Education and Training in Optics and Photonics

29th June – 2nd July 2015
Bordeaux, France

Call for papers

Opening: 1st August 2014
Last Abstract Due: 7th December 2014
Notice of Acceptance: 18th February 2015

Chairs: Eric Cormier, CELIA, University of Bordeaux
Laurent Sarger, University of Bordeaux

Topics:
- Tools for photonics education (kits, laboratory training materials...)
- Digital technologies in education (softwares, computer assisted learning)
- 3D virtual reality in optics and photonics
- Curriculum development laboratories
- Training and continuing education
- Industry needs driven curriculum development
- Education and training for multidisciplinary education
- International cooperation and co-development in education and training
- Metric and evaluation of education and training
