Texas A&M University-Commerce
Graduate Assistant Position

Agriculture, Food, and Family
Potentially Beginning Spring 2019

This position requires 20 hours of service per week during fall and spring semesters. Summer appointment is contingent upon availability of funding. Position requires that the GA pursue a Master of Science in Agricultural Sciences with a research focus in Agricultural and Family Education or Sustainable Food Systems.

Preference will be given to applicants seeking the thesis option.*

Qualifications: Bachelor’s degree in an Agricultural Sciences discipline, Agricultural Education, Agricultural Communications, or Rural Sociology. Applicants with agricultural-related minors, Family and Consumer Sciences degree, or extensive experience in food outreach or agricultural development may also be considered. Full admission to the MS in Agricultural Sciences is required.

Responsibilities: The following responsibilities are associated with this position.

1. Conduct relevant literature searches for research/outreach grant proposals.
2. Assist in the development of school and community partners.
3. Conduct demonstrations and/or field work associated with assigned projects.
4. Develop and deliver presentations for selected conferences and meetings.
5. Collaborate with a multi-disciplinary team of stakeholders.
6. Participate in university sponsored training related to assigned duties.
7. Organize and facilitate workshops and/or conference sessions.
8. Using relevant software, tools, equipment, and machinery.
10. Assist with recruiting activities at schools, community colleges, career fairs, etc.
11. Propose and conduct thesis research on approved topic.*
12. Other duties as assigned by supervising faculty member.
