REQUEST FOR APPLICATIONS
UAB CCC-USA Mitchell Cancer Institute Collaborative Grant

Deadline: September 28, 2018

The purpose of this grant is to promote interactions between members of the UAB Comprehensive Cancer Center and the University of South Alabama Mitchell Cancer Institute.

DESCRIPTION

- The application must have two Co-Principal Investigators, one from UAB CCC and one from USA-Mitchell Cancer Institute, who have complementary research interests

- Principal Investigators must hold a faculty rank (Assistant, Associate or Full professor).

- The purpose of this grant is to promote interactions between members of the Mitchell Cancer Institute and the UAB Comprehensive Cancer Center. Preference will be given to proposals with significant cancer relevance that build upon synergistic collaborations, are considered likely to lead to co-author publications and a competitive extramural grant application.

- Application format
  Both PIs together must write a single 6-page project description that contains aims to be completed jointly. The tasks to be completed by each PI should be clearly indicated. The bibliography is not included in the 6 page limit. In addition, provide a CV or NIH Biosketch for each PI. No other material is required. Please use 11 point (or larger font) for the project description. A smaller font may be used for figure legends. Please submit all materials as a single document in pdf or Word format.

- Two awards of $200,000 for one year. Each PI will be awarded $100,000.

CONTACTS for questions about preparation and submission of applications:

Susan M. Ruppert, Ph.D.  Milton Pierson
Associate Professor  MCI Assoc. Director Research Administration
email: sruppert@uab.edu  email: mcpierson@health.southalabama.edu
