

## Proposed Patreon Reward Tiers

*I've created these reward tiers based on informal discussions I have had with various members of this Space Weather community over the past year. (The tiers with asterisks are ones I am considering delaying until post-launch.) I hope I have faithfully captured your requests and addressed most of your needs in these tiers. If something is missing, however, please drop me a line to let me know what it is you would like to like to see instead!*

### **Wonderful World of Space Weather Forum**

This tier gets you access to the most important part of this community: its heart. This is The Wonderful World of Space Weather forum where we dive into the phenomenology and forecasts with graphics, animations, and more, enabling more detailed dialogues than is possible on other platforms (like Twitter, Facebook, and You Tube). You also get early access to forecasts, up to 12 hours before they are posted to the general public!

### **Bonus Space Weather Woman Forecast "Shorties"**

For those who asked me for additional forecasts during the week, this tier is for you! This level gives you access to my mid-week forecast Shorties that I will do in addition to my regular You Tube forecasts. This gives you one extra forecast video a week, in which I update the space weather conditions and 5-day outlooks so you will always know what the Sun might throw our way! This tier also includes all the perks from the previous tiers.

### **Behind the Scenes Sneak Peeks**

This is ideal for those of you, who want to get to know me better. This tier allows you to peer into my world, see what I am doing, how I am doing it, and where I will go next. I will produce one video a month with subjects ranging from the philosophy behind creating a new field for Space Weather broadcasting, to the driving inspirations that keep me going, even when things get tough. You'll see candid footage shot in the field, in TV news studios, at scientific conferences all over the world and more! You'll get to experience this Space Weather World, intimately through my eyes and share this journey with me. This tier also includes all the perks from the previous tiers.

### **LIVE Mini-Courses with Q&A (limited spots)**

Do you wish I would teach courses on Space Weather? Then this tier is for you! I will do a LIVE stream once a month that dives deep into topics requested by the community. At this level, you will have first priority in getting your questions answered at length. During the live stream I will respond to comments during the

session and will pull up graphics or movies on a big TV behind me to help convey the topics in an easy to understand manner. This is ideal for those who have always wanted to learn more about Space Weather, but found existing information too confusing or complicated. I expect many of these streams could very well turn into a mini-series of courses relating to the Sun and how it affects all planetary bodies in our solar system, not just Earth. Imagine discussing Space Weather on Mars or Saturn's moon Titan, and what it means for the future of human colonization of our solar system! This tier also includes all the perks from the previous tiers.

**\* Private Group LIVE Deep Dive (limited spots)**

Once a month I will hold a private group video call via Google Hangouts. The spots are limited so it will be much like a small group of friends getting together. Here we will discuss various Space Weather topics, as well as dive deeper into things like the future direction of this community and what types of new content I should consider providing. This is your chance to help steer the wheel of the ship we are sailing and have your voice heard. This tier also includes all the previous tiers!

**\* Radiant Star Sponsorship (limited spots)**

At this stellar tier, I will proudly display your name, picture or your logo within each forecast video (including my regular You Tube forecasts and mid-week shorties) right after the opening segment. This is perfect for those of you, who want higher visibility for your own brand while showing support for the Space Weather Woman and this community. Considering each of my forecast videos gets more than 5,000 views on average and climbing, this means 45-50K views of your brand every month! This tier also includes all the previous tiers.

**1-On-1 Private Video Call (limited spots)**

You get a PRIVATE 1-On-1 with me over Google Hangouts or Skype for 30 minutes once a month. We can talk about anything Space-Weather related or life in general, whatever you'd like. If you don't have questions, I will ask you some instead. This tier includes all the perks from the previous tiers (except the Radiant Star Sponsorship tier).
