Learning to Connect Science and Practice, a Broker Perspective to Two Different Fields: Clinician Scientist Training and Faculty Development

October 2, 2018 (12pm-1pm) *no registration required
Li Ka Shing Building, 209 Victoria Street, 2nd Floor
Allan Waters Family Auditorium (LKSFI Auditorium)

Manon Kluijtmans, PhD
Professor of Education, Chair Education to Connect Science and Professional Practice, Center for Education and Training, University Medical Center Utrecht
Academic Director, Centre for Academic Teaching, Utrecht University
@manonkluijtmans

Session Description:
This session will introduce learners to the theoretical perspective of boundary crossing, and its application in education with the aim to connect science and professional practice. The lecture will address two different fields of application: education of clinician scientists and (advanced) faculty development

Learning Objectives:
After participation in this session, learners will be able to:

- Describe learning by boundary crossing
- Describe the potential and necessity of brokers in connecting science and professional practice
- Apply the broker perspective to clinician-scientist training and faculty development
- Identify some of the existing hurdles to the education and career of brokers
