It’s Conference Time!

The New York Association for the Education of Young Children (NYAEYC) Annual Conference is just around the corner! This year’s conference will be held at the Turning Stone Resort in Verona, NY. We’ll be there!

The conference offers more than two full days of high quality professional development, and NYAEYC is proud to offer Continuing Teacher and Leader Education (CTLE) credit for attendees! Just mention you are interested in receiving CTLE credit when you check-in at registration and the NYAEYC conference team will provide you with the appropriate forms.

NYAEYC is one of our most valued partners in a lot of the work that we do to improve professional development opportunities across the state. Together we are trying to make sure that all early childhood providers- regardless of where you work or how long you have been in the field- have access to training and technical assistance that can help you grow and improve your practice.

As always, please stop by and visit The Aspire Registry’s table at booth #12 in the exhibit hall! Show us your membership card and we will give you a special gift!

FAST FACTS

The Aspire Registry gives you access to high quality learning experiences that are tailored to the work you do. You can find and contact professional development providers near you and search for opportunities that will help you grow in your practice. Training organizations have listed many trainings in our system, and more are coming in on a daily basis. Check out our numbers for this year, as of March 2019:

- Over 300 quality assured trainings
- Over 95 training organizations
The Aspire workforce registry is an integral piece of New York Works for Children, the State’s integrated professional development system for the early childhood and school-age workforce.

The process of creating a course in the registry helps our new trainers develop their sessions. It has also been beneficial for trainers who are applying for the NYS T-TAP credential or renewing their credential. All of the data for our trainings is in the registry, so it is easy to document the trainings we have facilitated as well as the trainings we have attended as a part of our own professional development. Our advice for newcomers in the early childhood field is to create an Aspire profile. It is a great way to track your professional development and make a plan for your personal growth as an early childhood educator.”

If you plan on attending any of these sessions, be sure to introduce yourself to our colleagues and let them know that you are a member of The Aspire Registry!

New York Works for Children is one of the many projects housed at the New York Early Childhood Professional Development Institute (The Institute). We’re excited to share with you some of the great sessions that our colleagues are offering.
