Title: Formula Kite and KiteFoil Class Rules

Subtitle: Position of Class Insignia

A submission from: The IKA Executive Committee

Purpose or Objective
To relocate the position of the class insignia from the bow to the stern of the hull.

Proposal
Delete and replace the second sentence of Formula Kite and KiteFoil Class Rule C.6.2 as follows:

The class insignia shall be placed on the bottom of the hull, centered behind the mast box / mast track, within an area of 10x10cm.

Current Position
The class insignia shall be placed on the front middle of the bottom of the hull, within an area of 10x10cm.
Reason

1. Future Olympic Class events will require national identification to be placed at the bow of the hull.
2. The position of the national identification conflicts with the current position of the class insignia.
3. The space behind the mast base is usually not used for personal advertising.
