Cumberland Pediatric Foundation strives to promote the health care of children by partnering with our members (physicians who do a significant amount of work in pediatric primary care medicine) to improve the quality, increase the efficiency and lower the cost of the delivery of pediatric health care services.

Cumberland Pediatric Foundation recognizes that in order for this partnership to be successful, members need to receive education and resources to assist in creating and to participate in programs that fulfill the mission.

This creates the need for many networking and educational events. Fostering a sense of community and an open line of communication is crucial in moving forward. For this reason, Cumberland Pediatric Foundation has pulled together a diverse group of our member to lead the networking initiative.

So far, this committee has pulled off a fantastic series of Ladies’ Night events, Baseball Socials, the Open House/Pediatric Showcase, and is now planning the ever famous Mix, Mingle, and Jingle.

CPF is excited to watch the networking pay off as we have increased participation in educational programs and events. Thank you Networking Committee for creating an avenue for all members to be heard, involved, and moving forward together!
