Systems engineering student, Abbas Al-Wahhamy attended the Student Vice President Leadership Summit of Phi Kappa Phi Honor Society in Charlotte, North Carolina on July 11-14, 2019. The summit was open to current Phi Kappa Phi student vice presidents of their respective schools. Attendees must also be recommended by their local chapter.

The Leadership Summit brings together Student Vice Presidents from chapters across the country over the course of a weekend to engage in fun and interactive activities geared toward leadership development. Students will learn about strategies for encouraging and maintaining active chapters of Phi Kappa Phi while developing successful leadership skills necessary for professional development and networking. Students will leave the Summit with valuable skills for personal growth and enhanced chapter leadership.

“This experience allowed me to meet a large number of students from around the country and established many friendships that will be long-lasting and career-enhancing as well. The professionalism and maturity from these individuals was impressive,” Al-Wahhamy said.

“The highlight of the summit was the networking that was conducted among the students that came from all over the United States to learn and meet other student leaders that had a wide range of career interests. The experience was a very positive one in terms of social and professional networking and relationship building that will definitely be helpful as I begin to seek employment upon graduation. I highly recommend this event!”
