The cash advance allows me to stay ahead on my bills by getting them paid before I get paid. I have chosen this because its short term and has to be paid back by my next check. This truly is my only option at this point because all my friends and family are in the same boat as I am.

The cash advance helps me out every now and then when my check is less than expected to make sure all my bills stay paid on time. I really don’t have the ability to get quick cash any other way with the way my situation is right now. With my family all over the country I can’t really borrow from them because when I need cash it usually has to be quick.

The cash advance has been a great help to me when these things happen. I already have XXXX jobs so I don’t have time for another XXXX so with things the way they are the cash advance is the biggest help for me and my kids.

When I have emergencies or some financial short falls, there are time when I need some extra money to help me out and I’ll use the cash advance to get that type of help. From time to time this really fits my needs.

I normally use the cash advance for help with my big bills like rent, car payment and insurance when I’m just a little short on getting them paid. It would be terrible if this were ever not around for me when I need it because at this time I don’t have any other way to get this type of help.

With all the car expenses that I’ve been having the cash advance has been helping me a lot keeping my card on the road. It’s also helped me out with my rent when we ran short. I didn’t want to have to ask any of my friends for help.

Payday loans have saved me in many ways. The loans are there for working people who need a little bit to get through to the next paycheck. I come back and use the service because the loan is comfortable and the people are friendly.

Because of my poor credit the cash advance is my only way of getting a short term loan so that I can pay for things that have fallen through the gaps. I think this is convenient and is extremely affordable for me.

Borrowing money from payday loans has always been a huge help to me. Banks won’t lend to me and their process is too demanding. I can borrow from a payday loan with no hassle.

We love the service payday loans provide. The service is convenient and awesome. I live in Utah and having this loan available is a huge help.

The cash advance is a good stop gap when things happen and I just need a little help. I don’t use it very often but its nice to have as an option. I like to do this instead of adding to my credit card which is a longer time to pay back.

I borrowed money from a short term loan place, the loan helped me and my family when I had no extra funds to cover it. My experience was excellent and professional. This is such a good option in these hard times.

With my daughter on XXXX and only gets XXXX and she sometimes needs some extra money to get through the month so I will use the cash advance to help her out in the times when she runs out of money. I don't know what I would do if this was ever taken away from me. It nice for me to be able to help her in your times of need.

I use the cash advance to get by with buying groceries, clothes, gas and even to pay my car insurance. I only get just so much from social security and there are just some times when Im low on cash I can quickly get the money I need with the cash advance. Im north sure what I would do without it because its my life line.

When I have bill due before my next paycheck comes in, thats when Ill get a cash advance to insure that that bill is taken care of and paid on time. This was the only thing that I coul come up with when I need cash quick. It would most likely be a big struggle without it and a big help in my times of need.

May 20, 2015
Recently I have used the cash advance to help me out with some truck repairs that needed to be taken car of quickly. I would have probably been not able to get to work without it so Im really glad it was here for me.

May 20, 2015
I recently had to get a cash advance to get my car repaired and and in order to make sure my checking account isnt overdrafted and get charged $XXXX. Im in the process of budgeting better so I dont have to do this but for now its helps me out in a pinch.

May 20, 2015
I use the cash advance for everything. Basically I use it like you would use a credit card. It was easy and accessible and its short term unlike a credit card which would be longer and more expensive to pay back.

May 20, 2015
I will almost always use the cash advance for helping me out with my bills and if I have Nything left over Ill use it to buy some groceries. My daughter just moved out and now Im paying all the bills by myself and being on a fixed income things come up and I just need some help sometimes.

May 20, 2015
With the timing of my bills and my pay fall they sometimes dont line up so the cash advance helps me keep the ball rolling. The banks arent as flexible and take longer to pay off so I thing the fees are more than reasonable. This is so very convenient for me when I need it.

May 20, 2015
When I have expenses that come up like a flat tire the cash advance helps me take care of it and bridge the gap until my next check comes in. Its a great way to provide a financial cushion and keep my bills paid on time. Im unable to get a regular loan because of my credit so Im sure glad this is available to me.

May 20, 2015
The cash advance is a big help and its wonderful to help me out with my bills and emergencies that come up. It helps me avoid late fees and overdraft fees. It would be a big struggle without it and would probably have to move without it.

May 20, 2015
Without the use of a cash advance every now and then I would probably have to move to a less expensive place in a bad area. I have very poor credit and other than relying on my son for help this really is my only option to help me out sometimes.

Using a payday loan is helpful to us. We have a big house payment that can take up XXXX of our checks at time. Using a payday loan gives us the money we need to pay our house bill when we are short and gets us through until the next payday.

May 19, 2015
I used a payday loan and it helped me in so many ways. When my check is short for bills I can get money to help me get my bills paid on time. Im so thankful for the service please keep this available for those in need like me.

May 19, 2015
We use the cash advance for so many things. We have used to help get our electric, mortgage and other bills we need help with paid on time. We dont have any credit so that means we dont have any other way to get any money lender to us so it is a valuable help for me and my family.

May 19, 2015
If we ever get a little behind on our credit card bill or car note well get a cash advance to get them paid and then paying it back when we get paid. We have even used it for some extra cash when we go on vacations. This works good for us so we dont have to borrow from anyone else and that way they wont know we are behind at times which is personal.

May 19, 2015
I havent used the cash advance much but it sure has helped me out when I've needed it like when I had to pay my kids tuition and I didnt quite have all the money I needed and the cash advance allowed me to get that paid without delay.
Thanks to the many who participate in bringing closure on this issue. Although I had reached out to significantly placed officials as directed, the matter was not resolved with conclusion or finality. XXXX I contacted the CFPB, I finally had a team with tools and focus to achieve the objectives. The agents were helpful and capable, also confident in the information that was brought to them.

My hope is that the predatory aspects of the payday loan will be eliminated as it is a source of pain and fraud. It is harmful to everyone, even people who did not make the loan.

There are some months when we fall short due to a car repair or a doctor visit. We weren't comfortable going to family for help and the cash advance allowed us to handle it all on our own. If this weren't around I guess we would have to turn to family or just be late on our bills.

My mom has done cash advances before and when I need some help with a bill I figured Id try it out and boy did it ever help me out of a jam. If it weren't for the cash advance I know I would have to go and sell something at a pawn shop. This way I take care of things myself instead of asking for help.

My mom has done cash advances before and when I need some help with a bill I figured Id try it out and boy did it ever help me out of a jam. If it weren't for the cash advance I know I would have to go and sell something at a pawn shop. This way I take care of things myself instead of asking for help.

Ever since Ive been separated the cash advance has helped me pay off my truck early and has saved me money at the end of the day. My credit isn't all that good and this was the only thing that would help me out. I've not been doing them a lot lately but they sure helped out when I needed it.

I'll use the cash advance for little things that I'll buy from time to time and turn around and sell. It's a great way for me to earn a little extra cash and I can not use it at anytime I want. I do things this way because its so convenient and fills in my financial gaps.

I usually use the cash advance for emergency purposes such as my home air conditioning need to be fixed. It's easy to pay pack and isn't a large amount so it doesn't hurt my budget. Its much better than borrowing from my dad.

I'll use the cash advance to generally help me with either my electric or cable bill when they fall in between when I get paid. My mom actually had told me about this because it had helped her out XXXX time and its defi been a great help for me when I need it.

The cash advance helps me keep my credit score in tact by not being late on any of my bills if they fall in between when I get paid. If I use my credit card, first the interest is more than a cash advance but also I like it because it gives me the help I need and control of how much I spend.

When things get a little tight I choose to get a cash advance instead of going to my family or to my friends for help. It helps me through the budget and makes my situation better.

The cash advance is a big help to me because I'm on commission and my pay fluctuates so much and really the cash advance helps me bridge the gap in between my check. I've chosen this because you can get the cash right when you need it and not have to wait.

Being a single mom things can pile up so Ill use the cash advance to help me out with my car payment and electric bill. Without having any family in the area this was really my only option.

When I cant borrow from anywhere else or from anyone else Ill get a cash advance to help me out with my bills and groceries. It is always great because I can use the cash advance and only get what I need instead of more than I need.

I gave out information to a cash advance online and now am afraid that I may have problems. Cash Advance.net with multiple phone #s and dont know what to do now. Can you help me. I gave my ss #, banking. Was really stupid, but stuck out of town and had no money.

No words can describe how thankful and grateful I am to CSFB for their help in helping me to resolve the consumer issue I had been in for months with the people that were calling me continously re a pay day loan I knew I did not owe. I can say many times and that would still not be enough! Thank you! XXXX
This is my XXXX time using the cash advance and the reason I'm using it is because I just bought a car and it left me just a little short so I decided to try this out to make sure that my finances stay positive. I've seen and heard this advertised so I thought I'd give it a shot.

I'll use the cash advance every now and then to help me out with some bills. I'll also use it for personal use. Doing things this way I don't have to borrow from family members or from any of my friends.

I work XXXX and sometimes the weather doesn't coop and when that happens my check usually isn't what it is supposed to be and when that happens I'll get a cash advance to to keep me going until I get my full check.

The cash advance really keeps me and my husband out of financial trouble. Its helped us with our rent, groceries and all the things that come up during the XXXX. It was so easy and it doesn't have anything to do with my credit. We are trying to budget better but for now its a big help for our whole family.

Whenever my check is short and I just need some extra money the cash advance has been my choice for help when I need it. For instance, this time I need to get my car out of the shop so the cash advance is helping me take care of.

Sometimes in the middle of the week I'll run out of cash and I may need to get a bill paid real quick so I'll go and get a cash advance real quick to get that bill paid without interruption. I like that its based off o what I can pay back and isn't that much money so I know I can pay it back.

After both my wife and I lost our jobs at the same time and we fell behind a bit when we started working again so to help us catch up we turned to the cash advance to help us through that rough patch and get us back on track. The cash advance allowed us to borrow against our paycheck instead of borrowing from someone else.

Ill use the cash advance when I have large bills due back to back or all at once. I use this so I don't fall behind or have any checks bounce or even have something shut off. With just being divorced and not having any credit this is my only avenue to get some cash when I need help.

If I ever need money right away and don't have any other way to get some extra money, I'll turn to the cash advance to help us out. I've also recently used to help me out with some major car repairs. Its made it possible to be able to keep it on the road so I can continue to get to work.

When I have some bills that need to get paid when I may fall behind the cash advance helps me keep my bank account in the positive so that I don't get any type of overdraft fees. With my low credit score this is my only viable option for fast cash. The fee for this service is more than reasonable I think.

I'm new here in XXXX and the cash advance is helping us get situated during this move. We used to do them in XXXX and the fees were way more than they are here in XXXX. We are so happy that this was available here for us during this transition.

When I need help with balancing money that I don't have yet it keeps me on track. It keeps me responsible with my bills and gives me time to make sure they are all paid on time. I like that its fast and easy and its been a big help for me to keep things going when I'm in need.

My kids are in XXXX and XXXX and sometimes after all my bills are paid I need help paying for their things like that. I really didn't have anyone to help me out so this has been a huge help for me to be able to do things for them. And being a single mom with XXXX girls thing can get expensive.

When I moved down here the cash advance helped me stay on my feet while I was looking for a higher paying job because what I was making wasnt cutting it. This was way more affordable than anything I've ever used in the past.

When I have a last minute car repair or need some extra money for gas because I've driven around more than normal, then I'll use the cash advance to help me with these unexpected things to get by until my next check comes. There really aren't many quick options out there for people to get Quick cash. Its great because its tailored to my needs.

My cash flow can get messed up because my check is never the same so the cash advance tides me over until a bigger check comes in and then I'm back on track. It really takes the stress out of my financial life and also helps me keep my credit in good standing.

Sometime after I pay all my bills there isn't a lot left over for the everyday things that come up. There are times when I'd really be broke if I didn't have this to fall back on. It helps with gas, food and is just a handy thing to have when needed.
The cash advance is a great help to me when I have some unexpected bill pop up or if I just need some extra cash to get me by until my next paycheck. I've tried other things in the past but nothing works better than this because it's quick and easy and doesn't require a credit check.

I will only use the cash advance when I have an unexpected bill that comes up or an emergency where something breaks and I just need some extra cash fast. I used to have a credit card that I would use for things like this but I find that the cash advance is actually much less expensive and safer to use.

If it wasn't for the cash advance I know I would probably be lost and out on the street. I'm recently divorced and the bills that were racked up by my ex-husband I am responsible for so the cash advance is helping me get my life back in order.

Very quick response time from your company about the company that I complained about. Easy to file a complaint although I was not expecting anything different from what I was already told from the loan company. I am glad to see that Americans have a one stop sort place to file business complaints. The BBB is ok but does not hold any prosecutorial powers.

When I'm behind on a bill the cash advance buys me some time by letting me pay the bill before I get my next check. I've used this every now and then and it's been a huge help to me when I'm in a bind.

I've used the cash advance to help me with putting gas in my car, groceries on my table and help with a bill from time to time. I would probably have to make some adjustments like getting rid of my cable bill or something like that. Other than that I suppose my bills would just have to be late.

The cash advance is a big help for me from time to time to help me with my daycare. It's quick and easy. I would probably miss some work if this wasn't around for me when I need it because I would have to stay at home and watch my daughter.

I get paid every XXXX weeks and sometimes there is a bump in my cash flow and when that happens I'll use the cash advance to help smooth out those bumps. This works out so much better for me than using my credit card with a much higher interest rate.

The cash advance helps me out a lot with getting my bills paid on time and honestly I would really be struggling if it weren't for the cash advance. I found out about this from my mom and its really worked out well for me cause I can't borrow from any of my family.

When I need help with getting some extra cash for gas or something like that or if my XXXX need something I'll use the cash advance to just give me the boost I need until my next check comes. I like this because I know I can pay it back where as a long term thing could lead to me not being able to pay it back.

When I XXXX did a cash advance it was to help me catch on my bills. My credit isn't good enough for a back loan this has been my choice to use when needed. I really have no idea what I would do without it. I guess I would have to rely on my extended family if it were ever not available to me.

I will usually use a cash advance to help me out paying a bill or something like that. Its so convenient and easy to get and is for just a short term until I get my next check in. With my situation the way it is only getting paid XXXX a month gettin XXXX this really works for me and my family.

Cash advance help me stay a head on my bills. I dont want to bother anyone els with my problems a would just rather take care of my issues myself. With the way things are other than the cash advance I dont have any other way for help other than this.

We just moved and the cash advance helped us with our expenses related to the move and allowed us to get set up quickly. This was our only option at the time and with one of us losung our job things were tough but the advance helped us through it all.

We use the cash advance to help us make ends meet. Its been a big help for bills and for incidentals like XXXX and for moving expenses. With my credit the way it is this is our only way to get some help and with XXXX kids it really keeps our stress level down.
Sometimes my check runs short and I need some help getting my bills paid and the use of the cash advance is a big help to me when that happens. I think its very affordable and much better that getting a late fee or bouncing a check.

I'll use the cash advance to just have some extra cash with me so I have it in case something comes up. Its also good protection for my account and is much cheaper than overdrafting my account. This is really just use for convenience.

Sometimes I use the cash advance to help me out with getting some bills paid. I will also use it at times for car maintenance. This is a fantastic product because its immediate and helps me quick. My options are limited because everyone I know is tapped out as well.

I use the cash advance for everything from gas to groceries to traveling money to bills. It my go to thing to do when I need some fast cash in a pinch. With thin higher interest rates and time it takes to get a loan from a bank I find that this works well for me.

I'll use the cash advance to just have some extra cash with me so I have it in case something comes up. Its also good protection for my account and is much cheaper than overdrafting my account. This is really just use for convenience.

The cash advance helps me out with some small bills that may come up and my check just isnt enough to cover them. When these things come up I dont have time to wait for my bank to approve me for something so I like how fast this whole process is.

Im retired and sometime Ill need some help with a bill now and then. With my husband passing away I lost his income so there are time when things can get pretty tight. The cash advance has been a wonderful fix to me financial needs. This is really a lifesaver to me.

The cash advance provides me with the extra cash I need in between my paychecks when an emergency situation comes up and I need fast cash. With being on a fixed income thing come up that I just cant take care of quickly without the help of the cash advance so Im very greatful for this service.

Ive use the cash advance to help me pay off my credit card bills. Doing a cash advance is actually cheaper than let the credit card payment get higher and higher. I m in the process of getting all my budget taken care of and the cash advance has helped me get here with no hassle.

Sometimes Ill see something on sale and Ill get a quick cash advance to take advantage of the sale when I just dont have the money. It has also helped me at times with my bills if I fall be hind which isnt that often. The cash advance is the only thing that I really qualify because of my poor credit.

There are so many things is use the cash advance for. Ill use it to help me out gas in my car and groceries from my family. Becaus of my age I havent established any credit yet so this seem to be not only the best but only option so far.

If I run into a bind or have an emergency that comes up like a late car payment or just need some extra cash to get me by, Ill use the cash advance as a quick fix to any issue I might have. Its extremely convenient and fast which I like.

With me being on a fixed income I dont get much to survive on for the month and the cash advance is a lifesaver to me to help me out once and a while to pay a bill or to buy food. I tried to get help from a family member but they didnt have any extra money to lend me.

Basically Ill get a cash advance when I need some cash for my rent, car payment and food. With XXXX kids there is always something that comes up where I need to pay for something for school. Its been a fantastic way of supplementing my situation when Im in need.

Ill use the cash advance at the times I am short on my bills and need to get some quick cash to get them taken care of. The advance is truly my only other option at this point in my life. I just dont have any idea what I would do without it.

This is my XXXX time using the cash advance. Im using it today because Im short getting my rent paid. I tried getting help from my church but they werent able to help me this time so Im very greatful that this was available to me.

During the month there are times when I just dont have enough money to make ends meet and the cash advance allows me the time I need to keep them all paid on time when Im running short on cash. Its also helped me payd for gas for a long trip when my mom was sick and she loves far from me.

The cash advance has helped me out with my tuition, food, bills or if I need money to go out of town. This way I can take care of myself and not depend on my mom for help. Its great as its short term and I can take one out only when I need it....nothing more...nothing less.
I wish there was a way to edit my rebuttal. I thought First Merit was trying to say I let the teller hold my checks for a few days until they cleared. They said they returned them to me, but also the $XXXX in cash? I only had $XXXX in the account and thats why they denied cashing the check for $XXXX. Either way I have not seen the video feed of the transaction. They should also be able to show the video feed of the teller receiving the money back then if she put it in the tube or they have video feed of the next person behind me receiving the money. It was never in my tube or I would have told the teller, Thanks and counted it in sight of cameras like I always do before leaving. I also would have asked her why she is now cashing it, after just telling me to go to XXXX if I wanted it cashed? Also she would have told me she got authorization to cash it….she wouldnt just send it not saying anything after completely refusing to cash it previously. I also would have a receipt for the transaction, as I save them all in my safe. Of course her cash drawer balanced out….she cashed my check and someone kept the money. Its all just them saying I somehow received this money to cover up what actually happened. Maybe this is the wrong place to say this….oh well. The other issue with the site in general is that when typing the complaint in the box, I had to keep hitting enter when I could no longer see what I was typing as it runs off screen. Thanks.

Im on social security XXXX and only get paid XXXX a month and Ive used the cash advance many times to help me with bills, medications and just everyday living expenses when Im out of money. I cant get a job because of my XXXX so the cash advance has been a blessing for me.

When I want to catch up on some bills or if I need some money to buy something and dont have the money, the cash advance will be my best way to get me either back on track or be able to tak advantage of a sale before I get paid.

There are so many thing Ill use the cash advance to get me through some things. I cant just go into a bank and get a fast short term loan so this is the best way to get the help I need. I get a lot of security from this and the pawn shop is absolutely out of the question.

When bills need to be paid Im im short and need to get it paid right away the cash advance is my choice to get it paid fadt without any hassle. I think its easy to pay back and its nice that there are varying amounts I can get.

When I have a bill that needs to be paid quickly and I dont have the money at that time, th E cash advance provides me with the cash I need to get it paid. Its much easier to do a cash advance than to ask someone for help which can be a little embarrassing.

The cash advance has always been a big help to me when I run short on a bill. My credit isnt so good so this is like a small loan from a bank that I wouldnt normally be able to get. Its really just borrowing from myself which I like. Borrowing from friends really strains the relationship so I dont like doing that.

I will use the cash advance at times when my check isnt what it is supposed to be to make sure that particular Bill is paid on time. I would like to be able to get a XXXX job so Im never short but I have a little boy that requires a lot of attention.

I had a scam happen to me. It was Castle Payday Loans out of XXXX, Michigan. I had a XXXX at XXXX notice money was missing out of my bank account. I couldnt figure out what was going on my mind didnt work so well. Then I called by bank and they told me to call the the company. Then I went on my bank statement and got a phone number which was to another company that didnt know what I was talking about. Then I finally got a phone number and no one would answer. Then I had to fill out papers at the bank and Castle Payday Loans has never tried to contact me. I never even heard of this company I would like to know how they got my information.

Basically Ive used the cash advance for bill payments or when the holidays come up and I need some extra cash. I would just be broke all the time if this werent around to help me out.

I will use the cash advance every now and then to help me get by on my bills. A friend of mine had told me about the cash advance I it was and is very easy for me to get when I need it. My alternative would be to try to find more work but Im already working a lot right now as it is.

I choose to not use credit cards nor do I have any. When something comes up in life like it always does. Using a cash advance helps me get my money quickly and I dont end up over my head.

There have been so many times when my bills would not have been paid if it werent for the payday loans. The process is great. I borrow the money and payoff when my regular paycheck comes to me. What a life saver.
Payday loans help me in case of emergencies it is a great way to get money real quick. It really saves me a lot of time. This service is greatly in need and I'm thankful for it.

I went and borrowed money from a cash advance loan center. Borrowing the money allowed me to make the deadline my HOA was imposing for yard improvements for my home. I borrowed the money, got what I needed and went on my way.

Payday loans help me with bills so my account does not go over. Payday loans are a very good service and a life saver.

Helped greatly with the need of money right away for the last minute things that come up. A short term loan helps me out with the need to pay some bills right away.

Using a cash advance helps me to keep out of trouble with my money. When I get a little short I can get a loan and avoid costly fees from a bank or expensive shut off fees.

With getting paid every XXXX weeks its sometimes rough to keep things paid on time so I use the cash advance to tide me over until I get paid again. There is no way I would use a pawn shop because I've heard how expensive they are. Being a single mom this is a lifesaver for me and my kids.

I am thankful for the the services of a payday loan. Using a payday loan gives me the chance to keep the chaos out of my life and keeps my finances in order.

Payday advance loans work for me. I can walk in and get the funds I need fast. The service is convenient and my loan is handled in a professional manner.

applied and received a payday loan in XX/XX/2008. Paid the loan back through automatic draft payments each pay day. On the day of the last payment, the company took out XXXX payments and fees. This caused my account to over draft and had returned checks on bills I had paid for the month. Went to my bank and the account was closed immediately. I have had harassing phone calls to my home, at work and to family members ever since.

Sometimes I have an extra utility bill that needs to be taken care of so then I'll use the cash advance to get it paid on time. Its a little embarrassing to ask family or friends for money so at least with the cash advance I get to take care of it by myself.
This is my story and it is harassment I received this letter this morning:

Information Pertaining Civil Case

We live on a real limited budget and sometimes I need the cash advance just to get by. I really don't think we would survive without it it just means that much to us. We like this because we don't have to pay back a large amount of interest which we would have to do somewhere else.

When I run short because sometimes I'm bad with my money I'll use the cash advance to make sure I don't bounce anything and get those $35 bounce check fees added to my account. I'm trying to do a better job with my money but when I don't, the cash advance is there to catch me when I falter.

My bills are due all over the place and I only get paid XXXX a month so when I miscalculate the cash advance is my safety net to make sure all goes smooth without interruption. They won't change the dates so this is something I just have to manage better.
If I know I may be late on a bill because I know my check is going to be a little short, I’ll use the cash advance to keep up on things. This time I’m using it to help me pay a vet bill. Without any family in the area this is really my only alternative.

Whenever I need some money to get me by until my next paycheck, I’ll get a cash advance to help supplement my income until I get paid again. This way of handling things is much better than asking for help from my parents.

I have received scam debt collector phone calls over the past X months from: #s: XXXX, XXXX, XXXX, XXXX, XXXX, XXXX, XXXX, XXXX, and XXXX. They started by calling me saying I owed money on a “pay day loan” that I never signed up for, received, or wanted. They said that XXXX charges are being filed against my social security number and that I will be summoned to court unless I pay them via credit card only over the phone. They have called my mother trying to get her to pay at her home phone number. They have called the bank I work for on several occasions even asking for the President of the bank to speak with him about the charges being filed against me. This is beyond harassment. They call daily. It’s a scam. A simple google search proves they are a scam. Please help.

The main things I’ll ever use a cash advance for is when I need help paying my mortgage or my electric bill. I like it because it is very quick and easy. I also think the interest is very reasonable for such a little amount that I need.

I really only use the cash advance when I have something that goes wrong with my car and I need to get it fixed quickly. I don’t want anybody to know my business and the cash advance keeps me independent and able to take care of things myself.

Normally whenever I have a delay in my checks because of where I work the cash advance helps me so much to avoid overdraft fees that I know would happen because they are always changing when I get my check. It literally has ultimately saved me XXXX of dollars in fees by being able to get a cash advance now and then.

Cash advances help me out for my everyday emergencies that come up like recently I had a flat tire that had to be fixed quick and I didn’t have the money to get it fixed. If the cash advance wasn’t there for me I would have missed work. I live paycheck to paycheck so the little thing can be a major disruption.

The cash advance is much cheaper than letting any of my checks bounce at the bank. Sometimes more bills come in than expected. I could just let the checks bounce but the fees would be huge expense and it would put me behind even further.

For people like me who don’t have very good credit, the cash advance is really my only option to get fast cash when I need it for either a bill or for some sort of emergency that may arise. I know for a fact the if it wasn’t for the cash advance I’d have a lot of bounced checks or even sitting in the dark with no electric.

The cash advance has helped us many times when we just run short on cash and need help getting through the week until our next checks come in. Without family in the area the cash advance is our go to problem fixer.

Whenever I need some extra cash for gas for my car, groceries or to buy some medicine for myself I’ll use the cash advance to help me out when I’m short on cash. I had heard about the cash advance from a friend of mine and he raced at how easy it was to get and it really isn’t expensive at all which is nice.

I’m on a fixed income and times can be tough sometimes and I’ll use the cash advance to help me out with things such as bills and medical expenses. I want to be able to take care of my issues this way instead of asking for money or help from my family.

The cash advance is a great way for me to get some extra cash when I fall behind on some bills or if I need to by food or something like that. If it wasn’t for the cash advance I suppose I’d have to ask for help from either my family or my church.

I generally will use the cash advance to help me sometimes with my bills. This time it’s a huge help because there is a delay in my check and I have to pay some bills today. If it wasn’t for the cash advance I’d definitely be late on those bills and have late fees tacked on.

We use the cash advance to help us pay our bills from time to time. Its the easiest thing to get without hassle and don’t have to jump through hoops to get it. My mom would be the only one else for me to borrow from and I just won’t do that.

They called me after hours, and the caller was a XXXX woman who spoke XXXX English. Their phone number did not show up on caller ID, but was given phone number XXXX to call. Another XXXX was from Titan Alliance Group ph. XXXX. This was concerning a "defaulted" payday loan from Midland Financial who sold the debt to XXXX Marketing Group. I spoke to a XXXX, XXXX (ph. XXXX associated with Premier Recovery Group), and a XXXX (ph. XXXX). I ended up paying them a $XXXX "settlement balance."

Another XXXX was from Law Office of CES. I spoke with a XXXX (ph. XXXX) The original creditor associated with that was Loan Point USA. All of these places balked at sending me original documentation of these loans I supposedly made back in XX/XX/XXXX and XX/XX/XXXX. I was given the excuse that these were internet loans or the original creditor would not spend the time or money to send me original documentation.

The short term loan was necessary to make ends meet until payday. The CSR was very helpful and explained every detail of the loan to me. I will recommend this store to my friends.
Hello.

I recently found out my car title was taken from my office, and a title loan lender carelessly approved a XXXX loan to someone who has never owned this car, only found my title.

My car is valued at XXXX.

The borrower committed fraud, and is in hiding filed BK, and I will be filing a police report.

He formed an XXXX LLC company that matched my title, I have an LLC in XXXX.

My primary concern is the lender who did not due their proper underwriting, as I owned this car for over XXXX months and they should have easily noticed the registration history, and question this new LLC that was formed that clearly could not have owned the car for the last XXXX months.

The borrower walked in with a new LLC, and a my title that was never signed over by me, I never sold my car, never new of this loan.

I have all proof of purchase, contracts, copies of checks, etc.

I want to determine if the lender has any liability now since this loan is in default and facing repo, and registration blocking.

I only found out from a contact who gave me a warning about this title loan fraud on my car title.

who should I speak with, it seems as if the financial board could help.

I need help on how to proceed as this lender should have never made this loan and be liable for damages and needs to transfer back my title so I can register my car.

I'm a Single mom right now and it helps me out when I'm in a pinch. I want to be able to handle all my bills by myself and not ask for help so this is my way of doing that. I would just have to work a little harder if it were to go away.

I was just in the hospital for a while and the cash advance allowed me to keep up with my bills and even food when I was out of work and only getting minimum pay at work. It really helped us keep ends meeting. We absolutely don't have any other option because we can't any other kind of loan. It's been a blessing to us.

For me, I always get a cash advance for when I get my kids on the weekend. It provides me with just the right amount of a buffer for me when I just need to get a little extra money. So it's like getting my check a little early when I need some help. I have an emergency fund I could use if I have to but I choose to not tap into it.

I had inquired for a payday loan back in XXXXX/2012. I know now that it wasn't a good idea. I actually never received any money as I changed my mind before going through with it. I noticed a while back that money was being pulled out from my account in small $XXXXX increments. I notified my bank and closed out that account and started a new one. Since that happened I received phone calls from different "debt collection companies" claiming that they would take me to court. Lately a newer debt collector has been calling me, my fiancée, and now my employer. They have my info but I know it's a scam after searching online their company name. The bad thing is I know when this XXXXX stops calling another XXXXX will claiming the same thing. They all want me to pay over the phone or fax my bank info showing I never received any money.

I had major hospital medical bills to try and pay, but unfortunately I didn't have the money to pay for them. I had money loaned to me from a payday loan and was able to pay my bills without the bills going to collections or negatively impact my credit report. What a great service. XXXXX % positive.
I used a payday loan to help me pay my bills. Without the money from the loan I would not have been able to keep my head above water.

I got help from a payday loan to pay for all my unexpected bills!

I had a good experience using a payday loan. I had a few bills that just came up without me remembering when the due date was. I was in between pay dates and borrowed money to satisfy my bills. It was helpful.

Getting my money from a payday loan when I need help is a great option. I really like that the interest maxes and I can pay the loan off quickly.

Payday loans are great when something comes up and need the financial help. I love the option I have to get my loan and then have my payments go toward the principle. It helps get the loan paid off.

I used a short term loan to allow me to get the cash I need to keep moving forward in life. I fees are worth it and I like this option that allows me to borrow money when I need it without having to go to a bank. The process at a bank takes too long and they require too much information and usually wont even approve me.

When my truck has repairs that were needed I borrowed a payday loan to help pay the mechanic bill.

I was able to get quick approval for a payday loan when I needed money fast to pay to get my car out of impound. The impound fees were extremely high and I would not have been able to afford to get my vehicle out if it wasn't for the payday loan I received. Now I can use my vehicle to get me to and from work.

Borrowing a payday loan is always helpful and easy. I use the loan to help cover the last week of the pay period for gas to get to work on time an other essentials for day to day living and for unexpected bills.

Sometimes between my paycheck dates Im short and just need some money to help my with basic life needs. I went and borrowed a payday loan to help me get groceries and gas. Borrowing was inexpensive and helped me when I needed money.

When Im in a bind and dont have family or a bank that can help me with a loan, I can get a loan using a payday advance. It helps me out and its fast and easy.

Using a payday loan has saved me when I was short on cash. The process was simple and a service that is needed. I can get a loan to pay my important bills and continue current without expensive late fees charged from bill companies.

Sometimes I need an advance to avoid costly overdraft fees. Overdraft fees are a lot more expensive than interest on a payday loan.

When I have an emergency, Im able to borrow money from a payday loan to help me out. The loan has really been a huge help.

I use the cash advance at times for housing expenses while waiting for my social security check comes in. The cash advance is at this time is my only option and I hope its here to stay. Other than this I would have to borrow from my daughter.

Once my bills are paid there are times when I need some extra cash for groceries, gas and everyday things such as medications. Ill get a cash advance to help me out with those things when my funds are low. Ive also used it for emergencies like when I needed my brakes done.

Im retired and on social security and the cash advance helps me so much with bills, medical situations and even groceries. I choose this as apposed to borrowing from my son and it keeps me independent. I prefer not to borrow anything else. I like thats it XXXX fee and nothing long term.

Im a single parent and sometimes things come up like right now I need to get some break work done on my car or if my child is sick and I have to stay at home to take care of him Ill loose pay because of that so the cash advance is a huge help to me when these type of emergencies come up. I think this is really convenient and fast.

I only get paid from SSA XXXX a month and the casha advance helps me out when Im short and need to get a bill paid and I just dont have the cash to do so. I truly dont have any other options at this point because there isnt anyone else I can borrow from.
I typical use the cash advance as kind of a float until my next check comes in so as to keep my bills paid on time and avoid any type of late fees. I like the fact that it has nothing to do with credit.

Im on social security and Ive had times when Ive needed some help getting some things paid and so the cash advance has been a big help when Im in a pinch. this way I keep my independence and not have to borrow from a neighor or something like that.

Mostly we use the cash advance to help us pay some of our bills when we need some help at times. Our daughter told us about this service and it has always worked good for her. My credit isnt what it used to be so with our situation the way it is the cash advance is our best and really only way to get the cash we need when we need it.

Generally Ill use the cash advance for household purchase. Usually after all my bills are paid there are times when I run a little short for everyday things. Being XXXX this is the only way for me to get some help when I need it. I dont have any family to ask for help so this is for sure my only avenue for quick cash.

I use the cash advance when I need help keeping up with my bills or if I just need some extra cash to get me by. This works so good for me because if I were to overdraft my account then the fees would much greater then the fee associated with a cash advance.

The small loan I got helped me catch up on bills in time of need. Late fees and bounced check fees can kill your finances. The loan was easy and much cheaper than all those fees I would have received.

The payday loan helped me catch up on bills when I was laid off my job. My unemployment checks were slow to start coming. The loan helped me avoid late fees on bills.

I had to get a small loan to help my son rebuild the motor for his truck. We were pleased with every detil about the loan and was able to pay it back early.

I am XXXX and when my truck broke down I was devastated. Without the truck I could not do my jobs. I got a payday loan for repairs and was back to work the next day. I did an extra assignment in order to pay the loan back right away. The loan sure saved me some real problems.

Payday loans help me with emergency expenses between paydays. I live pay check to paycheck so emergencies like car problems and doctor bills really cause me problems. The loans really help me.

I pretty much will help myself out with a cash advance whenever I fall behind on my bills. I really didnt want to get a fancy loan from my bank because I just needed something short term and small. Other than the cash advance I suppose I could just be behind on my bills which I really dont like doing.

The cash advance really helped me out a year ago when I was changing my jobs and when that happend I had to wait a bit for my XXXX check from my new job. It really helped get stabilized until my checks were coming in at a normal pace. I tried to get a loan from my bank but they wouldnt help me at all because I have no credit at all.

Basically when Im short on cash and I need money for everyday things or even to help me out with a bill or XXXX. I find this to be very quick and simple for helping me out when I need it. Without this it would be tuff and make life a little bit harder than it already is.

Cash advances helps me out with my bills. I feel like this is much safer than anything else that Ive seen. It would be hard to survive but Id make it but it would really add to my stress. My bills tend to pile up but its getting better because of the cash advance helping me out.

Sometimes I need extra money before I get paid again. Its much easier than trying to borrow from a friend or even a family member. Right now Im trying to budget a little better but its nice to have the cash advance to fall back on when needed.

When my job was cutting back on my hours, I used the cash advance to help me out with my bills until they got back to normal. I new from my family who does cash advances that if I ever needed help it would help me quickly. I like that I dont have to jump through hoops to get some extra cash quick.

The cash advance helped me out while I was waiting for my car payment to get moved to a better time in the month. It also helped me when I was transitioning from an old job to a new one. It help me keep current with my bills until things stabilized.
I will mostly use the cash advance when I need help catching up on some bill every now and then when I fall behind. Really for right now if I ever need help this would be my only option because I have no idea where I would get the money from.

I use the cash advance when my utilities are due and my check doesn’t come in on time. This works well for me because I don’t like to try to borrow from family or friends. Right now my checks are coming in when I need them but if it ever happens again I know I can get a quick advance and get things paid.

I use the cash advance for help in so many thing to get paid like my rent and my car note. I chose this because it doesn’t require a credit check and its fast when I need it. I cant get any overtime to make more money so this has been a blessing to me.

When I use the cash advance its because it helps me stay on top of my bills throughout the month. It was much easier than trying to get a conventional loan and I think its cheap to pay back. I would be very sad if this were to ever go away.

I work XXXX jobs and paychecks come in at all different times and the cash advance is a stabilizing force in my financial situation right now because I am helping take care of my mom while she is living with me. Its just been a huge help for me and my son and mom. Without this my family would have fallen apart.

Almost all my bills are due at the same time and when they are all paid I dont have much left over for everyday things so sometimes Ill get a cash advance to help put some money in my pocket until I get paid again for use when I need it.

Im in the process of going through a divorce and with the amount of money that this is costing me, the cash advance has helped me out when there are times when I need some extra cash to pay a bill or something like that. Plus with my payday changing that has put me in a bind so my financial situation is leveled out with the cash advance until Im back on track.

Like if I have an emergency and I need to get some cash quick like when I had a XXXX and had to get some XXXX done fast but didnt have the money to pay the dentist, the cash advance was there for me. It would be tough and would probably have to try to rely on my friends.

Whenever I need help with some bills like my cable, phone or electric bill and they fall in between when I get paid, the cash advance is always there for me to keep the course and get them paid on time and avoid any type of penalty or late fees for being late. I like that its a quick fix to a problem.

I generally will use the cash advance to help out my kids when they need help with things. I use to use it for myself when I was going through some rough times. The reason why I have scored this because all my other options were gone or took too long to get a small amount needed.

Sometimes my bills come in earlier than expected or I want to send some money to a family member or something like that, so the cash advance helps me be able to help with those situations.

Usually I will use the cash advance when something comes up in between when I get my paychecks. Its conv and cheaper for me to handle things this way instead of those online payday loan things. For those of us that are in need and have no other option, this is our best and only way to help us out with the normal everyday things that come up.

Ill use the cash advance from time to time when I run short on cash when emergencies come up like recently had a huge car repair that really put me behind because it was over XXXX to fix. I really dont know what I would have done without it. It works so good for me because it keeps me from getting into a long term loan at the bank. Its just there when I need it.

Im a single person and I dont have anyone else to help me out so the cash advance has been there for me in my times of need. Im in the process of trying to get a parttime job so hopefully that will help but for the time being this has helped me out a lot.

Ill use the cash advance to help me out with my bills and when I need some help getting them paid on time. Im using this now until my tax return comes in which for some reason is being reviewed and is holding up my refund. This is my lifeline until this is taken care.

I recently had a large break down in my car and the cash advance is helping me catch up on some of mills that fell being while getting that paid off. I honestly dont know what I would have done if this wasnt an option I would have been lost with the bad credit that I have.
The cash advance helps me stay ahead on my bills such as rent and another major bills that I have. I think this much more convenient than going to a bank. If this was ever taken away from us Id just have to struggle through and try to make thing work out but Im sure glad its avail to me.

The cash advance is a great buffer for me when I need some help with my rent or my utility bills. It really helps me when Im short on my rent because if im late at all the late fee is way more than what it cost for me to do a cash advance and pay it on time. Plus I risk being evicted which would be devastating.

Normally when I get paid Ill use it for my big bills and when I need it, Ill use the cash advance to help me if Im short on some of my smaller bills or just everyday things that come up and im just a little bit short. It helps carry me through until my next check comes in. I wouldnt stress when I have the cash advance to help me out.

I have a lot of family that I take care of and I use the cash advance at times to help me out through some rough spots from time to time. Ill also use it to help out some of my family thats is out of the country. Its been a very big help when I need some financial help.

On XX/XX/XXXX, my mother received a call on her home telephone from an agency claiming to need immediate response from myself or they would file legal action. I have not lived at my parents address for about XXXX years now. I called the number back XXXX and a gentleman who answered identified himself as a "debt processor". He verified my information (which he already had on file) and then said that there was an outstanding debt from XX/XX/XXXX for a payday loan deposited into a bank account that has been closed for years. He did not once read me my consumer rights or the fair debt statement. I asked why he had not and he said he did not need to. He threatened to take legal action and that I was going to be summoned to court for this debt. I told him I did not know anything about it and if he would send me proof that I owed the debt in writing I would be more than happy to pay it. He could not provide this information or any information about the company (no address, phone number) that I owed the debt to. He said the only way this would not end up in court was if I paid him directly a little over $XXXX (dont remember the exact amount). I told him I would respond to the summons when I received it and hung up.

I came in for a short term loan because my car broke down & XXXX and XXXX was a tremendous help. this allowed me the opportunity to get my car fixed so that I may continue with me business.

I just wanted to say thanks for the services I received. I was receiving up to XXXX phone calls per day plus visits to my home. But after your company report these incidents, the calls and visits stop and a manager contacted me.

Got a call from this phone number XXXX at my work area, saying I am being sued in court for an unpaid payday loan taken out XXXX years ago. It was a voice recording with the case number. Another call from a woman (without disclosing her name & her company where she works for), spoke professionally who claimed to be from a law firm and was very knowledgeable. She told me I needed to settle a loan with my credit card in order to avoid being summoned to court. She had my SSN, address, and phone numbers. She had everything! She told me that if I didnt do this, that someone else has all of my information and is using it. This is a harassment & a very threatening message.

To whom this may concern,

Pay day advance loans should be required to report to the Credit Bureaus and there should be limits on debt to income ratios as well as interest plus debt to income ratios should have limits.
I know of individuals that have borrowed money from payday advance lending institutions that have experienced extremely high interest rates and I am not even sure if these lending institutions check debt to income ratios prior to lending money.

In addition, payday advance lenders may allegedly be making false claims and false advertising depending on the research and investigation by the Lawyers, Attorneys, and/or Advocates. The interest rates are outrageous amounts on certain these loans and when they are paid earlier than the due dates the interest is inaccurately charged at higher rates due to the payment being paid earlier and the interest being based on other amounts that were due on different dates; however, the fees are not reduced when paid earlier. The fees of interest are well over the claimed amount after payments are paid early.

In regards to a desired resolution, reimbursement of losses plus interest for money that could have been spent elsewhere and has cost more lost income in taking more loans from other lenders to make the disparity in the interest charged to pay bills, put food on the table, etc....
When I needed a short term loan to cover an unexpected cost for my wedding that was a week away I was approved for the amount I needed. I paid it back the next payday and I was done. I used the product for its purpose and that was it. There were no ties to it, no misleading trap or anything that impacted me negatively. It was there when I needed it and I appreciate the freedom to have an option.

Tuesday, XX/XX/XXXX I received XXXX phone calls saying my name, phone number, and SSN was tied to a financial investigation that I HAVE XXXX PAYDAY LOANS FOR XXXX DOLLARS.XXXX LOANS SAME LENDER.I WAS LAYED OFF FROM MY JOB AND DONT HAVE MONEY TO PAY.THE LENDER TRIED WITH OUT MY PERMISSION TO OVERDRAFT MY BANK ACCOUNT. IS THAT LEGAL? NEED ADVICE ON WHAT TO DOTO PAY BACK LOAN.

I decided to call back because it scared me and I wanted to make sure it wasnt me. A woman answered and she gave me her name and she told me it was because of a payday loan I didnt pay back and that it had accrued interest and late fees and I now owed $X0XX and they were coming after me for XXXX felony counts of fraud and/or intent to fraud. I said I have never taken out a payday loan ever. She said well even if you applied for one, you accrue fees just to apply, an application fee of $XXXX and a servicing fee of $XXXX. She said that is in the fine print people dont read and once you click I agree you have to pay that even if you dont take the money. I said I had never applied for one and she said is this your information and had my name, telephone number, email address, previous address, last four of SSN, and last XXXX of my old bank account number. I said yes that is my information and she said well they tried to collect the money from that account, but it was closed. She said I did this XX/XX/XXXX and gave me my old address, but I havent lived there since XX/XX/XXXX so that made me wonder. She said we can take care of this today so you dont have to worry about going to court. I said ok and she transferred me to the finance department. I then spoke with a lady who said they would accept the $XXXX and drop the charges if I paid it then. She said if not they would set a court date in the county I used to live in and I would have to get a lawyer and they could possibly detain me there. I said my family has an attorney they keep, so I want to discuss with him first. She said do you really want to go through all of that for just $XXXX. I said yes I dont have to pay for this lawyer so I would rather him take care of it. She said she could put a 24-hour hold on the claim and it would be fine until XXXX today so I could talk to attorney. I then called my mom who said she felt like that was a scam. I then XXXX the number again and it says in the XXXX and found multiple websites where many people have received these calls starting on XX/XX/XXXX and they are all saying they feel it is a scam. I called back today and told the woman my lawyer wanted all the documentation pertaining to my claim. She said what exactly do you want and I said anything that you have pertaining to this issue. I also asked who the payday loan was with and she said she didnt know that, they just did the legal mediation for Equity Lender, who lends to over XXXX payday loan places. She also said she had already investigated my background through some kind of check I said I havent issued with the law that is why she just thought we could settle it. She said she would email me a validation letter and we hung up. A few hours went by and I called back because I havent received the letter yet and she was rude and said she had already told me I would have it by the end of the day. We again hung up. I keep having more questions, because I wanted to file a complaint, but need more info. So I called back again later and whoever answered the phone called it litigation something this time, not legal mediation. When I asked again what she had called it she changed it to legal mediation. I asked for the actual name of their company and their address and she rattled of some initials or something, then seemed a little flustered. She said do you have a claim with us. I said yes, but I need that information so I can proceed to fix it and pay the debt (which I had no intention of doing since it wasnt legit). She said well what is your name so I gave it to her and she again transferred me to the same person and when I asked for the company name, who they work for, and address, she put me on hold for ten minutes and never came back. I hung up and called back and the woman I had been talking to answered and stated my full name and said we got disconnected. Now I was not calling from my cell phone, but she obviously knew the number I had just called from. So obviously this isnt some big call center place. She proceeded to tell me she couldnt give me the address without my affidavit in front of her. I said really, you dont know the address or just cant give it to me. She said I cant give it to you without the affidavit in front of me, I told you once I have already processed your request for it (earlier she called it a validation letter), and she told me we would just handle it through lawyer now and there was no reason for me to call there anymore. I tried to file a complaint, but it keeps asking for the address and I dont have it. I only have the phone number. Also when asked how they took payment she said only money gram or debit card.

Re: CFPB Proposal Must Include Ability to Repay for All Payday Loans

Dear Director:

A new report, XXXX,

released today by the Center for Responsible Lending (CRL) finds a high percentage of payday loan borrowers experience a "visible" or "invisible" payday loan default while caught in the debt trap. The report finds that nearly half of all payday borrowers default within the first XXXX years of their first loan; of the borrowers who default, nearly half did so within the first XXXX payday loans they borrow.

The report comes only days after the Consumer Financial Protection Bureau (CFPB) announced a proposal to curtail payday lending abuses that includes a significant loophole: a provision that gives lenders the option to make some loans without doing any underwriting.

This report shows a high default rate on payday loans even though lenders are first in line to be paid—a clear sign that a borrower is unable to escape the debt trap once lured in by an initial payday loan. This is a clear sign that a strong ability to repay standard should apply to every payday loan a lender makes.

High Levels of Visible Borrower Defaults, Even with Direct Access to Borrower’s Accounts

The report defines visible defaults as occurring when a borrower bounces a check, post-dated for their next payday, written to a payday lender. The report finds that 39% of borrowers experience a visible default within XXXX year of taking out their XXXX payday loan and 46% experience one within XXXX years. This high visible default rate is especially concerning given that these loans are due on a borrower’s payday, when they should have the most money to pay them back, and it indicates that they are unable to repay the loan without being forced to reborrow to cover essential expenses.

Once a payday borrower has a visible default, they face aggressive debt-collection tactics from payday lenders. As such, the report finds that, even though the borrower didn’t have enough money to cover the loan on their payday, XXXX of invisible defaulters ultimately pay in full.

"Invisible" Defaults – Overdrafting on the Same Day as Payday Loan Payments are Made – Impose Great Harm on Many More Borrowers

The report defines invisible defaults as occurring when the check written to the payday lender goes through but results in an overdraft fee—masking the true default rate—because the borrower did not truly have an ability to repay the loan. XXXX of all borrowers experience at least XXXX invisible default in which their account is overdrawn on the same day as a payday loan payment.
As an Ohioan, I have a great deal of respect for your agency for choosing a respected leader. However, it is difficult to view all payday lenders as bad. Personally, I have pawned products with XXXX in particular. They were candid about the costs, flexible when payments were hard to muster and yet necessary, in my view, to feed our family at times. Clearly my choices put us in the position we were in, not the lender. Credit cards, bank loans or borrowing from family were not available at the time. It is important for me to communicate my gratefulness for XXXX in the past. They steered me away from a payday loan into a pawn. There was never any doubt as to the high rates.

Unscrupulous lenders exist in every industry in my view. It is most important to identify whom they are and not target XXXX specific industry. Surely, your agency probably recognizes this. I felt compelled to inform you, however, that the cost I paid to do business with XXXX was worth it at the time and they have a place for folks struggling within bleak financial circumstances.

Thank you.

I find it odd that the CFPB is trying to shut down businesses that offer better financial solutions than the banks, while doing nothing to prevent the banks from charging excessive fees. Banks make over XXXX a year in nsf fees which can be charged for a customer simply over drawing their account by one cent. An nsf/od fee costs XXXX dollars whereas a customer can get a payday loan of XXXX dollars for less and be able to afford to pay other expenses without the fear of additional overdraft fees. Meaning, it is Much less expensive to obtain a payday loan. It seems as usual, the ones with the most money are winning here. The banks want the payday loan industry gone in order to make more money, and you're here to help them since I'm sure they donate the most to the cause.

Also, why does the federal government keep putting an APR on a short term loan. It seems obvious to make the payday loan companies look bad. To pay XXXX dollars for a XXXX loan with a term of only two weeks is no where Near close to the rates you make the payday loan industry list on their contracts. Its only 15%, but you make them state that is over 400% which is totally false and enables you to label it "predatory lending".

To shut down pay day lending, bankruptcy rates will sky rocket, ruining hard working peoples credit across the country.

My local bank is a co-op and they are always very friendly and there to help. I've never really had a credit card until I opened that account. I never felt I needed to get into debt to get ahead. Now, halfway through my XXXX semester at school at XXXX years old and XXXX boys, XXXX and almost XXXX. I realize that I need a good credit score just in case. AT&T after a year of not being late on a payment, our phones got shutoff. I called them and apologized and I had enough to pay the bill and a little fine, which would've been XXXX. Instead they wanted almost XXXX so we went and got pay as you go phones under att and I still use it today. I took a payday load from one of these legal loan sharks. I got XXXX and owed XXXX back. I made the first XXXX payments on time, but the with rain and what not my work slowed so I called them and they said it was fine. I came back in and payed them XXXX again. Over the next XXXX weeks they began popping up at my parents house, making threatening phone calls too me, and I had never avoided their calls. This is when I decided to say there XXXX% interest was enough the way the treated me and tried to intimidate me. Truly disgusting. Anyways I know having kids at a young age put me behind the XXXXball, but I need to come out so I can make it through school without the distractions of work. I got a XXXX of a XXXX for my XXXX when my ex and I broke up. They allowed a guy who had XXXX and released everytime withing a week to "Tell on XXXX, get out for free..." well I was one. Over XXXX on a Saturday dinner break from work before XXXXXXXXX. That has cost me XXXX plus. and is still costing me. Not to mention child support. I would really appreciate a set of goals to get my credit on track. Thank You.

I am very please to read that the CFPB is tackling the payday loans, finally. Im one of those consumers who lives paycheck to paycheck and often rely on these loans to make ends meet. What has always bothered me is my credit score is too low (or bad) for a conventional loans, but my money is enough to pay these exorbitant interest fees. I recently had a third party loan which I qualified for a mortgage paying $XXXX as month b/c of a bankruptcy and yet I never missed a payment, but I was considered high risk. Two years later when I refinanced my payments dropped to $XXXX, so the decks are stacked against us sometimes. If the interest rate on these payday loans wasnt so high I think that each individuals wouldnt fall into these debt; excuse me, debt traps. I have read the lenders requirements and I can see them putting up a tough fight claiming that this regulation will bankrupt them or drive them out of business (of course its not true), but how else will they rake in the XXXX if they cant charge they crazy refinance rates. I wish that this office would have provided a forum for the consumers that use these services to provide impute, but Im sure you have heard all the horror stories already. The only thing I would like to have seen is an actual table depicting the breakdown base on the proposal, ie; if you borrow this @ this rate? this is what you pay over this period. Consumers need to be able to gain access to this information. Often times I have seen the clerks (at the payday loan counters) have to show folks how to fill out a check or explain arbitration, but the most troubling is most everyone is paid XXXX, so they are paying interest on their loan every two weeks.

Best of luck.

Sincerely XXXX
Re: Payday Proposal Gets XXXX Crucial Things Right While Leaving Dangerous Exceptions

Dear Director:

The Bureau today released a XXXX look at elements of its long-awaited proposal to regulate payday and other small-dollar consumer loans. The path the Bureau is moving on gets XXXX fundamental things right. First, for a loan to be fair, the borrower must have the ability to repay.

In the current market, as you said in remarks prepared for a CFPB hearing in XXXX Virginia, the decision to issue these ultra-high-cost loans (with interest rates of XXXX% and more) is far too often based only on “the lender’s ability to collect,” using methods (postdated checks, automatic debits, vehicle seizures, and repeat loans triggering additional fees) that dig people deeper into debt. Payday, car-title, and other abusive, XXXX-digit-interest loans have driven XXXX of American workers and families over an economic cliff.

Second, the Bureau has recognized that this crucial principle – ability-to-repay – must apply to a sufficiently broad range of small-dollar loans, and not just to a narrowly defined set of payday or car-title loans. Otherwise, abusive lenders will do what they have done in many of the states that have tried to crack down on such abuses: find ways to evade the rules without giving up their basic debt-trap approach.

At the same time, however, I am very concerned that parts of the CFPB’s proposal provide dangerous exceptions to a meaningful application of the ability-to-repay principal to both short- and longer-term small dollar loans. These exceptions would invite continuing abuse, while putting state protections at risk and undermining the push to end the debt-trap business model.

Develop and implement regulations that finally put payday, car-title and other small-dollar lenders “on the same footing as other lenders, requiring them to play by the rules and make fair loans.”

Yours sincerely,

XXXX

The Honorable XXXX, Director
Consumer Financial Protection Bureau

RE: PROPOSED PAYDAY LOAN RULES

Dear Director XXXX

I thank you for your leadership of the Consumer Financial Protection Bureau and the tremendous steps that the agency has taken toward securing consumers’ rights in just a few short years.

I write to strongly urge that you ensure the expected rulemaking concerning small dollar consumer lending effectively ends the debt trap scam. Payday, car-title, and high-cost installment loans, with annual rates of XXXX% or more simply dig borrowers into a hole. It’s time to end the scam and put rules in place that will end abusive practices and slam shut the debt trap.

The CFPB’s own research has well documented the debt trap created by payday lending, with the typical borrower indebted for more than XXXX days a year and XXXX% of all payday loan fees generated by borrowers trapped by more than XXXX loans a year. Beyond the research, all XXXX needs to do is travel a street in a low-income community or community of color to witness the strikingly high concentration of payday and high-cost lenders. Additionally, these loans are particularly devastating to individuals with a fixed-income, such as XXXX.

Payday and high-cost lenders, who fail to ensure their loans are affordable and instead rely on aggressive collection tactics, rob borrowers of opportunities to secure a foothold in the mainstream financial services market. Rather, these lenders push safe options further out of reach by locking borrowers into a long-term debt trap and increasing the likelihood of a cascade of other harmful financial consequences such as bankruptcy, excessive overdraft fees, and involuntary bank closures. The resulting adverse impact on credit scores can make it even harder to ever find one’s way back to mainstream financial services.

Payday lenders don’t just destroy the financial futures of individuals but also of neighborhoods. As noted in the XXXX recent Congressional testimony, “We need to rid our neighborhoods of predators and stop the proliferation of abusive predatory lending products that strip, rather than build, financial health and wealth in our communities.” XXXX

The CFPB has before it this unique opportunity, and indeed obligation, to bring meaningful reform to the marketplace. I urge that any rule addressing high-cost payday, car title or installment loans, accomplish the following:

1. Require the lender to determine the borrower’s ability to repay the loan, including consideration of income and expenses;
I had a XXXX payday loans that were generated online. I couldn't afford to pay them off all at once, but they would take $XXXX each out of my paycheck every single time (every XXXX weeks). I was paying $XXXX/month! After a little research I figured out that these online payday loans were either run by XXXX or by offshore companies (XXXX). The terms of the loans were illegal in my state, so I simply put stop payments on them. They cant put them on your credit report. XXXX of the companies changed its name XXXX separate times to try to get around the stop payment, and tried to debit my checking account but thankfully my bank worked with me and the madness stopped. Afterwards, I started getting harassing phone calls from XXXX debt collector. I repeatedly told them to stop calling me. They were calling about a loan that I took for $XXXX and ended up paying back over $XXXX. They claimed I still owed $XXXX and were trying to collect. I checked the Fair Debt Collection Practices Act and discovered that they were breaking many laws. I kept a log of every time they called me, what they said, and how they harassed me. Then I contacted an attorney. The attorney sued the debt collector, and they never responded to the suit. I had to appear before the judge and show him my record of the calls. Since the debt collection company had never responded to the lawsuit I was awarded a summary judgment of $XXXX. My attorney didn't think we'd ever be able to collect the entire amount so he made a claim for the $XXXX bond that the company had to post to do business, and I was able to get that. The attorney took 45% of the judgment, but it was definitely worth it!

Moral of my story...if you have internet payday loans that are draining your bank account, put a stop payment on them or close your account! They won't go on your credit report, and there's really nothing they can do but harass you. And you can put a stop to that too!

It totaled over XXXX as I was told by my then bank this was a very unfair act from both parties and wrong as the bank should have caught it and stopped it. For over a year every XXXX of my direct deposited checks were stole from me and I never knew cause I never handled the finances. Hello, I live alone and was waiting for a small inheritance to appear by my late grandmother. However in XX/XX/XXXX of this year I applied for several loans. XXXX was XXXX financestores.co.XXXX who took XXXX from my bank without permission. I later found their website and they do say they change you. I then found another company Jet2 Finance took XXXX from my account by this time my inheritance had come through but did not like certain people hacking into my account as I am a jobseekers allowance person. I managed to get a kind lady from my XXXX bank who rang Jet2 and they did repay the XXXX. I am concerned with XXXX Finanestores as they emailed me today to say thank you for my payment of XXXX which I dont know if they have taken another payment out, or are referring to the first one they did back in XX/XX/2015. I have replied and asked for a refund and will check my bank tomorrow. I am angry at how stupid I was for issueing my bank details in the first place but didnt actually think these people would pinch from your account, and they hadnt even offered any loans to begin with!!

I can warn people that be aware of XXXX Financestores as theyre not easy to actually find on Google either so just please, be careful if youre applying for a loan. I am simply stupid but luckily I still have my grandmothers inheritance to cover me as well as my jobseekers has to also last. So avoid payday loans or if you do apply, check that they will not take money from your bank account without warning you first.

To whom concerns,

I am writing today in hoping that you and others may reconsider the rules and regulations that may be passed regarding short term loans or payday loans and how it may affect us the consumers.

Most of us who are retired or XXXX and cannot get a bank loan for which we may need a loan, cannot get one due to having no jobs nor collateral to put up against the bank loan. We the consumers have to either do without any bank loans and have to rely on these cash/advances or car title loans to receive the money we need so desperately.

These people who operate these businesses are life savers to us who are dependent on social security benefits that do not receive enough each month to pay bills, medicines, rent/mortgages, these business let the consumers get these loans without collateral or credit check like banks require. However these loans repayments are spread out over several weeks or months till repaid.

The working ones rely on these places as well to help out when their job Paydays checks are used up as well. paying bills rent mortgages medicines child expenses car loans etc they too can go to these business and get the cash they need as well without credit checks or collateral against these short term loans that banks require when borrow from these cash/advances and car title loans for what we needed sure we have to pay back interest its only right.

Example borrow $XXXX dollars with interest its only $XXXX making payback only XXXX dollars over several week.

Or put it this way

The interest rates are about less than bank rates and the payment are affordable on repayments.

I feel that any actions that takes place in regards of any rule or regulations that is placed upon these businesses may cause hardships upon them that they may close and go out of business completely.

In which may hurt us, who so desperately depends upon them for all financial help when we need them, and the banks who will not help us who have no jobs for financial support and have to rely on social security benefits alone these payday loans are life savers.

We needs these people!

I am pleading with you and others that are involved to reconsider these rules and regulations on the business not to put them out of business but to keep these people in business so they can help us when the big banks refuse help to us. I hope you and others support our cause not or regulate payday loans or title loans.

Many thanks

For my daughters XXXX school, books and clothes

It has helped me pay off some bills and other things. Its been a great help to me. I think they are great people

With XXXX kids sometimes we need to buy sports stuff or stuff for school.everyone is always very nice

Occasionally some unexpected expenses come up. Being on a fixed income or budget can make it impossible to cover unexpected expense. A short term loan gets you by!
I have received several short-term loans through Advance America. They have helped me in the most difficult times financially in my life. If I was not able to receive a short-term loan my daughter would not have had a XXXX or a birthday. I would have lost everything when my vehicle broke down and I could not afford to pay to get my van fixed. I would have been evicted and lost my home when I was inbetween leaving one job and starting another because of the way my pay changed. I would always recommend a short-term loan to anybody who needed help. Not everybody in Virginia has family or friends that can help them when they are in need financially.

The loans help me to get what I need when I need it and allowed me to keep everything paid on time and in order. I like knowing I have the loan should I need it its there for me.

Cash advance has been very helpful to me. Also very patient. It really been a big help to me.

Cash advances helps me out when I want to pay a bill that I need help with on time. Its a big help so I dont have to pay any late fees. I dont know what I would do without it because it keeps my checking account from going negative.

The short term loan has helped me because I dont get but a SSI check in the amount of $XXXX and some change with the loan money I can get somethings for myself & some things for my apartment!

A short term loan has helped me in paying some of my past due bills
Also help in getting my grocery and other emergencies that have poped up

I got a XXXXmonth old kid who need surgery on his XXXX to open up his XXXX

Upcoming move will create unexpected expenses.

An example of some bills that the cash advance helps me with is my mortgage or student loans or any important bill that comes up and it cant wait to be paid. I find this to be an affordable way to get the help I need when I need it. I would be penalized if I reached into my XXXX so Im glad this is an option for me.

This is the greatest service Ive ever had ther people are nice, understanding and patient with us they all need very big raises

1: car repairs
2: emergencies around the house
3: emergency travel
4: unexpected trips Dr.

I had to do this to keep my electric on. I could not go to the bank this loan saved me from freezing to death

Always great. Helps with car payment mainly.

We could not survive without them

It has helped me by paying a bill thats due and havent been paid yet. It has helped me when my car breaks down and no extra money.
This has helped dont change a thing it has kept me losing my mind i almost had my power electric turned off and no food in house and I was able to buy XXXX for my XXXX children thanks for the short term loan

Using a short term loan has helped me pay a few bills and have some money for the holidays for gifts etc.

It helps when expected things come up or medical bills or a short vacation this place is great friendly and helpful

I use to use the cash advance a while back when I had a bill was due before my social security check came in. I dont have that bill anymore and the cash advance was a big help to me. This was much better than borrowing form my mom and having to hear her complain about it.

This process has helped me due to the fact it is short term. Someone with bad credit can have some household unexpected expenses come up. With this process it eliminates on struggling to fix those expenses. Family may not have the available funds to lend, such in my case.

I use cash advances to help me with my bills, such as daycare expenses, electricity bills, water bills, and rent. Without the ability to take out a cash advance I would be unable to afford groceries, as I do not qualify for the food assistance program. Amscot provides a responsible and sufficient program that allows hardworking individuals, like myself, to be able to maintain a healthy financial lifestyle.

I have XXXX kids in college sometimes they need money to help get by with paying some of my bills when Im behind after Ive helped them out. I dont know what to do if I didnt have this to help out my kids. I guess they would just have to wait to finish school.

 Normally my electric bill is high Ill use the cash advance to help get it paid. A lot of people dont want to give loans and this is the only product that is there for me when I need it.

I was running short on cash came here and got the money I needed to pay my bills.

I was in a bind on some bills and didnt have enough to make ends meet and it helped me catch up

They help me out when times get short. Glad I have someone to count on.

Short-term loans are beneficial for people on an hourly wage. It provides a way to get cash to handle short term needs between paydays. It has helped me catch up on bills and they leave you enough time to pay it back.

Always great

Helps with car payment mainly

Mainly Ill use the cash advance to help me out with my rent but there are times that I've used it to buy groceries. This is much easier than going to my bank because they want me to borrow more than I need.

Saves me time on going to the bank. I just need money for a few weeks nand that helps me because the bank wont do that. Ive been doing this for years and I dont plan on stopping

This is very helpful, people need this service. Sometimes to get by please keep like it is

Yes- needed extra money to finish XXXX and mostly just needed money when times were hard.

Short ter loans help me to keep my lights and oil in my tank sometimes when things get tight I need for doctor bills.

A lot of our XXXX citizen need this because social security is so short.

It has helped me to keep my bills paid up and help me pay my doctor bills

I never had a loan before always scared it would be rough or hard to pay back but then I found the payday loans are so much easier an really helped me get by while moving heled me say caught up on bills outside of my rent and its not to much intrest build up as if getting a big personal loan. It really does help a lot to just be able to get a small loan for a few weeks. Helped us get by in a tough time.

When Im short or I need some help because something has come up and I dont have the money, the cash advance bails me out until my next check arrives. At my age and income level this is the only help I can get other than borrowing from my family.

I get paid on XXXX of every month when unexpected bills come up etc. I can get it paid when due and not be late paying it when its got to be paid before the XXXX. I really don't know what I would do without payday loans I don't live off of them but it helps a XXXX person when needed

March 20, 2015

I have always used payday loans as a means of getting cash when needed. My credit score is not the best so banks and credit cards are not an option. This has been the best way for me to help with bills car repairs etc. I love this option and consider to keep using it when I need the cash

March 20, 2015

March 19, 2015

I had to leave for work out of state. Truly it helped us to be able to have a place to stay and food to eat because we wouldn't have had the money any other way

March 19, 2015

A short term loan has helped me make it the last XXXX of days before my next payday.
It was very important to us. If it wasn't for this title loan we would have had our electricity cut off. We have a XXXX year old daughter. So yes this title loan was very helpful to us and we really appreciate their help to us.

Short term loan(s) has helped me when I am in need of financial help. Whenever I am in a bind I know where to go for help. The interest charges could be lower, but the loans ensure that I am able to take care of financial obligations.

Short term works out great for short term needs.

Short term loans do help with immediate bills, which paychecks from work don't cover.

I have only used Advance America for short term loans, which are very difficult to get at a traditional bank.

I like the convenience of getting the loan. I feel welcomed and enjoy the friendliness of the staff.

Basically we use the cash advance as an emergency fund since I've had my pay change from XXXX to XXXX. This is primarily use just when something unexpected comes up and I need some cash quick.

Cash advances help tide me over until I get paid again so I'm really glad it's here for me. This is much easier than to go into my XXXX or savings when I'm short on cash. I really think it's easy and convenient and it doesn't require an intrusion into my personal affairs.

I'll generally use the cash advance to help me with groceries and bills when I need help. I've found that this is the best thing I've found because I don't have to borrow a lot. It has worked for me every time I've needed it. I'd much rather use the cash advance than to interrupt my savings at this point.

I only get paid XXXX a month and I'm also a XXXX so when times are tough and I need some help paying a bill or something like that, the cash advance will help me while I'm waiting on my next monthly check. I'm the type of person that doesn't like to borrow from family so this is perfect for me.

The cash advance helps me out a lot by helping make sure that my bills stay paid on time without delay. This is what I've found so far the most convenient way for me to get help and cash when I need it. My priorities would greatly change and I'm sure I'd have some late fees from time to time if not for this service.

Right now I'm using the cash advance to help me out with some XXXX expenses ever since my wife XXXX. It's been a big help for us while we are going through this ordeal. It works for us because we cash get the cash quickly when needed.

I just moved to Florida and the cash advance is helping me with the little expenses that go along with that. It's not that I really have to have it but it really just makes things easier for me and my credit isn't all that good so this is my choice.

Anytime I have things that I need help with like groceries or large bills that I'm just a little short on, the cash advance is my way of handling these things in a flash. I just don't know what we would do if not for the cash advance. With the way our credit is we just don't have any other choices right now.

Cash advance helps get out of jams at times and allows me to have some extra cash for the weekends while I'm waiting for my next check to come in. It's much faster and easier than regular loans. It's great that it's only short term and not drawn out for a long period of time.

The cash advance is a great way for me to cover my bills that fall in between when my checks come in. It takes care of my financial emergencies when they happen quickly. It reality I'd be in big trouble without this and probably would not have gas for my car sometimes.

I use the cash advance mainly for my travel expenses. This way I stay on top of thing while I'm waiting to be reimbursed from my work for those expenses. This really is the only thing available to me right now and it works great for me.

With being on social security the cash advance has helped me numerous times when I get in a pinch and need help with paying some of my bills when my check runs late. I'm unable to get a regular loan due to my credit and this for now it's my only way to get the cash I need so I really hope this stays around for me to use because I don't know what I would do without it.

This has helped. Don't change a thing. It has kept me from losing my mind. I almost had my electric turned off and no food in the house. I was able to buy XXXX for my kids.
With me living paycheck to paycheck, the cash advance helps hold me over sometimes until I get paid. Its helped me out with bills such as rent and daily things that come. Id rather do a cash advance instead of bothering my mother for borrowing any money from her.

The cash advance helps me out at times since Im retired and my income is much lower than im use to so when I need a little help from time to time this is a great way to keep me going and get back on track. Lending institutions Don loan out small amounts that I need so this works fantastic.

I will usually use the cash advance when there are times when I need help paying my XXXX other bills that I may be just a little short on. Ther have also been times when Ive used it to buy food and clothing. I truly dont know what I would do without it.

I had to do this to keep on my electric I couldnt go to the bank this loan saved me from freezing to death

I have borrowed money from advance america a XXXX of times and it has helped out tremendously. It helps me get back on track right away. Im able to get money and the have time to save to pay back. It has saved me from going in the hole.

They were here when I needed money and it helped me a lot.

When Ive had the need to take out a pay day loan the staff is very welcoming, friendly, professional, and courteous. Ive never had an issue. When I take out a loan its for a short term to assist me with a financial need and Its very helpful at the time. The staff always provide me with information on additional services they offer in case I made need them in the future if I am ever in need for them.

I needed the money for court/lawyer fees which was consumed by the state. Money provided by payday lending which helped prepare me for my situation. Thanks for the help
Attn: CFPB Upper Administrative Staff: Please read and review this article: Re: Case#: XXXX: Please read this article and help me with my Case with Bank of America: “The CFPB should be protecting all bank customers, pension funds and municipalities. (Think of the recent auction-rate securities, foreign exchange and interest rate swap abuses in which the victims were institutional clients.) Why do these other customers deserve less protection? Make the CFPB a Good Cop” When abuse is detected, the CFPB should promptly assess a penalty that assures both total restitution for all possible damages and a fine that is a multiple of this amount. Double the penalty again for failure to admit fault or for covering up. These penalties would be subject to expedited appeals to an administrative law judge and then into the court system. No scuttling with settlements. No sticking our heads in the sand when a class action is settled for a tiny fraction of the harm done. Every such settlement should trigger an immediate disciplinary response. When a penalty is exacted, the CFPB should investigate within the institution, either directly or through an independent party, to determine which managers initiated, approved or had guilty knowledge. These people should be assigned penalties ranging from termination to banishment from the financial industry. Such violations cannot occur unless there are also serious defects in a banks legal, compliance and risk organizations. Remediation of these faults, specifically including replacement of the responsible individuals, such as the general counsel and the chief risk officer, should also be mandated. We can only hope that after the elections and confirmation of a director, the CFPB might desist from its current charm campaign—making nice with everyone in sight and focusing on disclosure and interminable rule-making processes rather than enforcement. If it doesn’t, then tee up another new regulator. The impetus for the CFPB was to assure consumers a fairer deal. XXXX months later, this hasn’t started. New rules won’t help if we don’t enforce the old ones. But if more legislation is needed, let’s enact it. Can you think of any bankers, even in the largest banks, who would appreciate and actively support such a cleansing initiative? I can. Bad banking drives out good. If you want to run an honest business, then rid the industry of its crookedness. And most bankers, like most customers, keenly desire an industry that doesn’t cheat.” XXXX

Because people come up short and don’t make enough money. Sometimes you just need to be able to borrow.

It works for me because it’s available for unexpected bills and to help throughout the month. It also helps because I’m not obligated to monthly loan payments.

Sometimes bills come up unexpectedly. Although you may do everything in your power to save for these unexpected situations, sometimes it’s just not enough. I’ve had this situation on various occasions. Thanks to advance America, I was able to take care of bills which I thought I would be late on. Thanks to them, I was not only able to save my credit by not defaulting on bills, but was also able to keep my son happy for his birthday. Unexpected bills came up and it was the same time other bills were due and my son’s birthday. Luckily I was able to go to advance America and they made sure I had the loan to take care of the extras, allowing me to take care of my regular bills and my son’s birthday. I’m very thankful for them.

Help to pay bills between checks. Hard to make money stretch on fixed income.

Short term loans work for me because unpredictable things happen that requires finances that I don’t have at this time.

My experience with payday lending has been nothing but excellent. The staff really care about me not as a customer only but as family. They have been there for the financial help but also laugh when I laugh and cry when I cry and celebrate all my triumphs. I value payday lending!

When I get a paycheck that’s smaller than I thought a payday loan gives me a cushion to handle what I need to knowing I have another check to cover the loan. It’s extremely convenient.

It helps with paying bills that are late and any other payments that I have.

I got loans to help with my bills when the bad weather stopped me from getting a full check.

Thank you for you so I can pay for my meds.
Helped me to get XXXX presents & groceries until my check came in. Love the employees. Easy to get in & out without any problems.

It has helped when an unexpected need arises and we don't have the funds to meet that need.

Short term loans helped me with meeting all my bills during a XXXX day period. Right now I have bills that are small enough that I can pay them between paychecks. It has also helped cover cost of small automobile repairs while we keep up paying our finance responsibilities. At times, it has also provided us with extra money in our pockets until payday. XXXX pay dates in a month is difficult to stretch our money. Payday loans definitely help during that time.

When I'm short on getting any of my bills paid, no matter which one it is, I'll use a cash advance real quick to ensure it's paid on time. In a flash I can get what I need and that's really convenient to me.

The cash advance helps me paying my bills on time. I don't have any credit cards and I don't want to bother my family. The cash advance is a wonderful help for people struggling in life.

The main thing I'll use the cash advance for is helping me be able to have a little extra cash to finish paying my rent. At times it has also helped me out with other bills but rent is the main one. I don't know of any other way to get quick cash in a flash when I need it.

I use the cash advance kinda like a credit card that has to be back in full in a short period of time. I was referred from a friend because of how it helped him out and it's been working for me ever since.

Whenever I think I'm going to be late on a bill I'll get a quick cash advance to make sure it's paid real quick to avoid late fees. With no option on the table for me this works very well for me, but only when I need it.

It always seems like I have a bill that comes due when I'm between paychecks so the cash advance sees me through until I get paid again. The cash advance has also allowed me to purchase a plane ticket when I needed to go up north for an illness in the family.

I will normally use the cash advance to help me out with my electric bill because it's usually due the same time my rent and my phone bill. I don't make enough to pay all at the same time so this allows me to keep it paid on time without delay. With my pay being cut back at work this truly is my best option.

The cash advance has helped me pay my rent and other bills I may need some help finishing getting paid. We think this is the fastest and most easiest way for getting quick cash when needed. For me and my family this is our only option.

Cash advances that I've done in the past have helped me out in so many ways, from bill payment to groceries. This seems like to me to be the best and most secure way to borrow. I would probably have a few late fees if this wasn't an option for me.

I'll use the cash advance when I need help with bills like my credit card bills and light bill. So with the bills come in and when I get paid, this works for me a lot. I've just started a new job and this has helped me get back on my feet again.

Sometimes I need help with my medical bills, gas for my car and just everyday bills when I'm short. This has been a very good help for me because I don't always have the funds to take care of things. For example today my mom is coming in from XXXX and we need some extra cash for food while she is here.

The cash advance helps me with getting gas and food it is a big help for me and my husband because going from making XXXX dollars an hour too XXXX it killed us and still does it really helps a lot of people out and getting help in Florida you can't get though the state.

I lost my XXXX a few years ago and I'm still trying to catch up on things so the cash advance has helped me and my family get by at times during this time. At the moment I don't have time for another job due to my current work schedule so it is safe to say that this program has been a lifesaver for me.

My car note doesn't ever line up with my paychecks so I'll use the cash advance to keep it paid on time and then I pay it right back when I get paid. This really makes things so much easier than trying to get a XXXX job which I really don't have time for.

When I need help paying my rent or some of my bills. My job the work goes up and down so I really know how much I'm going to get on my check and the cash advance smooths things out for me as a reliable source to ensure all bills keep getting paid on time.

Whenever I'm really tight on cash I'll use the cash advance to help me out. Mostly its used to help me out keeping my bills paid on time which is a great help to me because my salary just was cut to a lower rate at work.

I get paid good money but today I'm just a little short and we have some sporting event to go to and I'm out of gas and we need to eat afterwards so the cash advance is helping me today because I'm in a bind.

I like to use the cash advance to hold me over until my next payday. Mostly I'll use it to help me out when I need help with any of my utility bills. I'll use the cash advance only when I need help with a bill or when something comes up and I'm short on cash to get it taken care of. This is the only thing I can use to get some quick cash. People need some help sometimes and I'm one of them so I'm really glad it's here for us.

The cash advance is very convenient to help me out with my bills since I'm now on social security and have recently gone through a divorce. This my short term fix when ever I just need XXXX dollars to tide me over.

Since I've started getting social security I have a limited budget so when I need help paying something or I get in a little financial bind, I'll use the cash advance to get me some help real quick and put me back on track.

Sometimes I'll use the cash advance because I need help getting the rest of my bills paid on time while I'm waiting for my next check to come in. It works for me because its short term and needs to be paid back quickly instead of a long term loan that drags on and on.

The way my bills are set up its sometimes hard to get them all paid at once so the cash advance has always been there for me when needed. This helps me keep the cash flow in the positive way so my bank account doesn't go in the negative.

The cash advance has helped me out whenever I've had some car issues and needed to get it fixed quick so I could get to work. With the way my credit is I can't really get a loan from my bank so I really don't know what I would have done if it wasn't available to me in those times of need.

There are sometimes when I'll have a bill that's due and its in between when I get paid so Ill use the cash advance to help me out for a little bit so I can avoid paying any late fees. I really think this is my only option because I can't borrow something short term anywhere else.

I'll use the cash advance to help me out with my car payment when I run short and need to get it paid real quick. It was an easy process and its much easier than to go to a bank where its a long drawn out process.
Once I pay all my bills there isn't much left over for the everyday things that come up or if I need something, the cash advance has allowed me to have the extra cash I need to get by when things are tight. With my daughter and granddaughter living with me this is a vital backup plan when I need some help.

I'll normally use the cash advance to help me out with my house payment when I need some help getting it paid and I'm short on cash. This is much cheaper than when I use to pawn my jewelry. Its also much less hassle.

The cash advance helps me out big time. It helps me out with all kinds of emergencies. Just recently I needed to have some dental work that had to be taken care of quickly and the cash advance was a sure and fast way to help me out when I don't have the money needed.

I'll generally use the cash advance when I need to catch up on some of my bills when I run short. The only other option available to me would be to sell something or maybe pawn something. Its been a huge help to me in my rough times.

The cash advance has helped me out in so many different ways. I've used it to help me pay my rent, to help me get my car fixed and even to be able to send money to my daughter who lives in Georgia. its really been a lifesaver to me and my family.

I can't get a loan because I don't have good credit or collateral so the cash advance has always been there for me whenever I need money to help me with either my bills or really anything that I need help with.

I'm using the cash advance to help me catch up on my child support. I've also used it to help me out with a car repair that came up right when my car payment was due and I needed some extra cash to get it fixed.

I use the cash advance to help me when I'm short on cash and it keeps me flush with cash whenever I run low. I use to borrow from friends but really its much less of a hassle to do a cash advance than to go through all that.

Very helpful and friendly.

Very helpful service. Important because it helps my daily bills. Gives stability.

It helped me a lot every time I need it. People here are very nice and helped.

Its short term and much easier than going to a bank of loan agent

They have helped me in time of needs.

They are a big help always there when I need extra money to pay a bill.

When we need some help with getting our car payment or electric bill paid, this is when we turn to the cash advance for help. We find that its very reasonable to get this type of help in a pinch. Once we get our income tax check in we should be fine unless something drastic comes up.

I mainly use the cash advance to help me pay my bills when some of them fall on the week I don't get paid. I have chosen this way to handle my cash shortage because of the convenience of it. I don't know what else I would do right now if this wasn't around.

When I need some extra money to help me get through the week, I'll get a cash advance to help me out. The cash advance is really our only option at this point in our life and it would be a struggle if this weren't there for us.

Typically I just use the cash advance to help me out with paying some of my bills from time to time. The ease of being able to get quick cash like this is great. Id much rather use the cash advance instead going to a pawn shop and taking the XXXX of losing something important to me.

Generally I'll use the cash advance to help me out with my car payment. This sounded better to me than going to a bank and getting a loan. Im trying to budget things a little better but its nice to have as a backup plan.

We use the cash advance for whenever we want to go out or want to do something special like going to the Daytona XXXX. It has also come in handy and we needed to purchase some plane ticket quick due to a death in the family.
I will use the cash advance to help me with some small bills and even for some groceries. This is an easy process and you don't have to go through too much to get the cash you need. My only other alternative would be to try to get more hours at work but that's not easy.

I have a daughter in college and I will use the cash advance from time to time to help her out with the things she needs. This is a great way for me to get some extra cash instead of running to my family for help.

Lately I've been having a lot of car repairs that have needed to be taken care of pretty fast and the cash advance has been helping me out getting those repairs taken care of. Also, I've used it to help me mom out with her electric bill.

I'll normally use the cash advance to help me with my electric and water bill. I like how quick it is. This is a much better way for me to get these things taken care of rather than asking someone from my family for help.

Usually I'll use the cash advance to help cover me when any unexpected bills pop up and need to be taken care of quickly. I've chosen to go this route because of how convenient it is. I'd much rather do things this way instead of using my credit cards.

When I need some help paying either my light bill or phone bill then I have turned to the cash advance to help me get them paid. I've chosen this way due to my credit rating. I would probably panic if this were ever taken away from us. It would be safe to say that I do not have any other options.

I recently had some things that needed to be taken care of quick and the cash advance was there for me to get them taken care of. If it wasn't for this I know for a fact I would have had a few of my utilities shut off. Me and my husband don't have any family to borrow from so this was all we could do.

When I have an emergency bill that comes up and I need to get it paid right away, I'll get a cash advance to help me pay it quickly. The fees are good and it's very convenient. I don't have any other alternatives to fall back on.

This has helped me a lot, I have had to go on XXXX a few times and it comes in handy.

Very great service

They are nice people when I need help.

I'm retired and the cash advance has helped me at times to be able to pay some of my bills. If this were ever taken away from us I can tell you I would just have to sweat it out but I'd be late on bill and have to pay late fees that would put me further behind.

The cash advance helps me out with some of my bills like my water bill and groceries. Right now my husband isn't working so I'm the only one bringing in income so the cash advance is helping us out through this rough time. It's really helping us avoid late fees or risk having something cut off.

Sometimes I have a short paycheck and the loans help me until my next payday.

When I have some bills I need help with and I'm in between paychecks I'll use the cash advance to help me out so I'm not late on any of those bills. If not for this service I suppose I'd just have to make some sort of arrangement with the people I know and I would most likely have to pay some sort of late fees.

When ever I need some extra money and I'm still waiting on my check, I'll use the cash advance to help me bridge the gap at times so I can either pay a bill or even buy some groceries. I choose to do this instead of the last resort which would be to borrow from loved ones.

The cash advance helps me to get my bills paid at the right time when I'm running short on cash to do so. I would probably have to get some sort of loan from the bank or work more hours if this were ever cancelled.

I've had some medical issues and some of my bills had piled up so the cash advance is helping me get caught back up now that I'm back at work. Without this my catch up plan would take much longer than I want.

When I run out of money and I don't have enough money to get some sort of Bill paid on time I'll use the cash advance to help me out. I would be in big trouble and probably my light bills would be cut off if this was not around to help me out.
I use the cash advance to help me with having some extra money because once all my bills are paid there really isn't enough left over for this things I need or want to get. If this were ever taken away I'd probably have to borrow from a friend that lives with me.

The cash advance helps me out because with my job I travel around a lot and the cash advance helps me with gas and food expenses until I get my expense check in. At this point I really don't have any other option to make this happen and would probably be late on some bills if not for this service.

When I need help with my electric or phone bill I'll get a cash advance to help me out with them until my next check comes in. I've also used it to help me out with groceries when I'm just a little short on cash.

I use the cash advance to help me out when I need some extra help with my bills and I'm short on cash. If not for this I'd probably have to go and beg my son for money and I also don't want to do that.

Cash advance helps me pay monthly bills while in school. If the advance were gone I would have to get another job while in school full time.

The cash advance helps me out whenever my car breaks down or I have some last minute expenses that need to be taken care of quickly. I'd much rather take care of things myself than going to my family for help. It's much better than going to a bank because it's much less hassle.

I use the cash advance to help me pay some of my bills like my mother's XXXX payment and other things that pop up and I'm not expecting it. I think it's a great product because it's quick and easy. Other than this I'd probably have to get a loan from a bank.

I will normally use the cash advance to help me out with my mortgage payment when I run short. I would probably have to borrow from a family member if this were ever taken away.

I use the cash advance for normal everyday things like bills and groceries. My only other option would have to borrow from my mom which I truly don't want to do.

Hello,

I would like to file a complaint but I am using this page because I did not obtain any funds from "Cash Advance Inc," one of the company names they use when contacting me accusing me of getting a payday loan from them and they want me to repay by credit card or by issuing my bank account number. I do not owe this company for any payday loans, however they are threatening me with a warrant for my arrest or garnishing my wages. This company is fraud/scam artists which is listed online and this is where I located this file a complaint website. I appreciate your existence. I have made a previous complaint here but wasn't sure whether I listed the company that is involved name. I will not go further into detail here because I already have told my story but again I am hoping that this will put an end to the threats of warrants for my arrest or garnishing my wages, etc.

It is a shame to be harassed in any form and since they were not successful by telephone they have obtained my email address somehow but do not even know my name. Hopefully as I have state previously this will help to put an end to this and/or help others not to fall for this scam and give up their personal information.

Thank you.
If possible I would like the constant harassing contact to discontinue and for these individuals to be forced to delete me from their email list. I do not get any telephone calls from Advance Cash Inc. but now the threats by email are preposterous. It has caused fear to me in the beginning because of the way they threaten however I know for a fact that I have no connection with this company and by researching them online and getting your attention gave me reassurance that they are just scam artists and I thank you for being available as a way of possibly ending all of this mess.

I have never been given any funds from this company and they use to contact me and my husband by telephone, fortunately this has stopped. Now they have found my email address somehow and are harassing me through this channel. I hope that by telling this story it will help others as well as myself.

Ill use the cash advance to help me pay some of my bills like my light bill phone bill and cable bill. Sometimes I need it to complete the rental payment. I guess if the cash advance was not here anymore my bills would just have to be late because I dont have any other way of helping myself out.

I always get paid a week after most of my bills need to be paid so the cash advance advances me the money so I get them paid on time until my check comes. I dont need anything long term, just short term every few months or so.

The main thing Ill ever use the cash advance for is for my rent and phone bill when I dont quite have enough money to get them paid. My very last option would be to borrow from my parents if this were ever taken away from us so I hope it doesnt come down to that because I like taking care of things myself.

The cash advance has helped me out in so many ways from using the money to fix my car to what Im using it for today to purchase a plane ticket because I need to go and see my sister XXXX. This is my only option to get quick cash when I need it.

Sometimes with the way I get paid XXXX and the cash advance helps me make sure that all my bills are paid on time u til my checks come in. So this is my way to make sure that there are no interruptions in my monthly budget. His really helps me to avoid all the bad things tied in with being late on my bills like late fees.

I use the cash advance to help me with bills around the house and for helping me out with some of my medical bills when they come up. Ther have been times where I've used it to but food too. If this service wasnt around I would just have to be late on my bills when I run short because I just dont have any other way to get some extra cash when I need it.

I live on a fixed income and there are many times when me and my husband needed to use the cash advance to help us with paying for our medications and even to buy food. We really dont have anyone else we can borrow from so this has been a blessing for us to have to fall back on.

The cash advance at times keeps me going with my bills and for things for my kids when I just am running short and need some help. Its used for all sorts of things even to help me put gas in my car so I can get to work.

When I have gaps in my pay and I need help to keep my bills paid on time ill use the cash advance to help me fill those gaps. This helps me be from being totally broke and gives me a sort of peace of mind having it available to me when I need it.

Im self employed and sometimes I have to wait to be paid by my customers and the cash advance at times will help me get by while Im waiting for those checks to come in. So at this time this our only option to help us out when we need it.

With my wife recently being out of work the cash advance has helps us to be able to meet our obligations with getting our bills paid on time and to be able to put food on the table and gas for the car. Im already working XXXX jobs so this is our only way to keep things going.

The cash advance has helped me out on many bills when I just didnt have enough to get them paid. XXXX time I also had to use it because after all my bills were paid I didnt have enough money to buy food and the cash advance helped me be able to eat until I got paid again.

If ever I have any extra bills or Im just tight on money until my next check comes in ill use the cash advance to get me by until my next check comes. Im in the process of redoing my budget so I wont have to use this but its nice to have now when I need it.
I will use the cash advance to help me out with my phone bill and electric bill and even to help me with some of my rental payment. It has been a very quick and easy process whenever I've needed it which is nice. I use this instead of going to going to family or trying to get a loan with a bank where credit is involved.

I use the cash advance as my emergency backup plan. Like today I need to get my car towed and the cash advance is here for me to take care of this real quick since I won't have the money until Friday. I think its a simple way for me to get the help I need when I need it.

The cash advance helps me out a whole lot by helping me with my bills when my paycheck is lower than I thought it would be. I think the fee is more than reasonable to pay back. Im guessing that if this were every taken away I would have some bills at times that would be very late and then Id risk something shut off.

Say like when my check comes in after a bill is due the cash advance is very helpful to me to keep all my bills current and not fall behind. Its been a huge help for me whenever Im in need of some money and I hope it is a round for me in the future.

I use the cash advance to help me out with some hard times that Im going through right now. Its help me stay on top of my bills during this time. Basically the only other option would be to borrow from a family.

When I have a bill that comes up and Im short and need to get it paid right away Ill use the cash advance to help me out until my next check comes in. Its a quick method and a lot less paperwork than trying to get some sort of other type of loan. Plus regular loan require good credit for.

I have a good job and get paid XXXX a month and I have a lot of medical bills so the cash advance really helps me out when Im waiting on my check so that my checking account stays in the positive. I really dont know what I would do without it and it gives me peace of mind.

I only get paid XXXX a month and not all my bills fall on the XX/XX/XXXX, so when I need to get a quick loan against my check, Ill get a cash advance to help me get by. Im unable to get any other type of loan so Im great fun for this being an option for me.

we try to cash my husband retirement check at our bank they will not cash it because we dont have enough to cover it is drawn on another bank that we dont have account with

my husband receives check each month from XXXX for retirement bank will not cash it because our account doesnt have that much to cover it is that fair it is drawn on another bank

Mostly Ill use the cash advance for bills and household supplies. I have a little child and its even helped me buy diapers. So in order to avoid late fees that is actually larger than the fee for the advance so this helped me and my family out greatly.

There are times when we need money when we run short in between paychecks. Its generally use to help me with bills like my rent. Id rather get the advance instead of asking my mother for money. It really makes it possible to stay a float when funds are low.

Sometimes I use the cash advance to help me out with getting a bill or something like that. Ill even use it to buy some food when Im out of money to go to the grocery store. I would probably have to ask for some money from my church if this wasn't available anymore.

Extra Money when unexpected expenses occur.

To pay car insurance that was due for XX/XX/2015

The cash advance helped me out XXXX time when I had a large car repair that I needed help paying. I like the fact that its short and sweet and not a long drawn out process. The fact that its available and quick and it really works for me whenever I need it.

I would like to light bill, cell phone, rent, gas bill. Thank you.
It has come in handy when I need extra funds for car repair.

It has helped me out when I fell short on cash in XXXX the week and I am able to get it fast.

I will usually only use the cash advance to help me pay my light bill which will be due some months. I think the banks are a bad idea because they really don't work with me and their interest is too high. I could get some extra money from my daughter but I really don't want to burden her with my bills.

The payday loan helps me pay some of my bills until I get paid again. It's been very helpful.

It has helped me tremendously with a variety of things such as paying a bill that was due before my next payday.

Well, The payday loan has helped me get to some tight times. Between paydays and with bills.

The cash advance helps me pay my bills because sometimes they are due before my check comes in and this is my way of getting them taken care of fast without any hassle. I'm trying to save more money but it sure is good to have this service to fall back on when I need it.

Primarily I'll use the cash advance to help me out with my electric bill and for food. After all my other bills are paid for I don't often have enough money to get by on. There is no other option for me so I'm very grateful for this being here for me.

I was going through a job transition and my pay was all messed up plus I was moving at the time and the cash advance was my savior. I can say without a doubt I would have been homeless and without a job without it.

The cash advance is very helpful to me if I need some extra cash for the things that come up during the week or if I need help getting a particular bill paid. I think its very convenient and its a simple process instead of going through a longer process of a conventional loan. I would say for now its my only option.

Sometimes my bills come due before I get paid and the cash advance helps me get them taken care of while waiting on that check. So the cash advance helps me avoid the large late fees that would follow if they were paid late. There really aren't any other options for me at this point.

I use the cash advance to help me out whenever I have some car repairs that need to be taken care of quickly so I can keep my car running. Its much more convenient to do things this way than to borrow from a family member or even a friend. I really don't have anything to fall back on so this is a lifesaver to me.

I try not to use my credit cards too much and in order to keep my credit score in good standing I'll use the cash advance to help me out XXXX times a year. I like the fact that its short term and can be gotten quickly.

I only get a small VA payment and I'm in SSA so I don't get a lot each month so the cash advance has helped me pay my rent at times when I run short. I have found this to be the easiest way for me to get the cash I need in a pinch. I've tried to get a job but at my age its almost impossible.

I generally use the cash advance to help me out with so many bills like car insurance and my medical bills now that I have XXXX. I refuse to use the cash advance on line and this payday loan system is just the best way for me to get the quick cash I need.

help me to pay my car note

need to order some car parts

This money mart has helped me and my family a lot. It makes it easy to pay things and pay bills, when you don't have the money right away. Help me with the water and light bill.

gas bill, lights bill, gas for car. Help me to pay gas bill and light and gas for my car.

The cash advance is my choice rather than getting a larger loan at the bank, plus the late fees that would happen if I was late on any of my bills would be more than the fees to do a cash advance.

I only use the cash advance when I find myself using my credit cards too much. I'll also use it to help me finish paying my rent at times. This is my choice to get quick cash when emergencies come up.
If I ever need some extra money to help me fill in the gap when I have some bills that need to be laid, I'll use the cash advance to help me fill those gaps. I don't need a large personal loan at a bank, just need a little help every now and then and the fee is very reasonable.

I use the cash advance to help me out paying some of bills when run short. I suppose that I'd just have to make do if it went away. I don't use it very much but it sure comes in handy when I'm in a pinch. It's also been a great help to me paying some of my lawyer expenses.

Mostly I use the cash advance so my bills are never late. I use to be able to get loans from my bank but I am unable to do that anymore. I really couldn't tell you what I would do without it because there are no other options left for me.

When I have things come up and I need just a little bit of help with my rent or even to buy some food. I don't have anymore credit cards which is not an option anymore. I guess the only other thing I could do is to get another job which I really don't have time for.

When bills come up that fall in between my paychecks the cash advance allows me to get them paid while waiting for the next check to come. I think it's quicker and easier than anything else that's available to me. I would be in trouble if it were ever taken away.

I like to get a cash advance to help me out with some of my bills when I need help and I'll also use it when I feel adventurous and want to go somewhere and I just need a little bit of extra cash to do so.

The cash advance helps me with paying my bills on time and keeping up with things for my son's classroom like field trips and etc. If the cash advance wasn't around these things wouldn't be possible to keep up with living pay check to pay check and we as a hardworking family possibly would be homeless.

When I need help finishing some of my bills the cash advance is there to help me with that until my next monthly check comes in. Since I don't have any te of collateral I can't get a loan from a bank so the cash advance is absolutely my only savior at this point in my life.

I'll use the cash advance to help me out with lots of bills like power, water, food... really just about anything that I need help with and need some quick money. I would most definitely have something get cut off if this were gone. I can't get this amount of money from family or friends.

When I'm short on my bills or something like that the cash advance helps me out to get them paid. I like that it's a short term type of loan rather than dragging something out longer. With my credit the way it is it would probably be pretty hard for me to get a loan from the bank.

When I'm in need to get a particular bill paid and I don't have the money to pay it right then, I'll get a cash advance to pay that bill. I've tried asking my family or my boss for money but they won't lend it to me so this is my only option of getting some extra money when I need help.

I primarily will use the cash advance to help my pay for some groceries and to buy some medical supplies I need every month so this has been a lifesaver for me. My only option would be to to XXXX for help.

I've had some situations in my life when I've needed some quick cash to tide me over until my next check comes in. I use it to buy a plane ticket to go see a sick relative and also help me out with doctor bills for my kid. It would be very very difficult without it. With the prices of everything going up its just a nice safety net for.

When I have things that come up that aren't budgeted for or are out of the ordinary I'll use the cash advance to ease those situations from my life. My only other thing to do would be to borrow from friends which I'm just not comfortable doing.

I have a small child and when I run out of money for whatever reason, I'll get a cash advance to help me out until my next check comes in XXXX weeks. It's not possible to work more hours because I don't have anyone to watch my child so the cash advance is a big help to me.

Cash advances help me out with my car payment and car insurance when I'm just a little bit short in getting them paid. It was easy and didn't require a credit check and I know I would be able to get the cash right away.
The cash advance really helped me out when my job went from fulltime to partime and now that I'm back at fulltime I probably won't need it. It sure helped me out during that time when I wasn't making the kind of money that I was accustomed to. It also helped me with moving expenses when I moved.

The cash advance helps me catch up on my bills when my check is short or if I need some extra cash for the medical situations that come up. With the way my credit situation is this is the only option I have for some quick cash.

Actually I use the cash advance to help me pay some of my bills and keeps a steady flow to ensure all bills continue to be paid on time. I don't have any other way or option for quick cash and help like this when I need it.

I use the cash advance to help me bridge the gap from when my bills are due to when I get paid. With XXXX jobs it sometimes helps me keep things going until I get paid again. I also use it to help out my family when maybe they need some help too.

I would die without the cash advance. I use it when I have car repairs that are more than my paycheck and I need to get it fixed so I can continue to go to work. I basically use this for when problems come up. I use this instead of not going to family or friends.

I use the cash advance to help me bridge the gap from when my bills are due to when I get paid. With XXXX jobs it sometimes helps me keep things going until I get paid again. I also use it to help out my family when maybe they need some help too.

I use the cash advance to basically get me through life by helping me out because after I get paid and all my bills are paid there is not much left over for food or anything else that comes. Because of our credit situation this was our only option at this time.

I use the cash advance for numerous things because with kids they have so many things that they need money for so this is a great tool for me to use when needed. There really wasn't anything short term that I could use.

I use the cash advance to help me pay some of my bills and keeps a steady flow to ensure all bills continue to be paid on time. I don't have any other way or option for quick cash and help like this when I need it.

I move my bills around and sometimes I'll use the cash advance to pay some of my bills to make my payments early to keep my credit score up there. I like this option because it's quick, fast, easy with no hassle. It's much better to trying to go through the bank because of the long drawn out process you have to go through with them.

My bank account was compromised and had to wait for all of that to get taken care of and I used the cash advance to tide me over until my old account was unfrozen due to the identity theft. I choose this because the only other thing I could have done was to borrow from my ex and I really didn't want to do that.

I use the cash advance to basically get me through life by helping me out because after I get paid and all my bills are paid there is not much left over for food or anything else that comes. Because of our credit situation this was our only option at this time.

If I ever get behind on a bill or if I need just a little extra cash for something, I'll use the cash advance to get me buy until my next check. I suppose I could go to family but I like to be able to handle things myself. I can say I was very grateful when there was a time when I was a little late paying back and they really worked with me.

One time I use the cash advance to help out a friend but I usually use it to help me out with my bills when I'm short on cash to get them paid. It has been a big help leveling things out for me in the short term.

The cash advance helps me out with bills like electric and water. I choose this because of how quick and easy it is. We just don't have any other options because I'm the only one working in my family.

I only get paid XXXX a month and am on a fixed income and when things come in the middle of the month, the cash advance is there to help me out when I need it. I like that it's quick and its always there when I need it right away...no waiting!

If I ever get behind on a bill or if I need just a little extra cash for something, I'll use the cash advance to get me buy until my next check. I suppose I could go to family but I like to be able to handle things myself. I can say I was very grateful when there was a time when I was a little late paying back and they really worked with me.

One time I used the cash advance to help out a friend but I usually use it to help me out with my bills when I'm short on cash to get them paid. It has been a big help leveling things out for me in the short term.

The cash advance helps me out with bills like electric and water. I choose this because of how quick and easy it is. We just don't have any other options because I'm the only one working in my family.

I use the cash advance for numerous things because with kids they have so many things that they need money for so this is a great tool for me to use when needed. There really wasn't anything short term that I could use.
In order to not be late on a bill or to make sure that my checking account is not overdrawn, I will use the cash advance to make sure that I have a positive cash flow in my times of financial need. I think that this is the easiest way to get my hands on some quick cash when needed.

If ever I have a bill that comes due and I don't get paid for a few days after its due, I will get a cash advance to get that bill paid quickly. I think it's very convenient and the fee is very reasonable. If this was not available, I'd just have to deal with it.

I don't get paid a whole lot and the cash advance helps me out with making sure my bills paid on time. I'd be in a really bad situation if this were ever taken away. I probably have some utilities shut off.

Usually I'll use the cash advance to help me out with getting some bills paid. I'll also use it to help me out with my groceries when I don't have enough money left over after paying all my bills. This is a great program!

Sometimes I get backed up on some bills and the cash advance has helped me take care of some bill until my next check comes in. I think it's just a fast and easy process. I really have no idea what in the world I would do if this weren't around for me to use when I need some extra cash.

There are times when my electric and cell phone bill come in due and I'm not going to get paid until the following week so the cash advance is a great tool for me to be able to pay them on time. My only other option would be to pawn something, I guess, and I just don't want to do that.

The cash advance has helped me to survive sometimes. It seems that there are always things coming up especially with my car breaking down and I needed to get it fixed quickly or I would not have been able to go to work. If that were to happen, I would be tumbling out of control quickly so it's been a lifesaver for me to have this to fall back on when needed.

Whenever I get behind on my bills and with being a single parent, funds are pretty tight and I'll use the cash advance to help me out when I'm in need of some extra cash. I'm in school and work full time so I can't work anymore than I already am.

It is a sort of last resort. I know I can use a payday loan when an economical issue comes up. The service is fast and simple with a good explanation of the loan agreement terms.

I have had nothing but great experiences using payday loans. It's a great option when I get behind on major bills or when I need to pay to get my vehicle repaired.

I am going through a separate and I have a young child. It has been hard being able to get money in advance. Using a short term loan has helped me out very much.

I have used pay day loans often to help get me through tight spots - I have used it to get groceries, tires for my car, birthday presents and XXXX presents. It has helped me get to that next pay day a number of times when the economy is horrible.

I normally use the cash advance for paying some of my bills but I'll also use it if my parents need a little help. I've also used it to help me out when I've had a car repair that needed to be taken care of quickly. I think it's quick and easy. At this point in my life I really don't have any other option.

Payday advance loans have been extremely helpful to my family. Especially for those unexpected things that come up like hospital bills for emergency visits or school fees that come up XXXX a year. When you live paycheck to paycheck, those things are sometimes difficult to plan for. I've also used payday loans just to pay a bill that is due before my pay date comes like utilities.

I came in today to borrow money to purchase a new license.

I need it to pay my utility bill that was due XX/XX/2015. It would be turned off.

The cash advance gives me time to get my bills paid before my next monthly check comes in. The piece of mind is priceless. I much prefer using this service instead of putting things on my credit card where I may only make the minimum payments. So it forces me to stay on top of my bills.

I will normally use the cash advance to help me out with my bills before my next check comes in. If the cash advance was not around I'd be in a lot of trouble and would probably not have a roof over my head. I'm thing to get more work at my job but that's not always available.

I had an IRS debt that put me behind so I got a cash advance to tide me over until it was all paid off. It really helped me out of a hole I was in. In the process of trying to get more work so I won't have to do this again but if it sure helps out a lot when I need it.

It could be rent, cell phone bill or anything that comes up and I need some quick cash, the cash advance is what I'll use to keep me going from time to time. It's much easier than going to a bank or trying to borrow from my mother.

I'm a single mom that doesn't get child support and the cash advance has helped me out a number of occasions when I was short on cash before I was to get paid. My credit isn't so good so I don't have the luxury of using credit cards so this works for me.

If it wasn't for the cash advance I would have some months where I would have some bills not being paid. I'm XXXX and can't work so this truly helps me out when I need it. I could probably do without it but it makes things easier for me to use the cash advance because it levels out my cash flow.

We have a very limited income and recently my husband has had a serious medical issue and the medical expenses keep coming and the cash advance has been helping us stay on top of those and keeping them paid on time. We prefer not to go to family for help.

Generally I'll use the cash advance to help me out with some small bills come and I'm running a little short. I like how easy and fast it is. With the way me and my wife get paid it just doesnt match up with our bills the cash advance fills in the gaps for us until we get paid again. Also really helps us out when there are times when we arent able to get the full XXXXhrs at work.

The cash advance has been a savior for me and my family for car repairs, food or really anything else that we may need to get some. Its much better than hassling my my family asking them for help. Today it helped me get new tires for my motorcycle.

When I need help with some of my utulitiy bills or my rent, I like to be able to get a cash advance to supplement my income to be sure those things are paid. My only other choice would be to borrow from my family but they are sort of strapped too so Im not sure they would be able to help me.

I normally will use the cash advance to help me out with my bills because there are times when a bill comes in before my check comes in so this is handy for me to have at my disposal. I use the cash advance to help me balance out my financial situation when I run into some issues. This is really easy for me to get quick cash when I need it. I could probably get buy without it but it really just makes my life easier.
I had a fraudulent company call me AT LEAST XXXX times in the last week. Their phone number was XXXX. They never told me who they were, or a physical address to send a letter to in regards to get them to stop calling me. They claimed that I was under "investigation" for a payday loan that I've never taken out. They threatened me with felony charges and hung up on me XXXX times in under XXXX minutes when I asked for a company name and address. I spoke with a gal named "XXXX" and then a guy who said his name was XXXX. He finally told me the name of the company but never spelled it out so I'm not sure if I got it correct but I believe he called it XXXX & Associates.

When I spoke with XXXX, she told me I was required to make full "restitution" by XXXX Standard today via Visa or Mastercard only. After she hung up on me, I called back and spoke with XXXX who stated it needed to be paid today by XXXX Standard, but he said the only viable payment method was through a "Blue & White Money Gram Express Form" with my Name, Address, Email Address, Phone number, an ID Code he gave me and an Account number he gave me in the MINIMUM XXXX time payment of $XXXX + the XXXX charge from Walmart for the money gram.

I need to know who to speak with so I can get these fraud callers to stop calling me. When they call, its an automated system saying, "Hi my name is __________, We have information regarding your name and social security number, If you want to speak with a representative, please press XXXX" It never specifies who they're calling for.

They claimed to have done a full background check on me, Even gave me details on my background that are NOT public information. They told me my SSN, Drivers License Number, Old Address, Old Job, Phone number and more.

Who do I speak with about this? Its very disturbing to know that a random company has ALL that information and was able to tell me my background and everything, but when I asked questions such as Business name or Address, they would raise their voices or hang up on me.
about XXXX months ago i need money rite away to pay for a light bill that had a shut off notice and if they got shut off i would have to pay the deposit too to get them back on..so i turned to a payday loan, well I went through green stream lending and they got me the$ XXXX dollars the same day with a $XXXX dollar finance rate, so my payback was to be $XXXX, well all that time I thought they were deducting it out of my account in installments so after about XXXX payments of $XXXX dollars I thought i had it payed off, but they were not deducting it like that they said it was only the finance rate cause i was suppose to pay it in XXXX installment, well they never told me this when i asked questions when i got the loan,so i feel i was miss led and tricked into signing something i was unaware of..but they have been taking $XXXX dollars out of my account every XXXX weeks for the last XXXX months. so you figure a $XXXX dollar loan with a finance rate of $XXXX dollars = out to $XXXX loan. then you look at the finance rate they been taken for XXXX months every XXXX weeks, so thats $XXXXX a month for XXXX months = out to be $XXXX and they still are taking it cause i am having financial problems and cant come up with the full $XXXX so i am stuck paying then all this finance rate way over what i owe them. so i feel i was suckered cause i was desperate and dont want it to happen to no one else..so if you get a payday loan through green tree lending read over everthing XXXX so you dont fall in the same boat as me..but my question is can i put a stop to this cause i have payed them way over what i owed them and then some..HELP!

I have a casual friend who has my cell phone number in her cell phone. She borrowed money for some payday cash place and use my cell phone number as a backup number. She never asked my permission or discussed it with me before she took out the loan. Now I have XXXX arbitrator XXXX calling me weekly. I explained that I will not collect this money for them, nor will I lose her friendship by hounding her to pay her bill to this business. They have no right to harass me just because I am a friend and she has my number.

If ever I'm waiting on my paycheck and I have a bill that comes up, I'll get a cash advance to get that bill paid quickly until my check comes in. I was contacted by a XXXX at my job stating she was trying to serve me some papers. I asked for what and she only told me I needed to contact Lakefront Processing Solutions and gave me a case #. So I called them and they advised I owed $XXXX for a payday loan. I asked with whom and they gave me a list of XXXX names that it could be. Never heard of any of those people. I asked for specifics such as an Account # and they could not provide it to me. I asked them why they were only contacting me on the day they were trying to have me served and I've never heard about this debt thru the mail or phone calls and he said he didn't know. He just said the loan company turned it over to him today. He advised if I didn't pay them the balance in full today, they would have my check garnished, and bring me up on charges of defrauding a banking institution. I had my debit card in hand and was going to pay him a little because his scare tactics were really good but then it hit me that why am I going to pay something that I don't even know what it is for. So I told him, when he tells me exactly who the creditor is and my account # and I can research to see if I owe them, then I will pay. He said "see you in court" and I said okay. So glad I didn't pay anything to him. Pretty sure this is a scam.

Ill use the cash advance to help me out when I run out of money and I still have some bills that need to be paid. Ill also use it to buy groceries with. I choose this because it's convenient and short term. I've been in longer loans and that just didn't work for me.

Mainly I use the cash advance to help me out when things come up in between when I get paid. There are also times when I've used it to help me pay my child support so that I don't fall behind on that. I guess the only other thing I could do is to pawn something but I really don't want to have to do that.

I'm on a fixed income and the cash advance helps me out until my next monthly check comes in. My alternatives at this point are very limited at this point in my life so I'm really glad it's a viable option for me.

I've been using the cash advance to help me out financially lately due to the fact that my grandmother was sick in NY and I went there for a month to help her out so I wasn't working so I wasn't getting paid so the cash advance is helping me get caught up on my bills.

I primarily will use the cash advance to help me and my husband to buy groceries or some small bills that may pop up that we need help with. We would probably have to put in for bankruptcy and have to move if it was taken away.

I received a phone call on my cell phone regarding my wife XXXX. The caller said that if we wanted to settle with them before we "got served" we could speak with someone regarding a payday loan allegedly taken out in XX/XX/XXXX. I gave my wife the phone and the caller read out her SS number and asked her if it was hers. She asked who they were and they gave a lawyer sounding firm, but did not say they were lawyers. She asked where this "loan" took place, he said XXXX. We did not converse with them after our statement. The only contact information we have is their phone number which is XXXX. Our credit report we reviewed was from XXXX/XXXX and there were no outstanding balances. This call was very upsetting. Is there anything that we should do?
Whenever I need help with my bills or just need some extra cash to help me out I will use the payday loan service to keep me in the plus side in my account. This allows me to get taken care of the little things that come up.

Most of the time Ill use the cash advance to help me catch up on my bills because I get paid at the end of the month and all my bills are due in the beginning. I guess if the cash advance wasnt around to use I would have to get a part time job but at my age thats hard to do.

Dear Director:

Auto finance is the XXXX-largest household credit market in the country, after mortgages and student loans. Other than bank accounts, vehicles are Americans’ most common asset, with roughly XXXX percent of families owning at least one vehicle. After housing, transportation is often the XXXX-largest expense that families face.

Most consumers who buy cars need to finance at least part of their purchase rather than buying it outright—XXXX percent of new car purchases and XXXX percent of used car purchases involve financing. But much of this financing is not through banks and credit unions. Instead, “captives”—the finance arms of automobile manufacturers—or other nonbank finance companies hold XXXX percent of outstanding car loans. Leasing has also grown as an alternative approach to acquiring a car. The share of leases in the new car market has doubled since XX/XXXX.

While many banks and credit unions are now subject to regulation by the Consumer Financial Protection Bureau, or CFPB, car leasing and financing through nonbank channels have historically been less regulated. The CFPB has proposed a rule that would bring these financial activities under its purview by defining auto financing entities that make XXXX or more vehicle loans or leases each year as “larger market participants” and also by defining auto leasing as a financial product subject to regulation. The CFPB estimates that these changes would cover XXXX percent of all car purchases and leases—a dramatic increase given the large role nonbanks play in this market.

This proposed rule marks a major step forward for comprehensive and consistent consumer protection in the auto finance market. Recent media accounts have shed light on aspects of auto financing that are particularly harmful to consumers, such as remote “starter interrupt” devices that lenders can use to disable cars if payments are even a few days late—a punishment virtually unheard of among other financial products such as mortgages and credit cards. And this market frequently lacks transparency for prospective buyers. Borrowers of color often pay higher interest rates than their white counterparts even if they have similar credit scores and attempt to negotiate with the dealer. Meanwhile, leasing has the potential for hidden fees at both the beginning and the end of a lease agreement.

To ensure that the new rule is truly comprehensive, the CFPB’s threshold of at least XXXX loans or leases made annually should include went to a payday loan co in XXXX was on XXXX and they offered only XXXX options for repayment and did not work with us for a more reasonable repayment plan for our budget, plus each month the payment was due on a different date where we have gone there for years and payments always fell on same date each month what a disappointment to a loyal customer

Check into cash has helped me for many years with various amounts of bills or unexpected expenses. They are very flexible and great with their customers.

I use the cash advance to help me pay my bills. Today I need it because I'm going to the doctor and I don't have enough for my co-pay so it's always been a great help to me. It helps too that it's a fast and easy process.

I use the cash advance to stay ahead of my bills and pay them before they are due to make sure I'm never late and to avoid any late fees. I've also used to buy gas and for whenever my car breaks down.

The cash advance helps me and my husband out with mainly paying our rent and other expenses that come up where we need just a little extra to get us by. It's much more convenient than anything else out there. We would start losing things if not for this service.

Im a single mom and use the cash advance to help me and my child out when we need help paying for things and pay for bills. I don't have the best credit and the cash advance doesn't check my credit so its much better for me. It allows me to take care of myself without asking for help from others.

I have no relatives in the area to ask for help from and I don't want to ask any of my friends for help because it strains the relationship, so the cash advance is my only source of help when I need some extra money to get by.

When ever my checks dont come in on time or I have a bill or doctor visit fee Ill get a cash advance to see me through until I get paid again. This is all I have as an option at this point in my life.

The cash advance is a short term fix to helping me and my wife out since she has been out of work for a medical situation. Its very easy and its good because it has a limit. We chose to handle things this way instead of pulling money out of my XXXX.

The cash advance has always been there for me whenever I'm in need of some quick cash. It gives me peace of mind to have something like this as a sort of backup plan. Its fast and easy and doesn't require me to have perfect credit.

The cash advance has helped me with all sorts of things like with my moving expenses, holidays, or any type of bill I may have missed. I think its a very fair price to get a small loan like this. I do this instead of asking for help from my dad.

The cash advance helps me out whenever I miscalculate on maybe not having enough money in my account. It helps me make sure that my bills are paid on time without delay.

If ever something comes up and I'm not prepared for it I will use the cash advance to pull me through in a timely fashion until my next check comes in. In many ways its like a small credit card for me. Plus the requirements are a little more than what I qualify for with getting a credit card, so the cash advance works for me.

The cash advance helps me get through some tough times and help avoid overdraft fees which are around $XXXX. The cash advance is a great way to stay out of debt. Credit cards are just a trap so this is my choice to help myself when I need it.
Every once in a while I use the cash advance to help me catch up on a particular bill that may have slipped through the cracks. I'm really not sure what I would do without it. I guess I could borrow from a friend or something like that but I really just don't want to do that.

When I need help catching up on any of my bills like my utilities and even to buy food I'll get a cash advance to help me out a bit until I get my next check. This is a hassle free way to get some extra cash when I need it. Other than this I would have certain things shut off.

When I get in a bind and I run short on money like recently when I was sick and my check was less than usual, the cash advance is always my backup plan to helping me out of those situations. It's easier than trying to go through a bunch of paperwork and try to get a small loan at the bank.

I use the cash advance for emergency situation that come up like when I need to go out of town quickly and am a little short on cash. I've also used it to replace my glasses when they broke. It was easy and quick. My only other options would have been to borrow from a friend or pawn something which I really don't want to do that.

I have a son that has gotten into a little bit of trouble and I've been helping him out of this by getting a cash advance. I also use it to help me with my car repairs when they come up which seems to be often lately.

I use the cash advance to help me when I have emergencies come up like today I have a flat tire and I need some quick cash to get it fixed so I can get to work. It's very simple and quick which is what I like. I don't really have anyone else I can ask for help.

If ever I'm running short I use the cash advance as my catch up plan to get things taken care of quickly. This works for me because I never want to get into a long term loan which ends up costing more in the long run.

I don't use the cash advance that often but it's really handy to have around when a bill comes up and I'm short on the money to pay that bill. It's really nice to know that I can rely on this service because I really don't have any other way or help when I need it.

I'm in a little bit of a pickle today because of a mix up in a bill that came sooner than expected and I'm using the cash advance to make sure that something doesn't get shut off. Being on a fixed income something like this can really shake things up financially. The cash advance is fast and readily available whenever I need it which gives me peace of mind.

My bills never match up when I get paid so I use the cash advance to supplement my income in between my pay period. It helps me to pay my bills and even gas. Its quick, easy and very helpful. I really don't know what I would do when I'm in a pinch and the cash advance wasn't available to me.

I mainly use the cash advance to help me pay my rent because of the way my check falls. Rent is due on the XXXX and I don't get paid until the following week. It's been a very convenient way to get the cash I need quick. I would much rather be independent than to ask for help from my parents.

The cash advance is what I use to hold me over until my next check since I get paid every other week. I probably wouldn't have been able to make a savings level if I've needed the extra money to do so without the advance.

The cash advance has gotten me through some really rough times in my life. It's pulled me out of many of jams. I had exhausted all my other options and the cash advance really helped me save my job.

I don't know what I would do without the cash advance. Its so nice to know I have a place to get some extra money when I have a situation I may need help with. Honestly if it weren't for the cash advance there would have been XXXX times when I would have been out on the street.

I work at the XXXX and my hours go up and down and I use the cash advance to help me extend my checks sometime and with my child just starting college the cash advance has helped all of us. It helps us keep our budget in place and bills paid on time and avoid any late fees.

Me and my wife actually used the cash advance to help us top off what we saved for a down payment on a car. It really nice to have a way to get a quick loan with reasonable interest rate for a short term situation.

The cash advance is a blessing to me to help me out with my bills. I have kids in college and sometimes I use it to send them money to help them out and mostly it helps me when I run into a rough time and need some quick help.
I don't use credit cards anymore because I like to use the cash advance like a credit card. It's much better to have a short term loan as opposed to having something long term. Recently it helped me with buying XXXX presents. It forces me to stay on top of my bills. I don't use it often but its a great tool.

Needed to help pay bills rent. Very needed service and has taken a burden off my mind.

Short term loans have enabled my family to pay unexpected bills. They have decreased stress and anxiety.

Cash advances are the best for the customers of Florida because it gives us a chance to live life conveniently. The cash advance programs allows us to make payments for household and business dealings when cash may not be a commodity. Having that opportunity prevents utilities from being turned off or terminated, rent payments to be made without eviction, and car payments to be made without repossession. I do at least one cash advance a month and without that option my life would be much more complicated and stressful.

A phone number called my mother in Virginia, and left a phone number to call back. The phone number that was left was XXXX, but when I called it back it was out of service. My mother looked up the number they called me from, and it was from XXXX. I called the number back, and when I called the number back, they said they were sending a 1099-C form to the IRS to hold my earnings from a payday loan I took out some time back. I asked what the name of the company was, and they said CSC. The told me before I go to jail, I must pay this loan or set up some type of arrangement to pay this loan today. They told me that I have to pay something this month, and they dont care if I pay it or not, but if I didnt, they were going to send the police to my job to put me in jail. I asked to speak to the supervisor, and the supposedly supervisor was just as nasty, and told me I had XXXX seconds to give them my info, or he is going to hang up, and get the authorities to me within the next XXXX hours to have me locked up. He would not work with me on a payment arrangement, he gave me my social security number, address, and birthday. I told him that I am the right person, but I knew that this was a XXXX party collection agency. He told me they were the litigation department to try and settle debts before they go to court. They threatened to have me locked up, and even told me that I'm on a recorded line with the courts. I asked to speak back to Mr. XXXX, and when I was placed on hold, I hung up to avoid any further harassment. Please help me, I know they are a collection agency, but they are harassing people and also scaring people with this "lock you up tactic they use. I dont know if they are legitimate, and refuse to give any of my personal info to a company that clearly breaks the law of the Fair Debt Practices Act just to get a payment out of someone.

The cash advance is a last resort for me when I dont have any other option. For example I used it a lot during the holidays to help me pay my bills when I paid my bills and didnt have enough to buy anything. I would be miserable if it wasnt around.

Sometimes I just dont have enough money for my bills and when I dont I can use the cash advance to help me so I dont fall behind. I will also use it to send money to my family.

I am the head of my household and the only one bringing in a paycheck and my bills just dont line up with when I get paid so whenever I need help getting something paid, I will use the cash advance to get me through until my next check comes in. This gives me the independence to take care of things by myself instead of asking from someone else.

If I have a time when I have to pay a bill and I dont happen to have the money for it, Ill get a payday loan to help me out with getting it paid. My choices are very limited for someone in my financial position and age so the quick payday loan is a great thing to me.

Being a single parent there are times when I just need a little help for things such as phone bill, groceries and gas for the car. There isnt anything else I can count on for this type of help. I have no idea what I would do without it.

Sometimes I use the cash advance to complete my rent or just to have some extra money until my next XXXX check comes in. I have no idea what I would do without it. I dont have any other ways or means to get cash fast when I need it.

Whenever I need help paying my bills paid on time especially when XXXX is due before I get paid, I use the cash advance to supplement myself until I get paid again. Other than that I would just have to be late and get the huge late fees or overdraft fees if I wasnt able to do an advance on my paycheck.
I use the cash advance to help me with my co-pays for my doctor visits and my cell phone bill. I only get paid XXXX a month and its helped me out a lot. I dont want to borrow from my son and be a burden to him so its nice to have this to help me out when Im just a little bit short on getting something paid.

My budget is pretty tight and whenever something happens to come up its easy for it to go off track and thats where the cash advance is there to help me out and get back on track. My only other option to get this type of help would be to go to a pawn shop which I refuse to do.

The cash advance helps me pay my bills like water, electric and also for another large loan I have out. I get paid XXXX and sometimes I run short to get these things taken care of. I will also use it at times to send some money to my family. I guess the only other thing I could do would be to ask the people I owe money to for an extension but thats usually pretty hard to get.

Im using the cash advance to help me pay a bill I just dont have the money for right now. This is much faster than getting any other type of loan. If it were for this I would have had something shut off so Im happy its here for me.

I will use the cash advance to help me pay my bills and get my car fixed when it breaks down. I think its the easiest way for me to get some extra cash when Im broke. It really relieves stress on worrying about my bills being paid on time.

I use the cash advance to help me with my bills and for emergencies that come up like car problems and to purchase eye glasses. I even used it to buy food when I dont have any money left over to do so. I would probably have to only pay XXXX my bills if it werent around for me to use.

I have received more than XXXX different emails and phone calls from various "Payday loan sources" that are threatening to have me physically removed from my job and brought to court on "violation of Federal Banking Regulation", "collateral check fraud", "theft by deception" and "the biggest one of all is E.F.T that is electronic Fund Transfer". that they will inform my superior at work what I have done in the past and to garnish my wages. They threaten that if they do no hear from me within XXXX hours from the date of the email, that they reserve the rights to inform the FBI, my employer and F.T.C. about the fraud I have committed. I will be responsible for $XXXX in court costs. etc.

The letter is signed by XXXX, Cash Advance, Inc. XXXX, XXXX

I XXXX did call the number given and it was a XXXX person speaking terrible english and plainly was illegally trying to "scare" me into paying fees I do not own. When I called them out on this, and said that the tactics they were using were not legal in the united states they became very angry, shouted and told me never to call this number again, and they would see me at my job when they drag me to the courthouse.

the fact they have my personal information, I am unaware of how they obtained this makes me very nervous.

These people have my social security number, my email address, my phone number etc. I do not have a loan with them.

Sometimes my employer cuts my hours at work and the cash advance helps fill in the gap of pay until I get my normal hours back. I would have been I a bad way if not for this. I am trying to find a more steady job but for now this is helping me pay my bills on time.

Normally I use the cash advance for unforeseen expenses that come up especially during the holidays. Mostly I use it because I find it to be very easy and not long term. I much prefer going about helping myself out this way instead of using a bank or credit union.

When I was out on leave for having my child, we only had one income so the cash advance was a huge help to me and my husband until I got back to work. It helped us keep out bills paid on time. Out credit is not so good so this was our only option. I would not want to borrow from my family because these are my bills.
I primarily use the cash advance to help me with my cell phone bill which I just got a new expensive phone so I need some help paying it off and paying for my plan. The interest is much lower than my credit card or other things. I'm not sure what I would do if not for this except run up my credit card.

Basically the cash advance helps me with the everyday bills around the house when I'm waiting on my next check to come. It's a very quick prices which I really like. I like to stay away from credit cards.

I use the cash advance to help me pay my bills and get me through the month. I find it to be a very easy and simple way to get the help I need fast. More or less, this is my only option being on a fixed income.

I use the cash advance for mostly when I need to buy gas or when I'm short on money to pay a bill. I'm trying to work more overtime at so I don't need to do this but for now it's really helping me out a lot.

I use the cash advance to help me pay my bills and get me through the month. I find it to be a very easy and simple way to get the help I need fast. More or less, this is my only option being on a fixed income.

I use the cash advance to cover me when I'm in between checks when something comes up and I need some extra cash. My only other options would be to get another job which is hard to find and also hard to find the time.

I'm rather limited in what I bring in each month so the cash advance helps me keep caught up in my bills and general finances. Without any real credit so I don't really have any other way to get a loan. I don't have any other way to get a loan so I would probably have to work something out with my creditors if the cash advance was not around.

With only getting paid XXXX a month and I use the cash advance to help me out with regular bills and for medical bills that come up. It's very convenient to me. If it wasn't around I would have to probably try to borrow from family and friends and would probably have a lot of late fees piling up.

I'm on XXXX and the cash advance helps me stretch out my money from time to time to help me make ends meet. The cash advance was hassle free and quick which I really like. I'd much rather do things this way than to go into my savings or even my XXXX which I want to leave just the way it is.

I usually run out of money before I get my next check and with child support, I will get a cash advance to help me with food and gas. The speed and how easy it is to get a cash advance is what drew me to it. I'm in the process to budgeting my money better but for now its helping me out.

The cash advance helps me with paying my bills and I also use it to send money to my children to help them out. I would have to either pawn or sell my jewelry if the cash advance wasn't around.

I got in a little bit of a bind and and the cash advance really helped me get through a rough time. My options were pretty limited so I chose the cash advance to get the help I needed. I would probably be very hungry and would be missing a lot of my medications if not for the cash advance.

Usually after I pay all my bills I don't have much left over from my XXXX check so when ever I need a little extra money for anything like groceries or gas or just everyday living expenses I will get a cash advance to help tide me over until my next check comes in.

I just received a computerized phone call from PayDay Loans. The call informed me that I had been approved for a $XXXX loan that I DID NOT apply for. The instructions were to press XXXX to accept the loan or press XXXX to decline the loan & have my number removed from their list. Of course, I pressed XXXX. This call came in on our home phone which is an unlisted number & registered on the Do Not Call registry. Also, what if XXXX of the grandkids had answered the call & not knowing any better, pressed XXXX...then what? Needless to say, I am pretty XXXX about this. If there was a PayDay Loan in my area, I would be paying them a "not so friendly" visit.

The way my bills are due at all different times and with the way I get paid, the cash advance is my best option to help me get them paid and taken care of quickly. It's a real easy way to help me out. In fact, I've also used it when I need some cash to use to go out of town for things.

I've used the cash advance for things such as holiday presents and for a car repair that needs to be taken care of quickly and I done get paid until Friday. Usually its my only option because my credit card is maxed out so this works for me.

Whenever I get in a rough time I've used the cash to help me make sure that my checking account doesn't go in the negative. If I overdraw my bank it would cost me way more than what it cost to do a cash advance.
I've used the cash advance to help me when I have car repairs or to help me with an unexpected bill when it comes up. I don't have any other options at this point. I don't know what I would do if it were to ever not be around for me to use.

I use the cash advance for monthly unexpected things that come up like for instance my quarterly insurance payment. I find this to be the most affordable way to get some extra cash instead of borrowing from someone or going to a pawn shop.

I mostly use the cash advance to help me pay my rent. I will also use it to help me put gas in my truck when I'm waiting on my monthly check to come in and I don't have anything left. I find this to be a very easy way to get quick financial help.

The cash advance helps me out in so many ways. I recently overdrafted my checking account due to the holidays and needed to get some cash in there quickly to be sure not to bounce anymore checks. I'm on a retirement income so its always the same amount coming in so when I over spend, the cash advance is there to bail me out.

When I run short on paying some of my bills like electric or cable or something like that I'll get a cash advance to help me get them paid on time. I found this to be a quick solution to my cash needs. If it weren't for this Id probably have to try to go to a bank or try to pawn something.

I use the cash advance to help out a friend locally each month. She works but doesn't make a lot of money and I'm able to help her out by giving her some money to make ends meet. This way I don't cut myself short on paying my bills.

The cash advance has helped me with paying my car payment and car insurance when I run short on those XXXX things after all my monthly check goes towards other bills. I've also used it to purchase groceries and gas for my car. I don't like asking my family for help because they either don't have the money but really I just don't want anyone else to know my business.

I'm on a fixed income and with only getting paid XXXX a month and when things go wrong like a car repair or something needs to be fixed at home, the cash advance has been there to help me get those type of things taken care quickly. If the cash advance wasn't available to me then the things that I needed help with wouldn't get taken care of for a long time trying to save for it.

This has helped in so many ways from gas for my car to get to work to paying for bills that are due great service.

I love being able to have this service has helped with last minute bills

Short term loans are beneficial in many ways, if you're in between paydays or just got laid off & your bills are due you can get a short term loan. My personal experience has been fantastic, my vehicle broke down before XXXX and all of my money had been used and my bank wouldn't give me a loan due to my credit. Short term loan companies are essential in communities, they help lower to middle class citizens make it in these economical times.

Payday loans are a big help for my family, to end this is big for my family.

Helped with pg&e price up XXXX/XXX/XXXX-XX/XX/XXXX and food

The payday advance works for me whenever I'm in a tight spot and my payday is not close. I've used it many times for things like fixing the car.

I work hard to pay my bills on time and provide the necessary items for my family. When an unpredictable situation (Medical problem or car problem) comes up I don't have the extra money to take care of it. I found that the payday loan company can help me get through the emergency. They have really helped me a lot.

Our TV went out and with XXXX children we needed to get one asap. Our payday was XXXX weeks away so we borrowed money from the payday loan company. We paid back on our next payday.

Payday loans are great when I needed money for bills and food. You can pay back on next payday and borrow again when the need comes up again.

Short term payday loans help me pay my bills on time and avoid late charges.

January 4, 2015
Sunday, XXXX/2015: I’ve been seeking a payday loan and the latest “offer” I’ve received is from Faster Financial, claiming to be located in XXXX, Wash. I was directed by this company to website “12345credit.com” for verification of my credit score. Fortunately the site was temporarily down and my request could not be processed. Faster Financial gave me directions to complete the credit check and agreed to call me back in an hour. The rep refused to give me her contact number. She also spoke with a slight XXXX accent, not suspicious in itself, but coupled with the lack of a contact number and my browsers reluctance to allow me to enter the credit site (said the site was not “private” and could not verify the certificate) caused me concern. I say fortunately, because it gave me the chance to look into Faster Finance. And apparently, theyre not licensed for loans in either Washington for thru the federal government, and have been connected to identity theft and fraud scams out of XXXX. I needed that loan, yet feel I’ve dodged a bullet! I’d be interested in knowing if I’m correct, or if my lights will be turned off for no good reason?

Payday loans help me pay my bills and the staff is very helpful
The staff is very friendly and helpful. When bills are due and I don't have enough money, payday loans are a great way to go and keep you out of debt.

It really depends on what I use the cash advance for but mostly I use it to help me pay my bills, especially my rent. It's much smarter for me to pay the small fee for the advance instead of paying any kind of late fees that would happen if I were late on my bills.

I use the cash advance for everything from helping me with my rent, paying my electric bill to even buying groceries. I'm the only one in my house working and it would be almost impossible to make it without the cash advance for me to use.

The cash advance helps me sort of float my check so I can pay my bills on time and continue to take care of my kids. I don't have anything to pawn so the pawn shop is out of the question. There really isn't any other back for me at this time.

Payday loans help me with my financial needs when I'm in need to pay bills or buy food, etc...

The cash advance helps me out most of the time with my utilities when I don't quite have enough to get them paid on time. I choose the cash advance because of how easy it is and can be paid back quickly. My only other option would be to go back to work but at my age that's really hard to do.

Mainly I use the cash advance to help me pay for my car insurance that just went up. It also has helped me with my car payments at times. The cash advance is a much easier way to get cash fast when I need it. Being on XXXX it would be so hard without this.

The cash advance is used by me primarily for help with bills but sometimes I'll use it for some extra spending money when I need it. I use to go to the pawn shop but was getting to be way too expensive and I risk losing my things. This is much more affordable.

The cash advance helps me especially with my rent but have used it for all types of bills and even food. It helps me catch up when I fall behind. I would have a a great deal of financial problems if this wasn't available to me when I need it.
The cash Advance Helps me out with paying my electric on time and sometimes gets my daughters med and other things. I already have XXXX jobs and I really dont have time for another so this is really good for me at this time. We all just need a little help sometimes.

The cash advance helps me whenever I am short and trying to pay a particular bill. It good for me because its just a short term solution to my needs. Other than that I would I probably have to get some sort of part time job.

A payday loan has helped me and helped me and family because I had a bill that was due and I did not have the money but I was able to get the payday loan which helped me not have any of my utilities be interrupted. It has also helped me to pay my car insurance too.

The cash advance helps me whenever Im in trouble and need help paying some bills and keeping my car on road. I found it to be a fast and effective way to keep out of the hole when bills pile up.

To pay my car note

I get paid XXXX a month being XXXX and the cash advance helps me with all the little stuff that comes up in between when my checks come in. I find it to be an easy way to get some extra cash. It would be a major reconstruction to change things.

payday loan has helped me out by giving me the money that I needed for my use to help me with my light bill. ran short of money due to an increased light bill. nowhere else to borrow money in this short time.

When ever I need help with my bills and I dont have anyone to borrow from I get the cash advance to help me out where others cant. I dont have the kind of credit to get a loan from a bank so this is a blessing to me and my family.

When I fall short on my paycheck and need to pay some bills or something like that, Ill get a cash advance to get some cash to put into my account to cover those things. I've tried other ways to get some extra cash from other means but it is way too expensive. I choose this way instead of anything else that is out there.

The cash advance help me out during the holidays to help me buy presents. My VA Check only comes XXXX a month and Im short sometimes so this is my way of getting by until it comes in. During this time of year I also like to use it just to have some extra cash on hand for when family comes into town.

My payday advance works for me in time of need. Today I must make repairs in my home and iIl dont get paid for another week or so. Now I can make the repairs needed and pay my loan back when i get paid. This is a needed service to the community and it helps the consumer to meet their financial needs in an emergency.

Hello...To whom it may concern,,This story is not meant to be to a complaint,or litigation against a particular company,in fact it is considered a wake up call for individuals,such as myself and the public who might be misinformed,unbeknownst,possibly naive in these matters and educating the public,considering its XX/XX/XXXX,we all come to a time and make certain choices good,bad,or indifferent and towards the end of the reality factor,it usually smacks you right in the wallet...if not in the face.the issue..payday loans.when making a payday loan,and needing extra funds for whatever,seems our factor is more convincing to us,than the possible drawbacks of he consequences.I,have made a loan for reasons.In all honesty to repay my debt.after reading the reviews,and there are many situations,I have read about in the last couple of weeks.I have realized beyond a shadow of a doubt,that I could possibly be in trouble.not as far as the monetary reasons,but pure dishonesty,integrity,for reasons that my intuition and gut feelings are guiding me in lifes situations,which are never wrong.Having to make a choice in this matter is a trying revelation...honesty,Integrity,unsurety,and not knowing,just how to handle this situation.First,I made the loan,signed the papers,for a small amount,for the money back by a certain date,The amount..$XXXX.Never informed as to the %rate,the fees which are written in a contract ,that most individuals couldnt possibly decipher ,unless your an accountant or lawyer,and the dates that seem to change,to there convienience,computer gliches,causing things to bounce,and more interest fees,bouble debiting,unautherized debiting,and on there part seems like insincere apologies,payments being different than what was quoted in the beginning,causing this neverending chain of events that could go on forever,extensions that were never even addressed,in order to keep the paymentscoming,and dont even try any litigation against this company,as part of the original contract which could possible turn into a court order,garnishment,fees,court ordered moneys,and a whole array of problems..enough said,but...this hasnt happened to me yet..I made the XXXX payment, of $XXXX  which covers the interest and fee,for the loan amount of $XXXX,plus the $XXXX,which would of made it $XXXX total,all the interest and fees to be paid first and never touching the principal to bring it down.The truth of the matters is,im very leary of what could happen,so I agreed to have the payment debited, the interest and fee together and will be applied.now,when I call and tell them I would like to pay $XXXX,which is XXXX of the principal ,and the interest and fees totalling $XXXX +$XXXX equals $XXXX.the supposed last payment which would be the same,totalling the same amount which comes to the same amount,thats should be payed in full...Im hoping nothing changes again,because of what I will be paying,for the loan amount of $XXXX,....so,wht is one to do??......sincerely anonamous

I needed money to get a water pump for my truck so I went to a payday loan company. I had just got paid but used all that money to pay bills with. I went to a payday loan company and borrowed the money. When the bank gives my money back I will repay the loan. I am very grateful that I could get the money needed for my expenses.

The cash advance process helps me because it helps me when I am short paying my bills if the cash advance program was no longer available I would find it difficult to keep up with my bills. Its been a great service to both me and my family.

The cash advance is a big help for me when my check is not as much as it should be to get my bills paid like rent, truck payment insurance ect. I would probably have to change my lifestyle of it wasnt around.

December 12, 2014  Since my husbands lay off we needed to take out payroll loans. They have helped us but they are hard to break away from. Once we get back on our feet the payroll loan would be a great fix for emergency situations but not to be dependent on.
This short term has help me make paying all my bills when I running low on cash. Couldnt do without its a big help especially if you cant get a loan from a bank. So its something positive to get people just trying to make it.

Thank you

This has helped me tremendously when having emergency difficulties. Also pay some other bills on my financial status. Sometimes Im short on cash.

When I get kind of behind on my bills ill get a cash advance to help me out a bit. I have credit cards but Id much rather go this route instead of letting them pile up and have it affecting my credit in a negative way.

Its good for when you need it.

It has helped me pay some unexpected bills and expenses.

Very convenient just what I need when I need it.

The cash advance helps me pay my rent, for groceries, buying diapers for my child or really anything that comes up. You can always count on how much your bills are going to be but you cant count on what life throws at you at any given time. It would just be a struggle without it.

Payday loans are very helpful. Sometimes I dont have enough cash to make ends meet.

So when I need some extra cash for things such as bills, groceries and medical bills, I will get a cash advance to get the help I need quick. I would probably have to get a XXXX job or something like that if it went away.

Payday loans are cheaper than taking money out of my XXXX.

Too much paperwork. Its alot easier than banks.

Right now my husband is out of work and we are using the cash advance to help us with the income he would normally be bringing in to help us with keeping our bills current and paid on time. This is much easier than trying to go to our bank.

Whenever I have u expected bills like car repairs the cash advance has been ther for me. Id much rather do this as apposed to putting these things on my credit card which is a a much higher than the cost of a cash advance.

My son lives with me and he just lost his job and the cash advance is helping me supplement his income until he is back on his feet and can contribute the te bills again. We would be going through some really tough times if not for the cash advance. It recently has helped me with a serious car repair.

Overall I have a great experience at the centers! Love the staff!

I needed the money quickly. I didnt want the hassle of going through a loan process at a bank.

1. Help me to make my bills on time.
2. Helps me to not pay bouncing fee $XXXX a hit and after XXXX days its an additional XXXX per day.
3. I rather be able to borrow from cash advance then family because it keeps family and friends out of your business.

short term payday loans are very convenient.

It was more convenient. My furnace went out and I needed quick cash at the time.

I use the cash advance for my for my electri deposit which was almost $XXXX. Now I just moved back in with my ex and he said everything was up to date which ended up not being true so this has been helping me get back on my feet.

The cash advance helps me be able to pay my kids day care when I am running short on cash, if it wasnt for the cash advance my kid would have to miss school sometimes because when I am running low on cash I wouldnt be able to pay for her school, I also use it to help pay my rent when I am running low on cash so it helps put a roof over me and my family.

Everyday bills and especially my rent is what I use the cash advance for when I need help getting them. Id be in a very tight spot if this service ever went away. There are no other option for me at this time.
My child has had some serious medical situations that have come up and the cash advance has helped out my family in a big way in keeping my bills paid on time while this is going on. My family really cant help us so this has been a huge help to us.

I use the cash advance for any emergencies that come up like car repairs or home repairs. The cash advance is a quick fix for any of my financial shortfalls. I would probably have to get a credit card if not for this service and I really dont like credit cards at all.

Cash advance or payday loans have help me and my family in a pinch so many times. It would be a severe misjudtice to take it away.

The cash advance has been a godsend to me. My job has cut back dramatically and I would be homeless without it. All my bills are being helped out by this service so I’m truly hoping it stays around.

It has helped me when I needed emergency cash until my next pay period.

The cash advance has helped me a lot with paying daycare expenses and my utilities. This is my best option at this point because I dont have enough time to get a XXXX job. Im truly greatful for this service and I hope its always around when I need it.

Sometimes I have unexpected things come up like a medical situation or a car repair, so the cash advance is the thing I use to get them paid fast so I can continue to pay my other bills on time. One time I would have actually been evicted if not for the cash advance.

This is my XXXX cash advance and I needed some extra cash to help me with an unexpected expense that popped up and I found it to be a fast process and hassle free. This was my option for this service becaus of how long it would take for getting a loan from the bank.

Usually I use the cash advance to help me out with my bills. Its really helped me with a number of things like buying diapers for my kid to paying my electric bill. I cant borrow from anyone else because they really dont have the extra money to help me out so im great fun to have this as my options for quick help when I need it.

The cash advance will help me get my car insurance and rent paid when it fall in between when my check comes. My options are pretty limited so this has been really convienent for me. I would just have to go without if not for this service.

When I dont have the money to pay some of my bills or if when I miss work for some reason and my check is less than normal, I will get a cash advance to help me get things paid. I dont have any other option at all to get this type of help so this works for me.

If I have bills that come up or if I have emergencies or any unexpected events that may come up, I will use the cash advance to help me with any and all of these. Im on a strict budget so if anything comes up it can through things out of line so this helps me stay on track.

It helps me with the unexpected bills...and for food...if I didnt have this option I would be homeless and starving...or at the least it would be a huge struggle.

I use the cash advance a whole lot when Im short on my mortgage payment. Ill probably not have to do it when my tax return comes in but its been a blessing for me to be able to keep my house. Its always been there for me and I truly appreciate it.

The cash advance is actually helping me live. Ive used it for my bills, vacation and vehicle repairs. My only other option would be to get a XXXX job but they Arent around much that it would be worth all the time it would take so this has been awesome for me.

The cash advance right now is helping make all my bill payments on time and in reality I would probably loose everything I have and my children wouldnt have enough to eat. So in a nut shell, I would be lost without it.

Instead of asking for money from my son or daughter, I use the cash advance for helping with my monthly bills and groceries. Im on XXXX and its not that much money to get by on so this is a huge help to me.

I use the cash advance for bills and shopping when Im short on cash for the month. I choose to use the cash advance instead of using my family and asking them for any money.
When I need help getting me through the rest of the month with my bills and gas I use the cash advance to make that happen. I would much rather do this than trying to borrow from my mom or dad.

The cash advance has help me out in a big way. My job has been cutting hours and so my bills still keep on going so the cash advance has been helping me stay current with everything and keep my family with food on the table.

The cash advance helps me to pay all my bills and with the holidays here, shop for my gifts. I am a new customer to Amscott and the cash advance service is great! Its fast and the loan is easy to understand thanks to the staff.

Whenever I have mid month crisis with either bills or general things I need help with. Ther is absolutely no other avenue that I have for this type of help. This helps me each and every month with my medical bills since Im a XXXX vet.

They have helped me by providing me with extra funds to buy groceries for my family for the month.

I have used short-term loans for quit some time. They have really helped me whtn I was in a financial bind. The very first time I used this service is when my motor went out in my car. I came in filled out app. and received the loan with no problem. I believe I wouldn't have had it this easy with the bank. Another time is when I had an emergency where I had to make a trip to Texas. Again I had no problem with getting a loan. Overall they have been there for me. Thanks

I received a phone call on my work number cell phone today. The gentleman I talked to was named or supposedly named XXXX. He said they are trying to reach me because they are trying to collect on a Pay Day loan that was taken out in XXX/XX/2011 for XXXX. He gave me an address that I no longer live at and I said I dont live there. I did not give him updated information. I asked the name of the company and he said Alliance Group in XXXX, CA. I told him I never took a loan out nor did I try to so I am guessing this could have been the result of a bad relationship I was in. He said I owe the money and I should settle immediately or they will have to take further action. I told this person I was at work and needed to call back when I get home from work. I looked this business up online and many names came up with the word Alliance in it, but none with that name. I did a reverse phone check from the number this person called from (XXXX) and it comes out as a number from XXXX, RI, more than likely a residence. I suspect this is fraud and am not going to call this person back. I am hoping my experience will help others out there.

Applying for a short-term loan has truly been a help: house emergency, loss of family member, needing food to help feed grandchildren. I have been pleased with repeat as a customer when Im in need. Being on a fixed income makes it impossible at times.

The terms of the loan was explained to me and mostly the manager does a fantastic job with her customers.

Getting a loan helps when I need financial assistance in these in between pay periods. Having to pay school lunch fees for XXXX children also gas in the car can be difficult. Im thankful I can come and get a loan.

It helped me pay my bills that I am short with and it made me more responsible handling and managing money.

Payday loans help me to make ends meet. The economy is in such bad shape you can barely survive without them.

Im a single mother. I get paid every XXXX. Its very helpful to have places like this to be able to borrow from when and if I need it. Im sure this helps anyone who really needs it.

The cash advance help me in many ways. When I need just that little extra money I know I can get it. I use it weekly on bills and soon to be coming up XXXX. I would be broke after paying bills not have any extra money to spend on my kids it would all go on bills. No fun!!!

Im retired and my pension and XXXX check comes on the XXXX of the month but my bills Re spread out throughout the month and I cant get them changes so I use the cash to stabilize my cash flow so that my bills get paid on time and avoid late fees.

With only only getting paid XXXX a month and all my bills are due in the XXXX of the month and usually leaves me with very little for things like food and such. I really dont have any other type of help for me and my wife when this type of situation things come up.
The XXXX main things I use the cash advance for is my rent and electric. I dont have any credit cards so the cash advance is easy for me to take care of my needs. I really dont know what I would do without the cash advance.

Im on a fixed income and prices for everything keep going up so even just the a little thing can throw things out of whack. Right now I have a plumbing problem that I have to have fixed right now so Im able to get a cash advance to get this taken care of quickly.

When I was going through my divorce the cash advance was extremely helpful for me and my kids just to put food on the table. But for now Im using it for the XXXX but it was a lifesaver for me and my family when we were going through the rough time.

If I get stuck on getting a bills paid and I want to make sure I dont get any late fees, the cash advance lets me get that bill paid. Id really be stuck if I didnt have this. This also allows me to keep my older car running because lately there have been some repairs that only the cash advance was able to help me out with.

To pay off my lawyer. Had The cash advance not helped me, I would have lost my house. I had a friend that refered me to this type of service. This is my last time doing this but it really helped me out and I know that in the future its there if I need it.

My bills are so scattered out and the cash advance allows me to have peace of mind getting them paid on time because I get paid every other week and there are always some unexpected things that come up. I would probably have my lights cut off and even have to wake to work without it.

I will use the cash advance to help me out with my monthly bills that may need to be taken care of before my next social security check comes in. I cant borrow from my bank so I would be in a high disadvantage type of situation if this wasnt around anymore.

Bills, bills and more bills is what I use the cash advance for. Its been really convenient for me instead of getting a longer time loan from a bank. This also helps me from dipping into my savings.

Sometimes I run a little low at the end of the month and have some things that come up like a car repair or something happends at my hous that needs to be fixed, is really nice to have the cash advance to bail me out quickly. Id be pretty strapped if I didnt have this because Id really rather not ask my sister for help.

I generally use the cash advance for everything. Mostly Ill use it to help me with my credit card payments, but will use it for anything Id need be. I used to go to pawn shops but they were way too expensive so I really appreciate the cash advance being an option for me.

I couldnt live without the cash advance. Im on XXXX and my bills tent to get out of control and the cash advance has always been there for me for everything including food. I would probably starve if not for this type of service or if went away.
I use the cash advance to help me cover my bills when I need it. Its much easier than borrowing from my family who are pretty tight on cash like myself. Ive also used it to have some extra cash when I go yard saling.

There are times that a bill will come up in between when I get paid and the cash advance is a handy way for me to get that bill taken care of quickly until my next check comes in. Im a single parent and this is my only other option instead of borrowing from my mom.

The cash advance has been a great help to me when I need some extra cash. Generally its for rent, food and just about anything I need help with. Without the cash advance I would fall way behind on my bills from time to time and would take a long time to catch up.

I will almost always use the cash advance to help me and my family stay on top of our utilities bills when they are more than expected. Neither one of us have enough time to get another job so the cash advance really saves us from getting things shut off.

A short term loan has helped me to cover some unexpected costs and expenses that I was able to purchase and then quickly get things back on track. The repayment terms are easy to manage.

We needed a new vehicle and were short a XXXX dollars for the down payment. We came here and took out a loan and got our new car.

Despite the fact that I am on the do not call list, I got an unsolicited robo-call from a pay day lender telling me that the $XXXX loan that I had "applied for" was approved and I should press "XXXX" to access the loan. This appears to be an illegal and unscrupulous marketing ploy. The call was from XXXX and the call was identified as being from "payday loan network" and "my smart cash loans", both of which are probably fictitious names.

My credit history will not allow me to get a loan. Payday advances allow me to get the money I need to pay bills.

They helped me a lot with being able to pay bills. They help when things get tough.
Payday loans help me to pay bills and have money in my pocket. Sometimes needs come up and check into cash is there to help. Payday advances help me pay all my bills and gives me some grocery money. Do not shut down payday advances. If not for this business I would be living on the street. We know that there are too many in that situation. In a bind its nice to know I could borrow money for diapers, milk, or car repairs. It has helped me provide for my XXXX year old son in times of emergencies. Helps with bills that are due before the XXXX of the month. Payday loans are a big help. Please do not stop payday loans.

Im on a limited budget and payday loans have helped me get through the month when I have a bill due. They have helped my family and I when we were waiting between paychecks and last year when I needed to get some work done on my car. They helped out when I was tight on money. Payday loans have helped me put food on the table for my family and get through til my next payday.

It assisted in unexpected bills. Helped tremendously in buying food for the family. Helps in not assessing high bank fees. It helps me get through the month due to high cost of living. When I had bills to pay I was able to come to check into cash and get money so my pg&e wouldnt get turned off. When your sis money at the end of the month money gets short. It helps for last minute emergencies. This situations takes place in XXXX Maine. As a new holder of a credit card for the TJ Maxx, Synchrony Banking system with a small purchase I had a very exhaustive and frustrating experience. The methods used began to resemble the payday loan system.

Although I was not able to clear that up, I started with an online service, I registered the credit card to activate and begin billing. My monthly statements were not coming in as I thought they should, so I would check into the account periodically just to make certain I was not late. As I paid with the pay by debit option I assumed the bill was paid. Soon, I began receiving letters in the mail by the collections agencies. I was concerned that a sharia lending company and bought my debt. If you do not know of the system they can be very predatory. In my case the phone calls were excessive, and I began to be stalked. I would go online and pay extra sometimes double just to cover the just in case issues. As it turned out, their bank would not accept my banks payments. I found this out by constant phone calls by the debt collectors. There was a moment where the interest rate on the late fee would increase with each month that past, all the while I tried to pay online. Finally I came into the knowledge that I could bargain the debt if I could get the company to issue a statement on their letterhead. With the combination of words, please send me a report of my debt from your company and the documented proof that I attempted to pay but the problem came from their end, I was able to settle my case without paying the exorbitant late fee and interest rates which were double the amount of the original debt. The book "Bad Paper" by XXXX helped me form my complaint. It is worth the reading.

Payday helped me pay my bills, light, water, etc.

Help with insurance. Help with utility bill. XXXX income.

Applied for payday loan through XXXX loan. They told me to go get a reload card and put XXXX dollars for verification. I did that and they scammed me for my money. They took my obey never deposited it into my account. He said he wants more and bye he will deposit my funds, this is the ripoff ever!!! XXXX know I feel like a fool

The payday loan has helped me with my bill. Light & water bill.

I chose to obtain a payday advance instead of a different type of loan because I didn't need a lot of cash at the time. I also use the loan not to pay my bills, but to buy merchandise that I use to make a profit.

Trying to fix my car. Cause I had to take a taxi to work.

Has helped me get through until next payday when my funds are low.

On XX/XX/XXXX, it was brought to my attention by XXXX that she had brought few Regence checks in and front desk informed both of us that the office manager were the XXXX that deposited those checks that was made payable to either the XXXX (myself) & the XXXX. So then I emailed XXXX office manager asking her which bank did she deposited those Regence checks. The following day, office manager had responded as follows: "These checks go to XXXX. I don't know why there is a concern over them. As an employee of XXXX all insurance checks are payable to XXXX and they are paid out to you based off of minimum wage and or Commission at the end of the pay period. We have advised XXXX you are an XXXX and all checks are written by insurance to be reimbursed under XXXX tax id. I am not sure where the confusion or concern is. If you have any further questions please contact myself or accountant at the office."

Then I emailed her back informing her that there is no confusion but just the need to know which bank were those checks deposited so that either myself or XXXX can speak to the bank management regarding how can someone cash checks without endorsement especially the checks are not made out to them. Once again office manager responded with the following: Any further information you may need XXXX would like you to call him. Thank you."

I have also informed my patient to contact Regence and their response was as followed: "I just got off the phone with Regence. They confirmed the checks had been cashed but did not know which bank. They also confirmed the checks were meant for you and that both of us had to endorse them. It seems that since they were not endorsed by us, the bank should not have cleared them. They recommended that you speak with the XXXX office to clear it up. If anymore checks come to me, I will make sure I hand them to you personally. Sorry for your troubles with them."

At this point, it is hard not to think that there is a tint of fraud or forgery. There is also a taste of discrimination in race and profession. I can't seem to get the bank information to inquire with the bank about this matter. Any thoughts and/or advice?

It has been helpful to help pay the water & phone bill

When I borrow a payday loan, Im able to pay my bills on time and improve my credit

I use the cash advance for helping me pay some of my bills like light bill, water bill and sometimes to help complete my mortgage payment. I've even used it for gas for my car and some emergency car repairs. At this point if this service was not around I truly don't know what I would do.

I currently utilize payday loans just about every month and have been for the past few years. I ran into some financial trouble XXXX my wife was unable to work and the ability to borrow the $XXXX dollars when I did enabled me to keep the lights and water on. I still borrow the $XXXX per month and it allows me to stay current with all of my bills and have some extra money in my pocket. I get paid XXXX a month and having that money at my disposal has saved me a number of times. I am unsure why the program is in being considered for cancellation but my vote is to keep it going, as there are folks like myself who get into situations that require a little help and Amscot can help.

As an amscot customer I've utilized the cash advance service due to how easy and convenient this service is. For those who are not interested in opening lines of credit it offers an alternative.

The cash advance helps me during emergencies when my paycheck might come out lower than I expected. I would not have a XXXX option for paying bills without a cash advance sometimes.

As an amscot customer I've utilized the cash advance service due to how easy and convenient this service is. For those who are not interested in opening lines of credit it offers an alternative.

The cash advance is very vital for me. I use it to cover my bills and also part of my student loans for each month. If it wasn't for it I would have to ask my grandmother or better yet pick up another job in which I have no time for. The extra money is indeed needed and I always pay it back on time come the due date. I currently need the cash advance until I make enough money to no longer have this as an option to supplement my income.

It has helped me when I needed extra cash randomly. Very quick, feel welcomed and its convenient. Thanks a bunch!

I'm on XXXX and only get paid XXXX a month and its really not a lot to get by on. The cash advance has been a great way for me to make ends meet when things get tough. I dont want to ask for money from my family even though they would do it for me.

It has helped me a lot! And my experience has been awesome!

When all my bills are due at the same time and I get them paid and there isn’t much left over, so when something like a car repair or any kind of emergency comes up, the cash advance is there to help me pay for those things without delay.

Whenever I have a bill that comes up and I need some help with or want to pay them early, the cash advance is my choice of action to make that happen. This is much easier and quicker then trying to get a loan from a bank.

Since XX/XX/2014 my job has a XXX-XXXX week layoff which affects my abilities to meet financial obligations. Payday loans help me meet financial needs without being stressed. I cannot qualify for a traditional loan-payday loan relieves financial stress w/o putting me in debt. Payday loan compensates for any financial stresses currently dealing with.

This cash advance helps me to pay bill, when I don’t have the money to pay at the time. If I didn’t have it, my lights and water would go off, and I will be in dark. So its very important that the keep it to me.

Short term loan is helpful in that it can supplement until payday but the advantage is the payback is the amount of my choice. Without it I wouldn’t have been able to get medication not covered or emergency car repair that was needed for job.

This cash advance helps out a lot when I’m short on my rent or a bill is pass due. Its also helpful when my light bill is more than I have on me at that time I can always depend on AMscot for the cash advance.

The cash advance help me through the year make ends meet. It provides comfort in knowing that I have a system to turn to when know one can afford to lend a hand.

Short term loans are helpful to me because emergencies happen and nobody can help. Whos going to help.? Your employer? No way. The government in Michigan seems to be out of the business of helping people and instead are more interested in helping business. On several occasions payday loans have helped me keep my car, pay my child support, keep my heat on, and made sure I had gas in my car to get to work and keep my job.

The cash advance helps to hold me over and get my bills paid until my next paycheck comes in. I would really have a hard time surviving without the cash advance. I would have to probably have to ask for government assistance if not for this.

I experienced a temporary insufficiency in my financial portfolio because of a short term I was able to acquire. I regained the ability to provide stability for my domestic partner and offspring. My gratitude can not be expressed properly but it is extensive.

Without Advance America I would have lost my job. My car broke down. Advance America is the best.

If it wasn’t for Advance America it would be hard for me to survive just on my paycheck alone.

It makes it easier for me to pay bills and make XXXX payment to cash advance I am a waitress so making cash on a daily is hard to track paying bills. It makes taking care of emergencies a little easier.

The cash advance helps me out when I’m in need to pay my bills to get my car fix or help my kids out when in need? If the cash advance stops it would put me in dyer need a bad struggle so my payday loan helps me out a lot.
I have used the cash advance to help me supplement my income with me being on a fixed income there are many times when I need help with my bills. My husband I could not make it without it.

I mostly use the cash advance to help me pay my bills when I run out of money until my next monthly paycheck comes in. I would be in a big jam if this went away. I find it to be a blessing to have this option for help.

My bills tend to fall in between when my pay is and so whenever this happens I will use. The cash advance has always been there for me and my family. Its been a very important to keep my family going from week to week on a temporary basis.

I dont know what anybody thinks we are going to do if there isnt a cash advance to help people like me out where you cant get any other type of loan because either you dont have any credit or your credit is bad. The cash advance has helped me out when there have blocks of time when Ive needed it to pay my bills and just live.

The cash advance help me get my rent payment mostly but in reality I will use it for almost anything that comes up where I just need some extra cash to help me get by. The cash advance is a great way for me to get help paying my bills like car insurance ,gas and utilities. Its been a great help for me to keep my financial situation on an even scale.

When I use the cash advances they towards my bills or I use them to help me with what I need for my children. If the cash advances were to stop Iwouldnt be able to get help from anywhere else

I was in the process of moving and buying a house. I needed the extra money and it helped me get to my next payday.

Utilities keep getting higher and higher so when they are higher than Im ready for the cash advance keeps them paid and for me not to fall behind. For now this is my only way to get them paid so I really hope its around for a long time.

A short term loan from advance America has helped me very much. When I initially came to the store I was told I was not able to cover my rent due to a loss of income. I have no friends nor family that I can borrow from so payday loan was my last resort. Without the loan approval from advance America I would have facing homelessness and thats as real as it gets. Thank you advance America with your payday loan program.

The cash advance has been helping me pay my bills as I only get paid XXXXtimes a month so when I run short on cash and I need to pay a bill, the cash advance is there for me to get and pay those bills and avoid late fees.

I was a single mother and I use the cash advance to help me with all my expenses. Ive also used it for birthdays and holidays. I no longer get anymore help from my family and Im only making minimum wage so this a great service to help me out each month before I get my paycheck.

I am on XXXX and when I get in a bind and I need help with some of my bills because my payments just doesnt last as long as it use to. Im trying to budget myself a little better so I dont need this but for now its a wonderful option for me.

When unexpected things come up like a doctors appointment or when I have some things at the church I want to help them with. This also helps me with bills that come up that maybe I forgot about or if I have a car repair that comes up.

I have been a customer since XX/XX/2007 and you have been there in my times of immediate help with cash....
A lot of times I'll use the cash advance to help me pay my water and electric bill. I have XXXX kids and it helps me with the expenses that come up running a household. There are even times when I just want to have some extra cash in my pocket until I get paid. I don't have enough credit to get a regular loan.

The cash advance has been there for me thought the year whenever I need some help with something that comes up. In probably another month I won't have to use it again unless something else comes up where I need some extra cash.

Cash advance help me pay my bills when I come up short and help me with food for my kids if I didn't have it I wouldn't know what to do. It really help me out.

In Wisconsin there is no cap on interest rates that Pay Day Lending institutes can charge, which results in predatory lending practices that keep people in poverty. About XXXX years ago state legislation designed to cap interest rates at XXXX% failed. The number of pay day Lending institutes in my community of XXXX, Wis. is shameful. Is there anything that the CFPB can do that would move to establishing national pay day lending rules and interest caps? Since my state has failed to act, is there anything that my city can do that would limit pay day lending? How can we, with my neighbors, change the system, in the face of a wealthy and powerful Pay Day lending lobbying group? My neighbors should be able to get a square deal when it comes to borrowing money.

I live in Mo. XXXX US Con. District which is the poorest district in the state and the XXXX poorest in the USA. Payday lenders are as common as quick shops here. One of my classmates was in the business for a while and laughed about how naïve the people were who came in to get a loan and how once in they never got out. This is about payday loans they do serve to help, but the minimum that they will loan can be to much for some one on a fixed income. A $XXXX minimum can be to much to part with at times, if that could be dropped to $XXXX as a minimum. It would far easier to walk way from,as it is meny will find themselfs with a perment bill because they cannot aford to pay it of. Now getting rid of payday loans I dont see that as being workable there are already many people dependent on them. Now to the banks that want to get rid of payday loans. I dont think you would see any banks make any atemt to do much line.

In my current checking account I have bill pay set up. On several occasions lately my bill is being paid prior to the payment date set. The copy of payment sent shows a date in which bill was set up to be paid But it is being received and deducted from my account prior to the stamped/bill date. In turn causing an overdraft and fee the bank charges. This does not seem legal to me. Just the other day I went to cash a check that was post dated and told I would have to return the next day to cash. Before I file a complaint I need to know Legal or not.

Basically with the way I get paid doesn't line up with my bills I get the help I need with a cash advance to help me get them paid on time. I would probably be out on the street if I didn't have the opportunity to have a cash advance to be there for me when I need it.

Whenever I have emergencies that come up like car repairs or when we needed to buy a plane ticket to go out of town quickly we will get a cash advance which is quick and easy. We would rather do this than put these type of things on our credit card.

When I have a bill that needs to be paid now or if any other type of emergency that might come up I get a cash advance to pull me out of that jam I am in a hurry. Where else am I going to go to get fast cash at a good rate? Nowhere!

I use the cash advance to help me with my bills like my electric and car payments. I would have to make some changes in my life if not for this service. This has been a quick way for me to get fast cash when I need it.

I use the cash advance to actually help other people I either know or love. My issue is that I usually will have to do this so I don't have to dip into my bank account. It has been convenient for me and inexpensive.

The cash advance helps my family out tremendously as there are times when we just need a little help to get through until the next week. We don't use it all the time and with no credit cards available because we filed chapter XXXX this was really our only option.

I needed to get a cash advance recently to help me to put gas in my truck because I was short on cash and my check wasn't going to be here for another work. If I wasn't able to do a cash advance I wouldn't have been able to get to work for the week. With nobody else to borrow from this was a great deal for me.

Sometimes I will use the cash advance to help me pay some of my bills and other times it helps me be able to help out my daughter that is in college. It would be a real struggle without this as I already have XXXX jobs.

My hour go up and down because I am in the XXXX and I will use the cash advance during the slow months to help me pay my rent and any other bill I need help with in the slow season. Work is picking up now so I shouldn't need until the busy season is over.

We have been able to have emergency repairs done thanks to the payday advance where if we would of not had these funds we would of been without for our family. We appreciate the access that we have had to these types of emergency funds!

Able to assist my family (mom and daughter) when my cash in low. Also help me when I was XXXX to keep food and utilities in my home.

I used payday because I have multiple kids at home that when I'm low in cash to feed them.

When I have bills due between paydays it helps to keep utilities going and not get shut off. If I have an emergency like auto repairs.

Helped me get my medicine. I have XXXX Medicine is very costly.

We have XXXX stepchildren that moved down here from XXXX and we have been helping them out and that is just adding to our bills and driving them around for job interviews. It would be really tough without it and would probably have to sell some of our things.

Im usually short on cash because I only get paid XXXX a month being on XXXX and really the cash advance helps me buy food because once all my bills are paid off there isn't enough left for food for the month.

Helps with unexpected expenses such as vet bills, college expenses for my child and unexpected medical issues. Without these advances I would not be able to assist my child with graduation expenses or provide emergency healthcare to my pets.

Cash advance helps with bills like insurance, car maintenance, gas, phone bill, etc. without cash advances, I don't know of any other options to help with my bills.

I use the cash advance to help me with my Bills such as rent, electricity and phone. I already have XXXX jobs and don't have time for another so if I didn't have this to fall back on when I need help with a bill it would probably just have to be late and then might get shut off.
Payday loans have helped me immensely in meeting my needs. I couldn't make it without this service.

I have a lot of medical bills and with my husband getting his job cut in half it would be almost impossible without having the cash advance to have to get us the extra cash we need to get by. We wouldn't be able to pay our doctors bills if it weren't for this and if you don't pay they won't see you again.

We just moved down here and we are retired and we use it for having some extra money on hand when we need it. Could be for a trip or going out to a nice dinner. Its an inexpensive way for us to just get a little cash while we are waiting on out social security checks.

With the economy being what it is and with my low paying job I use the cash advance whenever I need it. I've use it for so many things that its hard to put it all down. Its used for medical, bills and food to help me and my family out. I have no idea what I would do without it.

Its helped me with car repairs and sometimes I was able to help someone else that greatly needed help with shut off gas so their children wouldn't be cold.

When the end of the week comes and I am short on cash to pay some bills, the cash advance sure has been a great way to get these bills paid and avoid late fees. With only working XXXX hours a week it is hard to make ends meet.

Use of payday loan-type businesses has helped me during financial shortfalls due to reduced employment hours at my job. The businesses have also been beneficial and a blessing when I had a medical emergency XXXX and needed financial help fast.

A short-term loan helped us with our down payment on our new home. Without this loan we would not have been able to move into our new home. We were paying rent at $XXXX a month and now have a mortgage payment of $XXXX a month. Getting the short-term loan has helped us save over $XXXX a month!

When I need to pay my bills, I am able to get the amount that I need. When I needed gas I was able to get money to help until I was paid.

From car repairs to everyday bills, the cash advance has gotten me through some pretty rough times. I'm unable to get a regular loan so this is the only way I can get the cash I need to get these thing paid for and taken care of.

It keeps me up to date on paying my bills.

Mainly I need help paying my car insurance from time to time and recently had to put new tires on my car and the cash advance has been fantastic for me to get the cash you need. I'm currently easing my way out of doing these but I'm glad I had this to help me out when I was in need.

It helped me make it to my next paycheck.

I use the cash advance to help me pay my bills and buy food at times because I'm on a fixed income and don't get much each month. So for now, until prices go down I truly need this just to survive.

If something comes that I haven't planned on like a car repair or anything like that. Its easy and if I need a little more time to pay it back, Amscot has always worked with me getting it paid back. I would just had to have my bills paid back late if it wasn't for this service.

We have no one else we can depend on so it has helped us get moved and to get by on!
Due to higher Taxes household & Taxes out of Social Security and thus is a good source to borrow from.

I come and get a cash advance to help me with my bills and sometimes to just have some extra cash on hand until my next check. Its a much quicker way for me to get cash when I need it.

It really depends on what I use the cash advance. If I have a car repair or any other emergency Bill that comes up and I need quick help this is my choice. The fee is much better that a high interest credit card payment. This year I will probably use for the holidays. They always work with me if Im a couple of days late.

On the week when I dont get my bonus on time the cash advance helps me pay my bills on time without any delay. It was an easy way for me to get the cash I needed quickly. I dont have any other options at this time and it would be very difficult if not impossible to pay me bills.

Generally I will get a cash advance to help me catch up on my bills whenever they fall a bit behind. With my credit score being what it is this truly is my only option at this time in my life. I dont use it all the time but it sure is a great way to get help when I need it.

When times are hard and funds are low, I know that i can always count on a payday loan to help me with my bills, daycare and just to have money in my pocket.

This service provides money when you need it but dont have it (i.e. auto expenses, bills, etc.).

Short-term loan is or can be great for those that do not have access to extra cash. Believe me, nowadays it is difficult making financial ends meet, especially on limited income. Payday advance is helpful because its difficult to borrow mone from banks unless you have excellent credit and friends and family members is not a good source to go to when in need. Payday loan is here. Availble to get through short-term emergency help and often long-term. Unless you have experienced something or a particular situation, believe me you dont understand another persons struggles.

There are times when people have circumstances that are out of their control and in these situations it is a comfort that a payday loan is available to me. As long as they are used responsibly, for short-term situations.

A short-term loan is beneficial to everyone who gets one because it can really be helpful in ones times of need. For me a short-term loan was very helpful when I got sick and didnt have PTO to cover my sickness. I turned to a short-term loan to help cover some of my bills. If there were no short-term loans, a lot of people, myself included, would have difficulty with covering expenses in an unexpected crisis.
They have been very helpful to us; myself and my husband. Sometimes with it being hard times, its hard to sometimes make ends meet. Such as late water bills, lights, heating bills, car payments, mortgage payments, food bills (I can't eat the foods that my husband eats because I'm in poor health so must eat differently), gas for the car, etc. If it wasn't for Advance America loans, I really don't know what we would do. We are old and sometimes in need of help.

So the cash advance has been helping me keep my bills caught up until I build up some savings. If it weren't for the cash advance I would probably have a lot of bad financial issues and large late fees.

Anytime I use the cash when I get a little behind on my bills the cash advance helps me keep them paid on time until my next check. I'm a single parent and had a roommate that was helping with the bills but they are gone now so money is tight. I'm looking for a part-time job and when that happens I probably won't need to use it anymore.

Whenever I get behind on my bills its great to have the cash advance to fall back on to help me get them paid. My only other option would be to pawn some of my stuff which is much more expensive than doing a cash advance.

Not all my bills come when my SSI check comes in so they are spread out and I like to use the cash advance to help me get them paid off so they are taken care of and it tides me over until my next check comes in.
The cash advance is really my salvation. I was recently charge a lot of late fees for my lot rent and it put me way behind and the cash advance helped me through it. Bank loans are hard to get and Advance America was good enough to loan me the money, fast and easy.

Speedy Cash, took out my last payment of $XXXX then decided to take out $XXXX the very next day without notifying me of why I still owed that amount. I feel they stole the money since I wasn’t advised of why this was taken out. They think as long as they have your financial information they can take out whatever they want to and explain it with lies if you confront them. Amscot Normally the cash advance helps when I get in a bind when some of my bills run higher than what I had expected. It has recently helped me with a down payment on a new car that I needed because my other car wasnt working anymore. I dont have anyone else I can borrow from so I hope this always around to do when I need it.
Id rather do a cash advance as opposed to putting things on my credit card which is a longer and more expensive way to get the help I need. Sometimes it just helps me get a few things paid quickly and on time.

I use the cash advance actually to help out other people that me need some help. These are people in my life that I choose to help without having to go into my savings. Its the best way for me to do what I do to help out other people.

Good for emergencies that come up.

Im using the cash advance to help me with my cash flow as I have properties that I rent out and when I need some extra cash to help me out when a tenant is late on their payment. This is a fast and really an inexpensive way for me to take care of any of my financial shortfalls.

With my health insurance doing up, I have run a bit short to pay my mortgage, so the cash advance is helping me right now to keep my house. There was also a time when my husband forgot to pay our light bill and they were getting ready to shut off our power, and we were able to get a quick advance so that didn't happen.

Payday advances made it possible for me to get my small business up and running.

Like many others out there, I am aware of the fact that payday loans are not to be used as a long term financial fix. Everything was scheduled to be paid accordingly until my fiancees company got into a jam and were unable to pay him XXXX weeks worth of work. This meant that I would be unable to pay all of the loans. I tried negotiating and they would not give me the time of day and would continue to run up the NSF charges on my account even after I asked them not to do so. They said they couldn't work with me and even called my place of work after I asked them not to. Some lenders did not have an answering machine so I couldn't even leave a message. That was ridiculous. Hope something better can be implemented.

When not employed by a payday advance company, I was in school and needed money for my books. At the time I was having my little girl and did not have enough to cover my books. The recession hit me badly, working in the housing industry and a single parent. Now I'm in a better place. In XX/XX/2011, I took out a payday loan which turned out to be from an illegal lender. XXXX from XXXX XXXX operated these offshore shell companies by exploiting a congressional loophole. Eventually he had to shut down most of his operations as XXXX ordered banks to disallow its illegal transactions and is under investigation by the FTC, again. The lender Discount Advances Inc misrepresented themselves with the terms of its loan. The terms were unpayable by anyones standards and renders the consumer unable to recover from the injurious scam. Years later, they sell our data to similar scam XXXX Solutions and other shell companies, same tactic, threatening legal actions. Using numerous phone numbers -XXXX//XXXX//XXXX//XXXX. I ignore them. BUT my data is out there and there are several other consumers victims. We are otherwise very responsible people who ran into financial difficulties. But these scams will haunt us as we recover. Please CFPB, please be very vigilant in capturing and stopping operations like these. Please help us.

We got into some financial trouble and have been able to get some bills paid and get caught up. So we are thankful for this service.

It allows me to pay off what I need now, avoid more expensive. Late fees elsewhere or pay utility today so their not shut off.
I first walked into the XXXX location about XXXX years ago in desperate need of a loan. I had been to XXXX other pay day loan places when a friend of mine suggested Advance America. I had no expectations when I walked in but I soon found that Advance America was a little different than other pay day loan businesses. First of all, I was met with a flood of smiles from XXXX the manager. Then as I explained my situation, XXXX was so understanding and eventually worked with me to get me that loan. Since then I have maintained a pay day loan with the XXXX branch of Advance America. XXXX is now gone but XXXX has stepped in and continued the fine customer service that has become accustomed with the XXXX branch of Advance America. I finally want to stress that there are very few businesses in the heart of XXXX which will allow people who are down on their luck, up against the grind, out of options a chance to keep their dignity and still meet their financial needs. The XXXX branch of Advance America is that business for this particular area of XXXX so I give the Advance America XXXX branch a XXXX star rating for its customer service and support of the people in the nearby community.

When Im short on cash and have to pay something its nice to be able to come in and get the cash right away.

I came to Advance America not knowing anything about this type of business. My wife had lost her job and I needed money to make up for the lost money. XXXX at Advance america was very understanding and helpful. She is the reason that I continue to do business with Advance America.

Money gets tight and I have things come up when I need extra cash. I was able to borrow a payday loan and with the proceeds pay for my kids birthday party!

There are times when paychecks just don't cover everyone. As a single parent with no other source of income except what I make at my job. Sometimes there are needs that my family has that arise before I can afford them. Being able to take out a payday loan makes sure all my responsibilities are handled and my children are taken care of.

Payday Loans have helped me because when I am short for bills it gives me a chance to pay my bills and pay my payday loan back. Don't take my payday Loans AWAY!!

Advance America helped me to get my Chevy back up and running. They also save me a ton of money with money gram transactions and prepaid card fees.

Advance America was there for me when I had car problems. They have been great in my time of need.

I use the cash advance to help me pay my rent, or if I need some help buying groceries in a particular week. Its hard to borrow from family because they are pretty much in the same boat as me and I really want to take care of things myself anyway.

When I need help paying my rent or even putting food on the table we turn to the cash advance to help us out. Without the cash advance there would be times when me and my family wouldn't have enough to eat.

Anytime I need some extra money to pay for things its great to be able to get a quick cash advance to help me when I'm in a bind. This is my only alternative right now so lets make sure its around for a long time.

Sometimes the cash advance helps me out when I have emergencies that come up and being a single parent I'm the sole provider for me and my child. I would really not want to get a bigger and longer time period loan from a bank. This works wonderfully for me.

I make too much money to get help from the government so when I need help getting groceries or gas for our car so we can continue to be able to get to work, I will get a cash advance to make that happen.

If there are times when I miss a few days at work or if I have any unexpected expenses for medical or car repairs I will use the cash advance to get me through these expenses so we can continue to live the way we are used to.

Cash advance has helped me with all the little things that tend to come up during the month. I also will probably use it during the XXXX when money is tight. I would have to go to a family member if I wasn't able to do a cash advance.

I get paid XXXX when the end of the month come there are times when I just need a little extra cash for gas or maybe a left over bill until my next check. There have been a XXXX of times when I've used it for auto repairs.

There have been a XXXX of times when I've needed to get some extra cash when my electric bill was more than I expected and I was able to get a cash advance quick and easy to get that paid. I was able to do this instead of trying to borrow from one of my friends.

I use the cash advance to help me out with my bills and my kids. Helps me get diapers, food, clothing or anything that I might need quickly and my money is short until my next paycheck. I would really be stuck without it.

At one point I was really in a bind and I had some bills that came in that I wasn't prepared for so the cash advance helped me get them all paid on time, no hassle and I was back on track after that. I also use it right before school starts to get my kids what they need for the year.

There are times when I've had an emergency financial situation that may come up we will use the cash advance to put us back on top of our bills and anything that comes up. It especially helped us out when my husband lost his job....it was great for us to be able to get the cash advance to supplement his income until he found work.
When we have any type of emergencies that comes up like medical things the cash advance is always there to help us out. With XXXX XXXX boys there's always a lot going on where they need things and the advance is our way of getting any of those things taken care. I'd rather not pawn any of my possessions.

When I don't have access to funds when I'm in between pay periods I use the cash advance to supplement my income to get those bills paid until my next check comes. I've also used it for some home improvements.

The cash advance helps me out a great deal. I'm a small business owner and it helps me keep my keep myself organized and flush until my payments come in. It's a very profession way for me to do what I do.

When I have a bill that comes up and it's in between my paychecks I will use the cash advance to help me get that particular bill paid until I get paid again. I would much rather get a cash advance than to go to a family member and try to borrow from them.

It could be car payment, electric, water or cable that I need help with and the cash advance has helping me make ends meet. There is no other option for me and I don't have any idea what I would do without it and I appreciate this service.

When I need help staying current on our bills like our mortgage and light bills we will use the cash advance to help us out so that they don't fall behind at all. I'm not really sure what other alternative we would use to help us out at this point.

It really varies on what I need the cash advance for but it can be anything from helping me not overdrafting my checking account to helping me out with my bills when I need it. Sometimes I have used it to help me go out of town when all my bills are paid and there isn't any money left over to do that.

I normally will use the cash advance to help me keep afloat because there have been times when I've just not had enough money to pay a bill or I was just a little bit short. I have no idea what I would do without it.

The cash advance helps me out when emergencies come up like when I pay all my bills and I don't have enough money to pay for gas for my car to get to work. The cash advance is there to buy my gas so I don't miss any work. I've also used it to help me pay for my kids school pictures, yearbooks and other things for my kids need for school.

I have used the cash advance to help out my nieces and nephews especially during XX/XX/XXXX because my sister and her husband are going through a really rough time. It's nice for me to be a good big brother and help them out.

I get paid every XXXX weeks which really doesn't work for me because my bills come in every week and with being a single mom with XXXX kids the cash advance helps me keep my bills paid on time. If it weren't for the cash advance I would be really behind on my bills and I just don't have time to get a XXXX job because of my kids.

I still have XXXX kids living at home and I have a very old house and there always seems to be something that needs to be fixed so the cash advance has really helped me keep my house running. I only get paid XXXX a month and with kids in college this is our lifeline.

The cash advance helps me because sometimes unexpected things happen in life. Sometimes you have to go to the emergency room. Sometimes a bill is more than anticipated. Recently I was involved in a car accident at no fault of my own and the pain causes me to miss work here and there. That means the income that I rely on isn't there. My rent and bills don't disappear just because I was in an accident. So there are times when I need a cash advance to stay on top of bills so that I don't fall behind and end up in a bad space. Not everyone has secure income where they don't have to worry about where their next meal is going to come from. Not everyone is able to have a savings account and actually save for a rainy day. Cash advances are for these people.

If I am short on bills when my check is still not until the next week I will use the cash advance to get me over the edge to keep things like my rent paid on time and avoid a $XXXX late fee.

The cash advance helps me out a lot when my hours at work go up and down to keep me current with my bills like electric or really any bills I need help with. I really don't know what I would do without the cash advance.

This is not a story about me. It is a story, however, about numerous low-income ("working poor") people I know or have known. They have some financial emergency, often rent, and turn to the payday lenders ("check cashing" stores in California). Then they get trapped in an endless cycle of loans and repayments at interest rates that can only be described as extortionate. One loan shark I know (I am a XXXX) said they were unfairly competing with HIM.

Grossly unfair adhesion contracts with banks, insurance companies and HMOs are often accompanied mandatory arbitration provisions. These are touted as mechanisms to reform the civil justice system. In reality they are mechanisms to stack the deck against consumers or other low-income persons, who need to have plaintiffs attorneys working on financial arrangements, usually contingency fees, to restore some sort of balance between the economic power of the parties so that there is "equal justice under law".

Mandatory arbitration provisions in consumer, usually adhesion, contracts, are there to assist the party with the greatly predominant economic power. Allegations that these provisions make the civil justice system fairer are, to use polite language, simply wrong.

Time and again I have seen low income people with meritorious cases kept out of court because they cannot afford a lawyer. My understanding is that federally financed legal services organizations cannot represent civil plaintiffs. (The charter of county public defenders, in California at least, authorizes them to defend low-income people from "unmeritorious" civil cases but I have never actually seen this happen. At all events they are overworked on criminal cases already.

"Tort reform" is indeed needed but it is not the sort of tort reform envisioned by big business, insurance companies and banks. What is needed is more, not less, support for agencies providing legal services to low to moderate income people and strengthening of legal provisions authorizing contingency fees and class action lawsuits.

I was familiar with the death wish of payday loans, and well, I took one out anyways. Tempted by the colorful user friendly advertising I easily fell prey to the jaws of the loan shark. But ok lets get real here, I didnt stand a chance from the beginning and now sit here spiraling down way too quickly into a sadly common pitfall. Payday loan companies like Mobi-Loans can somehow offer settlements to clients then change the terms/conditions, therefore when compliance is attempted it no longer meets the terms agreed on. For instance a consumer could negotiate a settlement, which is a critical payment, for lets say XX/XX/XXXX. A week prior to the settlement the consumer receives a call saying the organization no longer accepts credit/debit cards, oh and it takes XXXX weeks to put banking information on file. Making it virtually impossible to make the agreed payment and incurring a wealth of fees for the struggling american. Its like they said XXXX it - if your not going to pay up, when you try to, we arent going to take it.

The cash advance has helped me stay ahead of my bills...so I don't have any late fees with credit card payments...I do not have any problem paying it back...I use it like getting a cash advance on my paycheck.

I have had to use a payday loan service many times over the years for various reasons. I will say that they are very open in disclosing how the loan works and what the fees are. My bank and credit card companies don't even disclose that as well as the payday company that I use, its not in small fine print like my bank disclosures are. I have and will continue to refer people to this service.

I use the cash advance when I run short on my rent. I've had issues with my landlord so I don't want anything bad to happen so this has allowed me to keep this taken care of in a timely manner on not be late.

Cash advances have helped me catch up on payments that are close to deadlines. Cash advances at times have also help me get back into track with stabilizing my economic situations.

Especially in the summer when work is really slow I use the cash advance to help me pay bills. When summer is over and I'm back to work full time I don't need it. Has been a great help to me during those months.

When I get in a jam I use the cash advance to help me out. Usually I use it for things for my kid because he is in a lot of sporting activities. I had a week a while ago when my tire blew out and my alternator went bad and the cash and the cash advance was there for me.

When my husband got sick and was out of work we used the cash advance to help us pay the mortgage until he got back to work. We didn't want to get locked up in a long term loan that we probably couldn't afford so the cash advance really helped us get through that tough time.

I'm on a fixed income and after all my bills are paid there isn't much left and I want to be able to help my kids out and the cash advance allows me to be able to do that even though my income is low. Because I'm on XXXX I can't get a loan and can't work so this is my way of getting things done.

I get a cash advance every XXXX weeks it helps me fill in the gap that my regular employment check does not cover with the cash advance I am able to pay my car payment and the other missing half of my mortgage.

Many times I require assistance in paying a bill on time or money for groceries. When this need arises I often look to receiving a cash advance to help me out. Getting paid every XXXX weeks can be a hassle for paying bills in a timely manner during this tough economy. Cash advances have helped me in my situations numerous times and I look forward to continue to use them in the future.

I use the cash advance services for bills that would otherwise be late which would insure a higher late fee than what I would be charged at Amscot. Bills that I use it for would be my phone bill, electric bill and car payment. If I didn't have this option for a cash advance I would have to look for a XXXX job.

The cash advance helps me make my paycheck to go farther when I have unexpected expenses that are due such as medical or just lack of overtime at work. I'd probably have to get a XXXX job if not for the cash advance and would be away from home a lot more than I am now.

Short term loans help me in between paydays for gas etc. and pay some bills its a good deal for me.

They have help me by been available to me to pay bills, get school clothes for my kids school supplies and been able to do what I need for my family we need to keep them especially for us single parents with no help from the other parent.

My wife has not been able to find stable work, I use a payday loan service at times and it is a blessing. I am able to go there and save dignity when I run short.

There are times when I need some help catching up on my bills such as groceries and some of the smaller necessities in the house or just any unexpected things that come up throughout the month, I use the cash advance to help me avoid falling behind on all of these things.

I have had a great experience with the cash advance company that I use. They treat me like family and help me through all sorts of life events when I couldn’t go anywhere else. I hope they will continue to be here because you know what your getting up-front, they dont hide anything or hit you with extra fees. I am very grateful that they are here.

A XXXX check makes it difficult sometimes and when I need help paying my bills that fall in the off week, the cash advance allows me to do so without bill payment interruption. We have also used it to help out with mortgage payments at times.

I get paid every other week and the cash allows me to space my checks out better so that I'm able to manage my money a little better. It could be for car repairs or even rent. Helps me avoid late fee. Plus it helps me with the unexpected things that come up when you have kids.

My wife is the only one working right now and our income has been cut in half and for right now the cash advance is helping us keep current with all of our bills like our rent, light bill and gas bill. We’ve also been using it to buy formula for our new baby.

I use a local payday loan company when I run short on my check, its the only alternative that I have and I am thankful for them. I dont have to go through the embarrassment of a turn down as I have from a bank. Im not looked down upon and they have always answered any question that I have.

I think the cash advance is great. It really helps me if I am in a bind financially. I use the loans for bills I need paid before my check from my job arrives. It has helped me out on quite a few occasions. I am very grateful for the cash advance that Amscot lends me. Without it I wouldn’t of been able to pay a few bills. Please don’t take this away, it is greatly appreciated.

When I have emergencies that come up like with the house, example when I needed my roof repaired or had some plumbing issues the cash advance helped me get these things fixed quickly. I would have had to wait if not for this type of service.

The cash advance helps me pay my rent, car payments and insurance because for right now my hours at work have been cut from XXXXhrs to XXXXhrs so until my hours go back up its been great for me able to get a quick fix to my financial needs.

The cash advance helps me with paying my bills, school books, and to pay my monthly school payments. It benefits me, because in a young age. It helps me get where Im going to go in the future.

The cash advance provides assistance if I am late on a power bill or other bills and allows me to get back on track. Rather than having my power shut off I can get a cash advance and catch up.

There sometimes is a gap between when I get paid and those little things that come up like people coming into town, car repairs and lifes everyday unexpected things that come up where the cash advance has helped me take care of these things quickly.

I use the cash advance for different types of things like helping with my utilities, gas for my car and even for paying my cell phone bill. I would probably have to sell some of my things if I wasn’t able to take advantage of the cash advance. There have been times in the past has helped me put food on the table. I think the fees are very reasonable and Amscot always works with me if I need a few extra days to pay back.

The cash advance has helped me pay my rent, electric and car payments on time when I’ve run short on cash. It would be very difficult if I didn’t have this to help me when I needed it. Its fast and easy!
I received a voice mail yesterday stating this was INSPECTOR XXXX calling regarding a complaint being filed for Check Fraud regarding XXXX (who is my son) and doesn't even live here. He said that he needed to immediately call the number they left (XXXX) within XXXX hours or he would be served at his place of business or home to appear in court. He said it was regarding a pay day loan from XX/XX/2008. It was a very snippy voice mail and ended with saying XXXX you have been served. I suffer from XXXX so needless to say I fell apart. I called XXXX and he called them back. Well here goes the good part. He was then told that his loan was for $XXXX and that if he paid it yesterday - they would give him a XXXX% discount. They also told him it was pre-docket number #XXXX. Of course he doesn’t have the money so he called me back. They also stressed how it had to be Credit Card, Debit Card or Pre-paid card. I immediately knew something was up. In the meantime my husband and my oldest sons received the same voice mail I did. Our oldest son said "Mom it is a scam. It would never be handled this way at all and that it needed to be ignored." So for the heck of it - I called the number and got a person who said his name was XXXX. The number answered HELLO. First mistake on their part. When I asked where I had reached - the person then said CHECK FRAUD DEPARTMENT OF CHECK SERVICES. Big difference from HELLO. He then began to tell me how he had talked to my son and that arrangements could be made to pay it in full yesterday XX/XX/XXXX OR split into several payments. I then told him my son didn’t have the money and that they were NOT going to get a credit card number, debit card or prepaid card. I would be more then willing to get them a cashiers check and hand it to them personally at an office but no other way. He then said they had no physical address and that wouldn’t do and that they would just put my son as non-compliant and turn the info in.

I told him not to do that and that I would make sure my son called him back. Of course I didn’t have my son call him. I immediately called the Sheriffs Department here in XXXX County (Dispatcher XXXX) and he said "ITS A SCAM." Do nothing but we want you to report it to the Scam Department (which I found out later was the Attorney Generals Office. I called them and they too said it is a scam to report it to YOU. The thing that worries us is they did have my sons SS number and his date of birth but both the Sheriffs office and the XXXX office said these guys are smart and know how to get things. They sent me to this website to report it. Also - when they called my husband - they called him on his work cell phone which NO XXXX outside of the family even has the number.

Again - after I talked to this XXXX (with the scam company) - I called my son and told him to not contact them back whatsoever and he didn’t and also told him to not answer any blocked calls. He did receive several more calls yesterday but they didn’t even leave a message. Then he told me (my son) that his XXXX call that he had gotten with the toll free number to call back - came across on his cell with a phone number of XXXX. My husbands, mine and my oldest sons came across unknown name, unknown caller or private name , private caller. When my son called that number - it answered XXXX County Jail and when my sons asked for an Inspector XXXX - the girl told him there was no such person at that number. We all figured out the Scam artists forgot to block the number when they first called our son and then all call were blocked.

Believe me - they scared me badly and my poor son had to pull off the road his hands were shaking so much. :) But he is a good kid but also gullible and without us all checking it out further - he MIGHT have done what they said.

Helped me during difficult times. Helped my son when he was layed off
Short term loans help me when I am in a bind. Due to my credit I can not secure regular loans
When I was not able to go to my family for money, the payday loan company helped me out today my bills. When I was not able to put food on the table they helped me out
I needed some money for bills quickly
My credit is not perfect and loan companies can approve me with put hassle. Other traditional loan sources did not Pprove me and ask for too much documentation.
We were a happy and successful couple with great credit. My husband got sick and lost his job. We went to a payday company to help make ends meet. I am a XXXX at a XXXX and have to turn good people away due to credit. The same thing happened to me so I know the risk but I still chose to come to a payday company because they help me when I need it.

I use the cash advance to help be for gas as I am from the XXXX Florida so the cash advance helps me with the gas to go back and forth from there to here. I also use it for helping me with bills and over convenient way for me to take care of them fast.

Excellent!!! Helped me pay a light bill that was due today or it would get cut off.

I normally use the cash advance to go and see my daughter in Indiana. I do this XXXXtimes a year and this service helps me pay for these visits. I would have had to put these trips on my credit card which I didnt want to do.

I typically use the cash advance to help me with my medical situations and my prescriptions. There have been a few times where I've used it to help me pay a utility bill. I dont have any idea what I would do without this, lets just say Id be in trouble.

There are times when I need help with some of my bills like insurance and utility bills and the cash advance helps me not get things turned off. I think its very helpful and if used in the right way is a great way to get financial things taken care of. It would be quite a struggle without it.

I first used a payday company when my bank had charged me almost $XXXX in NSF and continued overdraft fees within a XXXX week period. The place I used got me money for gas and food to get me until payday. This loan was easier to pay off than the bank charges were. The bank took their fees out of my direct deposit immediately, whereas the loan company let me make small payments and extra towards the principal when I could. I refer anyone that I know who needs help to my loan company.

Most of the time I use the cash advance to help me with some sort of bill like my electric, cable or even for my insurance. There have been times when I've also used it to purchase food when Im short. I dont use it all the time but its nice and fast when I need it.

I feel that the cash advanced system is a great system to have to this day and age and of uncertainty, especially with the numerous individuals like myself who live paycheck to paycheck. Many people are unable to put much back into savings or have a rainy-day fund for emergencies, yet as life would have it, emergencies do come up. A trip to the emergency room, a flat tire, the last minute trip to see a dying relative…no one can plan for such events in our day to day life. And with credit cards become more and more of a mess than they are actually worth, having some who is willing to lend you a couple hundred dollars can elevate a lot of that stress in an already stressful situation.
I am overwhelmed with relief that the Hydra Fund Scam has finally been uncovered. I became XXXX their victims XX/XX/XXXX, and I am still harassed weekly -- receive as many as XXXX calls in a day -- by the never-ending parade of "debt collectors" down line from the originators. They've called the CEO of the company I work for, and their calls have frightened at least XXXX aging family members in neighboring towns. Every time I think the calls have ceased altogether, a different entity starts calling on the same bogus debt, and the threats of felony check fraud charges against me start anew.

My bank suggested that I close the account the account after the Hydra Fund made their initial $XXXX auto-debit for "payment" on a loan I never requested. By that point I had already discovered pages and pages of online consumer complaints about this operation. My financial institution felt that leaving the account intact posed a risk to me and to the bank.

In the past year, I've made XXXX or more complaints to the CFPB on these phony-debt collection calls. While most of the companies could not be identified and the complaint seemed to disappear into the abyss, I trusted that I was placing the information in the most capable hands for resolution. These elaborate schemes take time to investigate and unravel. Meanwhile, I kept reporting to the CFPB, and often the FTC, each new player who entered the game.

Ironically, there is a silver lining around this XXXX-year, telephonic assault by Terroristic Collection Tactics. The battle has inspired me to go to law school. In XX/XX/XXXX, I begin a course to prepare for taking the LSAT in XX/XX/XXXX.

I'm so grateful to the CFPB and FTC for your work on behalf of American consumers. And I'm glad I continued to submit formal complaints about the fraudulent calls I continue to receive. You did not let me down -- thank you, thank you, thank you.

The cash advance has helped me when my bills seem to come in before both mine and my wife's checks come in. Mainly it's for rent and utilities. It also helps having some extra cash once all the bills are paid and that's important when you've got XXXX kids and you never know what's going to come up.

We usually use the cash advance when we run short of money being on a limited income. It helps us with food, gas and anything else that might come up during the month. Without this it would really put me and my family in a bind. Not really sure what we would do without it.

I'm on XXXX comp and my paycheck right now is much less than what I'm used to getting so the cash advance is helping supplement my income. My family and I have also used it for quick cash for little trips me and my family will take. There are also times where I have used it to purchase some XX/XX/XXXX presents. Its better than using my credit card.
I needed an advance on my paycheck in XX/XX/2012 to be able to have money for gas to get to a job interview for a different, additional full-time position, to complement my then-current part-time job. I visited a website at splashcashadvance.com, and was issued a payday loan, with a renewal rate that would renew the loan for a fee, if I was unable to pay the loan back on the due date. I had the funds on the due date to pay and close the loan without it ever needing to be renewed, but it slipped my mind. Incidentally, the rate at which I renewed, put additional strain on my finances and thus I needed to renew the loan XXXX or XXXX more times. I realized it was my own fault for not meeting the due date, but I managed to close the loan with relatively little harm to my finances. When I spoke to the representative the day I closed the loan, I attested to him that I had fully intended to pay the loan and never renew, and how getting caught in the cycle of then having to renew multiples time was a stinger, but really was not that bad. I thanked him though, because either way the loan was actually helpful to me at the time I needed it to be, and if I had not forgotten and paid on the due date, it would have been tremendously helpful to me. He told me he was glad that I understood that, and that it is unfortunate how they have to bill some people who get trapped in a renewal cycle they cannot break out of, but they are a business and the consumer signed an agreement, so they must collect what the are owed, since it is their right. He told me, “It was a pleasure doing business with you, and I am sorry about what happened, but if you ever need another loan, even for a higher limit, and you know you can manage it, just call us back and we will approve you no problem, since we will keep you in our system.” I found that this payday loan was a highly-useful product, and that it was only my own fault that I did not make it work for me. However, such companies can get a bad reputation when complaints are filed against them, by people who do not understand or perceive the role of their own negligence in creating large amounts of debt for themselves, which they then are unable to pay, and maybe even file for bankruptcy. I would like it if CFPB could include more advice to consumers about how to avoid placing themselves in that situation on its payday loan web page at XXXX. I am glad though, that your informational page does indeed seem to indicate that payday loans are for the most part a useful, small dollar credit product.

I use the cash advance to help me catch on my electric bill because it hits right before my XXXX check comes in. This allows me to keep my electric paid on time until I get paid again. I also use this for XX/XX/YYYY and birthday gifts when that comes around.

I use the cash advance to help me pay my bills like rent, utilities. Im a XXXX and my income goes up and down and its nice to have this to fall back on during the slow season. I am the only provider in my house so this cash advance program works me.

My school loan payment came out sooner than expected and also we are also moving with a new child from an apartment to a house so with all these things coming up the cash advance is helping me and my family get through all of this that is happening at the same time.

The cash advance helps me extend my income so that I can use it for car repairs and even helping my grandmother out when she needs help. Has also been nice to have when Ive used it purchasing birthday gifts for my son. This service gives me peace of mind and its quick and fair.

Id be in rough shape without the cash advance. It helps me with normal household bills that come up and also helps me with things that my daughter might need for school and some medical issues. Id end up having to work doubles at work and never seem my kid if I didnt have the cash advance.

I use the cash advance to help me with my electric and water bills mainly. Its also allowed me to have some extra cash in my pocket for odds and end things that come up throughout the month. This really helps me out a lot and I dont know what Id do without it.

I normally use the cash advance for emergencies such as when my bills come in all at the same time or when Im starting some small businesses this is much easier and quicker that trying to get a small loan from the bank.

Im on XXXX and Im taking care of my daughter and her child so money is very tight and the cash advance has helps us all when something comes up that may throw our budget off a bit. Without the cash advance we would all probably be out on the street.
When I need help with bills like utilities, groceries and rent I like to be able to use the cash advance to get me through until my next check comes. Its also a great way for me to avoid $XXXX overdraft fees that have happens to me before.

The cash advance has always been there for me when Ive had some cash emergencies where Ive needed fast cash. Things like car repairs are my family need some extra money are taken care of quickly and easily at a fair fee. Its a great way for me to avoid overdraft fees.

When Im juggling bills and things pop up and being on commission type pay the cash advance has helped me even my income out in order to keep my bills and other things paid on time. I dont use it all the time but its good to have as a backup plan.

Basically Im in XXXX and sometimes because of the weather my pay is not what its usually at so I use the cash advance to help me supplement when my checks run short. It helps me put gas in my car and take care of the little things that need to be taken care of.

I have met great, respectable, understanding people at the payday loan place that I use. When other options dont exist for people like me, a short term loan is available, quick and reliable.

My wifes car broke down before we had a long road trip scheduled. We had to get the vehicle fixed before the trip so we used a payday loan to do so.

The loan has gotten me thru tough times

The loan has helped with my car that I had to get in order to get back and forth to work. Mostly today I will buy my grandparents much needed groceries

The short term loan helped me with auto repair bills

I use a payday loan company for emergencies or to make ends meet. I quit using credit cards because they charge you if you are XXXX day late, then they charge you more if that late fee has thrown you over the limit. The payday place I use doesnt charge me if I am a few days late. It has saved me from late fees and returned check fees in the past. It has helped get me back on track.

My wife was unable to work anymore due to an illness, we tried to consolidate our bills but since I am the only income source now, my debt to income ratio is high and nobody is willing to help us. I did use a payday service that I heard of from a friend. Yes, it was more expensive than a traditional loan, but they did help us. When I was not able to make my payment they worked with me and gave me smaller payments without continuing to charge me fees or interest. Id like to see a credit card or bank do that! Thank them for being here!

Helped me pay bills when I was low on Cash.

We are thankful that we can get a loan from a payday company when we need it, they are willing to take the risk on us and for that we understand that we pay a higher interest. With the economy, it is tough to make ends meet with kids, gas, bill, etc. they are there for us and treat us like we are valued.

Short term loans are better for us that dont have credit for other loans. So when bills or emergencies come up, a short term loan is our solution for what we need. We are aware of the fees and are ok with paying them because they are there for us

When hard times come and youre not able to get money elsewhere, at least there are great friendly people that are willing to take a chance on me and I am able to take care of my family and bill my bills.

Keeps me from getting so far in debt helps me keep my bills caught up, the best money borrowing out there is paid day loans

Small loans help me when I need extra cash for things that come up unexpectedly.

Being a single mom sometimes unexpected expenses come up, payday loans help me handle those and pay bills without using a credit card.

As a widow with a XXXX son, I have extra expenses come up many times in the past. A short term loan has been a big help in assisting me with the unexpected problems. Borrowing has always been fair, courteous, and helpful to me.

Payday loans have helped me when I am in a bind and don't have any other options to borrow money. I'm glad I have this option without it I wouldn't have the means to borrow and pay important bills necessary in my life.

Recently I was in need of a loan. I wasn't sure where I should go to borrow. I ended up using a payday loan. Borrowing the money form a payday lender actually helped my husband to get a job! The loan helped my family out greatly!

I was in a chapter XXXX bankruptcy and the IRS seized my bank accounts put my mortgage into default. The bank initiated foreclosure on my mortgage and no one (banks, credit unions) would help me save my house. A payday lender lent me the money I needed for my house payment so I could stop the bank foreclosing on my house. I am very grateful I had this option.

Payday loans has helped me through tough times. If I'm short on money a bill I can get a payday loan quickly and the loan will help me catch up and enable me to go on without paying expensive fees.

The opportunity to go to a short term lender has been very important to me. I do not have charge cards when I have something of need it has been neat to be able to get the money when needed. When my daughter got stranded out of state I was able to send her money. When I need money to pay a bill, buy groceries, or a medical bill it has been great to have money needed at that time through a payday loan. I feel I should have the right to use payday loans when I need. No one has the right to decide if I can or can't borrow.

Payday loans work!! Sometimes when I need a XXXX-XXXX day advance I use a payday loan. I understand how money and interest work. Simple compound interest is the best way to borrow. Simple interest loans can be easily managed, if you understand them and they are actually cheaper.

When I need money this is where I come. The center is professional and the loan is easy.

Quick easy cash.

I needed a place to stay and was short on money. I don't have the best credit so my choices were limited. I am glad I found this place. They helped me in a time of need.

Helped to pay bills and take care of some funeral issues. The loan is quick, professional and I understand the terms.

The loan has helped me in between paychecks so I am able to take care of my personal obligations.
My husband was not able to find work where we had owned our home and had lived for many years. We had no alternative at the time but to short sale our home and move. For the first time in years we were renters. We ended up having to move XXXX times in XXXX years due to reasons that were not in our control. Due to the short sale we could not get a bank loan, luckily I was able to get a payday loan to help with the costs of moving, without them I dont know where I would be. I know the interest rate is higher but I am willing to pay them.

The loan has helped me a lot when I needed money. It helped me pay off utilities when i was on need. I needed school supplies and had nowhere else to turn to. Banks wouldn't loan any money to me because I am considered to be a "high risk". Fortunately I was able to get a payday loan and get my books just in time. I was treated with respect and I am very pleased that they would help someone that was considered to be "high risk" everywhere else.

A short term loan helped me when I needed quick access to money to pay my bills its fast and convenient. It has helped me with unforeseen situations that have occurred such as battery for my car going dead. Payday loans have helped to pay for home repairs, school clothing, for grand kids, vacations as well as XXXX Gift. Also at times when extra money was not able to be set aside. With the loans we were able to go ahead and pay for the need at the time needed.

When I am in between paydays this has always been there to take up the difference. Has helped me to resolve some bills and has the most helpful staffs. Im grateful for the company. The cash advance is a wonderful help to myself and my family. It helps me put food in the house as well as allows me to pay bills ON TIME, like my XXXX Electric bill and water bill! I dont know how I would make it without it. It also gives me time to make sure that my rent is paid without any late fees.

Im retired and only get paid XXXX a month and once in a while I will have some emergencies that may come up that I might need just a little help with and I use the cash advance to add to my income at that moment to get them taken care of.

When I need help with my light bills, insurance for my car or just when I need some extra cash to get me by until my next check, I use the cash advance to help me out with those things. I needed money to go on vacation very helpful. When I get behind on a couple of bills mostly like water, electric and credit card I will use the cash advance to help me take care of them until I get paid on my next check. There were also a couple of times that I've used it to help me with some car repairs.
My bills and my paycheck don’t ever seem to match up so I use the cash advance to even them out so that my bills continue to get paid on time without interruption of potentially being shut off. Not a lot of hiring going on to get a XXXX job so right now with just XXXX job this is how I plan on handling my needs.

When I have an emergency like paying a quick bill, extra cash for vacation, extra money for gas, its much cheaper than going to a pawn shop. I would just be late on a lot of things or just be late paying if the cash advance wasn’t around for me.

My family came to me to pay for funeral services for a family member. I have exhausted my funds and still have some final things to pay for. I own my home and my cars, but I chose to use a payday service for many reasons, such as my friend uses the service sometimes and has said good things about the people and service, also the funeral is Monday and a bank loan even if I was approved would take too long. This service is quick, simple and I can get what I need and focus back on the funeral arrangements.

Sometimes when my check runs short and my bills run higher than expected, the cash advance helps me get them paid and avoid any late fees. I’ve also used it if I wanted to make a purchase to maybe go to a concert or something like that. I would probably have a lot of bounced checks if I wasn’t able to do a cash advance when I need it.

I use the payday loan service as a solution to my financial needs. I get treated with respect and am willing to pay the higher interest rate in order to save the embarrassment of having to borrow money from a family member.

The payday loan service is the only solution that I have when I run a little short at times. It is convenient for me as well. I understand that it is a higher interest rate than a traditional loan, they were willing to take a chance with me and help me when I needed the service.

When my car payment, credit card bills and everyday bills pile up the cash advance has made it possible for me to get these things paid in a timely manner. It would be a huge struggle for me if I wasn’t able to have the cash advance to help me through this financial shortfalls.

The cash advance helps me out when I run behind on my bills. We live on a very tight budget so and change in my bills can throw things out of whack so the cash advance keeps this from happening. Without the cash advance it would bring a lot of stress and add more problems than I already have. With my husband being sick its been really hard to stay on top of things.

Basically I use the cash advance to help supplement my pay when emergencies come up throughout the month. I’ve usually used it for things steady.

Sometimes I run a little short and I need a little extra help to make sure I have a little bit in my pocket in case of emergencies. I would probably have to get a XXXX job or cut down on my grocery bill if I didn’t have this to fall back.

I use the cash advance for the basic necessities like gas and food when my check is already gone. It also helps me with major utility bills such as electric bill. It would be very tough without this service to help me and my family during the months when I need help.

There are times when I need help to get through from XXXX paycheck to the next. I don’t use the cash advance all the time but when I need to get some extra cash it sure is nice to have this to help me out when I need it.

The cash advance is a great tool when unexpected expenses such as vet bills come up. As most People theses days I live paycheck to paycheck and this service is very valuable to me.

When I pay my rent there are times when I need some help paying my other bills that are due during the month and the cash advance helps me get those bills pain on time when I’m short on cash. If not for this service I would probably have to pawn some of my personal things.

The cash advance helps me out a lot because my job only pays minimum wage so this is my only way for me to get my light bill and all other bills paid on time. If it weren’t for the cash advance I’d be out on the street or living with family.

The loan that I can get does help me to build my credit. I do use it on my bills when I’m short. For an example, I use the money to sometimes pay my light bill or add on to my rent. I’m only XXXXyrs old and am trying hard to stay on top of my bills early and be responsible.
When I fall behind on bills the cash advance has been a great help to me to get paid on time fast. I don't have any other way to get help with my bills right now so I really appreciate being able to handle my situation using the cash advance.

Anytime I need fast cash to help me with getting me some extra cash when I need it to help me pay any of my bills, I use the cash advance to help me out of those tight situations. I don't use it all the time but it is a great safety net for me.

I usually try not to use the cash advance but I am a commission salesman and my pay is up and down at times so I use the cash advance to help me supplement my income when my checks vary too much. Usually I use it to pay utilities but recently I used it to go out of town. It's a better option for me than going to a pawn shop.

My job is going through some changes and my pay goes up and down so the cash advance has helped me on these times when I need some help staying current with my bills. There have also used it to help me pay for some classes for college which is very important to me.

I've used the cash advance to help me with my bills like utilities and rent. Right now my income just doesn't seem to cover everything at times and sometimes the bills are due before I get paid. It's hard to work out payment plans because most of my bills need to be paid in full or things get shut off.

The cash advance helps me pay my bills, whether it's my mortgage, insurance, phone and even electric. I have also used it to help me buy food and making my tides at church when I'm a little short on cash.

Because of the way I get paid with my benefits it's sometimes hard to get my bills paid because they all come in at XXXX time. The cash advance is a great tool for me to get them paid before my checks come in and avoid late fees or things being shut off.

Payday loans can be very helpful if you're having a difficult time. The loans will help with the stress of unexpected expenses that always come our way.

Sometimes an bill will be taken out of my checking account a few days early than expected. When this happens I go into the negative and my bank will charge an outrageous fee. Borrowing a payday loan saves me the high bank fees.

Payday loans have been a huge help for me. I am able to borrow money quick to help me pay bills, keep my car payments current, and to even help out with my vacations!

Pretty much I use the cash advance for any unforeseen event or things that come up where I may need some help. It really has helped me avoid some bad things happening by being able to get some quick cash. It's helped me avoid having my lights turned off, gas to get to work and just keep the income flowing. Have also used it for travel when I needed to visit my sick father.

My husband and I are dealing with a lot of student loans and other bills, but being able to occasionally take out payday loans has definitely helped ease our burden. It has helped us pay rent and our sons daycare a few times. We've always been able to pay our loans back on time and has helped a lot during tough times.

I do not like banks or credit unions because they treat you like they are superior—even when you have been a good member. Example: my granddaughter was having emergency surgery and I needed a loan quick to fly to XXXX to support my children and family. The bank wanted me to jump through hoops and wait XXXX days to get a loan. Thank goodness I was able to borrow a payday loan to get to XXXX and help with hospital expenses quick. Banks decide too much what they want to do with our money. Check loans are a great!

My story is simple, I was XXXX and just got laid off from my full time job. I had no family and no way to support my growing family. Amscot's cash advanced helped me get through this trying time, also it was simple enough to pay back by taking $XXXX dollars less each time. To this day I am grateful for the Amscot Advance that got me through and helped me keep my home.

Sometimes I need some extra help in between my paydays and the cash advance is that help. I use for helping me pay my electric, rent any really anything where some extra cash will help me get through and stretch my budget.

I've had some medical expenses this past year and the cash advance has helped me get these paid. It helps me from falling to far behind when these expenses come up. I really don't want to borrow from friends or family members and be a burden to them so this is how I choose to take care of these things.

When bills come up and I'm short I come up and do a cash advance to get them taken care of. Like this time I had a $XXXX electric bill and I needed to get it paid so they didn't cut my lights off. My only option was doing this because the electric company wasn't going to wait to get paid. We have a XXXX income family and this service really pulls us out of jams when they arise.

I pretty much use the cash advance when I get in a crunch like car repairs or other unexpected bills. Recently my water bill was more than what I had planned on so I was able to get the advance and get it paid easily. I don't know what I'd do without it when I need it.

Sometimes when we are a little short and things come up and so we don't stress out about our bills we use the cash advance to help us get through as needed. When emergencies and unexpected things come up it nice to know we can count on it.

When I'm short on cash before my next check comes in I use the cash advance to help me get my bills paid. Really just helps for little bits of each bill that need to be taken care of. I have some new expenses right now and just need a little help.

Because of the way my XXXX check comes in, my utilities are due before my check comes in and the cash advance helps me get these bills paid in a timely matter and avoid late fees. The only alternative I would have without the cash advance would just be late on everything and risk services being cut off.

I usually use the cash advance to pay for groceries, gas mortgage payments, child care and utilities. This time of year we are using it to help pay for back to school items.

Normally I use the cash advance for small items such as gas and last minute groceries usually just a few days before I get paid. So it gets me through until my next paycheck. I use this instead of asking for help from my family. Everyone else has their own problems so this lets me take care of things myself.

I'm a XXXX and am limited on the time I can work and the cash advance has helped me keep up with my bills during this time of year when I'm in school. It helps me with rent and even tuition at times. I've got plenty of loans right now so this works great for my situation.

I use the cash advance to help me with my light bills, daycare and pretty much everything that I may need a little extra cash to get me to my next paycheck. This really relieves the stress of not getting my bills paid on time.

I'm XXXX and the cash advance helps me with my medical deductibles, house and car repairs or whenever I need help getting something taken care of. This is the only option for me to get this kind of help when I need cash fast. The interest payment is reasonable and they work with me when I'm a couple of days late unlike a bank.

I got a new car and it uses a lot of gas plus my bills seem to getting higher and higher and the cash advance has been there for me so far when I run short and need some help getting them paid on time.

My rent is pretty high and my roommate moved out so right now I need a little help with paying some bills so the cash advance has helped me bridge the gap until I find another roommate.

We just had a baby a few months ago and the cash advance helps us with paying for food, diapers and other baby necessities. We have also used it to pay some bills and even an emergency flight for when my grandmother was sick and we wanted to be there for her.

Use the cash advance to basically live. I'm on XXXX and there isn't enough money throughout the month and I need a little help getting my bills paid. I don't have any other way to get help for myself so there really isn't any other option for me. I'm starting a part-time job soon so that should help but the cash advance has been my life saver at this point in my life.
Luik unemployed right now until the XXXX/XXX and the cash advance is helping me get through until I start back. Helps with my light and water bills right now. I will probably use it for a little bit once back to work and then I should be ok. Its been a life saver.

Watching XXXX "Last Week Tonight" episode about Payday Loans I could not shake the obvious conclusion to the pursuit of a single solution. Apparently regulating businesses to deny a market for usury rates is failing, companies are just reclassifying their business type or successfully lobbying legislatures to permit anti consumer activity. The conclusion is to deny consumers the ability to contract usury rates for themselves regardless of loan origin. If it is illegal for a consumer to contract a loan beyond the quantified loan spec (lets say LIBOR plus XXXX%, because it is secured as oppose to unsecured revolving loans) any action upon loan default is unenforceable due to its illegality. The inability of businesses to collect ill gotten profits will stay the market from abusing consumers.

Without the services that Advance America provides I would not be able to make it from month to month. Short terms like this is a absolute need to help my family get groceries and survive until payday. I dont know what my family and I will do with out this amazing outlet.

Borrowing a payday loan has helped me get through the week until payday

Im grateful I have the option to borrow money from a short term lender. How else can one live in this awful economy.

Borrowing a payday loan has helped when we just cant make it for a few weeks, we can borrow a loan and use our paycheck to pay it back. The loan helps us keep up on bills so we arent behind then we can always make payments and payoff.

There are times that bills are due and cash flow is not there. I have been able to make payments on time and avoid bounce check fees and account overage fees by borrowing a XXXX dollars for a short term.

I am XXXX years old and living on Social Security and the money I make from XXXX. I never thought I would be working the rest of my life, but when I lost my job after XXXX years with the same company in XX/XX/2009, half of he amount in my profit sharing plan vaporized. I am always trying to make ends meet, but when students drop out, I cannot. So I made a payday loan for $XXXX with CashNetUSA in May and have extended it XXXX. They debited a total of $XXXX in XX/XX/XXXX and XX/XX/XXXX, and I still have a balance of $XXXX. I cannot pay this amount in XXXX payment, especially as I have already paid "extension fees" XXXX months in a row. I have learned that I have the right to cancel the lenders ability to debit my account, and I have notified them of this. Tomorrow I will notify my credit union in writing and by telephone. I need to know how to proceed after that. I am so grateful for XXXX and her creation of your agency. I hope that you have a strategy that will help me in my difficult financial situation resulting from my desperate but misguided decision to apply for a payday loan.
Banks must perform due diligence when it comes to consumers cashing any type of checks. I had been a customer of the same bank for over XXXX years. I have never bounced any type of check. The bank in question is SunTrust. I have been a customer when it was United Virginia, then Crestar, and then SunTrust. I was a customer before there were ATMs and online banking. I went in good faith to cash a check which I had no way of knowing was fraudulent. The bank assured me the check cleared within XXXX hours and only to find a week later the bank had not performed due diligence and the check as fake. They want to take monies out of my account when the bank failed to perform due diligence. Someone called from the bank at least XXXX days later and stated they are advocating for the customer but yet they failed to protect me. A week later I get a letter with all their policies which they appeared to make up after the fact to protect themselves. No one at the bank will return any calls as they all go to some XXXX number. Its the cases of this nature that cause thousands of consumers monies while banks continue with Business as Usual. Where are the regulations on banks performing their due diligence for the basic services of check cashing and accounts?

My son has taken out payday loans. How is it legal to charge XXXX% interest on a payday loan. Arent there any laws that limit interest rates?

An online payday loan company called BOC contacted me on behalf of Cutter Group stating that in XX/XX/2012 I entered into a contract with this company and when they went to retrieve payment my account was frozen and the funds were not available. This company knew my address, employer, and ssn, how I dont know. Long story short I told them they were wrong and they may need to contact the company back. They were very rude stating the only was to resolve this issue is to either make payment arrangements or provide a letter of paid in full. Neither of which I was going or able to do. This company had the wrong bank account information and they still screamed at me that I was a lying. After I reported them the phone calls finally stopped but I wouldnt be surprised if this case was passed on to another company.
To whom it may concern,

I recently had a Title loan in Alabama for XXXX I paid $XXXX dollars per month for XXXX months. The original loan amount was $XXXX I paid or owe almost XXXX in Fees or interest.

My position is simple. I made the Loan with Cash USA, they sold out or changed the name to Cash Masters. I received a notice by mail that my XX/XX/XXXX Jaguar XXXX was Taken on XX/XX/XXXXX, and I was sent a written notice by mail confirming that by Cash Masters XXXX Al XXXX XXXX

This notice indicated I Owed an unpaid principal of $XXXX a Unpaid interest amount of $XXXX and an unpaid service fee of (Repossession) of $XXXX which totals $XXXX. The Letter I received indicated I owed $XXXX, which is a clear discrepancy.

My understanding in accordance to Alabama Law only the the fees/interest are the only monies the Pawn broker is entitled to. Any fee collected above the XXXX% as allowed by law are illegal and therefore makes the pawn voided.

My XXXX case and point I was sent a notice of repossession. If this was a repossession then it would fall under the Alabama Lending act. If that was the case then they would only be entitled to the amount allowed by law as a lender and must be licensed as such. According to the law Refrigerators, Automobiles, leases, certain items, and farm equipment would be exempt. This exemption only applies if it is the seller doing the financing. In the case of Cash Master they never had possession of my Automobile so therefore they were not entitled to the exemption, because they never had ownership of my Automobile.

In the letter I received from Cash Masters I have also been given the option to regain possession of my Automobile by paying all unpaid amounts.

In accordance to Alabama law Cash Master now that cash Masters has possession of my automobile they have a responsibility to make sure Pledge property is safe from damage of risk of being lost. They have they have not compiled in accordance to the Pawn shop laws. (My Automobile is being exposed to elements of harm while in the Care Custody and Control of Cash Masters).

Please advise me, if the are a lending institution let me know if I am a victim of usury law abuse, and advise me on how I can redeem the money I have paid and return my Automobile unadulterated.

Or if they are a Pawn broker please advise me how I can redeem my money I have paid, and my automobile unadulterated, because they have in my opinion violated the Pawn Broker laws of Alabama. Please advise me what Legal action I can take to solve this issue. I need to determine which law would apply to redeem my Automobile, and Money. Are they a Financial Lender, or a Pawn Broker?

XXXX

A pawnbroker may contract for and receive a pawnshop charge in lieu of interest or other charges for all services, expenses, costs, and losses of every nature but not to exceed XXXX percent of the principal amount, per month, advanced in the pawn transaction.

I'm on a fixed income with SSI and I use the cash advance to survive each month to help get through. The interest is much better than trying to pawn something of mine of value and risk loosing the item if I'm a little late on my payment.

I use the cash advance to pay for my loan modification and a variety of situations that may come up in the month like school supplies, baseball equipment for my son. I use this until my check comes in at the end of the month.

I cant get the dates changed on my bills so the way they fall in the month the cash advance helps me get them paid on time so that when I get my SSI check I can pay back the advance and continue to have my bills paid on time. The late fees I would have add up to more than what it costs me to do a cash advance.
The cash advance helps in so many ways. Several times it has helped me with unplanned car problems that I had to get done immediately since I am a very important figure for the company I work for and I must have a working vehicle, along with paying bills that may be due at that moment.

I use the cash advance to fill in the gaps that come up. I’ve been taking care of my father and he has been sick so I took early retirement and sometimes things come up and I need a little help. It really helps me stay on top of my bills and keep things going. My options at this point in my life are very limited and this has helped me tremendously.

I usually use the payday loan to help me with getting my rent paid on time. I also use it to help me with my kids school supplies coming up. Being a XXX mother it has been a great help to me any my family when times are tough.

I usually use the cash advance to help me with my bills like rent, car payment, and insurance. It has also helped me out with keeping gas in my car when I’m a little short. My other choice to help me would be to get help from a family member which I really don’t want to do.

So when I fall a little short on cash it’s nice to have the option of the cash advance to get me through to my next payday. I have used it to help me with my water and electric bill and also car repairs.
Ever since XXXX/XXXX I have been picked on, prodded and the subject of personal attack on my mortgage account and my financial, health and over all living and well being. Since a flood took place in my property in XXXX/XXXX, the practices and procedures to remedy that event took over XXXX years. Citimortgage Loss Draft Department lost the paperwork XXXX times and then demanded I file the same lengthy work again. When I refused and called in to question the incompetence of their department and that they were the ones that lost the information, I was punished. The Loss Draft dept. of Citimortgage refused to release any further funds to pay the contractors for the work completed and withheld the insurance money. For XXXX years we went back and forth in debate of who was at fault. Finally, I relented and agreed to refile ALL the same paperwork I had done XXXX years previous. The only reason was to put an end to the hostile letters being mailed to me from the contractor. I was squeezed in the middle of a situation, which I neither created nor wanted. That was now many years ago, however, The CitiMortgage Dept of Citibank has never forgotten that battle. Today and for every year prior they still make errors on my accounts, create some drama issue just about every XXXX months, which I then have to spend at least XXXX to XXXX hours to rectify. It has become a battle that is on going and relentless on their part.

Lets flash forward to the most recent and truly egregious transgression by this horrible institution. Every month I pay by check for the mortgage on the property. This time, was no different than the last few months. However, I like to pay a bit more if I have it available. This allows me to pay down the principle balance much faster and thus the interest is lower on the principle. Well, I mailed in the check, as usual. I like paper, its traceable and cant just unaccounted for. I track it with carbons to make sure all is correct. This past month (XX/XX/XXXX) Citimortgage precessed the check for over XXXX on a payment that was far less. They then found the error but continued to process the check for the incorrect amount. Then, once they had processed the check for over XXXX, that is when they decided to call me, FROM the XXXX. My account is in the USA, not the XXXX. I hung up, XXXX thinking it was a prank call and an attempt to get me to give over private information. When I got back home, I called Citimortgage. They confirmed they processed the check for XXXX more than the agreed check amount. However, they wanted me to call my bank to get a statement showing they actually took the funds from my account. Okay, you sole XXXX and then you ask me to prove it? You have the records and the check and the draft of all the money, and I am supposed to prove you took it? That is truly a definition of corporate incredulous behavior. They processed the check on XXXX-XXXX, it took until XX/XX/XXXX for them to return the money they stole. The most insulting part of this was at the beginning when they said I wrote the check out incorrect. Well, glad I had the carbon to prove them wrong. Then, they said I put the comma in the wrong place, again, they were making up stories to cover their own lame processing procedures. XXXX hours and about XXXX calls later, they still have not apologized for their actions and error. Then I was told if I wanted remedy and resolve and the lost interest, plus reimbursement for my lost time and money, I would need to send them a letter of request...as if I should have to ask that I be compensated for my anguish, time, money, lost interest and duress. Oh, so, later, I finally get a letter stating they made the error, but in terms that avoid any responsibility. Not only did I receive an apology, but from the very beginning, they acted as if this is business as usual and that I was the one being unreasonable. Thanks CitiMortgage for your lack of respect for those who keep you in business. Thanks for showing you really care...NOT&gt; So, I guess the remedy is really now going to be Legal and up to the courts to see who was in the wrong and who deserves compensation.

A company called and stated that I owed them money. I explained to them that the bill had been paid in XXXX/2012. I also explained to them that another company had contacted me at work stating the same thing for the same company. I contacted CFPB and they, once again, was able to solve my problem. Thank you for your assistance and hopefully there will not be any other collectors. I will continue sharing your name with friends because of the fine work you have done and yes, I am a satisfied customer.
cfpb is too mechanized/computerized. I complained to the Federal Reserve and to the FDIC (Federal Deposit Insurance Corporation) about Wells Fargo Bank cashing a check that was clearly made out to another financial institution. It had been accidently left at a Wells Fargo branch bank. Rather than call me to come back and retrieve the check, the teller made out an error-offset for our check #XXXX and applied the check amount to another one of our accounts. The teller had to clearly look at the front of the check in order to fill out the error-offset. Cashing a check made out to someone else is a criminal offense. By not knowing Wells Fargo had cashed our check caused us to assume that the check went to the other financial institution. Later, when we went to pay-off the other financial institution, we learned that the other financial institution had never received that payment and had therefore charged us a late fee and extra interest for XXXX-months amounting to more than $XXXX. Wells Fargo Bank did nothing to reimburse us for its error. The Federal Reserve and FDIC had sent my complaint to cfpb but did not send the attachments necessary to prove our case. When I attempted to send the attachments to cfpb, I got back a response from cfpb that my case had already been submitted but because no attachments were included, cfpb could not contact Wells Fargo on our behalf. I tried several times to resubmit with the required attachments and even attempted to send it in as a brand new case but cfpb kept giving us the same response. This is bad IT or computer programing on cfpbs part. I could not get in touch with anyone with cfpb that could correct this problem. So I ask, what good did cfpb do me?

We had fraud to the amount of $XXXX when someone stole and cashed checks in our local chase branch to that amount. Police report filed. We were told by chase it was not their problem and to this date we have taken the $XXXX loss. I closed my account the same week my ex-husband still banks there. They should of helped us recoop those funds as it was our mortgage money. This chase is in XXXX on XXXX. St. This was probably around XXXX years ago.

When I'm low on cash to pay my bills like rent and electric and water, I get a cash advance to help me get them paid on time late fees. This really hold me over until I get paid again. Not sure what I would do if I didn't have this option.

When I need help getting my bills paid on time the cash advance is there for me to help me. The banks really don't help me so this is a great way for me to take care of my financial needs in a crunch.

The cash advance helps me getting my bills paid on time, such as car payment, car insurance and sometimes even my rent. This helps supplement my income when I need help before my next check comes in. This way I can borrow only when I need it.

I'm on XXXX and sometimes there is more month than money and I have a bill that I need to pay by the end of the month so the cash advance helps me get that bill taken care of before my check comes in. Also, I'm XXXX and my income varies so this service allows me to make up budget short falls that arise.

I get paid XXXX and the cash advance gets me through to help pay gas and groceries usually just before I get paid again. I would probably have to go out and get some side work if it weren't for me being able to do this.

When I get behind on some of my bills like car payment and car insurance I use the cash advance to stay current with them to avoid late fees. Have also used it to move into a new place and needed help with a deposit.

I use the cash advance for when my car breaks down and for groceries usually. Sometimes even when I go on vacation and need a little extra cash. My bills don't really match up with my paydays to this is my way of getting these things taken care of.

Sometimes I use the cash advance to help out friends when they need some help with their finances. I've also used it to have some extra cash when I know I'm going on vacations or just to help out with some things that come up from time to time.
I use the cash advance to help me pay my rent, utilities and sometimes even to put food on the table. I'm living behind paycheck to paycheck and this service is really my only option at this time.

This communication is in regards to what I believe to be an illegal threat against me. More than a year ago, (I do not remember the date,) I borrowed money from a payday loan company by the name of Plain Green Loan and VIP Loan shop. I borrowed once from Plain Green and the account was settled, I borrowed XXXX times from VIP and the XXXX times I paid back with XXXX% interest! I borrowed a XXXX time as I was in straights as a result of paying the XXXX loans and I did some research and found that they were not legally licensed to operate in the state of XXX. I advised them that I would make a full report if they attempted to extort money from my bank account. I closed my bank account and never heard from them again. They never attempted to collect the money borrowed via mail or e-mail. I assumed they realized their illegal practice and decided not to pursue me. As I said, I never received correspondence of any kind. Today, I received an e-mail from a company I have NEVER heard from or dealt with. The e-mail did not contain a phone number, address, or contact information of any kind. I did not respond to the threatening e-mail. It contains my social security number and a case number, and threatens me not to share the e-mail with anyone. I have never borrowed money from this company. I do not know how to proceed as it states that a judgement and consequences will follow if I fail to e-mail back. I am including this e-mail for review and I respectfully request assistance of some kind as I do not know how to proceed from here. The company is called First Cash LLC out of XXXX and again, I have never heard of them until today. Please read below and respond at your earliest convenience. With respect, XXXX

wells Fargo recently discontinued direct deposit advance. This service has helped me through some tough times car repairs, uniforms etc. I am aware of the charges and fully recover from these advances. This was an advantage. now I will search for a new bank. Thor offers this. consumers should be allowed to use this service and suffer the cost if we choose to. people that can't use this service and recover the cost should be restricted rather than take it away from those of us that manage. I do live from paycheck to paycheck and banks will not offer small loans. now I've been forced to go to a ace check cashing and get a payday loan. this is what I'm having a hard time recovering from. these loans are what need more regulating.
The cash advance is a big help to me and my family because after all the bills are paid we need help with buying groceries which is what we use it for until we get paid again. Is really is no other option for me at this point.

I use the cash advance to make sure my bills are paid on time because the late fees are way more expensive than the interest paid on the payday loan. I typically use it to pay my light bill and phone bill. Its very convenient and fast.

I really love the cash advance to help me pay my bills like rent, elect, food, cell phone....and I now have a son moved back home. Being a single mom it is a blessing to help me get through these taken care of.

I use the payday loan to pay my bills like electric, gas or even groceries when I need some help to get by. Cant really borrow from anyone because they are in the same boat as I am. Don't really have anything to pawn, so this really helps me out a lot.

When I need help with paying some of my bills like rent, car payment ect....and I get paid XXXX a month, the cash advance helps me get them paid before I get my paycheck. I really don't know what I would do to help me if not for this service.

Im building a house and I use the payday loan to help me when I need to get materials when I run short before I get my XXXX check every month. Without this option I'd have to slow down the building process on my house.

When my paycheck is off week and I need help paying some of my bills the cash advance helps me bridge the gap to they are paid on time. Ive also used this service when I had a death in the family and it helped me pay for gas to go to the funeral. This is my choice to take care of my short term financial needs.

It seems like something always comes up where I need a little extra cash, and the cash advance helps me take care of these things until I get my next check. Everyone is in the same situation that I know so I can't borrow from them so this is my only way to get these things taken care of.

My employer cut down my hours unexpectedly, and after XXXX weeks of work I only received a check for $XXXX. Since I had a car payment that was due, along with many other bills, I felt desperate and went to get a pay day loan. I borrowed $XXXX, and with the accrued interest I had to pay back $XXXX. I honestly would not advise anyone to take out a pay day loan, as I felt stressed about paying it back while also continuing all of my other regular payments. The burden of stress is really difficult to deal with, but at times, especially as a minimum wage worker, you are left with no other options.

I got a phone call today from a company named Parker Mediation Group. It was very threatening and intimidating. Its referencing a pay day loan that I supposedly owe from XX/XX/2008 and they are now trying mediate to collect. They've given me no proof that I am the actual owner of this debt and they wouldnt give me any saying somebody else had the paperwork. That I had to make some type of monetary arrangement today or they were filing papers in XXXX County saying that it was check fraud and all this other mess. When I said I don't have money today they said for me to go buy a prepaid card and call back and give them the number and the date that the money will be available for them to collect. What in the world is going on here? I looked them up online but cant find any REAL information on how they operate or if they are even legit for that matter and I'm not sure what I should do. Why would I do this if you won't give me any proof that I owe this money and its XXXX years old. Please advise. Thank you.

I have had a recent good experience with the company that I previously complained regarding. In the past with NCS I had issued with XXXX representatives. I was treated poorly, talked down too, and had my rights violated by breaking a cease and desist order. Recently, I had contacted the company back. Yesterday actually. I spoke with the director of NCS XXXX He was calm, collected, professional, and didnt make excuses for his employees. He stated that there has been some intensive training based on my case and how to treat people like humans and not like a bill or a paycheck. He was helpful, he had integrity, and he helped me resolve the account I wanted to resolve in the first place. He was understanding and professional. He followed all of the FDCPA laws and we were able to come to an amicable resolution regarding my account. The upper management was kind enough to give me a discount on my bill for my troubles with the representatives knowing full and well my rights were violated but, I feel that it has been settled. I do not wish to speak with “XXXX” or “XXXX” nor do I recommend anyone does. They should be in small balance collecting, or something where they can keep their cool. I do appreciate the come around on the business behalf. The situation was stressful and caused me to not resolve my bill for longer, but now it has been settled. I did not ask for a huge reduction, just a fair discount on my bill for my situation and I feel that we both were able to win in the situation. Thanks for being professional and kind XXXX, it will go along way.

I prefer to use a payday loan because you can pay it off quicker. The staff are a lot nicer as well. Most of the time you just need a quick fix versus a long term engagement for a money issue.

I use Payday Advance because at times I or a member of my family is in need of extra money. The employees there are always very helpful. And I can get the money the same day.

I come to cash advance to get extra money. Cash advance helps me pay off my bills so I dont get disconnected. Family hates out giving money so I would rather go to cash advance.

Payday loans helps me stay on top of my bill.

My insurance for my car was due and going to be cancelled. I got a small paycheck because I missed XXXX days from being sick. I was a temporary employee and did not get paid for sick days. I was able to day a payday advance to keep my car insurance active.

With the way the economy the way it is there seems to be quite a few times when I need to have some help paying some of my bills on time and the payday loan really helps me and my family get through.

It has helped me fund a trip to go see our family.

So when I'm in between checks and I need help paying some of my bills like electric, groceries I like to use the cash advance to get me through until I get paid again. I would rather take care of my financial situation this way instead of borrowing from friends. It's a fast and temporary fix when I need it.

June 26, 2014

When I need help to make ends meet by paying some of my bills like phone, electric and cable I like to use the payday loan to help me get by until I get paid again. There have been times that when I've paid my bills I sometimes need help to buy groceries.

June 26, 2014

When I need help catching up on bills and I'm in between paychecks, the cash advance files in to get me through. For example the last time I used it to help put gas in my car so I could go to work and not lose any time. This is the only way for me to get help.

June 26, 2014

When I need help paying any of my bills, I use the cash advance to help me out. Usually what I need help with is my mortgage so I can keep my house and credit going. My only other option is to ask for help from my inlaws which I really don't want them to be involved if possible.

June 26, 2014

I went on vacation and needed some extra cash to go, so I used the cash advance to help pay for it as my vacation landed in between pay checks. I've also used it to help my goddaughter to pay her rent. It's fast and convenient.

June 26, 2014

I use the cash advance to help me pay my bills like car payments, cell phone and electric bills. I really don't like asking anyone to borrow any money so this is my choice to get these bills taken care of.

June 26, 2014

If something comes up and me and my family need some extra cash to get us through, we use the cash advance to help us out. Recently we had to use it to replace the tarp on my husband's dump truck.

June 25, 2014

Payday loans have helped me pay up funds I did not have and couldn't get elsewhere. Banks don't lend small amounts. Payday loans have helped me buy medication (much needed) when I was waiting on my monthly fixed income.

June 24, 2014

It helps me to pay my bills and is easier than using any other cash advance around. It's also cheaper than a bank or title loan or anything of the sort.

June 24, 2014

My bank would not help me for the amount I needed. With the loan my family kept the electric on and was able to fix my car, so I could get to work. So thank you.

June 24, 2014

Help in emergency situations to pay bills. I don't have family support to ask for so need advance to get by till next check.

June 24, 2014

I had a bill that came due and did not know about it. So I came in to get a loan to pay it off. Thanks for the help.

June 24, 2014

My reason for coming is because I don't have anybody to get anything from. My credit is not good. Sometimes I need to pay medical bills that aren't covered by Medicaid. I need transportation so the funds helps for that.

June 24, 2014

I don't have family that live in the area. It could cost them just as much to send money to me and then me to send it back to them. I don't want my family to feel as though I rely on them.

June 24, 2014

I have a debt collector for a payday loan calling my co-workers like randomly picking extensions. Asking them if they can give me their information before they contact human resources. They are threatening to have fraudulent check charges put against me and that a warrant will be issued for my arrest for a felony.

June 24, 2014

I have needed some help with bills and I hadn't been paid yet. They have helped me out in my major times of need.
It has helped buy food and gas. It helps to get thur, until the next pay check.

I am a single mom who has been on her job of XXXX years and has not a wage increase in XXXX years due to a wage freeze. Payday loans have helped me tie loose ends when my paycheck was just not enough. They are friendly courteous and they always make sure I understand all the terms associated with my loan. I have always paid them back and I return because its hassle free and I dont feel judged.

Whenever I need money I can always count on payday loan. So I can help my family in my country which is the XXXX.

When you run short its easy to $ till payday.

Was behind on bills could not a bank loan But was able to get a loan from Advance America

It has helped me to be able to obtain flights for my daughter who travels from XXXX to XXXX for home visits and to help assist when money is short between paydays.

In my experience, payday loans help me a lot because when I am in need of some fast cash I turn to pay day loans. Also paying the money back is not bad and the payday loan is convenient.

Payday loans help me get thru til the next payday. Sometimes you need a little extra to get you from XXXX week to the next and these loans help. I dont have to go to family and harass them for funds to help me get by. I like to keep my life private, so asking for money is embarrassing.

Payday loans are very helpful. I use them as a way to surprise my wife because we share a bank account. They have in the past, also allowed me to avoid late fees, and over draft charges.

I fell into a financial pinch recently and had to access a Payday loan through Plain Green loans. After paying for XXXX months, none of my payments were applied towards my principle balance. In addition, the company is not licensed in the state of Pennsylvania where I reside. I immediately closed my bank account and called them to settle the principle I owed plus allowable XXXX APR. I was told no and that the agreement falls under tribal law. However, they then proceeded to report it on my credit report with Transunion. This company picks and choses what established laws of the land they want to follow. First they claim tribal immunity but use the credit reporting agency NOT established through their tribal laws. These companies are criminals and my prior complaint with the CFPB ended with no resolution. How can a company claim immunity under tribal law and still report to a credit reporting agency regulated by the United States? I implore this agency to act in the American consumers interest!!

Payday loans work for me because it helps me take care of bills that I do not always have money for in between paydays. With XXXX weeks between paydays it makes it simpler.

Payday loans helped pay for a transmission on my car and also helped pay for a new a/c unit.

Payday is awesome. I was in a terrible mess in the winter months with work hours slowing down to nearly nothing. Payday came through and I got to keep my house by borrowing an getting caught up, so yeah payday lending really helped me out. Thank you lots.

Payday lending has helped me by letting me borrow money with bad credit. At XXXX, I dont have good credit at all. Its nice to know at a time of need I can borrow money from a good company. I am very appreciative of this service.

Helped me pay off student loans, very exceptional people to work with.

I was behind on my bills and my paycheck wasnt able to cover it. I went into Check Advance for a loan. They have helped me out a lot. I have come to them when Im in need of extra money for bills, very nice people.
I am a XXXX year old XXXX individual. I was funded for a personal loan that I applied for on the internet here in California. I received my loan from a company that is licensed to do business in CA. I have had no problems with paying my loan or any issues with the company. However, because of my online application, which is circulated to hundreds of different lenders a company called America Fast Cash Loans contacted me. XXX, proceeded to tell me of course they had all of my personal info, i.e. SSN/DOB/Mothers Maiden Name, Address, Phone Number, and of course bank account routing number and account number. They offered to loan me $XXXX. I had just received a loan for $XXXX from the company that is legit. So because of the recent death in my family I decided to talk with them and see what they were about. They referred me to their web site, gave me their XXXX ID number, FDIC Number, SWIC Number etc. I told them I would do research and call back if I was interested. Well XXXX minutes later I received a call from XXXX, a Senior Loan Officer stating that XXXX told him that he needed to contact me regarding my loan. I told him that I was online researching them as we spoke. He said very good let me tell you that we can transfer $XXXX to you bank account in XXXX minutes. I said send me the loan docos. He then proceeded to tell me that I needed to pay a $XXXX fee to process the $XXXX and that the $XXXX would be added to my loan. FREE MONEY he said really no charge. He then told me to get a Money Pac Green Dot Card at Rite Aid, for only XXXX and add the $XXXX. I said why not just let me pay the $XXXX with a debit card. What he tells me next is that because it is a secured loan that they must receive the $XXXX via Green Dot. His reason was that they only deal in cash—good faith efforts to make loans. Ok I get the Green Dot card give him the card number and of course I hear nothing back. After XXXX hours I call XXXX and she says that XXXX is processing hundreds of loans and to bare with them. OK Minutes later he comes on the line and tells me that because of my credit rating I need to send them another Green Dot card for $XXXX, insurance I pay and it will be added to the loan and if I become unemployed, etc. that I the insurance will cover the payments for the term of the loan. I tell him that my credit score is XXXX not bad could be better. Then he proceeds to tell me that the underwriter at HSBC is requiring this. I asked for a loan number and he gave me of course a bogus HSBC loan number. It gets better. Ok I get the Green Dot card for $XXXX, call him back and he says another problem, IRS has a tax lien for $XXXX on my credit report. NO I tell him I do not owe any taxes, he puts me on hold and tells me that the underwriter wont write the loan, and I need to get another $XXXX Green Dot card. Of course they will credit the $XXXX to the loan and even underwrite $XXXX, but the $XXXX Green Dot card to pay my first installment of $XXXX and get a $XXXX dollar credit for the balance. Ok I get the Green Dot card for $XXXX and give him the number. So now I have given a total of $XXXX. He tells me the money will be wired to my account by XXXX. He will send me my loan docos and call me tomorrow to make sure everything went through. OK I check my bank account online until XXXX no wire transfer. First thing the next morning I call my bank to see if there was an attempt to make a wire transfer, they tell me no, keep checking because it depends on where it is coming from OK. I get a call around XXXX am my time from XXXX. He has bad news I need to send $XXXX for the SWIC money transfer costs. I am really mad and tell him to refund my money. He insists that all the money will be put back on my loan and I just need to take care of this minor problem to get my money. Ok, I get another Green Dot card $XXXX and call him back. He tells me it is processed and expect the funds in XXXX minutes. I then tell him that I did not get my loan docos and want to talk with the HSBC underwriter. He tells me that they will not speak to me only him. I am now really mad and tell him to refund my monies. No he can not do that because they have been included in my loan and wired to HSBC. I told him I would contact HSBC myself and because he gave me the HSBC loan number they should speak with me. He told me that it was HSBC International Bank and that it would be an overseas call and he is not allowed to give out the number. I then told him send me the loan docos via email. He agreed and I waited for XXXX hours, of course no email. I called him back and he told me that he sent the email and it failed because my email was invalid. I had him repeat the address and it of course was correct and he asked me to hold. He came back on the line and told me that XXXX just told him that their system was not able to send out any more emails for the day. Tech difficulties. I told him I have not signed anything and want my money refunded. He hung up. Later that day he called me back and asked me why I hung up on him. I told him Advance pay has helped tremendously with not being able to pay bills due to illness of my husband. We would have really been in a bind without it.

If I need a little help to pay my rent or anything else payday lending is always the way I go. I dont have to worry about my credit rating to get a loan like I would with a bank and that is the most important thing for me.

Payday loans help me a great deal whenever I am low on money and I will come again. Everyone was really nice. Thank you for your help in my time of needs.
I have found myself in a situation where all the bills are paid but there is no money left over and the entire next paycheck is available for incidental expenses and savings. In that scenario I need cash for a very short while to pay for kids lunches at school, an $XXXX emergency room visit or whatever life throws at us. Asking family for help is dicey because they assume the worst and they may also have their own financial issues. I know it is not Long term solution but it helps get back on my feet.

Check Advance has helped me stay caught up with my bills when my payday check was not as dependable. The fact that they dont check your credit is amazing because sometimes in life you just need a helping hand and not someone just looking at your past.

I started use payday advances to help me in tight situations where I could not get other help. Payday advances have been great in helping me get through those tight situations.

I recently went through a divorce and now that the household income has been cut in half the cash advance has really help me stay current with my bills each month. Im not really in a position where anyone can help me so this is a huge help to me in my life right now.

It seems like whenever I need help to pay bills or need some extra cash, the cash advance has always been there for me. It has really helped me with my house repairs when I've needed it.

When I dont have enough money to pay my bills or for medical bills now that I have a baby we use the cash advance to help us to get them paid. This way we keep our credit in good standing and avoid large late fees that come with late bill payment.

I was using it to help me pay for my tax returns, but now I use to help me fill in the gaps in between my pay periods to take things like normal everyday household need. Im only able to work part time because of my health so this is a huge help to me.

My girlfriend has an injury that keeps her out of work and Im also helping her with her medical and regular bills and the cash advance is helping us get through this tough time. Id rather do this then ask my parents for help. This way I take care of things myself.

I use the cash advance to help me pay my bills like rent, utilities and gas. I get paid every other week and this helps me keep thing paid on time so as to avoid late fees or anything getting shut off. The cash advance helps me catch up on my bills too when Im out of work sometime.
With all the medical expenses I have the cash advance to help me make sure none of my checks bounce at the bank. When I’m in between checks this is my only way to make sure my financial needs and expenses are taken care of. It also helps me to avoid the large bank fees.

When I’m low on money and I need some help until I get paid again the cash advance is there for me to help me with my bills and even to buy gas at times. I would rather do this then borrow from family or friends.

I am just sick over a loan I took for $XXXX loan I took out with CashCall in XX/XX/XXXX. I desperately needed the money for a new transmission and no where else to go. I wasn’t even thinking and fell victim to these thieves paying XXX% interest and thus far have paid them $XXXX; still owing $XXXX and when paid off after XXXX more monthly payments I will have paid $XXXX. Is there anything I can do? Is this legal to charge that insane interest? I could have brought a new car instead of driving my XX/XX/XXXX BMW with the rebuilt transmission. I’m more than sick.

Check into Cash has helped me with everything from emergency car repairs to just having extra money for Christmas or vacation. Everyone has always been helpful and friendly.

Having the convenience of being able to borrow in an emergency to provide for my family.

I work on commission and I never know what I’m going to be paid so the cash advance helps me take care of my bills during the month. Getting paid only once a month makes it very difficult and I really don’t want to pay these bills with my credit card especially with the bad interest rates.

A PAYDAY LOAN HELP ME WHEN MY MONEY COME UP SHORT TO PAY ON A PERSONAL BILL.

Payday loan has helped me with bills and holidays when I was short on money, they have been a big help.

I usually use the cash advance to help pay bills and like my credit card bills to keep my credit rating in good standing. It also allows me to not fall behind on my bills. This is my preferred option at this point.

I use the cash advance mainly to help out my grandchildren to pay their bills and schooling. This allows me to help them when ever they need it.

Im on SSI and our income is fixed and the payday loan helps us keep the household bills paid on time and to help avoid the large late fees if they are paid late. My kids sometimes need a little help and I’ve used the cash advance to kind of help them as well.

My usage of the cash advance is basically to help me stay up on unpaid bills that I may not have the funds for. I am a single mother of XXXX so this really helps on funds for my child and I ......for example food and daycare.
My income goes up and down depending on the season so the cash advance helps fill the holes in my income until the busy season starts. I'm using now to help me move.

I use the cash advance for unexpected medical bills that have been coming up. It really helps me in any type of emergencies such as a high electric bill. There have been times when I've needed it just to be able to eat by buying groceries.

I use the payday loan to pay my bills like rent, utilities when they run high and other necessities I may need. There have also been times that my daughter has needed help and I've been able to help her by using this service. This is really my only choice due to my credit situation. The fees for this service are very reasonable and its a quick fix for my financial needs.

I use the cash advance for different things such as paying unexpected bills when we run a bit short on cash. It helps us get by until we get paid again. We have used this in the past to also help us with buying groceries. This helps us avoid paying late fees.

I'm on a fixed income and sometimes I just need help to make ends meet like when my bills run a little higher than I budgeted for. I have also used it a few times to just have some extra cash when I travel. It would really be a struggle for me if not for this service.

I need help with bills that this loan has helped me with. My granddaughter attended college. This loan paid her rent.

I got a call from my bank Wells fargo on XX/XX/XXXX said I made a deposit of XXXX dollars on XX/XX/XXXX and one of the checks were lost. I looked through my records to find that one of the checks that was for XXXX dollars was paid XXXX, the other check I have no record of so the bank debits my account for another XXXX because they said they never got paid for the other XXXX. but they have no number or bank name it was just lost.

Sometimes I don't get enough hours at work and I need some extra cash to pay bills or help with unexpected situations that come up the cash advance helps me take care of these issues. My only other option would be to pawn something or ask family or friends which is never fun.

My wife and I use the payday loan to pay our bills like fuel, cable and other utilities. It is the most convenient way for us to take care of the things we need to get taken care of instead of possibly borrowing from friends which is never easy.

I use the cash advance for some extra cash when I go out of town and need fast cash right away. I also use it for when emergencies when they come up. I am a hard working American and I live in New York. Sometimes though there are gaps in income. Before I used to be able to find a lender (based on reviews) who lent in New York. Now, no lender will lend to me. (I call them and they dont give me any good reason, they just say they are not allowed to lend in NY).

In the name of consumer protection, you are restricting my right to enter into a contract. I used to use these loans for XXXX time gaps. I used to take it for XXXX days, pay the minimum fee (usually XXXXbucks for every XXXX, i used to borrow XXXX), and then pay it off.

Why is the cfpb doing this?

Helps to get money when you are short or when something comes up.

I have filed XXXX complaints against Cash Call and I have not received any information nor compensation fro Cash Call. The CFPB worked very quickly on Western Sky/Cash Call but not The First Bank of Delaware and Cash Call. Cash Call was not a licensed lender XX/XX/XXXX. The Federal Reserve ordered The First Bank of Delaware XX/XX/XXXX to cease and desist and revoked their license. XXXX states have successfully sued Cash Call except the state of Oregon pertaining to The First Bank of Delaware. I paid $XXXX on a $XXXX loan and now Cash Call has a negative entry on my credit report that they will not remove. Why is there no assistance for other borrowers only Western Sky/Cash Call accounts. Cash Call was not licensed in Oregon XX/XX/XXXX to conduct business and even though my loan stated it was with the The First Bank of Delaware Cash Call has failed to prove over the course of XXXX years that they purchased this loan. The First Bank of Delaware was ordered to reimburse all loans over the borrowed amount. Is anyone from the state of Oregon going to assist other borrowers other than Western Sky?

payday lenders,

they prey on the unfortunate and lend on bad lending ratios. this has become and new epidemic of lending practices. they need to be shut down. i recently got a call from a payday lender that was going to file fraud charges against me and sue me for the contract. i went bankrupt in XX/XX/2012 and here XXXX years later they are prosecuting me. my attorney said they should of filed the proper paperwork thru bankruptcy IN XXXX/2012 WHEN THEY RECEIVED NOTICE IN BANKRUPTCY court not XXXX years later. i get $XXXX on social security and they say i qualify for for up to $XXXX TO $XXXX. when you get to their office they always try to get you to do more than you can afford. YOU SHOULD SEND SHOPPERS TO THE PAYDAY LOANS. THEY NEED STRICTER LAWS. I AM HEAVILY MEDICATED WHEN I SIGN THE LOAN DOCS.
I applied for an online payday loan, and was called by A1Cash Advance{XXXX}XXXX, who instructed me to put $XXXX on a Green Dot Value Pak and they would deposit $XXXX in my bank account. They took the $XXXX although they had promised not to, and they never did deposit $XXXX in my account. When I complained, they transferred me to a supervisor named XXXX who told me that the state of Maryland was preventing them from making the deposit and to put $XXXX on another Value Pak in order to solve this situation. I’ve reported this to the FBI who instructed me to contact you for help. Please help me?

I am a credit counselor and see the impact payday lenders have on families and individuals. I am writing today because of a situation I ran into yesterday when someone had borrowed $XXXX on a car title loan. Interest Rate is approx. XXXX% and payments are over $XXXX/month. This person has had it since XX/XX/XXXX and she still owes what she borrowed then (its XX/XX/XXXX now). She knew there was interest costs but not able to pay it now and is concerned she will lose her only vehicle. Here is my thought… credit card companies are now required to show on their statements how long it would take to pay off the debt if the consumer only pays the minimum. Why are not payday lenders required to do the same? If this person took out a loan and was told this is how much she needs to pay (minimum each month) then this person should also be able to see how long it would take to pay it off at that rate. This is not disclosed on any forms that I have seen. There is a statement that says it is recommended to pay extra - but no other details.

So my suggestion is that payday lenders have to do the same as credit cards - let consumers know how long it will take to pay off their car title loan or flex line of credit if they only pay minimum payments and what would be the total cost to the borrower. Thank you for your time in reading my message!

I too needed money in XX/XX/2012 and took out a loan from Western Sky that was turned over to CashCall and now Delbert has it. I have paid over $XXXX on a $XXXX loan and was told I still owed another year on it. Yesterday, I cancelled my electronic debit on them. I am fed up with their lying.

After reading an article in the XXXX Journal on Tuesday, XX/XX/XXXX on XXXX who received a loan for her car from a Title Loan Company (Loan Max). Although her loan was forgiven by Loan Max, others have not. Therefore, I wanted to share my daughters story. She is also a single mother with XXXX small children and became a victim to Loan Max on XXXX in XXXX, Ohio. It is the worst place to get a loan. She had a XX/XX/XXXX Saturn and borrowed $XXXX. As it ended up, she owed Loan Max a total of $XXXXX or more and could not repay her loan. With that being said, Loan Max sold her car and she is now using my husbands car to get back and forth to work.

This companies are charging a XXXX percent interest in XXXX, Ohio and are getting rich on the most vulnerable people in our community. These types of businesses are worst than the Check Cashing establishments. Title Loan companies promote unfair practices. They should be made to compensate the people who lost their cars or overpaid that were caught up in their scheme (unfair practices). Their businesses need to be shut down or regulated, so they are not ripping off our poor in our communities. I can provide further paper work to investigate their practices.

It helped me out, When I only had maybe $XXXX dollars to my name.

When I dont have the money to pay some of my bills the payday loan came in handy.
Our business used the services of a collections agency, NRH & Associates. For about XXXX months, they were personable, earning our trust by collecting successfully on small debts. So we decided to ask them to collect on a more substantial debt from a customer who owed over $XXXX. NRH claimed after a month, they were still trying to collect. However, shortly after that, the customer contacted us and tried to reorder. We weren't planning to do business with them, until they said the debt had already been paid a month ago. They sent proof of the cashed check. The customer had sent the check to NRH, and even though the check was made out to us, the collections agency cashed it. After we found out about it and tried to resolve the matter with NRH, they avoided our phone calls, emails, and correspondence from our attorney. They recently disappeared. Their website is gone, and phone and emails have been disconnected. That's how we found out we had been scammed.

This company has really been great to work with. A family illness has been the reason I borrowed money and will refer everyone I know to this company.

We felt trapped, we thought we could get rid of at least the car payment, but as luck would have it the amount given was less than we owed on the car, and the pymt would come from the back of car loan leaving us with still making XXXX pymts, no matter what we would pay we would still be paying for a long period, the loan came so fast there was little time to think... They said we were given an advance on our miliatary, pension... But they r taking from my personnel checking, each month at the rate of XXXX. For XXXX years!! I wanted to include it in my bankruptsy, but it states cannot be paid off or included in bankruptsy .. What a mess... XXX-XXX-XXXX

A few months ago we needed money to pay a mortgage payment. I had seen ads about title loans. I thought this would be a good quick way to get the XXXX we needed. When my husband came home with the papers I saw that we were being charged XXXX% interest. I made the monthly payments and by the time I had enough money to pay the loan off I owed XXXX. I have learned from this experience but I wonder how these businesses can be legal. I am sure I am not the only one to be caught in this situation. I feel like there should be a law to govern these loan companies.

I submitted a complaints against a payday loan company and a debt collecting agency. This prompted me to file a complaints because of the threatening call and conversation over a phone, and misrepresentation for something else. Consumer Financial Protection Bureau handle my complaints thoroughly, they give me updates and status of the complaints. I had taken our a payday loan but had forgotten all about it. the original payday loan sold my account to an collection agency. well some other agency or person call me out of the blue on my work number and requested i pay this bill on a pre-paid visa card, this scared me so i wanted more information from this agency and was inform they would not send me any documentation unless i pay first, also i was threaten to be sued and would be summons to court. well the original payday loan investigated and found out this agency was not one of their representative for collection, so they requested my account to be close and not further collection action will be done. My experience with CFPB was great and filing the complaint was easy to file and they kept me inform on what they was doing the the timeframe when i will received a response. I can say this is a great tool for consumers who feel something is not right when you receive any type of collection calls. if i ihave a problem again with any of my creditors i will contact CFPB for their professional help.

I went to Top Dollar Loans to make a payment for my nephew on a title loan. I am not a party to the loan. I authorized an amount which was debited to my bank account and paperwork was printed and signed for that amount. On my bank statement a XXXX debit was made to my account for a XXXX. Yeah just a XXXX. But this was not authorized by me and not mentioned to me by the employee. It makes me feel as if it is a test to see if I would notice this theft of money from my account and I am watching to see if any more debits occur.

I received a payday loan from an online cash advance website. Received the loan, payed it back then received a phone call at my work place from a man named XXXX, claiming he was with the state attorney office and he was calling to collect a debt from me from an online payday loan I received. I did not understand what he was talking about since I had already paid the loan back. So I then asked the man what it was for and he said it was for taxes and fees that were not paid back with the loan. He said it was a total of $XXXX. I then asked him why this was not communicated to me when I applied and he then said he does not know because he does not work for the loan place but is just collecting a debt. I kept telling the man I needed to just hang up because I was at work and he was getting very aggressive with me, telling me I had to stay on the phone and settle the debt now or he will have a Police officer at my home to arrest me and put me behind bars for a year. Saying I will lose my job, not be able to work in California for XXXX years and my children would be taken away from me. I hung up because at this point I was pretty upset! Then he continued to call my cell phone so I finally answered. It was the same man telling me that I needed to get the cash and wire it to them as soon as possible If I want to settle this out of court. I drove all the way home with him on the phone. Hung up on him again. Then my phone rings and the caller id says " Police Dept" so at this point I am really scared. I answer the phone to a man claiming he is a Police Officer and he is on the line with a man named XXXX from the State Attorney office and that we are needing to settle it or he would have to come to my home and arrest me. I then asked the officer for his name and badge number, so he then gave me a name and number. I immediatley hung up the phone and called the Police dept and told them the situation and asked them if they have an officer with that name and badge number and they said No.. After that the man kept calling me form a XXXX number. I continued to let it go to voicemail. He left a Very Aggresive message which I do have saved still. After that my phone rang with my caller id saying it was Work calling me, i thought thats strange! why would work be calling me. I did not answer and it called XXXX times in a matter of XXXX minutes. I then grabbed my home phone and called my Work and asked if they tried calling me and everyone said No, so I then realized it was the same people trying to get through to me since I was not answering my phone. This is horrible that these people are doing this to innocent people!! Needs to be stopped...

I then called the online cash advance place I received the loan from and told them what happened and asked them to look up my account and to make sure I was in good standings with them and they checked everything and said that everything was perfect! Loan was paid back XXXX weeks prior to this incident. They continued to call me so much that I had to go have my number changed and no phone calls since.

Sometimes emergencies come up and being a single parent its nice to have this service to get things taken care of. Its convenient quick at a fare price for a small loan.

This is a tactic you may have seen played by credit card companies. I have been paying off a CITI credit card steadily for the past couple of years. There have been no problems cashing my monthly checks consistently until my "payoff" check. It was never cashed and I was hit with invoice for the final amount and a penalty. The lesson is to review your accounts regularly if you are paying these credit card entitles by check or pay online and assure your account is debited accordingly.
Payday loans have helped me out with bills/misc items, usually towards the end of my check cycles. It would be a shame to lose this advantage.

I had a voice mail left on my cell phone saying that I was being charged with bank fraud and/or check fraud. The number is XXXX. When I called them saying I was worried and didn’t know what this could be about, a woman answered and said she was cooperative and called back that she would try to help me in any way to clear this matter up. She said she had loan sharks after me and that they would bleed me dry. Well I live from paycheck to paycheck and don’t have anything in the bank. But she said if I came up with XXXX today that she could keep them off my back because they were looking for me toburse me papers and when I went to court it would be out of her hands and she wouldn’t be able to help me and it would cost me XXXX dollars if it went to court. I was extremely upset. I told her I would call my mother and ask for the money to help me. She wanted to know when I would call her back and I said in XXXX minutes. So I called my mom and she answered me who it was from and who I had to pay. The lady said it was a payday loan and I didn’t have any out, but I had in the past so I was confused. Also, the woman on the phone talked extremely fast and I couldn’t understand her and I was confused. Anyway, my mother called the payday loan that I had paid off and they said they didn’t do stuff like that and that they would call me directly. The woman said she was a private collection agency. So I didn’t call her back like I said I would. She called back and I wouldn’t answer it but my boss at work knew about what was going on because I told her so she answered my phone and they thought she was me. When she asked them to fax the information to her so I would know what exactly I had to pay she said she couldn’t do that and thought that my boss was getting too aggressive, (which she thought was me) my boss explained that she wasn’t and that I just wanted to know who I was to pay and the woman hung up. Later I received another call from her but I was in the kitchen cooking and didn’t hear the phone go off. She didn’t leave a message for me this time. I don’t want this to happen to anyone else. I had had the money I most likely would have paid it because they had sounded legit. Please don’t fall for the same scam. I hope that someone can trace the phone. The area code was a DC area, so please be aware of this and hopefully the police can stop them or others from doing this to innocent people. Thank you for listening to me. I didn’t know where to report this so that’s what I am doing. I didn’t know what category to put it in. Thanks again.

I was in a financial hardship and requested a deferment on my student loans. I thought this was going to help me but in the end it made it impossible to get ahead on my loan. Because I did not pay the interest that accrued on the account while in deferment, when I began paying on my loan my entire XXXX payment was going to pay on the XXXX of interest. In addition to that, over XXXX was being added every month for interest that was continuing to accrue on the principal and added to the interest that had to be paid before any money I paid could be added to the principal. I began to pay more than my minimum payment thinking that it would be applied to my principal balance. NOPE. It is applied to the interest, never allowing the principal balance to be reduced and therefore the interest that is charged on the principal to be reduced. When I called to inquire, I was told very politely that I could add the interest to the principal balance, which would increase my monthly payment so that I could see it going down. Really? Why on earth would I want to add that interest to the principal, making my payment go up AND now I’m paying interest on the interest. The response was it would happen eventually anyway with or without my consent. I happen to be lucky in that I can actually afford the XXXX payment but also able to pay a little extra a month. I see why people do not pay, why when you can never see yourself getting ahead? I do not think this practice should be legal. I am not saying I do not owe the money but the way payments are applied makes it impossible to ever get ahead, only that the amount you owe does not go up. They act like they are doing you a favor when they offer you a deferment or forbearance but in reality, they are only lining their pockets with more money from people who are already barely keeping their heads above water. I do not see how this is any different than payday loans, title loans or frankly, loan sharks.

I use the cash advance to help me pay my utility bills because I get paid every XXXX weeks and I sometimes run short. I much rather use the payday loan instead of borrowing from family or friends. I have also used this service to help out some of my friends when they need help.

I mostly use the cash advance to pay my bills and buy food. I'm on a fixed income and this provides the help I need to get through the month. My only other option at this point in my life would be to borrow from friends and I really don't want to do that and borrowing from a bank is too much of a strain.

When emergencies come up I use it to get me through until I get paid next. I use more for gas and food as well. I don't like to borrow from friends so this works for me.

I'm on SSI and I have a family and money is extremely tight and the cash advance helps us get through every month with keeping all my utilities on. I really don't have any other choices to help me with these bills so we rely on this type of service.

I no longer stress about where the extra money will come from, and not being an extra burden on my family is really what helps.

I use to use a pawn shop to get extra cash but when I found out about the payday loan it truly helped me and my family out. It also was way a lot cheaper than pawning my jewelry. We use it for all sorts of things like bills and incidentals that come up from time to time.

On Thursday XXXXXXX, I discovered that Wells Fargo had incorrectly removed money from my checking account for a check that had the name, address and account number on it of someone other that me. The check cleared to the wrong account. This was clearly a mistake on wells fargo part. Wells Fargo has stolen my money.

I immediately called Wells Fargo at XX/XX/XXXX and reported this on Thursday XX/XX/XXXX at XXXX, pst. I called Friday, XX/XX/XXXX at XXXX pst. and I spoke with several people who all told me that nothing could be done about their mistake at that point. On Friday XXXXXXX, I spoke with the Claims processing division of Wells Fargo (XXXX) I spoke with XXXXX a customer service representative and XXX a resolution specialist, neither of which would give me any more contact information such as an identification number or last name. I was unable to speak with any one at Wells Fargo with more authority, since they do not work on Fridays. The people at Wells Fargo whom I did speak with, informed me that nothing at that time could be done to put the money which Wells Fargo stole from me, back into my account. It would takes weeks for the money to possible be refunded, if it was going to be refunded at all. It has been XXXX days now and XXXX business days and I still do have the money which Wells Fargo has stolen from me. I am at a loss of $XXXX dollars and XXXX hours of my time on the phone with Wells Fargo.
Payday loans are an essential service for people who don't have credit for emergencies and unexpected bills. Please offer your support to keep making them available.

I contacted CFPB after I realized I was being taken advantage of by a payday loan company. They find clever ways to debit your account outside of the agreed upon terms. I contacted the company but received NO relief nor did I feel like the gentleman on the phone was giving me correct information. I work in technology and finance so his explanation was not making sense. My attempts to reason with him were futile. Once the complaint was filed with CFPB they immediately responded. I am pleased mostly with the way CFPB protected me and represented me. The complaint process is easy and effective. In the end the company still made up things that were not true about sending emails, etc but they agreed to give me exactly what it cost me due to their fraudulent practices.

A payday loan has helped me by getting me by with gas and food until my next payday when unexpected expenses have occurred.

I received a email that cash call was being sued. I had a loan with these people as well as Western Sky. They were awful. Continually taking more and more money out of my account. I started the loan in XXXX and then moved to XXXX. I have since paid them all off. I was charged enormous amounts and even hassled when I tried to pay off. I wish that I had never done business with them but as a single mom and going through a divorce I felt I had no choice. I paid them XXXX and XXXX of dollars for my small loans. I am glad you are looking into these companies. How can I find out if my account was one that was charged wrong?

The payday loans help me make the stretch from one paycheck to the next.

Payday loans helped me meet medical expenses for cancer treatments.

I have been in a payday XXXX for about XXXX months. I first began borrowing when my daughter was born to ease the anxiety of running out of things for her while I was on an unpaid maternity leave. I had to add loans to begin paying the high interest installment payments. I would be able to pay one off but with not having enough money to pay my regular bills would have to refinance another at a larger, more expensive amount or take out a new one. I am at the point of XXXX loans with about a $XXXX balance. I have however sought help. I am in the state of Wisconsin and have been advised that all the lenders can access my information in a database to determine if they can lend to me. None have stopped me from borrowing. The borrowing is not out of a want for material things but a need to pay bills and have food. I have not done this irresponsibly.

Payday Loans help me with car repairs, help avoid overdraft fees and help with unexpected expenses between paydays.

Payday loan has helped me because sometimes people get behind on bills and need financial assistance. Everyone needs help sooner or later and payday advance is always there to assist.

If it wasn't for check into cash I would not be able to get Christmas for my niece and nephew.

I like to have the cash advance handy to buy extra food, pay my credit card bill and gas when I don't have enough cash to get through. It's definitely been a great help to me when I need cash fast without any hassles.

I understand it is partially my fault, but isn't there a limit to the number of loans a person is allowed in Tennessee. I have these payday loans from seven different locations in Tennessee and I cannot continue. Can you help me? I'm afraid to approach them or they will attempt to cash the checks and my account will return them and I'll go to jail. By the way, I work for and should have known better. I there a repayment plan option in the State of Tennessee like there is in others? Please help me. The loans were for auto repairs, not vacations. thank you.</td>

<td>I obtained a title loan in Tennessee, not realizing the high interest rate that came with it. I borrowed 2200 dollars from Tennessee title loan in November 2013. In December I paid 1600 of that 2200, in which I was told for that month over 500 was interest. I told them that the car had stopped on me and I left it on the expressway and 2 days after it stopped I went back to have it towed and it was gone. I called the impound to see if it was there, but wasn’t I told them I would continue to pay, because that was the agreement. I later had to go on sick leave and could not pay my regular bills nor the title loan. I notified them that I was thinking about filing bankruptcy if they couldn't help me with the interest rates. She said they could not help and go ahead and file bankruptcy. I informed her that I did not want to do that, so I'm asking my creditors to help out. She said they couldn't and now I owe 2700 dollars. Is this legal to charge this type of interest?</td>

I took out an auto title loan at etitleloan.com. I am located in Texas and they are located in Florida. I met a lady at McDonalds and signed a contract through a tablet and never received the contract via email, or payment information regarding my loan. Also they misrepresented the information about the interest rate and loan information. I seen online that there is several complaints against the company referring to the same situation I am in. They never contacted me at my residence, never received any thing in the mail. Now the company is trying to repo my vehicle. (According to ex husband and other family members)

I received a phone call from a California number and this person told me that he was with a legal office. I was told that I was being sued due to fraud, he stated that I committed fraud, written bad checks, and that I hadn't paid a payday loan. This person has my drivers license number, name, and phone number and I am unaware where how he received it, and praying he has no other valuable information. After asking this person what he was talking about because I had no clue, I proceeded asking him what company I had supposed took this loan from he told me he would investigate further and hung up on me. I called the number back and the guy answered by saying "The Law Office", I told him they were un professional for hanging up on me. The man told me I owe $500.00 to US Cash Advance and proceeded asking me how come I haven't paid my debt, he also left me voicemail saying he needed to speak to myself or my lawyer and that it was time sensitive. This issue has me very concerned and even scared I think someone is out here scamming and has people information. I'm looking into this US Cash Advance.

I use the cash advance to make sure I don't over draw my account. I use this to help me with paying my rent and other bills. My income is small and this really helps me get by each month.

The payday loan has really helped me pay my bills on time when I don't have enough money to get them payed. I also use it to pay someone to drive me around because I don't drive anymore. Has given me my freedom back.

I get paid every other week and I get paid on different days so the cash advance helps me fill in my needs especially when it comes to paying my rent on time. I also use it to help me pay my car insurance and light bills. If not for this I would probably have to negotiate with the people I owe money to to pay on a different date.

From month to month I need the payday loan to help me pay my electric and other bills. I usually use it in the middle of the month when things get a little tight. This helps me to not have to restructure all my bills.

Pay Day loans has helps me get my bills paid. I'd Has helped me get my kids extra things they need.

I only use the cash advance to pay my bills. My credit isn't what it should be so this works for me. I don't use credit cards so being able to get cash when I need it works just fine for me.

The cash advance is allowing me to help out my mom with her bills. Both my mom and some of my neighbors have used it so I though I'd give it a try to help my mom out. This way I can control how much and when I help her.

This payday loan has been very helpful to make ends meet for me and my family in between pay periods.

The cash advance is a supplement for me for my income because I only get paid once a month and sometime I just need a little help to keep my bills paid on time or if an emergency comes up.

Sometimes my bills don't line up with when I get paid so the cash advance helps me keep my bills paid on time until I get my next check. The cash advance is my back up plan when I need it. Makes me feel at ease knowing I can get quick cash if I need it.

The cash advance helps me with my car payment and insurance along with other everyday bills that come up. I use this until I get my budget for expenses have leveled out.

I represent clients who were issued a check for insurance proceeds covering a damaged roof. The bank was a co-payee. The roofing contractor took possession of the check and negotiated it with an ostensible endorsement of the bank. There is a question of whether the bank's endorsement is genuine. I have requested their advice on the authenticity of the endorsement on at least three separate occasions, in writing, and they have consistently and inexplicably failed to respond to the detriment of my clients.
PAY ADVANCE LOAN - I would have never thought I could have gotten in so much trouble for getting a payadvance loan. The interest was so high, that it came a point and time where I could not afford to re-pay it. The harassing calls starting to come up, sometimes 4, 5 times a day, then one day, a processor showed at my workplace, she contacted my supervisor. This collector was trying to file a judgment against me. I am never getting a payday loan ever again.

First of all they did end up sending a letter after continually calling and me filing a complaint. Second of all once they sent me the letter and I knew what they were trying to collect on, I realized that this debt had been paid in June of 2013. I have the proof from the original creditor that this was paid.

I only get paid every other week and at times I run short on cash and the cash advance helps me get through by helping with my bills. When I budget a little better I won't need to use this service but for now it is my choice to get things taken care of.

I had several small bills I wanted to pay. I was going to try for a loan of $500-$1500 depending on the terms. I have done this before. This time when I applied online, lots of companies called, but I began talking to a "Michael" from Cash Advance America. He assured me that the company would not cause me to lose money like had happened to me a few months ago. The company says that you have the loan, but since you have bad credit you have to "show" the first month's payment. The they describe the Greendot Card and even want to stay with you on the phone when you buy it. They ask for the number, then whoosh, it is gone. It cannot be refunded and now there are hundreds more to pay because of the bad credit. $300. If I had three hundred I would not have applied. So, now I am out and no loan since I cannot come up with $300.00. Would they give a loan if I had it? I have my doubts. This all happened through a series of phone calls. I paid the money, then days later got a loan confirmation, then they would do it. Said I had to pay more. This has happened to me twice now and I am in a very bad financial place.

I am a retired lawyer. I graduated from [redacted] and was a partner in one of the largest law firms in the United States for more than twenty years.

Recently, in the course of some pro bono work, I became aware of the activities of a company called Dollar Loan Center (“DLC”). Here is a link to its web site: http://www.dontbebroke.com. DLC is a maker of small, very high interest, loans. Some of these loans are for a principal amount of $2,500 and for a term in excess of one year. The interest rates on these loans exceed 450% per annum. DLC is a large operation. It operates in 76 locations in California, Nevada, Utah and South Dakota. I have no relationship with Dollar Loan Center or any of its principals. I am just concerned about the impact of loans made by companies like these on unsophisticated consumers.

Dollar Loan Center has attracted some negative attention from small media outlets. Here are some links:

As you probably know, “payday” loans are lawful in California but there are limitations on their size, term and permitted interest rate. As I understand it, a California payday lender cannot loan more than $300 for a period in excess of 30 days. The interest rate on these loans can be in excess of 450% per annum. But because of the restrictions on the size and term of the loans the impact on consumers is blunted. The loans Dollar Loan Center makes are much larger than payday loans. They are for much longer terms. So I believe that they are much more dangerous for consumers.

My understanding is that the California Financial Lenders Law creates a usury exemption for personal loans in excess of $2500. However, the California Civil Code authorizes judges to refuse to enforce “unconscionable” loans or unconscionable terms in otherwise enforceable loans. DLC has developed an interesting collection strategy which may be designed to prevent California judges from declaring key provisions of their loans unconscionable. DLC sues defaulting borrowers in California Small Claims Court and waives all amounts due in excess of the principal amount of the loan. This means that borrowers who default don't have to pay the high interest rates that come with the loans. This also means that California judges are denied the opportunity to rule on whether these loans are “unconscionable”. But the borrowers who pay these loans according to their terms pay interest rates in excess of 450% per annum.

I hope that your organization can do something about lenders like DLC and the payday lenders. I recently had occasion to go to a minority neighborhood in Los Angeles. The number of payday lenders in this community was surprising to me. I have read that the average American who earns $25,000 a year pays 2,500 a year in interest and finance charges to a retired lawyer. I graduated from [redacted] and was a partner in one of the largest law firms in the United States for more than twenty years.

I am an employee of Cash Express. I’ve been with the company for 2 yrs. and before I was an employee I was a customer. I had some car repairs that needed to be taken care of and a payday loan helped me out with my repairs when I had no one to help me out. They’re very helpful when banks turn you down for loans or you don’t have anyone that you can borrow the money from. I love to help out anyone as much as I can, and getting to know my customers, especially when they have no one else to turn to.

I am an employee of Cash Express LLC. I have been there for 3 years I really enjoy helping people who are in need of extra cash and have helped a lot of people out in the past 3 years. I really enjoy working for a payday loan company and knowing that we can help people in need who other wise would have to do without if it was not for places like were I work for I enjoy this business and knowing that I help people in need I have helped a lady just the other day whose lights were turned off and I was able to lend her the money to get her lights back on. I am happy to be with such a great company and hope to continue working for them for years to come and helping others that are in need.

My husband and I have recently both been in accidents causing us to be unable to work. We currently live on one monthly disability check and have used both our 401k’s to live while fighting for social security benefits. Payday advance has kept us from disconnection of utilities and saved us numerous bank fees when our automatic deposit comes in after our automatic withdraws. We truly live paycheck to paycheck with all of our savings depleted in the last several years. We cannot afford to make credit card payments and our income keeps us from getting traditional loans because we do not qualify for and cannot afford another monthly payment. Payday advance allows us to borrow only exactly what we need and when we need it.

I was short of funds on helping my daughter with some of her school supplies. I went to Cash America on [b](b) (6) to get a cash advance which really help my family out and put a smile on my face that I was able to help my child the service was great the people were nice and still is to this day I go to cash America for just about what every i need.

I have been in the industry for over 10 years in both the consumer and payday side of the business. As a member of upper management I have heard many great stories with success. An example is My office had a daughter that was in college and lived 6 hours away from home. The customer found out both of her parents were killed in a car accident and had no money to here next payday. The customer tried to get small loans but either the amount was to low or no credit. She came in to the office we understood her situation and got her home to be with her family. Later the next week we received a card from the grandparents thanking us for our help. Many stories go unheard but feelings always remain.

I have had customer that have been doing check loans for 5 to 6 years and did not know how to get out over it and some employees don’t tell their customer how. I am different I tell my customer to get what they need not what they want and it is easy to get out. So what do I tell my customer if you have extra money pay $25 $50 or even $100 and go down the way they can get out sooner and quickly... so far I have 17 people who have paid out and stayed out... if you don’t education your customer they don’t know... BE HONEST AND LET YOUR CUSTOMER THAT YOU CARE AND YOU WANT TO HELP!111

I am new to the payday industry for about one year now. I enjoy helping out new and current customers. We receive a lot of good feedback from them. They like that we are there for them in time of need.

Payday loan company’s is a good place to go when you are in need of some help. No credit checks is the best due to not having good credit and can still get the help you need. Customer Service is the key to our customers. Giving the best customer service is what brings the customers and they tell their friends and grows your business. Payday loan company’s are helping people in need.

Not everyone is able to walk into bank and get the money they need for emergencies. Payday lending companies are able to help them when they need extra funds but have no where else to get them.

I have been employed with the payday industry for 3 years and really enjoy it by working with and helping my customers. It gives me great gratitude to be able to help my customers cause I know that if it was not for me then some of them would not have enough money to buy food or have any utilities in their homes. Without this resource then some of my customers would not be able to survive.
I didn't think I would ever work for a loan company. But when I was asked to interview I went think I wou ld be offered the job. I was. I called around and asked several people with t
title and payday loan companies, what they really thought of their jobs. To my surprise they
really loved working with their customers and helping when they needed extra money. I have now been with this company for a year. And I
love it. My customers are single moms that need extra money for child care ,drgs, food. Or the senior that runs out of money in the middle of the
month and needs food or meds.

Customer service is Very important, and enjoy helping and assisting them; including Employees. Pay day loans are great!

Pay day loans are important to our customers because they help them when they are in need for extra cash. Everybody has emergencies when
they are in need of money until their next check and payday advances are here for them.

Payday advances help people that don't have any financial support. They help people that haven't been to work because they have been sick,
pay for bill that suddenly came up or had an emergency that had came up.

I believe the Payday Advance industry has helped my family personally because it made it possible for us to get the money we needed
immediately for medical bills and allowed us to pay it back at a later date.

In 2010 I was working part time, mother of 3 young children, and a part time student. My lights were cut off and I did not have any family to
help. A friend of mine told me about a payday loan so I went and applied. The process was quick and it helped me get my lights cut back on.
They were there for me in an emergency when I had no one else to turn to.

I have worked in the payday advance industry for 9+ years and I can honestly say this has been the most rewarding job I have ever held. My
customers have been the true story of how we help them and I have seen first hand the impact it has had on their lives. For those that have
fixed incomes, single parents, and people who can't get traditional loans we (the payday advance industry) have been a blessing for them. If
they can't afford their mortgage - they come to us, if they can't make their car note - they come to us, when the can't afford to put food in their
households - they come to us. They can count on us when their credit is bad and for short-term use. My customers have become who and what
I am and I am proud to represent them. The payday advance industry has helped more people than most care to admit and it is something that
everyone should respect. It gives jobs to thousands and we have the best interest of the customers - those who need us - in mind.

I have been an employee of Check Into Cash since 2008. It upsets and saddens me when I hear the industry that I work for being described
negatively on television and radio. I work hard everyday to help people. It doesn't matter what race or age they are. It doesn't matter whether
I've helped them in the past or not. All that matters is that they came to my center and they need help. Many times I'm the last resort. They've
tried everything else to get the car fixed, or the prescription filled, or even just groceries in the house until payday. I'm that port in the storm
and I'm always happy to help. I just wish the same people that talk so bad about the payday advance industry would come and spend a week
with me. Maybe then they'd see
A payday advance has helped me in many ways. When my father passed, I needed some extra money for basic expenses until my next payday to help my mother. At the time I was a single mother of one. We used the industry many times since then, but not on a continual basis. I feel the industry should be made available to consumers for whatever reasons and its their choice to utilize the advances as so needed. Most cannot pass a credit check at a bank to receive a loan. Some have over extended credit or no credit to apply for a secured loan.

The payday advance industry has been helping customers for years. There is not a day that a customer comes into my store wishing they weren't doing business with us. I always hear customers say "this is easier than getting a bank loan" or "this is very fast" and my favorite is "we can use you when we need you and come back without the hassle." Most customers know what they are doing when they get a payday advance and will tell you so. It should be up to the customer whether they are allowed to do an advance or not. Yes, the interest rate can be a little higher, but if you overdraft your bank account $29 each time for $30 in gas, $1 for a coke, and $50 for groceries, the customer just accumulated $87 in overdraft fees! Whereas, the customer could have done a payday advance for $100 and spent $15-$17.64. The payday advance industry has become an asset to America with a depreciating economy, low credit scores, and few jobs. Personal loans or a loan with a low credit score, for that matter, are slim to none. Not only the customers, but the payday advance industry employs a lot of families, without the industry we would be out jobs and unable to provide for our families. Please do not shut this industry down, or limit the number of advances in a year, America is known for being a FREE COUNTRY, allow us to have our say so in our financial matters. Thank You!

I am an employee of a payday advance company and help people everyday. People come to us for a short term financial solution. It is quick and easy to receive money for emergency situations. I enjoy helping people in their everyday lives and love to see a smile on their face. I have helped people buy groceries for their families, buy Christmas gifts for their children, put gas in their car, pay their rent, etc. I have helped hundreds of people.

I have been in the consumer finance industry for many years and have helped many people in need if funds that have nowhere to obtain necessary funds. We offer an easy affordable way to help fill their need with a short term payday advance. It also affords me the opportunity to help my customers become responsible with respect to borrowing money. This is a good way to help others learn the importance of their credit and how to build and improve their credit. Payday and Short-term loans (such as Springleaf financial) are intended to be short term solutions to short term problems. Because of this we accept that they have high interest rates and are usually upsold with various additional fees and insurances that only benefit the lean-holder (some usually only clear in the smallest of print). I was stuck in a cycle of these loans for 3 years. A bad month put me in need of a payday loan. I took it, and paid it back. 2 months later another bad month; another payday loan. Looking back the sad reality is that if I hadn't lost the initial $100 on the first payday loan repayment, the second would not have happened. Or the third, the fourth, and so on. It became a waterfall effect. Ultimately it had to end, and I took a short term loan from Springleaf financial against my SUV. It quickly became clear they were far more interested in keeping me on the lean than advising me on how to escape from it. I would be cold-called monthly that I could extend the lean, could even increase it if necessary, putting myself further in debt. A medical issue made the offer too tempting to resist, easy money right? No one is perfect. No one has immaculate self-control. Mine could have been better, but being constantly reminded that more money is just a signature away is not helpful. When I finally came in to pay of the remainder of the lean, they offered to give me clear title to my SUV and transfer the lean to loan. They didn't care about the collateral, they didn't care that I wanted to pay of the loan. They offered every possible term to try and get me to stay in debt to them. It was kinda scary, kinda sick, and very very sad. Something should be done to clean this up a bit. Help people help themselves. No bootstraps; just a society that understands what it means to prey on the weakest among them, and stops that from happening.

Help me take care if unexpected bills.
In March of 2013, I was contacted by someone claiming to be from 'Royce and Associates', an alleged law firm operating from Tampa, FL. They called around 9:00 AM EST and told me that an arrest warrant was waiting to be signed on me, and that I owed money from a payday loan with Advance America. I asked what the official charges were that I was being threatened with arrest over, and after stuttering and yelling at me for a moment, the person on the other end simply stated "bad check".

I DID owe a debt to Advance America from a few years back, but the arrest threat sounded iffy, and I hung up on them and went immediately to researching. I realized that the arrest threat was false, but did not at the time realize that the threat was legally actionable. I called Advance America and verified that a Northern Resolutions Group currently owned the debt from my unpaid loan, and upon speaking with them, was told that Vantage Point Services had been assigned to collect for them. I spoke with Vantage Point Services, and was notified that Royce and Associates was assigned to collect for them, and that I had to work with Royce to pay the debt. Royce claimed that I owed an extra $200 in fees (the original amount was $b(6) so this brought it up to $b(6) I knew at this point that what they were doing was illegal, but had not recorded any of their calls. They had sent me an email with a validation of the debt (ALSO illegal, as that must be mailed, but I didn't know at the time). This was where they claimed the extra money. I informed them that if they would accept the original $b(6) AND if the account was listed as closed on my credit reports, AND if I received written proof by mail that the debt was paid in full that I would not report their activities (I wanted to pay my debt, obviously, but I wanted to know they wouldn't mess with me further, as well). I paid via Western Union money transfer, and have not in the past year received my proof of payment. I also found, upon pulling my Transunion report the other day, that the account is still listed as 'Open' with Northern Resolutions Group. I spoke with a representative with NRG this afternoon, who referred me to VPS to obtain my proof of payment and have the account listed as closed. NRG gave me a phone number and an extension to ask for (They stated it was for Sandy, who they say is a manager with VPS). I have called VPS and asked several times for Sandy at extension $b(6) and each time, as soon as the transfer starts ringing, I am disconnected.

I'm pretty certain that these are all actually the same company, as I've seen numerous complaints with BBB and Ripoff Report on NRG and VPS about the arrest threat tactics. Below are their phone numbers:

(Sandy)

If there is further action I may pursue, please let me know. They very clearly violated the FCRA at LEAST by claiming to be a law firm that apparently doesn't exist and by threatening to have me arrested. There was probably more, but it's been a while.

A payday loan helps me because when I need money to take care of something before my pay day comes, I can get a payday loan until I get paid.
I was contacted by a collection agency by the name of Brinkman Alliance Group telling me I will be served with judgment papers to my home or place of employment for a payday loan I had over 8 years ago. I live in Washington state. I told the lady I paid that and asked her why I never received a bill or phone call previously. She said because the original creditor could never find me. I said that's funny because you found me to tell me you are suing me. I told her I wanted proof of this bill and that the statute of limitations on this bill had expired. She said she could've give me anything and then hung up on me. I called the original creditor and their collection agency. The bill had been paid and never was sent to collection. These people are scammers hoping I would just pay them to avoid judgment.

Help pay doctor bills and unexpected bills before payday.

I received a call on May 1, 2014 saying I owed a past debt for a payday loan from 2011. The man had all my information, including my social security number. His name was Mr. Bah, number 888-594-8320. I paid As I believed he was telling me the truth since I did believe they had a payday loan at that time, thought I had paid it all but thought maybe I had forgotten to finish it, couldn't believe they would wait all this time to contact me. Now I have looked online and see the phone number is associated with a scam. He said they would email me a receipt but they have not, and when I called back to ask where it was they did not answer or return my call. I will call my bank and try to get this money back and report it as fraud. I am hoping I can get it back. I would like to report this company as a scammer and fraud as well. They answer the phone as southwest but when they charged my debit card it came out as universal processing.

I get a Pay Day Loan a few times a year when things get tight. Our credit card interest is too high and we are trying to pay those down. We do not want to borrow money from our family.

I use a Pay Day Loan when I am short and I need to pay my bills. It helps me be able to use the money to do other things.

They have been there for me when there were no other options. I have been able to pay very important obligations because they told me yes when everyone else told me no. It's hassle free and easy. I'm grateful to have a quick, easy and reliable source such as this. Thanks a million.....

I like having extra money 2 weeks early and then I can pay it off and borrow again. I would rather borrow money and pay interest then borrow money from someone I know.

It is a convenience for me. I like the accessibility. I would rather borrow money as a Pay Day Loan than borrow from friends and loved ones. I like that I can use a pay day loan as a stop gap from time to time.

My granddaughter is graduating and I needed some extra cash to help plan her celebration. There have been times when I’ve needed the cash advance to help me with my bills when there just isn’t anything left before I get paid again.

Payday loans play an important part with me. It helps me with all the bills I have. My disability benefits do not cover all of my bills (prescriptions, rental payment, utilities, etc.). I take the loan and place the funds into my account. I like that it helps me to avoid bouncing checks so I can keep in good standing with my bank.

I use the cash advance for bills and those times it’s tough. I am the only one working in a house with my wife and 2 children, I find the cash advance to be of great assistance to me and my family as well as reducing the everyday struggles of stress.

The cash advance is a great way for me to take care of my bill when it is due before I get paid. I really don't have anyone else to help me so this is my only choice at this point in my life to get some financial help.

I think it is a very nice option to have. It's a great help for people working or on a fixed income. We run out of money. And we need help. I am unable to borrow from friends and family who are in the same predicament as myself. My family sometimes come to me and I do not have what they need. So I turn to options like payday loans. I am saved! These products better not go anywhere because I believe there is a need for it. I do not on,y use it for myself but for those who come to me for help.
If I wasn't able to get a Pay Day loan, I wouldn't be able to pay my bills and I would fall behind. Some of us don't have family members that are financially sound to borrow from.

I typically use payday loans because it's quick and easy to get some extra cash if you need it for a short period of time and because of my credit history I don't usually qualify for any low interest loans anywhere.

Payday is convenient. When you have a short check and it helps to make end meet. Thank goodness they are there when you need them. It prevents my account from being overdrawn every now and then.

I had car trouble and needed extra cash to help. The fast and friendly service was there to help.

I have been using payday loans for many years. They have helped me in so many different situations. Short on my rent payment my son needed extra money for college. Just some extra money until our next pay period. I feel like they are very helpful to people when you need extra money and you don't have to feel bad coming to these places especially my Advance America in rolling meadows. The girls are great!

I needed 200.00 and went to sight for silver cloud, I did app electronically and submitted they approved  and proceeded to deposit 800.00 when funds appeared I received irs deposit I was waiting for but incorrectly assumed that it the extra over 200.00 was that money. Now I'm paying almost 500 per month for the last 3 months with no end until September. Only 30 dollars going to principal and I'm sinking fast.

I get paid monthly. I had a family emergency and needed extra cash to go see my family. Advance America helped me out with providing a quick and friendly service.

I'm not all that good at budgeting and the cash advance has helped me keep on track and keep things going for me. Mostly I use it for bills but there have been times when I’ve needed it for groceries. A few times I’ve also used it to send some extra money to my son who may need some help from time to time.
I was desperate and sold 10 years of my pension to one company and six years to another. I received $50K from one at a cost of $1,000 per month for 10 years and the other I received 17K for six years at $283 per month. The one for $50K required me to have life insurance for 10 years, and they required my check be forwarded to them. After getting fed up from not receiving my check in time to cover other expenses, I took it back. I am into my third year and two owners have filed for bankruptcy. I am now being threatened with a lawsuit although I continue to pay them but I am not giving them my check. I was in dire straights when I took out these pension advances but I am worse off now and need to go back to work despite being disabled. Please don’t let this happen to you.

Once a month I have to take my daughter to the doctor at _____B____. By being able to obtain this loan I can cover my gas since we live 4 hours away. I greatly appreciate the help I get from here.

It helped hold me over till I got paid & then some Bills were not late.

If it wasn't for this payday lending company I wouldn't be able to pay last minute break downs on my car and when your on a fix income you only have so much income but no extra to pay something if it breaks like the water heater broke and we didn't have the income to pay for up front I had to come and get a cash advance to by the water heater. People that don't have good credit just cannot go get a loan if something like this happens that's why this place is value to people with not perfect credit.

Need money for grandkids when things come up Need money to pay bills when husband was laid off.

Sometimes the check is not enough to make it through the next week. With having a child and working full time, gas prices the way they are, and the child's daycare, grocery, home and life in general, there is never enough. So this is my next option. The payday loan is what I choose to use for emergencies instead of using a credit card where what I charge is spread out to be paid in months instead of where the cash advance is paid off right away. It's a great tool for me when my checks sometimes fall a bit short.
The payday loan has helped me with my bills such as rent, car payment and water bill to make sure they're paid on time and to avoid any late fees or something getting shut off. If not for this I would probably have to work overtime and not be able to spend time with my family.

This place has been a blessing. Some of my paydays come up short because of car loan-etc. If it wasn't for a payday loan I would be in deep trouble. Please keep these sort of loan offices open. Don't make me do without a meal and gas.

Much as one with good credit might splurge on a large purchase or buy something on sale they can’t really afford all at once, the payday is the poor mans credit card. I know interest is high and it may take a few months to pay off an installment loan but sometimes it’s worth it. It also comes in handy in case of emergencies such as necessary car or appliance repairs.

Advance America has helped me in emergency financial situations. easy to apply and fast approval. Staff is friendly and helps you out if you’re running late to make your payment. Great Company.

Payday loans have come in handy when I’m running short on funds. The service is fast convenient and friendly.
I've had phone calls from a company stating I owe for a payday loan I took out in Feb 2013 - I did not take out a loan. It's now been 1 year and 4 months since I "supposedly" took out the loan and they called me, my daughter, my son, my mother-in-law, sister-in-law, niece and other family members telling them that legal action will be taken against me, etc - they called from a "No Caller ID" number and left voice messages with everyone since they don't answer those kinds of calls with all of this information. I called them and asked for written confirmation of the "debt" I owe and he said they didn't have to send me that, that they had already sent it (which, they said mailed to my po box and the date they gave me that they sent it to my po box, I didn't even HAVE the po box at that time) and now they would just come to my property. I have not received anything in writing regarding this matter, just a phone call to me and my family. I have filed a complaint with the sheriff's department in my county as well.

It's the money I need when I have an emergency. When I need groceries. If it weren't for payday loans I wouldn't be able to buy food for my family.

Your services help me get through from paychecks to paychecks and paying bills. It realy is a good service.

Although the interest rates are high on payday loans they do help with bills and unexpected repairs and such because the cost of living is far to high and the average wages from employment cannot cover what our garnishment, energy providers, and other such corporate fat rats and millieneries expect to pay their way on the backs of us common everyday hardworking people. I would much rather not use the payday loan but until it changes then I will continue.

It helps me out by allowing me to get money whenever I have needed no questions asked. I don't have the greatest credit and now a days its hard to get a loan through my own banking associate. It has helped me pay for bills that have come up unexpectedly.

It helped me pay for car repairs when the bank refused to give me a loan.

Payday loans have helped me when I run short in between paychecks. I don't have anyone to help me & I can't get a loan at a bank.

Helps me to pay my bills on time & avoid late fees & gives me money to do things my family wants & needs. Workers are very nice, helpful & courteous making visits more enjoyable.

I enjoy the courtesy of the people, it has really helped in time of need. A person must remember this is a business so don't take advantage of this. Also, people need to have a place to go in case of emergencies. So I think that they are helpful.

Very flexible repayment options. I have bad credit because of hospital bills so payday advance has helped me tremendously. Customer service is very excellent. I'm treated with respect and dignity.
Because I receive no child support from my ex husband so I rely on payday loans to get through tough times especially medical payments for 2 children

Helped to get surgery I needed. Quicker than a bank

In a tight pinch - quick & easy - very friendly & helpful

Answered the phone at my desk at work. Caller ID said “Buffalo NY, 716-240-2991.” The person asked for me by name and said she was Natalie Oyoyo (sp?) and that my “file had been placed in her office” because of a payday loan I had taken out and not repaid and that they had me down for “bad checks and garnishment.” I said, “You know what? If that's true, they'll file suit and I'll be contacted by mail. I think this is a scam and don't call my work number again!” She called RIGHT BACK and asked for the “Payroll Department.” I told her “that's not how you do a garnishment” and hung up!

It helps to prevent bounce checks & with car repairs

Has helped me in times when I couldn't afford all my expenses with my regular income.

It has made it a lot less stressful on bills and making them on time. Very convienent.

When running into personal problems such as, car troubles or unexpected bills. Advance America has helped me out numerous times with borrowing what I need. Especially, since I can pay back early w/o penalties & the customer service is excellent!!

Everyone is always courteous & friendly whenever I've needed help they've been there at the ready. Very nice people. Thank you.

Advanced America really helps me when I’m in a bind. When I’m behind on bills, a payday loan that prevents an overdraft is very much worth $15.50 to me. I will definitely use this business again.

CFPB of zero help. The multiple Payday loan companies that are involved in my situation are all companies that have been pursued by both the CFPB and multiple state attorney generals as being loan sharkling companies. The CFPB has told me that all they do is take reports they do NOT ASSIST CONSUMERS. Don't waste your time they will NEVER help you to resolve your issue or get you justice.

Occasionaly I run short of money. A financial problem spring up and I need financial help to pay bills & food extra odds & ends gas lights ect.

Payday loans have helped me tremendously with getting by with bills and such for the month. I come here and it's very beneficial payment wise. Very affordable. Will be coming back!!!
After having some problems with my regular bank, I had to cash a check at Ace Cash Express, a payday lender. I think it was 2006. Surprisingly I had a very good experience.

I got a prepaid debit card from Ace. The debit card was a Netspend card. Netspend is a company that works with a bank that’s mostly online: Metabank. I’ve been using Metabank and Netspend as my bank ever since.

They charge me a low monthly fee and no ATM fees since I have direct deposit with them. If I have an overdraft they give me 24hrs to deposit funds. If I don’t deposit funds their overdraft fee is just $10.

The best thing about this bank is that when I make a purchase the money is withdrawn from my account within a minute and I get a text message. Any incoming funds are also reflected IMMEDIATELY. Instant banking is much better than the delayed transactions other banks have. Other banks try to trick people into paying fees but this bank isn't tricky.

Transfers from one account to another are free. I can transfer money from my account to another person's Netspend card free. And I can send funds from my account to an outside account free.

I haven't missed having a bank location to visit except three or four times in the past few years when I've had a paper check to cash. I just cash those at Ace or Walmart. I can also make a cash deposit into my account at Ace or from a special kiosk at the 7-11. I find that I can do 99% of my banking with this virtual account and debit card.

A few times I've needed to call customer service and my problem was handled immediately. I think this is the best bank and I know it's far

They are so good to work with me always willing to give what I need to get my bills paid. They are so helpful a great bunch of kids.

They helped me when I need it the money. They are friendly people. I enjoy coming in and make my payment. They have wonderful smile.

I only come in for loans whenever I need to. Last time it helped me get an apartment. I come here because you have friendly staff and I’m already in your systems.

A convenient option for emergency/unknown needs. Available without the stigma of borrowing from family or friends. Recemonded, due to high interest rates, for occasional use only.

Don't have much left after paying bills

It helps to pay the bills in the off weeks of my check since I get paid every 2 weeks. Helps stay on track

Payday loans has really helped me out financially. Even thought I have 2 jobs its always good to have a good back up plan.

Payday loan has helped me a great deal in the last year keeping utilities paid in the winter months when the cost of electric heat has gone up and saved the day a couple of times when my car broke down. Without a payday loan I would have had to resort to walking late at night miles home. So thankful to be able to keep my car with payday help.
I was contacted by the FTC about a payday loan that was never paid back. I am on & get a little over $1000 a month. The gentleman I was talking to said they want me to pay back for the next 4 months so it could be taken care of. I was not thinking & have a few questions I’d like answered. I pay $400 a month rent & my medicines cost me $580 per month. So how can I afford per month to pay back. I asked who the payday loan was to be paid back to & was not given an answer. I also never got to explain that the person who contacted me before the FTC contacted me refused to tell me who I owed the money to & if payment arrangements could be made. All they told the FTC was that I refused to pay the loan back. I have I will pay back the loan but is there a lesser amount I can pay each month so I can get the medicine I need? Please email me at

The services help me get through from payday to payday since I only get paid once a month. The young ladies are real courteous.

I’m on commission sales and my income varies from week to week and the cash advance helps me not to bounce checks in between and steadies my income so my bills get paid on time. I don’t have any family that can help me so this is really my only option at this point.

Payday loans are helpful in my home restoration business to fill short term 1-2 week gaps in order to pay for materials.

I got ill and had to go on disability and I use the cash advance sort of like a charge card. Keeps me on a plan and budget to I can take care of the my monthly things such as bills that come up. Only getting paid once a month Amscot has been a great help for me just to live. My credit isn’t all that great so this really works for me. Amscot even worked with me when I had an issue getting the advance paid back.

The cash advance helps me extend my funds during the month since I’m on disability I only get paid once a month and things can get tight at times. I’ve been able to get my bills paid on time and keep my electric on on the months where it has gone a little higher than expected. I can’t get anymore benefits so I count on Amscot and the cash advance to help me survive.

I took out a payday loan from Check n’ Go in February 2013. I had to catch up on my bills and car payment due to a loss in my income. The size of the loan was $500 and I had to pay $55+ in fees. I saw the advertisement online. I was very stressed out about making the loan payment on time because the penalties and late fees are so great. I was able to make the payment on time. The main issue I have with pay day loans is that people like me and those worse off don’t have access to funds any other way. The amount of interest can really affect people in a negative way. The interest rates need to be regulated. Pay day loans are something people shouldn’t really use because they cause great anxiety.

There are times when I’ve needed help with numerous bills like cable, electric, water and my cell phone bills. Usually one of these I need some help with during a particular month so I use the cash advance to keep me going and until I get paid again. I really don’t have any other way to help me out if it weren’t for this service.
I'm on social security and am on a strict budget so when something comes up like car repair or if I need to fly home to Indiana for a death in the family the cash advance is my way of having a quick fix to keep me on track and have no interruptions when things like that happen.

I'm in school and work full time and the cash advance has really helped me out of jams when I've needed cash fast to either take care of a bill or even pay for a class or two when I've run short. I like doing this instead of borrowing from my parents.

When I was struggling with money the payday loans always help put a little extra money in my pocket and help me pay my bills.

When I run a little behind on my utilities or even car insurance I use the cash advance to help me get caught up on them. Without this I would probably have to pay some things late or even not at all and that could be really bad if it were something that might get shut off.

The cash advance is the easiest way for me to help me with my bills. It's really my insurance to make sure everything gets paid on time and I'm not late on any of them. It would be extremely difficult on me if I wasn't able to utilize this service when I need it.

Advance America has been a convenient loan store. The customer service there is excellent. When taking out loans, the employees are very informative with the contracts. All details are explained as well as the consequences for late payment. I have been doing business with this location for 3 1/2 years. I enjoy the location because I live in the area and also the Metro rail is nearby. This makes transportation easy from where I work. I also reload my purpose card at this location. I am more satisfied with Advance America than I am with Ace. I have used Ace's services in the past, but their customer service is no where near as good as Advance America.

It is nice for unexpected expenses, for example a car accident deductible. Also shortfalls between paychecks for 'whatever' expense, i.e. out of town guests, gifts, repairs, etc. Its much more convenient and lest costly than overdrawn checks to have the convenience of payday loan availability. It's also better than going to traditional banks for loans due to processing fees, minimum finance charges, and being required to qualify so not instant decisions. Payday loans are much more convenient for my needs.

I'm very thankful I come in on weeks that I'm short of cash to pay bills and cover other odd ends.

Hi, I have received a phone call from "Allen & Burk" (573-518-5321) which I still have on my voicemail, claiming that I need to call them or they are going to prosecute me for criminal intent on a loan (They never said who this call was for in the voicemail). Person name was [redacted]. Situation I’m having is, I remember taking out a payday loan YEARS back which I have paid for. This person is telling me I owe [redacted] on a $300.00 loan? When I spoke with another he told me I’m being criminally accused of Wire Fraud and Bank Fraud. Of course, I asked for hearing such a thing and couldn’t really think straight at the moment, because I didn’t really know what was going on. He was telling me I used “email- [redacted] and advised me this transaction was 3 years ago (of course I didn’t see the warning sign there, my payday loan was over 6 years ago, I checked the email address and it has never been used before). he wanted me to pay all of it now or go to court and be prosecuted by the lenders. Problem here, I know lenders can not prosecute criminally with consumers, but I was still in shock. I setup a payment plan for them to take out 100.00 that day (but they were pressuring me for more or they will file criminal charges) so I talked them into a payment plan to hold them off. I did a lot of research on this so called Allen and Burk company. First person told me Allen and Burke Associates, another tells me Allen and Burke criminal law firm, location 1102 grand blvd suite 1500, Kansas City MO. I did a little research this building never had a law firm with that such name on the 15th floor, BECAUSE THEY ARE STILL REMODELING SINCE 2006 nor ever leasing in the building period! This guy promised me he would send me the affidavit; which I will have yet to receive. I need help to press criminal charges against these idiots for extortion and to make an example of these scumbags who are doing this to others.

RE: PROPOSED PAYDAY LOAN RULES

Dear Director:

I strongly urge that you ensure the expected rulemaking concerning small dollar consumer lending effectively ends the debt trap scam. Payday, car-title, and high-cost installment loans, with annual rates of 300% or more simply dig borrowers into a hole. It's time to end the scam and put rules in place that will end abusive practices and slam shut the debt trap.

The CFPB's own research has well documented the debt trap created by payday lending, with the typical borrower indebted for more than 200 days a year and 75% of all payday loan fees generated by borrowers trapped by more than 10 loans a year. Beyond the research, all one needs to do is travel a street in a low-income community or community of color to witness the strikingly high concentration of payday and high-cost lenders. Additionally, these loans are particularly devastating to individuals with a fixed-income, such as seniors on retirement or Social Security Income.

I got behind when a family hardship came up and didn't have good credit I needed a cash advance to help me keep my bills paid on time without interruption. This worked for me and I found it to be by best option.
Cash advance assists me with affording expenses that are too costly and may occur before my payday. It is convenient and helpful and allows me not to default on payments or obligations I may have.

The cash advance helps me get by because I don't want to use a credit card so the cash advance is there for me to handle my financial needs when I need them. This gives me independence from having to borrow from family.

I've had some unexpected care repairs and some other expenses that come up with my son, the cash advance is always there for me to help me out. It's was a huge help to me and my family when my wife was out of work.

They have helped in numerous ways, helping me stand on my own feet when things aren't looking that great. I know I can always rely on the company to come through.

Property tax was due. I sent my check in. They deposited check before the cash was in bank. Was able to get payday advance so I wouldn't get overdraft fees.

Helped out of a jam with bills. Without this loan I would owe a lot more money.

I use the cash advance for when things come up and I'm running short on cash for things such as groceries, gas and I'm waiting on my next paycheck. I'd much rather to a cash advance instead of going to a pawn shop.

The cash advance helps me out a lot when I have money issue where I might need to get my car fixed and generally pay some of my bills until I get paid again. I don't have a credit card so the cash advance is my best option at this point.

Check into cash helped me during a time when I had to many unexpected financial expenses. I appreciate the help.

It helps me to pay my bills when I'm short of cash and I use it to cover bills I'm short on if there were no cash advances I would be in the streets and always short on my bills.

Payday loans have majorly helped me in tough money situations. I definitely appreciate having these available to me.

Since my job moved me to part time for the past two years. I haven't had money to pay bills. This company has helped me with being able to pay my bills.

It helps between paydays when I fall short and if something unexpected comes up.

This has been extremely helpful for our family. To pay medical bills along with just surviving. Husband had cancer and no job. Wouldn't know where we would be if this service was not offered

Every now now and then I need help with my bills because I get paid on the first and last week of the month and some of my bills show up in the middle so since I don't like to use credit cards I will get a cash advance instead to tide me over until my next check comes in.

I get paid every other week and the cash advance helps me when I need some money between when my checks come in. It very easy for me to do this as I don't have any credit. I don't have any other type of help at this time.

The short-term loan has been a great help to me especially in the hard financial times.

Helps me out when financially my funds did not stretch far enough. I have had times when I needed food for family, gas for work, lunches for kids, field trips for kids school, electric bill paid, phone bills, and cable bill. This has been a HUGE help for me to support my family when pay check runs out.

Yes, it helps to pay bills that are due. Since we live paycheck to paycheck, it helps for the situation. Payday loans have helped me and are great!!

Check into Cash allowed me to pay my auto insurance on time when I had an unexpected emergency rise and had to use my insurance money to cover the fees.

This definitely helped in an emergency fund situation. I've required a loan for bill payments and automotive repairs. Their type of loan is beneficial when use responsibly.

Normally I will use the cash advance whenever things pop up that I need help with. Seems like every couple of months my scooter needs work and the cash advance helps me keeping it on the road. There isn't too many options for people in my position.
We use the cash advance to help with our cable bill and or electric bill. Basically whenever we run out of money we come to Amscot to get quick cash. We done hay anything else or any other outlet to get extra when we need it so this is exactly what we need.

The short term loans have helped pay bills, buy groceries until my next payday

Short term loans are important and help me when my funds are low and can’t make it until the following payday or even when an unexpected bill or issue arises

Short term loans allow me the financial security to cover last minute and unexpected expenses. Please continue to allow those that need these services the option as a short term option

When ever I need some help with any of my bills or any type of emergencies that come up I’ll use the cash advance to get the help I need. We would have to either do without I just get behind if we weren’t able to use the cash advance service.

The pay in my job goes up and down because it’s seasonal so the cash advance usually helps me steady my income during the slow time of year. It too hard to get a loan from the bank because of my credit. I would probably go in debt with my parents if I wasn’t able to get a cash advance in the time when I need it.

The cash advance has helped me when pay periods just seem to fall on the wrong pay weeks. Thank goodness for amscot I was able to pay my rent on time. If there wasn’t a cash advance program I would not have a place to live right now. I work really hard and to have that happy would be terrible.

There are times when I need help with my bills....especially my car payment so the cash advance is there for me to ensure its paid on time. It’s been hard to get out of but I’m getting close to not needing it.

I live paycheck to paycheck and if it wasn't for the cash advance I’d be in a world of hurt. It really varies on the amount I get but sometimes I need it to pay for food. If this service was taken away there would probably be a lot of people be on food stamps or even out on the street. It helps ease my financial situation.

I’m able to get money when I need to pay my expenses until my next payday

This has helped since I have had a period of hardships

Most of the time when I get a cash advance its to help me out with my utilities such as electric, phone, water ect... It really help me from getting this ridiculously large late fees. If not for this service I would just have to be late and risk things being shut off.

My company frequently has me travel on business. They cover all travel and rental car on corporate credit card, but not lodging. This is left to the employee and eventually will be paid back by submitting an expense report. A number of times funds aren't available on my personal credit card to cover the hotel. This is where I rely on businesses such as Check Into Cash. This organization is a life saver.

Pleas do not shut these places down, because these places help so many people out including myself, I really needed them to help pay my bills when I needed help and I am very grateful for it. So the only thing I want to say to them is thank you very much for your help.

Sometimes life brings unexpected bills, like car trouble or medical expenses. Short term loans help from other bills being late. The loans can be life savers.

Always helps pay bills and still have money to spend at the end of the week. Payday advances have helped me over a span of about two months. I was in a serious financial bind and was so behind on bills. I didn't even know which way was up. Advances gave me peace of mind during that time. There have been many, many occasions when I didn't have a dime in my name and had a week or more to work before my next payday. The cash advances allowed me to pay bills and eat. Thanks to cash advances I didn't starve. There have been many times when I've needed a payday advance to pay a bill or buy food. Due to the bad economy and hour being cut I am unable to get a bank loan. This payday loans has helped me due to college student becoming a doctor. That takes all my money. This loan helps me to eat. Payday advances helped me because my employer pays me once a month and it is really difficult to put money aside for a rainy day. It has helped during last minute emergencies

Without payday loans I would be in a bind. There are no other short term loans that I could use to assist me in times of emergency.
It has helped on many occasions when unexpected expenses arise.

Helps with bills until my next payday. My credit is not good so I can't get a bank loan, so this helps.

Payday advances helped me out when unexpected finances come up. They are extremely helpful.

It helps me pay unexpected bills as I only get paid once a month.

Payday loans have helped me out in emergencies as a high electric bill between paydays.

People with bad credit and need small temporary loans need services like this. Loans like this have been the difference between staying solvent enough to keep working and paying bills over time and being unemployed and homeless.

This helps to pay my bills on time or emergency situations that arrive in everyday life circumstances.

Payday loans have helped me because my commissions have been cut. This has allowed me to stay afloat until I can find a better job.

This has helped in times of need.

Without payday loans I wouldn't be able to pay my bills on time.

Payday advances has been a huge help for me financially and I've been able to pay any expenses that I have. They're there when you need them.

This company was here when I needed my car fixed and didn't have the funds for the repair. Without them I would have lost my job.

This has allowed me to pay my bills on time.

Makes me have enough payment amount for my expenses and to also pay my bill and gas and transportation.

These loans helped when I'm short between checks & need a little extra cash to pay bills.

This is an easy way for me to aquifer the funds until the next payday. It is a temporary band aid until the check comes for bills that have to be paid.

It helped in emergency situations, when I was short on cash. There was no where else to go. I’m thankful to have to have payday loans.

Payday advances allow me to pay for the unexpected financial issues that come up.

Sometimes bills stack up and things happen. It's nice to be able to borrow a couple hundred dollars for a week or two to get you through.

These come in handy. Excellent.

Interest is high but we have settle this matter and no longer need your assistance! Thank you for the help your office has given to me and my family.
150222-000196 02/22/2015 My complaint is about you guys! I have worked for the payday lending industry for over 10 yrs and we do nothing wrong. When you made it impossible for members of the military to get loans, do you know what happened? They came in and checked that they weren't in the military b/c the banks wouldn't lend to them. Is that what you like? Military members lying b/c they need help paying bills? And now you want to do more bs and stop consumers b/c of some bad apple customers that complain b/c they won't pay their loans back? Funny, then you will let banks loan to them...do you REALLY know why customers come to us? Hell no you don't...the majority of our customers come b/c they have overdrawn bank accts! Do an investigation on that! Come check our files and you will see overdraft after overdraft...new customer after new customer trying to borrow from us to balance out their jacked up bank accounts! While the banks make BILLIONS...you want to mess w/us so the banks can make even more. 95% of our customers would tell you we are doing them a great service. You hear from people that had their money completely out of control before coming to us, then you hear the complaints b/c they cannot pay, it's crap. In all of my years doing this job and helping people, the ONLY thing I have ever felt was wrong was loaning to people on social security, government benefits-those are the ONLY people we should not lend to, their income is far too small to be paying anything back! You need to do a real investigation b/c it's bs what you're doing currently.

150529-000533 05/29/2015 Sometimes I fall a little short on some bills when all my other bills are paid I and need help with a couple the cash Dvance gives me that little push to finish them. It's just me and I have no other person to fall back on when times are tough so this really is a nice and fast way to get the help I need.

150602-000536 06/02/2015 Uncle Happy's Story
I had an uncle who was in need of money 6 years ago. He was struggling to make ends meet. Working odd jobs when possible, sometimes construction, sometimes painting, sometimes delivery and sometimes he would work with his sons as a plumber. Rent became harder and harder to meet, and because of that food, drink, cigarettes, clothes, and presents for his grandchildren. With a harsh winter adding to higher heating costs, he was low on his savings. To get some money in order to make his bills he found a place that would give him a title loan on his car. The rates seemed good 25% a month and so he went for it. The loan money shored up his rent, and heating bills for a couple of months. Then as he was trying to pay off the loan he found he was only paying the interest with each payment he was able to afford. The 25% monthly rate was actually equivalent to about 300% Annual Percent Rate. Whatever money Uncle got he threw at the title loan, but he was only ever able to pay off the accumulated interest and barely dent the original sum of the loan. Months went by until he was in danger of having his car repossessed. If that happened he would lose one of the integral parts of his livelihood. The ability to travel to whatever job was available. He ended up asking his sons for a loan. Enough to cover the interest rate, and the principal amount of the loan. They were able to get the money together, by selling some of their tools, and big appliances. (table saws, grills etc). Uncle Happy was clear of the debt, but he ended up paying well over the amount he was given just keeping up with the interest of the loan itself. Which because of that almost prevented him from having an income to keep paying the loan.

150610-001456 06/10/2015 I was given a pamphlet upon Exit Loan Counseling for Old --Dominion University. In this pamphlet there is an incorrect number for the U.S. Dept. of Education. The pamphlet states 1-877-577-2575 for the contact number for the Ombudsman. This number is incorrect. Thinking that I had contacted the U.S. Dept. of Education, I mistakenly disclosed my sensitive personal information to the operator. Upon realizing that something was was not right with the call and trying to approach the situation, the operator hung up. I then reference the internet, finding that the correct number was just one digit shy of the correct number, which is 1-877-557-2575. Now I am in fear of identity theft.

150618-001934 06/18/2015 This is an emergency situation and without a payday loan i would be in a real bad spot, financially speaking.
If i could not borrow money, i could not pay my bills and i would be upset. Payday loans are helpfull.

Re: End Forced Arbitration

Dear Director:

More than 78,000 consumers are calling on CFPB to take swift action to ban forced arbitration clauses in terms attached to financial services and products in a petition delivered today. The CFPB is empowered by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 to ban or limit this anti-consumer device in products under its jurisdiction.

Forced arbitration clauses, tucked in the non-negotiable terms of consumer financial products, prevent consumers who have been harmed or ripped off from holding their bank, credit card issuer or other unscrupulous lenders accountable in court. Instead, financial institutions force them to plead their case to a private arbitration provider that is named by the banks before a dispute arises. The result is that consumers cannot practically or fairly resolve disputes with powerful institutions or seek remedies for harm caused by their wrongful conduct.

In March, the CFPB released a 728-page data-based report detailing results of its comprehensive study of financial institutions’ use of forced arbitration. This report shows that forced arbitration clauses hinder cheated consumers from obtaining any relief when corporations break state and federal consumer protection laws.

These petitions send a loud and clear message: It’s time to end the insidious practice of forced arbitration. The CFPB has the power to give consumers a fair shot at justice against banks and other large financial institutions that often stack the deck against them. It should do so without delay.

Forced arbitration functions as a license to steal, making it impossible for customers to hold banks and lenders accountable when they break the law. With 78,000 signatures and counting, these petitions demonstrate that consumers can spot a rigged game. They’re counting on the CFPB to take action.

Financial institutions pull the rug from under consumers already cheated by predatory lending by also denying them proper legal redress. The CFPB has all the evidence it needs to remove forced arbitration from the fine print of financial products and services.

Consumers across the country are outraged that corporations and Wall Street banks have granted themselves a license to steal and evade the law using forced arbitration and are looking to the CFPB to stop it. The CFPB must act quickly to prohibit abusive forced arbitration clauses in all consumer financial products under its jurisdiction and restore consumers’ rights to protect themselves.

This is not about a specific loan, but just payday loans in general. I have several friends who periodically are forced to make payday loans because they have no other financial alternative. These people understand at some level that the interest rates are usurious, but proceed anyway. I believe that payday loans serve a purpose, but can find no factual justification for the rates. Pay day loans are concentrated amongst that portion of the population that can least afford to pay the exorbitant interest charges. What is the position of your bureau regarding these practices? Thank you.
My story about my payday loan is important and it can help others in need. My cable bill is not just for enjoying good television, but it also allows me to work from home and communicate with my friends, family and work. My usage does go up from time to time and I have had to use cash from a loan to make a payment.

I have used payday loans several times to help with medical bills, and every time has been a positive experience for me and my family. With unexpected healthcare costs piling up from time to time, it's nice to have a safety net like that to help me when I need it the most.

I worry sometimes about the amount of personal information that I have to provide in order to get a credit card. Payday loans allow me to avoid having my identity stolen and my finances or credit score ruined. I feel much more comfortable using these types of lenders when I need a quick fix to a financial situation.

We need less government in our lives. All I want to do is take out a loan and I don't understand why that is any of the government's business. These loans have helped me many times and should not be taken away from me.

Insurance payments can be tough to carve out money for -- it feels like an unnecessary cost, until you need it. I knew better than to let my insurance policy lapse, but I needed a payday loan to make the payment. The loan got me through the big bill, and then I was able to spread out repaying it back over a couple paychecks. The loan made the cost much less burdensome all at once.

After going in to get a payday loan, I was impressed by how knowledgeable the entire staff was. I felt so much more comfortable after having the entire process explained to me. They really took the time to make sure I knew what to expect.

I am so glad I was able to get a payday loan. I recently needed cash and had few credit options. The store employees clearly explained the process and fees. I appreciate how simple they made it to get my money.

People say good things about the convenience of cash advances, but often overlook the fact that they can be good from a cost perspective too. If you only need the money for a short time, it can be an inexpensive way to go. The key is choosing the right loan for you at that time.

It is sometimes difficult to find even the most basic grocery items at a reasonable price. Luckily, I was able to use a payday lender to cover some of the costs. This service was very handy and helped me when I needed an extra push.

Paying high utility bills is the worst and I absolutely hate it. If we have a bad season, they cost even more than usual. In those cases we turned to a cash advance to help.

During a difficult time, I didn't know where to go in order to get help. Payday loans helped me keep up with my bill payments and stay away from welfare. I am so thankful this type of loan exists and I don't have to rely on the government for help.
I support the use of a payday loan because I had a positive experience. A cash advance is such an easy and affordable product. It's simple to understand and allowed me to save some money as well.

Insurance is one of those things I know is a good idea, but it was expensive! I wanted to get it right away, so I took out a payday loan. That gave me what I needed to get set up and then I paid it back when I had the money. It worked out great and is something I like knowing I can use in a pinch.

I wonder how many people in the federal government have taken out a pay day loan. Why is it that government decides who is to borrow and for how much when they don't understand the process or product? I work hard and do what I can to provide for my family. This type of loan has helped me with several bills and a few emergencies. Do not limit my right to choose what option works best for me.

I had to get my car fixed and of course the mechanic found tons of problems. After paying for everything, I was pretty short on my finances. I decided to get a payday loan to help me stay on top of my expenses and I was proud to not have asked anyone for help.

My payday lending story is not only good but I hope it will help other people who need this support. Pay day loans are such a great solution when my phone bill is higher than I thought it would be. I don't want to fall behind on that bill, and getting the extra cash is really great. If I wasn't able to pay it on time, it would probably affect my credit score.

As a renter, I knew my possessions would not be covered by my landlord if we had a theft or fire, which made me nervous. Renters insurance is expensive, but worth it. I used a payday loan to pay for the insurance upfront and then was able to pay that off slowly. It worked out great, and now I know I'm covered if something bad does happen at home.

I wish power bills didn't exist, but unfortunately they do, and if you don't pay them, you lose your power. To prevent that sometimes I take out a pay day loan to pay the essential bills. Thanks to pay day loans, I've never had my power shut off.

After looking around it became clear that this was a cheaper and faster alternative to other loans. I needed money quickly and was able to get it without too much trouble or added expenses.

After I pay my typical monthly bills and expenses, sometimes there isn't much left over -- even for basic necessities like groceries. It is so important to me to be able to put food on the table for my family, which is exactly why I got a payday loan.

I recently needed a small amount of money to pay my bills but the banks in my area all had outrageous minimum requirements. Where else can I pull out a couple hundred dollars? All I had to do was walk into the payday loan store and in no time I was approved for a loan. The
151217-002386  12/17/2015 Very excited to share my story about my payday loan experience. When I had a lot of auto repair costs, I used a payday loan to help me afford everything. I was very happy with my experience as I was able to get my car fixed and back on the road. They really helped me.

My budget is very tight, and sometimes I find myself struggling to even get groceries at the supermarket. In the past, I have even used a short-term loan to help me get food on the table, and I've found this service to be amazingly helpful as I plan out my monthly budgets.

My kids were really nervous for their first day of school. Thanks to a payday loan, I was able to buy all the supplies they needed so they at least had one less thing to worry about.

Being able to get a loan for a few hundred dollars was not only easy but it was a necessity. There are no other avenues out there that can lend money like that which are not tied to losing a valuable piece of property or giving up your car entirely. This was a great way to make it work for me.

160108-001480  01/08/2016 Please support payday lending because it did help me. Using my credit cards when I don't have enough money can sometimes be too complicated. Instead, I like to get a cash advance to pay my bills so I don't have to worry about my interest rate constantly changing. These loans are much easier for me to understand.

I was in some financial trouble recently and needed money. When I looked at all my options, payday loans were by far the cheapest for me. I was able to avoid overdraft fees from the bank and didn't have to ruin my credit score either.

The government needs to stay out of my wallet! I can make my own decisions and I don't need people telling me what to do with my money. I don't limit who you can borrow from, so why should you be able to limit my choices?

When I needed money quickly, the staff at the store helped immensely in showing me how the payday loan was an affordable and speedy alternative to other loans. It was so easy to understand.

Obviously groceries are a monthly necessity, but sometimes it's tough to pay for them when unexpected expenses pop up from time to time. In situations like these, I have turned to payday loans to help me get through these tougher months in order to get my finances back on track.

What would I have done if it was not for my payday loan covering an important home repair? I really don't want to think about it. This type of loan made everything possible for me.

I started having car trouble while my finances were tight and I needed a loan to cover some of the repairs. I was able to walk out in less than an hour with my cash in hand and fix my car without any problems.

I'm already having enough trouble in my day-to-day life saving money for major holidays. Even though we do a good job of budgeting throughout the year, this always seems to be a time when finances can be difficult to manage gracefully. Taking out a short-term loan really assists me and my family during this special time of year.

I've used payday loans a few times, and it was an amazing experience. I had an unexpected healthcare bill that was insurmountable without a little help, and my payday loan was fast, easy, and took care of my financial worries.
A payday loan made a positive impact in my life. Pay day loans are a life-saver, literally! I use the loans occasionally to help pay for my medical expenses. If I couldn't rely on pay day loans, I would have to ask my family for money, and I don't want to do that if I can help it.

Sometimes even the most basic expenses are hard to cover. Take my household groceries for example. There are times when I need to balance that cost with a car repair or a doctor's office visit, or something my family. It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I'm able to pay them back, I do. It makes life easier on my family knowing we can have food on the table and keep the house running, and if a loan helps me do that I think I should be able to get one when I need it.

When my utility bill came in the mail, I couldn't believe how expensive it was. In order to pay the balance, I went to get a payday loan. I'm so glad this was available to me when I needed it. I couldn't imagine what would happen if I wasn't able to get a short-term loan.

I use my internet and cable service for everything I do at home, but when other issues come up I have needed to get a loan to pay for other items and then fell back on my bill.
