Students from India Complete Six-Week Internship at EIT

For six weeks over the last three years, twenty-four undergraduate students from India have visited UA Little Rock to conduct research under the guidance of EIT professors from Systems Engineering, Computer Science, and Information Science. Students visit between June 15th and July 31st of each year.

Initiated and organized by Dr. Seshadri Mohan, students from Vishwaniketan, Navi Mumbai, India, have been able to visit EIT, conduct research and publish their research in conferences and present papers. This past summer, eight students conducted research on three different projects and were guided in their research by Dr. Mohan, Dr. Talburt, and Dr. Milanova, as well as some of their graduate students including Ahmed Awad, Arwa Mohammed Taqi, Yi Yin, and Janaki Koppolu. The team of eight students consisted of Dipesh Narayankar, Dattaji Gosavi, Vaibhav Tiwari, Akshay Yuwale, Akshat Shah, Shivani Shimpi, Aniket Kute, Kaushik Parmar, and Aishwarya Anna Mathew and they worked on the following three projects:

1. Connected Vehicles with a Machine Learning Based Driver Drowsiness Detection System,
2. Named Entity Resolution, and

Plans are in progress for publishing selected research in international conferences.
