MAKE A SMOOTH TRANSITION BACK TO SCHOOL

Adjusting to a more structured routine starts with everyone getting enough sleep. If you've let bedtime slip over the summer, gradually move it back to an appropriate time. Let your kids pick out their own school supplies, and schedule checkups prior to the start of the school year to ensure a clean bill of health.

MAXIMIZING WHAT'S LEFT OF SUMMER

It's the time of year referred to as the "Sunday of summer." The days are getting a little shorter, the back to school catalogs are filling up mailboxes everywhere, and we know that fall is just around the corner. Make sure you make the most of what's left of the current season. Here are three good ways to do just that:

1. Eat dinner outside, whether it's on a veranda overlooking the sea, or a picnic in your backyard.
2. Enjoy a warm evening by catching a flick from your car. Find a drive-in movie theatre near you.
3. Grab a chair or blanket and watch the stars come out. You can use the Star Walk app to identify all the different summertime constellations with the kids.

REAL ESTATE TRANSACTIONS

In addition to preparation and review of closing documents on the sale or purchase of your primary residence, non-sale real estate transactions provided for the Member are also one of our many fully covered services! That includes the review and preparation of quit claim deeds and deeds of transfer.

Q: My wife and I just had a baby, and we need to make a Will. Can we have a joint Will, or do we each need a separate document?

A: Congratulations on the birth of your new baby! Some states won’t recognize joint documents, so while you and your spouse may have similar Wills, it’s best that they are separate. Will preparation and periodic review are fully covered services for both you and your spouse with your Legal Resources plan.
