PERSONAL INJURY

When the unexpected happens and you find yourself with a potential personal injury case, know that we've got you covered. While some attorneys charge up to 40% of any award your suit receives, your Plan Attorney’s contingent fees on any damages or monetary benefits are capped at 25%. This can put thousands of dollars back in your pocket.

HOW TO DETECT MELANOMA

According to the American Cancer Society, skin cancer is the most common form of cancer, but can be treated fairly easily in its early stages. Use the "ABCDE" rule to spot the most common signs of melanoma: asymmetry, border irregularity, color inconsistencies, diameter larger than ¼” across, or evolving size, shape, or color.

JUNE 2nd IS CANCER SURVIVORS DAY

This day is meant to be an annual worldwide celebration of life, recognizing those who’ve survived cancer and inspiring those who've recently been diagnosed. Check with your local hospital or cancer treatment center to learn about events in your area, or go to www.ncsd.org.
ANSWERING YOUR QUESTIONS

Q: My family is choosing a cruise line for an upcoming trip, and I noticed that they all require a signature under a long and complex list of disclosure statements regarding their liability for accidents, etc. How do I know it is okay to sign?

A: Disclosure statements can be hard to understand. Luckily, your Legal Resources Plan covers document review. The experienced attorneys on our network can explain the documents and review them with you before you sign anything.
