JAM SESSION
ENGAGING STUDENTS & BUILDING COMMUNITY

NOVEMBER 2018

DISRUPT THE CLASSROOM

We've got to be different
Let's take moving into the new building as a reason to change what we're doing in the classroom and as a challenge to figure out how to engage more students.

REMEMBER ONLINE

We've got to go virtual
Let's make sure online courses are included in discussions about disrupting the classroom and engaging students. What does this look like in an online class, and how do we get there?

BREAK BARRIERS

We've got to get connected
Let's start having Jam Sessions with colleagues in other schools at UC, and with local businesses. There's a community out there - let's join it!

COLLABORATION IS KEY

We've got to have open time
Let's use the Open Time we'll have in the course schedule in the new building to create new opportunities for collaboration and community building.

EXPERIMENT

We've got to try
Let's start sharing more about what different technology tools faculty are using to engage students, and think about what makes sense to pilot as a school. Let's experiment!

THANKS TO ALL WHO ATTENDED!
