E-Cigarettes and Vaping: The Mechanics of Use, Risks to Youth, and Prevention Efforts

DATE AND TIME

June 12, 2019
12:00 pm - 1:30 pm Alaska
1:00 pm - 2:30 pm Pacific
2:00 pm - 3:30 pm Mountain

AUDIENCE

Community and state-level prevention practitioners, allied health partners and community members, working to prevent substance misuse.

DESCRIPTION

This webinar will introduce the mechanics of e-cigarette/vape/Juul use, reasons why youth and adults use them, the risks that e-cigarette poses for youth, and ongoing prevention efforts in the state of Washington. Participants will learn about how e-cigarettes/vapes/Juuls work and how they differ from combustible cigarettes. Presenters will share possible risks that e-cigarettes/vapes/Juuls pose for youth along with how e-cigarettes/vapes/Juuls may be used by adults to quit combustible cigarette use. Participants will also learn about existing efforts to prevent youth e-cigarette/vape/Juuls use.

PRESENTERS

Marina Epstein is a Research Scientist at the Social Development Research Group. Her research on e-cigarettes focuses on the interplay between e-cigarette and combustible cigarette use among youth and adults and on identifying targets for prevention.

Liz Wilhelm is the Prevention Works in Seattle (WINS) Coalition Coordinator and co-designer and trainer of the Washington State E-Cigs: Finding the Truth Among the Vapors Training of Trainers.
