Experienced and knowledgeable tutors, they are also friendly and approachable. Good amount of practical exercises which means that it is not a boring course.

Flow Cytometry Training Courses
Babraham Institute, Cambridge

These courses are written by expert flow cytometrists and delivered by experienced trainers. These interactive courses are modular, have been designed to build on knowledge from one module to another and are presented as two linked modules.

Module 1: Fundamentals of Flow Cytometry
- 29th November 2018
- 30th November 2018
- 20th February 2019
- 21st February 2019

“... it’s a very well-developed course, which covers the very basics so its perfect for beginners. The exercises are well designed and really helpful!”

Module 2: Advanced Flow Cytometry
- 4th & 5th December 2018
- 14th & 15th January 2018
- 7th & 8th March 2018

“Experienced and knowledgeable tutors, they are also friendly and approachable. Good amount of practical exercises which means that it is not a boring course.”
