FOR IMMEDIATE RELEASE

CALIFORNIA STATE UNIVERSITY – FULLERTON STUDENT GOVERNMENT PASSES RESOLUTION TO DENOUNCE SPEAKER MILO YIANNOPOULOS

[FULLERTON, CA] – On October 12th the California State University, Fullerton Associated Students, Inc. (ASI) Board of Directors committee voted in favor of a resolution to denounce Milo Yiannopoulos.

Members of Students for Quality Education, an unregistered radical leftist organization funded by the California Faculty Association, spoke to ASI on Thursday in support of this resolution. The resolution states that the student government “officially denounces Milo Yiannopoulos’ Troll Academy Tour…”

“This is about freedom of speech,” said CSUF Republicans President Amanda McGuire. “With a vote to denounce Milo, ASI is sending a signal to conservatives that their voices don’t matter and are not represented. Conservative voices are, once again, the first to be silenced. ASI has remained neutral for this long and any deviance from their prior stance would show the student body that conservatives are excluded.”

Yiannopoulos will be speaking at CSUF as part of his Troll Academy Tour on Halloween, October 31st, at 6:00pm in the Titan Student Union Pavilion.

“I have never been politically active because I was afraid to speak my opinion,” said club Member Flint Giedt. “ASI condemning Milo instead of staying neutral shows they do not care for the many students that stay silent in fear like I used to.”

The entire student government will vote on the resolution Tuesday, October 24th at 1:15pm in the Titan Student Union Board Room.

“Organizations on my campus are seeking to define my speech as hate speech and violence,” said club Event Director Ryan Hoskins. “This resolution is just one more step towards accomplishing that goal. I hope the student leadership will make the right decision and stand up for free speech.”
