I have a good story to tell you about the payday loan I was able to obtain. There have been times when I could not quite make it to payday and needed a little help. In order to cover groceries and basic bills -- things that I needed right away -- I had to get a loan. Then, when I had the money, I was able to pay it back. It’s an important way for me to get an advance of money when I need it, and I do not think rules should be put in place that will take away that option.

Times were tough last XXXX, and I did not know if I was going to be able to make XXXX happen for my family. Please stop them from taking advantage of others people.

He had to continue borrowing money from his friend and rolling over the loans because he could not get enough to pay everything. Now he is taking out payday loans to pay his friend back! He is caught in this vicious cycle and sees no way to get out. No one checked to see if he could pay back loans, no one explained exactly how this would work and that he could not just pay off part of the principle, no one explained how quickly the interest adds up. He’s drowning and was struggling even before he got caught in the debt trap.

I used a payday loan to pay for some of our priority family expenses -- groceries. We were running low and were not quite going to make it to the next paycheck, so I took out a loan that I got paid back right away. It really did help me and my family.

Taking out this loan did not add stress to my life but actually helped. It was super affordable and not complicated at all. I still can not believe how easy the whole process was.

I knew I had a lot of car problems but when the mechanic gave me an estimate, I could not believe the cost. I ended up getting a quick payday loan in order to pay for the repairs. Everything was so easy and I am so thankful to have used this option.

I do not have a perfect credit score, so the bank would not give me a loan for a few hundred dollars and I have to turn to a payday loan. The loans have helped me in multiple situations. When I’ve tried to use a traditional bank, I was turned away.

I believe that the government will be overstepping its bounds if it takes away our pay day loan option. There are so many families across the country benefit from pay day loans every day. Eliminating that choice could devastate family budgets. I hope the government recognizes this for the benefit of families who need to use pay day loans.

Why is it that every time I turn around I feel like the government is in my business? I am capable of making my own decisions and I do not need the government to tell me what to do in order to pay my bills. By limiting payday loans, you are taking away my options and are not allowing me to make my own choice.

My cell phone is a great tool for work and for keeping in touch with family in different parts of the country. Sadly sometimes the bill is very high. Thanks to payday loans, I’ve never been late to pay the bill. The loan option is much better than paying late or bouncing a check.
A payday loan is not a bad thing and I hope to share my story with you. I had to get my car fixed and of course the mechanic found tons of problems. After paying for everything, I was pretty short on my finances. I decided to get a payday loan to help me stay on top of my expenses and I was proud to not have asked anyone for help.

The XXXX season is always a time of year that provides great financial stress to me and my family. Given my typical monthly costs, I did not know how I was going to get by last year. But then I got a short-term loan, and the holidays did not seem so daunting anymore. It was exactly what I needed.

From time to time, unexpected medical bills happen to me or a member of my family, and these sudden financial burdens can be very tough to keep up with. Luckily, I was able to receive a very timely short-term loan -- which was very easily explained from my lender and simple to pay off in a timely manner.

Competition is great for business. By taking away payday loans, that option disappears and hurts regular Americans like myself. You essentially give big banks a monopoly to give out loans and that is not right.

I’m so glad I got a payday loan. I was met by a friendly staff that was willing to work with me rather than against me. They made everything so easy and I’m sure I will use this type of loan again.
A loan from a pay day store really helped me and I want to keep this option open to everyone. There have been times when I could not quite make it to payday and needed a little help. In order to cover groceries and basic bills -- things that I needed right away -- I had to get a loan. Then, when I had the money, I was able to pay it back. It's an important way for me to get an advance of money when I need it, and I do not think rules should be put in place that will take away that option.

Insurance is really expensive today but it is definitely worth it because it gives me the peace of mind that all of my things are safe. At first, I had to get a pay day loan so that I could afford but I'm glad I did. Everything was very easy and this was a perfect option for me. I need my cell phone to communicate with my family and friends, but that bill can sometimes get higher than usual. So I have used a pay day loan to pay for my bill and avoid late fee or termination of service.

XXXX is the time we should be thinking about what we can do for others. And in my case, that means making my monthly budgets a little easier to manage through a short-term lender to help me cover my travel, lodging and gifts for my close friends and family. It was quite a lifeline, and I am so thankful I could spend that special time of year with the people that mean the most to me.

Banks can be complicated and confusing places for loaning people money. I do not feel confident that the bank will explain everything to me. When I use payday loans to cover various bills that pop up, everything is laid out really clearly. These loans are for a few hundred dollars and banks do not just lend that amount.

When I went to get a payday loan I experienced nothing but great customer service with a simple and affordable product. This type of loan was understandable, cheap, and a really great alternative for me. Pay day loans are a fantastic fallback for when I have to make a home repair that is shockingly pricey. I cannot always afford the repairs, and when that happens I take out a pay day loan. Since you never know when you're going to need to fix something, it's hard to have the money to pay for it saved away. Honestly, I do not know what I'd do if I could not take out a pay day loan every so often. They are so easy to deal with and are much better than the alternatives. Please think about how many people you're hurting by taking away this lending route.

When I had a lot of auto repair costs, I used a pay day loan to help me afford everything. I was very happy with my experience as I was able to get my car fixed and back on the road. They really helped me.

With healthcare costs rising, I know from my own personal experiences that it can be difficult to plan for hospital bills when injuries or illnesses occur. But when I called my local cash advance office, I was surprised to see that these loans were not only very easy to understand, but simple to pay off as well.

Paying high utility bills is the worst and I absolutely hate it. If we have a bad season, they cost even more than usual. In those cases we turned to a cash advance to help.

I urge you to allow payday lending stores to stay open in my state because they do serve a great purpose for so many people and families. Mine is a very good story and I wanted to share it with you. Between all the other costs of having a family, the holidays turned out to be too much of a strain for us. Without the loan we got, we would not have been able to make XXXX happen. I’m glad payday loans are an option for the average person who needs an occasional boost and think they should remain as accessible to consumers as possible.

Payday loans have helped me get through these tougher months, and I know they can help other families like mine as well.

When I need a cash advance, I don't go to a big bank. I worry about surprise fees and all the paperwork they make you fill out. It's confusing and a hassle. The government should not be limiting my choices. This country was founded on the free market and the government should keep away from regulating business like this. The government should promote competition, not try to take it away. This ends up hurting the everyday people who work hard like me.

Please do not believe that all short term lending is bad, because I had a very good experience. The government should not be limiting my choices. This country was founded on the free market and the government should keep away from regulating business like this. The government should promote competition, not try to take it away. This ends up hurting the everyday people who work hard like me.

Please take time to read my positive story about my payday loan experience. There are plenty of other issues that the federal government should be much more concerned with than where I get a loan. Our government should look at unemployment or work conditions rather than focus on what is going on in my bank account.

I tell you my story in hopes that you will keep payday lending stores open because they are filling a need that is real and XXXX that banks cannot take care of. I have a positive story to share with you. Rather than a traditional loan, I applied for a pay day loan and the process could not have been better. There are times when I need to balance that cost with a car repair or a doctor’s office visit, or something my family. It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I am able to pay them back, I do. It makes life easier on my family knowing we can have food on the table and keep the house running, and if a loan helps me do that I think I should be able to get XXXX when I need it.

Is it just me or do major expenses always come at the worst times? While ignoring them is simply not an option, there are times that my bank account can’t handle the extra bill, like during tax season, and I have turned to payday loans to help me.

There have been a few times in the last couple of years where I was not able to purchase groceries at the supermarket because of the always-changing costs for basic food products. I write to ask you to not only learn from my experience with pay day loans but to keep these financial options available to all Americans who need it. The interest rate of credit card companies is always changing. With it being so unpredictable, you can’t really know what your total to pay back will be. Please do not limit the use of payday loans because I really needed one. The appointments at my doctor’s office can be pricey but with a payday loan I did not have to worry about what my insurance would cover. I never have to worry about paying the bill anymore and I can focus on getting better.
My family had a good experience at a tough time because of a payday loan. My family has used payday loans many times, and we have not had a bad experience yet. I hope the government doesn’t remove a lending option that’s always worked well for me.

A payday loan was so important to me that I wanted to share my experience with you. Kids are expensive, and if one of them gets sick or hurt, they’re even more expensive. My family has used pay day loans to help us stay on top of bills from regular visits to the doctor, as well as from freak accidents and injuries. I am capable of making my own decisions and I do not need the government to tell me what to do in order to pay my bills. By limiting payday loans, you are taking away my options and are not allowing me to make my own choice.

How great for me that a payday lending store was around the corner when I needed it. Money has been tight for over a year and after bills and daily expenses, I hardly have enough money to purchase holiday gifts. These loans have helped me put presents under the tree for my entire family.

After doing my homework, it became clear that this was a cheaper and faster alternative to other loans in the market. I needed money quickly and was able to get it without any trouble or added expense.

When faced with a short term money problem, a cash advance is often an inexpensive way to solve it. If the loan is used the way it was designed it can be a very good value. The government needs to stay out of my wallet! I can make my own decisions and I do not need people telling me what to do with my money. I do not limit who you can borrow from, so why should you be able to limit my choices?

Cash advance loans are not bad because I had a very good experience with mine. Getting a pay day loan and paying it back the next pay period has turned out to be the best way for me to make sure my bill payments are never late. Just like everyone else, I do not like late fees of any kind and payday loans are the best way to avoid them. The loans have helped me through all kinds of tough financial situations, from medical expenses to high utility bills.

Washington D.C. XXXX XXXX PREDATORY LENDING LAWS WORK
Dear XXXX XXXX : With the right rules in place, predatory lending can be reined in and abuses can be curbed even in the Internet era.

A policy brief from the Center for Responsible Lending looks at the effect of enforcement of state and federal laws, belies the industries claim that there are no rules that can stop predatory lenders in the digital age. Contrary to the message from predatory lenders, XXXX XXXX and other law enforcement leaders should not simply give up. Rather, where proper rules exist, their efforts are preventing the debt trap.

Specifically the study found: Attempts to sidestep regulations through a number of schemes have failed. Unscrupulous lenders have unsuccessfully claimed that affiliation with third parties or operating online exempts them from complying with state regulation. Attempts to hide behind an elaborate web of services including lead generators, payment processors, and debt collection agencies to issue and collect illegal loans have also failed. In states across the country, laws without loopholes have been effectively enforced despite industry claims to the contrary. Law enforcement actions have resulted in millions of dollars in restitution and fines. Those states and law enforcement officials who are committed to protecting against the debt trap have found a way to do it. Tools are available to halt these illegal lending operations, protect consumers and assess penalties for violation of state law.

The key is that the laws and regulations must not allow for any loopholes whatsoever. Predatory lenders will exploit any loophole available to them, which is why a rate cap in the states, which is simple and airtight, is the very best answer. An iron-clad rule is also the key to the Consumer Financial Protection Bureaus success or failure in its effort to rein in the worst abuses of payday lending nationally. Payday loans whether made online, in stores or by banks are designed to trap individuals in long-term debt. Data consistently shows that the majority of payday loan revenue comes from repeatedly churning borrowers. These loans are associated with increased likelihood of overdraft fees, bounced checks, and even bankruptcy and bank account closures.

While these positive outcomes are encouraging, regulators ability to engage in meaningful enforcement actions are made possible only by strong underlying laws at the state and federal levels. Thus, strong regulation is essential at all levels of government to effectively prevent debt trap lending practices.

Thank you for the opportunity to bring this report to your attention.

Yours sincerely, XXXX XXXX XXXX : House XXXX XXXX XXXX XXXX, Kansas XXXX : XXXX XXXX XXXX :XXXXXXXXXXXXXXXX

I m happy that I got a payday loan and needed to tell you how it helped me. The risk of taking out loans can be difficult because applications can be long and there are so many hidden fees and other costs that you do nt know about until later. But a cash advance loan is easy to use and there are no hidden fees. You know all the information up front and it was easier than going to a pawn shop.

Costs of living are at times unexpected, and the ones that I know are coming are difficult to cover some months. Pay day loans have always given me the boost I need to get my bills paid, and I hope the government does not take them away from the thousands of hardworking Americans that use them responsibly.
When I had some money trouble I used a payday loan and am happy I did. The entire process truly was quick and painless. When I had some car issues, I was able to walk in and walk out with a loan to help pay the bill for the repairs.

Sometimes even the most basic expenses are hard to cover. Take my household groceries for example. There are times when I need to balance that cost with a car repair or a doctor’s office visit, or something my family. It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I m able to pay them back, I do. It makes life easier on my family knowing we can have food on the table and keep the house running, and if a loan helps me do that I think I should be able to get XXXX when I need it.

With young children I needed to find somewhere to take care of them while I am away. I was able to use my loan to cover some day care expenses when I needed to get back to work to pay the bills that were beginning to stack up in my mailbox.

The government should not be limiting my choices. This country was founded on the free market and the government should keep from regulating business like this to death. The government should promote competition, not eliminate it. This ends up hurting the everyday people who work hard like I do.

A payday loan helped me take care of my medical bills from my doctor. Getting behind on medical bills can hurt your credit so I am glad I was able to use a loan like this to help me when I needed it most.

This is great because it gives me the money I need and I do not have to make a big commitment. I do not know why the government wants to take this option away from me.

The government should not be limiting my choices. This country was founded on the free market and the government should keep from regulating business like this to death. The government should promote competition, not eliminate it. This ends up hurting the everyday people who work hard like I do.

It adds up quickly, and I have needed a loan in the past to get all my payments to the right people on time. Then when I’m able to pay them back, I do.
