STOCKHOLM WORLD WATER WEEK 2019

ONLINE COURSE LAUNCH: ENTREPRENEURSHIP IN RESOURCES RECOVERY AND REUSE

WEDNESDAY, AUGUST 28, 2019     TIME: 17.45 – 18.30     LOCATION: A02
The new Online Course “Resources, Recovery and Reuse (RRR) Entrepreneurship” on SSWM is for entrepreneurs and intrapreneurs interested in business opportunities in the waste and sanitation sectors.

Humans generate millions of tons of waste every day. This waste is rich in water, nutrients, energy, and organic compounds. Yet waste is often not managed in a way that permits to derive value from its reuse. At the same time millions of farmers struggle with depleted soils and lack of water. Resource recovery and reuse (RRR) can create livelihoods, enhance food security, support green economies, reduce waste and contribute to cost recovery in the sanitation chain.

The online course will be launched at the IWMI booth, A02 on Wednesday, August 28th at 17.45pm. Join us for a brief presentation, exchange and a networking opportunity with wine and snacks.
